#	ARTICLE	IF	CITATIONS
1	Does Participation in Food Benefit Programs Reduce the Risk for Depressive Symptoms?. Journal of the American Psychiatric Nurses Association, 2023, 29, 25-37.	1.0	2
2	CpG methylation patterns in placenta and neonatal blood are differentially associated with neonatal inflammation. Pediatric Research, 2023, 93, 1072-1084.	2.3	3
3	Supporting racial, ethnic minority, and disadvantaged undergraduate nursing students with honors projects. Journal of Professional Nursing, 2022, 40, 130-134.	2.8	0
4	Differential placental CpG methylation is associated with chronic lung disease of prematurity. Pediatric Research, 2022, 91, 1428-1435.	2.3	3
5	Which roads lead to depression in Latinas? A network analysis of prenatal depressive symptoms, discrimination, acculturative stress, and low birth weight. Research in Nursing and Health, 2022, , .	1.6	3
6	Placental genomics mediates genetic associations with complex health traits and disease. Nature Communications, 2022, 13, 706.	12.8	20
7	Family members' experience of well-being as racial/ethnic minorities raising a child with a neurodevelopmental disorder: A qualitative meta-synthesis. Research in Nursing and Health, 2022, 45, 314-326.	1.6	4
8	Acculturative stress, telomere length, and postpartum depression in Latinx mothers. Journal of Psychiatric Research, 2022, 147, 301-306.	3.1	14
9	Innovative computational approaches shed light on genetic mechanisms underlying cognitive impairment among children born extremely preterm. Journal of Neurodevelopmental Disorders, 2022, 14, 16.	3.1	2
10	Psychiatric Outcomes, Functioning, and Participation in Extremely Low Gestational Age Newborns at Age 15 Years. Journal of the American Academy of Child and Adolescent Psychiatry, 2022, 61, 892-904.e2.	0.5	7
11	Anxiety, depression, and quality of life in mothers of children with congenital Zika syndrome: Results of a 5-year follow-up study. Revista Da Sociedade Brasileira De Medicina Tropical, 2022, 55, e06272021.	0.9	1
12	Oxytocin modulates sensitivity to acculturation and discrimination stress in pregnancy. Psychoneuroendocrinology, 2022, 141, 105769.	2.7	3
13	Health needs of mothers of children with Congenital Zika Syndrome: an integrative review. Revista Brasileira De Enfermagem, 2022, 75, e20210540.	0.7	1
14	Maternal social risk, gestational age at delivery, and cognitive outcomes among adolescents born extremely preterm. Paediatric and Perinatal Epidemiology, 2022, 36, 654-664.	1.7	4
15	Caregivers' perception of the role of the socio-environment on their extremely preterm child's well-being. Journal of Pediatric Nursing, 2022, 66, 36-43.	1.5	2
16	A mixed-effects two-part model for twin-data and an application on identifying important factors associated with extremely preterm children's health disorders. PLoS ONE, 2022, 17, e0269630.	2.5	0
17	Trajectories of depressive symptoms among mothers of preterm and full-term infants in a national sample. Archives of Women's Mental Health, 2022, 25, 807-817.	2.6	7
18	CUE: CpG impUtation ensemble for DNA methylation levels across the human methylation450 (HM450) and EPIC (HM850) BeadChip platforms. Epigenetics, 2021, 16, 851-861.	2.7	1

#	ARTICLE	IF	CITATIONS
19	Placental programming, perinatal inflammation, and neurodevelopment impairment among those born extremely preterm. <i>Pediatric Research</i> , 2021, 89, 326-335.	2.3	25
20	Positive psychological states and stress responses in caregivers of adults receiving an allogeneic bone marrow transplant: A study protocol. <i>Journal of Advanced Nursing</i> , 2021, 77, 2073-2084.	3.3	1
21	Anxiety and Depression Correlates at Age 10 in Children Born Extremely Preterm. <i>Journal of Pediatric Psychology</i> , 2021, 46, 422-432.	2.1	5
22	Biopsychosocial correlates of psychological distress in Latina mothers. <i>Journal of Affective Disorders</i> , 2021, 282, 617-626.	4.1	15
23	Resilience in Mothers of Children with Congenital Zika Syndrome. <i>Maternal and Child Health Journal</i> , 2021, 25, 855-859.	1.5	5
24	Comparing the Predictivity of Human Placental Gene, microRNA, and CpG Methylation Signatures in Relation to Perinatal Outcomes. <i>Toxicological Sciences</i> , 2021, 183, 269-284.	3.1	9
25	Development of the genomic inflammatory index (GII) to assess key maternal antecedents associated with placental inflammation. <i>Placenta</i> , 2021, 111, 82-90.	1.5	1
26	Pre-pregnancy BMI-associated miRNA and mRNA expression signatures in the placenta highlight a sexually-dimorphic response to maternal underweight status. <i>Scientific Reports</i> , 2021, 11, 15743.	3.3	9
27	Neonatal Cranial Ultrasound Findings among Infants Born Extremely Preterm: Associations with Neurodevelopmental Outcomes at 10 Years of Age. <i>Journal of Pediatrics</i> , 2021, 237, 197-205.e4.	1.8	16
28	Utilizing courageous dialogue to support minority and disadvantaged background nursing students. <i>Journal of Professional Nursing</i> , 2020, 36, 23-27.	2.8	7
29	Neurocognitive and social-communicative function of children born very preterm at 10 years of age: Associations with microorganisms recovered from the placenta parenchyma. <i>Journal of Perinatology</i> , 2020, 40, 306-315.	2.0	9
30	Two Methods for Calculating Symptom Cluster Scores. <i>Nursing Research</i> , 2020, 69, 133-141.	1.7	3
31	Placental genomic and epigenomic signatures associated with infant birth weight highlight mechanisms involved in collagen and growth factor signaling. <i>Reproductive Toxicology</i> , 2020, 96, 221-230.	2.9	16
32	A role for microRNAs in the epigenetic control of sexually dimorphic gene expression in the human placenta. <i>Epigenomics</i> , 2020, 12, 1543-1558.	2.1	18
33	Evidence for the placenta-brain axis: multi-omic kernel aggregation predicts intellectual and social impairment in children born extremely preterm. <i>Molecular Autism</i> , 2020, 11, 97.	4.9	26
34	Pregnancy associated epigenetic markers of inflammation predict depression and anxiety symptoms in response to discrimination. <i>Neurobiology of Stress</i> , 2020, 13, 100273.	4.0	20
35	COVID-19 during pregnancy: Potential risk for neurodevelopmental disorders in neonates?. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2020, 250, 255-256.	1.1	31
36	Oral and maxillofacial conditions, dietary aspects, and nutritional status of children with congenital Zika syndrome. <i>Oral Surgery, Oral Medicine, Oral Pathology and Oral Radiology</i> , 2020, 130, 71-77.	0.4	16

#	ARTICLE	IF	CITATIONS
37	To breastfeed or not to breastfeed? Lack of evidence on the presence of SARS-CoV-2 in breastmilk of pregnant women with COVID-19. <i>Revista Panamericana De Salud Publica/Pan American Journal of Public Health</i> , 2020, 44, 1.	1.1	42
38	Maternal depression in Latinas and child socioemotional development: A systematic review. <i>PLoS ONE</i> , 2020, 15, e0230256.	2.5	13
39	Neurodevelopment outcomes. , 2020, , 125-169.		1
40	Recent progress on cheminformatics approaches to epigenetic drug discovery. <i>Drug Discovery Today</i> , 2020, 25, 2268-2276.	6.4	33
41	Association Between Arthrogyriposis and Mortality in Infants With Congenital Zika Syndrome: A Systematic Review and Meta-analysis. <i>Pediatric Neurology</i> , 2020, 110, 20-24.	2.1	5
42	Changes in Occupational Roles and Common Mental Disorders in Mothers of Children With Congenital Zika Syndrome. <i>American Journal of Occupational Therapy</i> , 2020, 74, 7401345010p1-7401345010p5.	0.3	9
43	Maternal depression in Latinas and child socioemotional development: A systematic review. , 2020, 15, e0230256.		0
44	Maternal depression in Latinas and child socioemotional development: A systematic review. , 2020, 15, e0230256.		0
45	Maternal depression in Latinas and child socioemotional development: A systematic review. , 2020, 15, e0230256.		0
46	Maternal depression in Latinas and child socioemotional development: A systematic review. , 2020, 15, e0230256.		0
47	Postpartum depression and social support in a racially and ethnically diverse population of women. <i>Archives of Women's Mental Health</i> , 2019, 22, 105-114.	2.6	68
48	Placental CpG Methylation of Inflammation, Angiogenic, and Neurotrophic Genes and Retinopathy of Prematurity. , 2019, 60, 2888.		20
49	Acetaminophen use during pregnancy and DNA methylation in the placenta of the extremely low gestational age newborn (ELGAN) cohort. <i>Environmental Epigenetics</i> , 2019, 5, dvz010.	1.8	34
50	Understanding positive child health. <i>Pediatric Research</i> , 2019, 86, 690-691.	2.3	1
51	Associations between placental CpG methylation of metastable epialleles and childhood body mass index across ages one, two and ten in the Extremely Low Gestational Age Newborns (ELGAN) cohort. <i>Epigenetics</i> , 2019, 14, 1102-1111.	2.7	22
52	Early life antecedents of positive child health among 10-year-old children born extremely preterm. <i>Pediatric Research</i> , 2019, 86, 758-765.	2.3	15
53	Epigenome-wide DNA methylation in placentas from preterm infants: association with maternal socioeconomic status. <i>Epigenetics</i> , 2019, 14, 751-765.	2.7	50
54	Maternal social environment affects offspring cognition through behavioural and immune pathways in rats. <i>Journal of Neuroendocrinology</i> , 2019, 31, e12711.	2.6	6

#	ARTICLE	IF	CITATIONS
55	Breastfeeding rates in immigrant and non-immigrant women: A systematic review and meta-analysis. <i>Maternal and Child Nutrition</i> , 2019, 15, e12809.	3.0	41
56	Predictors of psychological distress in low-income mothers over the first postpartum year. <i>Research in Nursing and Health</i> , 2019, 42, 205-216.	1.6	20
57	Psychiatric Symptoms: Prevalence, Co-occurrence, and Functioning Among Extremely Low Gestational Age Newborns at Age 10 Years. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2019, 40, 725-734.	1.1	15
58	Bad news: Families' experiences and feelings surrounding the diagnosis of Zika-related microcephaly. <i>Nursing Inquiry</i> , 2019, 26, e12274.	2.1	6
59	Neither biological nor symptomatology reductionism: A call for integration in psychopathology research. <i>Behavioral and Brain Sciences</i> , 2019, 42, e17.	0.7	1
60	The Hispanic Paradox: Socioeconomic Factors and Race/Ethnicity in Breastfeeding Outcomes. <i>Breastfeeding Medicine</i> , 2018, 13, 174-180.	1.7	11
61	Femicide trends in Brazil: relationship between public interest and mortality rates. <i>Archives of Women's Mental Health</i> , 2018, 21, 579-582.	2.6	15
62	Trends in Health Disparities, Health Inequity, and Social Determinants of Health Research. <i>Nursing Research</i> , 2018, 67, 231-241.	1.7	29
63	Assessing Positive Child Health among Individuals Born Extremely Preterm. <i>Journal of Pediatrics</i> , 2018, 202, 44-49.e4.	1.8	13
64	Discrimination exposure and DNA methylation of stress-related genes in Latina mothers. <i>Psychoneuroendocrinology</i> , 2018, 98, 131-138.	2.7	41
65	Longitudinal network structure of depression symptoms and self-efficacy in low-income mothers. <i>PLoS ONE</i> , 2018, 13, e0191675.	2.5	49
66	Network Structure of Perinatal Depressive Symptoms in Latinas: Relationship to Stress and Reproductive Biomarkers. <i>Research in Nursing and Health</i> , 2017, 40, 218-228.	1.6	77
67	Heterogeneity in perinatal depression: how far have we come? A systematic review. <i>Archives of Women's Mental Health</i> , 2017, 20, 11-23.	2.6	91
68	Relationship of Maternal Psychological Distress Classes to Later Mother-Infant Interaction, Home Environment, and Infant Development in Preterm Infants. <i>Research in Nursing and Health</i> , 2016, 39, 175-186.	1.6	15
69	Patterns of psychological distress in mothers of preterm infants. , 2015, 41, 154-163.		141
