#	ARTICLE	IF	CITATIONS
1	Interventions to reduce acute paediatric hospital admissions: a systematic review. Archives of Disease in Childhood, 2022, 107, 234-243.	1.9	5
2	Universal language development screening: comparative performance of two questionnaires. BMJ Paediatrics Open, 2022, 6, e001324.	1.4	4
3	Mental well-being during stages of COVID-19 lockdown among pregnant women and new mothers. BMC Pregnancy and Childbirth, 2022, 22, 92.	2.4	4
4	Public Health, 2022, 2, e0000245.	1.6	23
5	Understanding recruitment and retention of doctors in rural Scotland: Stakeholder perspectives. Geographical Journal, 2022, 188, 261-276.	3.1	3
6	Public Health, 2022, 2, e0000426.	1.6	11
7	The New Patterns study: coordinated measures to combat child poverty. Scandinavian Journal of Public Health, 2021, 49, 571-579.	2.3	5
8	What factors are most important for the development of the maternal-fetal relationship? A prospective study among pregnant women in Danish general practice. BMC Psychology, 2021, 9, 2.	2.1	17
9	Training novice users to assess stroke aetiology in remote settings using transcranial ultrasound: pilot study. Rural and Remote Health, 2021, 21, 5618.	0.5	0
10	Depression and anxiety symptoms in pregnant women in Denmark during COVID-19. Scandinavian Journal of Public Health, 2021, 49, 140349482110132.	2.3	9
11	“Missingness” in health care: Associations between hospital utilization and missed appointments in general practice. A retrospective cohort study. PLoS ONE, 2021, 16, e0253163.	2.5	9
12	The use of telemedicine to assess a paediatric patient with arrhythmia presenting to a remote community coronavirus assessment centre. Rural and Remote Health, 2021, 21, 6166.	0.5	1
13	The role of transport and telecommunications technology in the development of the Scottish Highlands and Islands Medical Service: a historical perspective. Rural and Remote Health, 2021, 21, 6560.	0.5	0
14	Educational associations with missed GP appointments for patients under 35 years old: administrative data linkage study. BMC Medicine, 2021, 19, 219.	5.5	5
15	Variation in referrals from primary care to scheduled paediatric services in North and East Scotland -a cross-sectional study. BMC Health Services Research, 2021, 21, 989.	2.2	0
16	Patient satisfaction with general practice in urban and rural areas of Scotland. Rural and Remote Health, 2021, 21, 6634.	0.5	2
17	Dealing with parental concerns: A study of GPs' practice. Patient Education and Counseling, 2020, 103, 2430-2436.	2.2	2
18	Selection bias in general practice research: analysis in a cohort of pregnant Danish women. Scandinavian Journal of Primary Health Care, 2020, 38, 464-472.	1.5	6

#	ARTICLE	IF	CITATIONS
19	Colon capsule endoscopy: an innovative method for detecting colorectal pathology during the COVID-19 pandemic?. <i>Colorectal Disease</i> , 2020, 22, 621-624.	1.4	39
20	Readers and service commissioners require clear financial disclosures: Comment on innovation, research integrity, and change: A conflict of interest management framework for program developers (Sanders et al., 2019). <i>Australian Psychologist</i> , 2020, 55, 102-107.	1.6	0
21	Autism and attachment disorder symptoms in the general population: Prevalence, overlap, and burden. <i>Developmental Child Welfare</i> , 2020, 2, 37-51.	1.1	6
22	The use of transcranial ultrasound and clinical assessment to diagnose ischaemic stroke due to large vessel occlusion in remote and rural areas. <i>PLoS ONE</i> , 2020, 15, e0239653.	2.5	19
23	General practice recording of adverse childhood experiences: a retrospective cohort study of GP records. <i>BJGP Open</i> , 2020, 4, bjgpopen20X101011.	1.8	19
24	Tribute to David Heaney. <i>Rural and Remote Health</i> , 2020, 20, 6326.	0.5	0
25	Title is missing!. , 2020, 15, e0239653.		0
26	Title is missing!. , 2020, 15, e0239653.		0
27	Trial of healthy relationship initiatives for the very early years (THRIVE), evaluating Enhanced Triple P for Baby and Mellow Bumps for those with additional social and care needs during pregnancy and their infants who are at higher risk of maltreatment: study protocol for a randomised controlled trial. <i>Trials</i> , 2019, 20, 499.	1.6	4
28	Spiritual care training and the GP curriculum: where to now?. <i>Education for Primary Care</i> , 2019, 30, 194-197.	0.6	9
29	Diagnostic accuracy of clinical tools for assessment of acute stroke: a systematic review. <i>BMC Emergency Medicine</i> , 2019, 19, 49.	1.9	48
30	The effectiveness of ultrasound in the detection of fractures in adults with suspected upper or lower limb injury: a systematic review and subgroup meta-analysis. <i>BMC Emergency Medicine</i> , 2019, 19, 17.	1.9	40
31	Missed GP appointments linked to higher risk of death. <i>BMJ: British Medical Journal</i> , 2019, 364, l485.	2.3	0
32	Predictive validity of preschool screening tools for language and behavioural difficulties: A PRISMA systematic review. <i>PLoS ONE</i> , 2019, 14, e0211409.	2.5	49
33	Preschool developmental concerns and adjustment in the early school years: Evidence from a Scottish birth cohort. <i>Child: Care, Health and Development</i> , 2019, 45, 719-736.	1.7	3
34	Morbidity, mortality and missed appointments in healthcare: a national retrospective data linkage study. <i>BMC Medicine</i> , 2019, 17, 2.	5.5	135
35	Comparative use of the Ages and Stages Questionnaires in the <sc>USA</sc> and Scandinavia: a systematic review. <i>Developmental Medicine and Child Neurology</i> , 2019, 61, 419-430.	2.1	12
36	Diagnostic value of transcranial ultrasonography for selecting subjects with large vessel occlusion: a systematic review. <i>Ultrasound Journal</i> , 2019, 11, 29.	3.3	17

#	ARTICLE	IF	CITATIONS
37	Development of a new screening tool for neuromotor development in children aged two – the neuromotor 5-min exam 2-year-old version (N5E2). <i>Brain and Development</i> , 2018, 40, 445-451.	1.1	0
38	Spiritual Care in General Practice: Rushing in or Fearing to Tread? An Integrative Review of Qualitative Literature. <i>Journal of Religion and Health</i> , 2018, 57, 1108-1124.	1.7	18
39	Changing characteristics of hospital admissions but not the children admitted – a whole population study between 2000 and 2013. <i>European Journal of Pediatrics</i> , 2018, 177, 381-388.	2.7	32
40	Primary schools and the amplification of social differences in child mental health: a population-based cohort study. <i>Journal of Epidemiology and Community Health</i> , 2018, 72, 27-33.	3.7	13
41	Remotely supported prehospital ultrasound: A feasibility study of real-time image transmission and expert guidance to aid diagnosis in remote and rural communities. <i>Journal of Telemedicine and Telecare</i> , 2018, 24, 616-622.	2.7	19
42	Inequalities in the dental health needs and access to dental services among looked after children in Scotland: a population data linkage study. <i>Archives of Disease in Childhood</i> , 2018, 103, 39-43.	1.9	26
43	Non-attending patients in general practice. <i>Lancet Public Health</i> , The, 2018, 3, e113.	10.0	0
44	OP34 – The primary outcomes of the social and emotional education and development (SEED) trial: a stratified, cluster randomised trial of a multi-component primary school intervention in Scotland aimed at improving pupils' social and emotional wellbeing. , 2018, , .		0
45	GPs and spiritual care: signed up or souled out? A quantitative analysis of GP trainers' understanding and application of the concept of spirituality. <i>Education for Primary Care</i> , 2018, 29, 367-375.	0.6	11
46	Telephonography in emergency medicine: A systematic review. <i>PLoS ONE</i> , 2018, 13, e0194840.	2.5	37
47	The effect of universal maternal antenatal iron supplementation on neurodevelopment in offspring: a systematic review and meta-analysis. <i>BMC Pediatrics</i> , 2018, 18, 150.	1.7	18
48	International variation in programmes for assessment of children's neurodevelopment in the community: Understanding disparate approaches to evaluation of motor, social, emotional, behavioural and cognitive function. <i>Scandinavian Journal of Public Health</i> , 2018, 46, 805-816.	2.3	22
49	– I'm not sure if there is any point to all this doc? – a qualitative study into GPs responses to existential questions. <i>British Journal of General Practice</i> , 2018, 68, bjgp18X697061.	1.4	3
50	What GPs mean by 'spirituality' and how they apply this concept with patients: a qualitative study. <i>BJGP Open</i> , 2018, 2, bjgpopen18X101469.	1.8	10
51	Paramedic and physician perspectives on the potential use of remotely supported prehospital ultrasound. <i>Rural and Remote Health</i> , 2018, 18, 4574.	0.5	8
52	Violence is Rare in Autism: When It Does Occur, Is It Sometimes Extreme?. <i>Journal of Psychology: Interdisciplinary and Applied</i> , 2017, 151, 49-68.	1.6	25
53	Randomisation before consent: avoiding delay to time-critical intervention and ensuring informed consent. <i>International Journal of Social Research Methodology: Theory and Practice</i> , 2017, 20, 357-371.	4.4	6
54	Understanding repeated non-attendance in health services: a pilot analysis of administrative data and full study protocol for a national retrospective cohort. <i>BMJ Open</i> , 2017, 7, e014120.	1.9	46

#	ARTICLE	IF	CITATIONS
55	Differential antibody responses to gliadin-derived indigestible peptides in patients with schizophrenia. Translational Psychiatry, 2017, 7, e1121-e1121.	4.8	11
56	Linking routinely collected social work, education and health data to enable monitoring of the health and health care of school-aged children in state care (â€œlooked after childrenâ€™™) in Scotland: a national demonstration project. Public Health, 2017, 150, 101-111.	2.9	12
57	Development of an interface-focused educational complex intervention. Education for Primary Care, 2017, 28, 265-273.	0.6	4
58	GPs â€™ at home with science and the humanities?. British Journal of General Practice, 2017, 67, 571-572.	1.4	4
59	Improving the primary-secondary care interface in Scotland: a qualitative exploration of impact on clinicians of an educational complex intervention. BMJ Open, 2017, 7, e016593.	1.9	7
60	No evidence of whole population mental health impact of the Triple P parenting programme: findings from a routine dataset. BMC Pediatrics, 2017, 17, 40.	1.7	20
61	Demographic and practice factors predicting repeated non-attendance in primary care: a national retrospective cohort analysis. Lancet Public Health, The, 2017, 2, e551-e559.	10.0	102
62	Email communication at the medical primaryâ€™secondary care interface: a qualitative exploration. British Journal of General Practice, 2016, 66, e467-e473.	1.4	12
63	The relationship between GPs and hospital consultants and the implications for patient care: a qualitative study. BMC Family Practice, 2016, 17, 45.	2.9	46
64	Combining transcranial ultrasound with intelligent communication methods to enhance the remote assessment and management of stroke patients: Framework for a technology demonstrator. Health Informatics Journal, 2016, 22, 691-701.	2.1	17
65	Access to chlamydia testing in remote and rural Scotland. Rural and Remote Health, 2016, 16, 3588.	0.5	1
66	Rethinking remote. Rural and Remote Health, 2016, 16, 4062.	0.5	0
67	Patientsâ€™™ perspectives on the medical primaryâ€™secondary care interface: systematic review and synthesis of qualitative research. BMJ Open, 2015, 5, e008708.	1.9	47
68	Mapping area variability in social and behavioural difficulties among <scp>G</scp>lasgow preâ€™schoolers: linkage of a survey of preâ€™school staff with routine monitoring data. Child: Care, Health and Development, 2015, 41, 853-864.	1.7	10
69	Mellow Parenting: systematic review and metaâ€™analysis of an intervention to promote sensitive parenting. Developmental Medicine and Child Neurology, 2015, 57, 1119-1128.	2.1	27
70	Antenatal parenting support for vulnerable women. British Journal of Midwifery, 2015, 23, 724-732.	0.4	8
71	Telestroke Assessment on the Move. Stroke, 2015, 46, e38-40.	2.0	11
72	Development of a triage tool for neurodevelopmental risk in children aged 30 months. Research in Developmental Disabilities, 2015, 45-46, 69-82.	2.2	10

#	ARTICLE	IF	CITATIONS
73	Exploring the social, emotional and behavioural development of preschool children: is Glasgow different?. International Journal for Equity in Health, 2015, 14, 3.	3.5	10
74	Disclosure of Financial Conflicts of Interests in Interventions to Improve Child Psychosocial Health: A Cross-Sectional Study. PLoS ONE, 2015, 10, e0142803.	2.5	18
75	Association between parent-infant interactions in infancy and disruptive behaviour disorders at age seven: a nested, caseâ€“control ALSPAC study. BMC Pediatrics, 2014, 14, 223.	1.7	28
76	Neurobiological Abnormalities in the First Few Years of Life in Individuals Later Diagnosed with Autism Spectrum Disorder: A Review of Recent Data. Behavioural Neurology, 2014, 2014, 1-20.	2.1	19
77	Rural health care: problems and solutions. British Journal of Hospital Medicine (London, England:) Tj ETQq1 1 0.784314 rgBT 6 Overl	0.5	0
78	Primary care research network progress in Scotland. European Journal of General Practice, 2014, 20, 337-342.	2.0	20
79	Motor activity at age one year does not predict ADHD at seven years. International Journal of Methods in Psychiatric Research, 2014, 23, 9-18.	2.1	12
80	Early parental physical punishment and emotional and behavioural outcomes in preschool children. Child: Care, Health and Development, 2014, 40, 337-345.	1.7	11
81	Predictors of positive and negative parenting behaviours: evidence from the ALSPAC cohort. BMC Pediatrics, 2014, 14, 247.	1.7	35
82	Reducing drug related deaths: a pre-implementation assessment of knowledge, barriers and enablers for naloxone distribution through general practice. BMC Family Practice, 2014, 15, 12.	2.9	26
83	Understanding â€œevolving doorâ€“patients in general practice: a qualitative study. BMC Family Practice, 2014, 15, 33.	2.9	8
84	Screening, Intervention and Outcome in Autism and Other Developmental Disorders: The Role of Randomized Controlled Trials. Journal of Autism and Developmental Disorders, 2014, 44, 2074-2076.	2.7	12
85	Neurodevelopmental and psychosocial risk factors in serial killers and mass murderers. Aggression and Violent Behavior, 2014, 19, 288-301.	2.1	74
86	OP38â€“...Inequalities in the development of mental health problems in childhood: multilevel analysis of routine teacher-rated individual data in Glasgow City. Journal of Epidemiology and Community Health, 2014, 68, A21.1-A21.	3.7	0
87	Can behaviour during immunisation be used to identify attachment patterns? A feasibility study. International Journal of Nursing Studies, 2013, 50, 386-391.	5.6	7
88	Prediction of 7-year psychopathology from mother-infant joint attention behaviours: a nested caseâ€“control study. BMC Pediatrics, 2013, 13, 147.	1.7	7
89	Language and social/emotional problems identified at a universal developmental assessment at 30 months. BMC Pediatrics, 2013, 13, 206.	1.7	30
90	Parentâ€“infant vocalisations at 12 months predict psychopathology at 7 years. Research in Developmental Disabilities, 2013, 34, 985-993.	2.2	12

#	ARTICLE	IF	CITATIONS
91	Predictors of diagnosis of child psychiatric disorder in adultâ€‘infant social-communicative interaction at 12 months. Research in Developmental Disabilities, 2013, 34, 562-572.	2.2	16
92	Cortisol secretion in children with symptoms of reactive attachment disorder. Psychiatry Research, 2013, 209, 74-77.	3.3	10
93	Patterns of primary care service use by families with young children. Family Practice, 2013, 30, 679-694.	1.9	6
94	What predicts persistent early conduct problems? Evidence from the Growing Up in Scotland cohort. Journal of Epidemiology and Community Health, 2013, 67, 76-80.	3.7	22
95	Assessing wellbeing at school entry using the Strengths and Difficulties Questionnaire: professional perspectives. Educational Research, 2013, 55, 87-98.	1.8	21
96	Trends in emergency hospital admissions of children: observations from Scotland. Archives of Disease in Childhood, 2013, 98, 1024-1025.	1.9	7
97	Estimation of the risk of tubal factor infertility associated with genital chlamydial infection in women: a statistical modelling study. International Journal of Epidemiology, 2013, 42, 493-503.	1.9	32
98	The impact of a new service for maltreated children on Childrenâ€™s Hearings in Scotland: a qualitative study. Adoption & Fostering, 2013, 37, 14-27.	0.5	3
99	Reducing the time before consulting with symptoms of lung cancer: a randomised controlled trial in primary care. British Journal of General Practice, 2013, 63, e47-e54.	1.4	34
100	A Feasibility Randomised Controlled Trial of the New Orleans Intervention for Infant Mental Health: A Study Protocol. Scientific World Journal, The, 2013, 2013, 1-6.	2.1	8
101	Language Delay Is Not Predictable from Available Risk Factors. Scientific World Journal, The, 2013, 2013, 1-8.	2.1	14
102	Guided Self-Help Cognitive Behavioural Therapy for Depression in Primary Care: A Randomised Controlled Trial. PLoS ONE, 2013, 8, e52735.	2.5	48
103	The Effect of Mental Ill Health on Absence From Work in Different Occupational Classifications. Journal of Occupational and Environmental Medicine, 2012, 54, 1539-1544.	1.7	10
104	Can psychopathology at age 7 be predicted from clinical observation at one year? Evidence from the ALSPAC cohort. Research in Developmental Disabilities, 2012, 33, 2292-2300.	2.2	4
105	Neurodevelopmental problems in maltreated children referred with indiscriminate friendliness. Research in Developmental Disabilities, 2012, 33, 1560-1565.	2.2	65
106	General practitioner provision of preventive child health care: analysis of routine consultation data. BMC Family Practice, 2012, 13, 73.	2.9	6
107	"A powerful intervention: general practitioners'; use of sickness certification in depression". BMC Family Practice, 2012, 13, 82.	2.9	23
108	The disappearance of the â€œrevolving doorâ€‘patient in Scottish general practice: successful policies. BMC Family Practice, 2012, 13, 95.	2.9	3

#	ARTICLE	IF	CITATIONS
109	How evidence-based is an 'evidence-based parenting program'? A PRISMA systematic review and meta-analysis of Triple P. BMC Medicine, 2012, 10, 130.	5.5	120
110	Matching parenting support needs to service provision in a universal 13-month child health surveillance visit. Child: Care, Health and Development, 2012, 38, 665-674.	1.7	7
111	Disruptive behaviour disorders: a systematic review of environmental antenatal and early years risk factors. Child: Care, Health and Development, 2012, 38, 611-628.	1.7	93
112	Altered stress responses in children exposed to early adversity: A systematic review of salivary cortisol studies. Stress, 2011, 14, 614-626.	1.8	143
