#	ARTICLE	IF	CITATIONS
1	Psychometric evaluation of the Health-Risk Attitude Scale (HRAS-13): assessing the reliability, dimensionality and validity in the general population and a patient population. <i>Psychology and Health</i> , 2022, 37, 34-50.	2.2	5
2	Worker Well-Being: What it Is, and how it Should Be Measured. <i>Applied Research in Quality of Life</i> , 2022, 17, 795-832.	2.4	16
3	Did the COVID-19 pandemic change the willingness to pay for an early warning system for infectious diseases in Europe?. <i>European Journal of Health Economics</i> , 2022, 23, 81-94.	2.8	4
4	Characterizing Hope: An Interdisciplinary Overview of the Characteristics of Hope. <i>Applied Research in Quality of Life</i> , 2022, 17, 1681-1723.	2.4	11
5	Productivity of Working at Home and Time Allocation Between Paid Work, Unpaid Work and Leisure Activities During a Pandemic. <i>Pharmacoeconomics</i> , 2022, 40, 77-90.	3.3	13
6	Viewpoints among experts and the public in the Netherlands on including a lifestyle criterion in the healthcare priority setting. <i>Health Expectations</i> , 2022, 25, 333-344.	2.6	2
7	“Please, you go first!”-preferences for a COVID-19 vaccine among adults in the Netherlands. <i>Social Science and Medicine</i> , 2022, 292, 114626.	3.8	19
8	To what extent do citizens support the disinvestment of healthcare interventions? An exploration of the support for four viewpoints on active disinvestment in the Netherlands. <i>Social Science and Medicine</i> , 2022, 293, 114662.	3.8	2
9	Estimating an anchored utility tariff for the well-being of older people measure (WOOP) for the Netherlands. <i>Social Science and Medicine</i> , 2022, 301, 114901.	3.8	7
10	In Absence of Absenteeism: Some Thoughts on Productivity Costs in Economic Evaluations in a Post-corona Era. <i>Pharmacoeconomics</i> , 2022, 40, 7-11.	3.3	6
11	Public Preferences for Policies to Promote COVID-19 Vaccination Uptake: A Discrete Choice Experiment in The Netherlands. <i>Value in Health</i> , 2022, 25, 1290-1297.	0.3	8
12	Hope Mediates the Relation between Income and Subjective Well-Being. <i>Journal of Happiness Studies</i> , 2021, 22, 2075-2102.	3.2	12
13	Validation of the Hungarian version of the CarerQol instrument in informal caregivers: results from a cross-sectional survey among the general population in Hungary. <i>Quality of Life Research</i> , 2021, 30, 629-641.	3.1	6
14	Unveiling the controversy on egg freezing in The Netherlands: A Q-methodology study on women’s viewpoints. <i>Reproductive Biomedicine and Society Online</i> , 2021, 12, 32-43.	1.8	5
15	Hope for the future and willingness to pay for sustainable energy. <i>Ecological Economics</i> , 2021, 181, 106900.	5.7	17
16	A validation study of the CarerQol instrument in informal caregivers of people with dementia from eight European countries. <i>Quality of Life Research</i> , 2021, 30, 577-588.	3.1	11
17	The Relations between Hope and Subjective Well-Being: a Literature Overview and Empirical Analysis. <i>Applied Research in Quality of Life</i> , 2021, 16, 1019-1041.	2.4	66
18	Women’s viewpoints on egg freezing in Austria: an online Q-methodology study. <i>BMC Medical Ethics</i> , 2021, 22, 4.	2.4	6

#	ARTICLE	IF	CITATIONS
19	What works better for preference elicitation among older people? Cognitive burden of discrete choice experiment and case 2 best-worst scaling in an online setting. <i>Journal of Choice Modelling</i> , 2021, 38, 100265.	2.3	11
20	Risk communication during COVID-19: A descriptive study on familiarity with, adherence to and trust in the WHO preventive measures. <i>PLoS ONE</i> , 2021, 16, e0250872.	2.5	41
21	Blood donation in times of crisis: Early insight into the impact of COVID-19 on blood donors and their motivation to donate across European countries. <i>Vox Sanguinis</i> , 2021, 116, 1031-1041.	1.5	30
22	What influences the outcome of active disinvestment processes in healthcare? A qualitative interview study on five recent cases of active disinvestment. <i>BMC Health Services Research</i> , 2021, 21, 298.	2.2	6
23	The value of health—Empirical issues when estimating the monetary value of a quality-adjusted life year based on well-being data. <i>Health Economics (United Kingdom)</i> , 2021, 30, 1849-1870.	1.7	2
24	Career orientations of medical students: A Q-methodology study. <i>PLoS ONE</i> , 2021, 16, e0249092.	2.5	9
25	Willingness to pay for quality and length of life gains in end of life patients of different ages. <i>Social Science and Medicine</i> , 2021, 279, 113987.	3.8	5
26	Content validation of the Well-being of Older People measure (WOOP). <i>Health and Quality of Life Outcomes</i> , 2021, 19, 200.	2.4	11
27	Life satisfaction: The role of domain-specific reference points. <i>Health Economics (United Kingdom)</i> , 2021, 30, 2766-2779.	1.7	5
28	Willingness to Pay for Health-Related Quality of Life Gains in Relation to Disease Severity and the Age of Patients. <i>Value in Health</i> , 2021, 24, 1182-1192.	0.3	18
29	It is not just about sex: viewpoints of men with inflammatory arthritis on the overall impact of the disease on their sexual health. <i>RMD Open</i> , 2021, 7, e001821.	3.8	4
30	Good Days and Bad Days: Measuring Health-Related Quality of Life in People With Epilepsy. <i>Value in Health</i> , 2021, 24, 1470-1475.	0.3	3
31	Mixed evidence for the compression of morbidity hypothesis for smoking elimination—a systematic literature review. <i>European Journal of Public Health</i> , 2021, 31, 409-417.	0.3	3
32	Being a good financial auditor. Conceptions of responsibilities among accountancy students. <i>Maandblad Voor Accountancy En Bedrijfseconomie</i> , 2021, 95, 303-319.	0.3	1
33	Giving birth after caesarean: Identifying shared preferences among pregnant women using Q methodology. <i>Women and Birth</i> , 2020, 33, 273-279.	2.0	7
34	Increasing the Legitimacy of Tough Choices in Healthcare Reimbursement: Approach and Results of a Citizen Forum in The Netherlands. <i>Value in Health</i> , 2020, 23, 32-38.	0.3	18
35	A validation study of the ICECAP-O in informal carers of people with dementia from eight European Countries. <i>Quality of Life Research</i> , 2020, 29, 237-251.	3.1	8
36	How does participating in a deliberative citizens panel on healthcare priority setting influence the views of participants?. <i>Health Policy</i> , 2020, 124, 143-151.	3.0	11

#	ARTICLE	IF	CITATIONS
37	Estimating the monetary value of health and capability well-being applying the well-being valuation approach. <i>European Journal of Health Economics</i> , 2020, 21, 1235-1244.	2.8	10
38	Acceptable health and ageing: results of a cross-sectional study from Hungary. <i>Health and Quality of Life Outcomes</i> , 2020, 18, 346.	2.4	3
39	The Healthy Aging Index analyzed over 15 years in the general population: The Doetinchem Cohort Study. <i>Preventive Medicine</i> , 2020, 139, 106193.	3.4	13
40	Happy with Your Capabilities? Valuing ICECAP-O and ICECAP-A States Based on Experienced Utility Using Subjective Well-Being Data. <i>Medical Decision Making</i> , 2020, 40, 498-510.	2.4	5
41	Willingness to pay for an early warning system for infectious diseases. <i>European Journal of Health Economics</i> , 2020, 21, 763-773.	2.8	20
42	Valuing Healthcare Goods and Services: A Systematic Review and Meta-Analysis on the WTA-WTP Disparity. <i>Pharmacoeconomics</i> , 2020, 38, 443-458.	3.3	20
43	Development of Population Tariffs for the CarerQoL Instrument for Hungary, Poland and Slovenia: A Discrete Choice Experiment Study to Measure the Burden of Informal Caregiving. <i>Pharmacoeconomics</i> , 2020, 38, 633-643.	3.3	6
44	Once we have it, will we use it? A European survey on willingness to be vaccinated against COVID-19. <i>European Journal of Health Economics</i> , 2020, 21, 977-982.	2.8	760
45	United but divided: Policy responses and people's perceptions in the EU during the COVID-19 outbreak. <i>Health Policy</i> , 2020, 124, 909-918.	3.0	147
46	Well-being of Older People (WOOP): Quantitative validation of a new outcome measure for use in economic evaluations. <i>Social Science and Medicine</i> , 2020, 259, 113109.	3.8	14
47	Evaluating the Effectiveness and Cost-Effectiveness of Seizure Dogs in Persons With Medically Refractory Epilepsy in the Netherlands: Study Protocol for a Stepped Wedge Randomized Controlled Trial (EPISODE). <i>Frontiers in Neurology</i> , 2020, 11, 3.	2.4	6
48	How do combinations of unhealthy behaviors relate to attitudinal factors and subjective health among the adult population in the Netherlands?. <i>BMC Public Health</i> , 2020, 20, 441.	2.9	22
49	Unpacking the Quantifying and Qualifying Potential of Semi-Open Job Satisfaction Questions through Computer-Aided Sentiment Analysis. <i>Journal of Well-Being Assessment</i> , 2020, 4, 391-417.	0.7	4
50	Perspectives of general dental practitioners on preventive, patient-centred, and evidence-based oral healthcare – A Q-methodology study. <i>PLoS ONE</i> , 2019, 14, e0219931.	2.5	5
51	Young children's perspectives on resolving social exclusion within inclusive classrooms. <i>International Journal of Educational Research</i> , 2019, 98, 324-335.	2.2	9
52	Views on deceased organ donation in the Netherlands: A q-methodology study. <i>PLoS ONE</i> , 2019, 14, e0216479.	2.5	11
53	What Is Next for Patient Preferences in Health Technology Assessment? A Systematic Review of the Challenges. <i>Value in Health</i> , 2019, 22, 1318-1328.	0.3	26
54	Equity Weights for Priority Setting in Healthcare: Severity, Age, or Both?. <i>Value in Health</i> , 2019, 22, 1441-1449.	0.3	28

#	ARTICLE	IF	CITATIONS
55	Views of older people in the Netherlands on wellbeing: A Q-methodology study. Social Science and Medicine, 2019, 240, 112535.	3.8	19
56	How to value safety in economic evaluations in health care? A review of applications in different sectors. European Journal of Health Economics, 2019, 20, 1041-1061.	2.8	11
57	What makes an ideal hospital-based medical leader? Three views of healthcare professionals and managers: A case study. PLoS ONE, 2019, 14, e0218095.	2.5	17
58	Views of professionals and volunteers in palliative care on patient-centred care: a Q-methodology study in the Netherlands. BMC Palliative Care, 2019, 18, 97.	1.8	7
59	The promise of open survey questionsâ€”The validation of text-based job satisfaction measures. PLoS ONE, 2019, 14, e0226408.	2.5	4
60	Estimating Informal Caregiving Time from Patient EQ-5D Data: The Informal CARE Effect (iCARE) Tool. Pharmacoeconomics, 2019, 37, 93-103.	3.3	11
61	When is it too expensive? Cost-effectiveness thresholds and health care decision-making. European Journal of Health Economics, 2019, 20, 175-180.	2.8	73
62	Does the ICECAP-O cover the physical, mental and social functioning of older people in the UK?. Quality of Life Research, 2019, 28, 761-770.	3.1	14
63	The Monetary Value of Informal Care: Obtaining Pure Time Valuations Using a Discrete Choice Experiment. Pharmacoeconomics, 2019, 37, 531-540.	3.3	20
64	The promise of open survey questionsâ€”The validation of text-based job satisfaction measures. , 2019, 14, e0226408.		0
65	The promise of open survey questionsâ€”The validation of text-based job satisfaction measures. , 2019, 14, e0226408.		0
66	The promise of open survey questionsâ€”The validation of text-based job satisfaction measures. , 2019, 14, e0226408.		0
67	The promise of open survey questionsâ€”The validation of text-based job satisfaction measures. , 2019, 14, e0226408.		0
68	Are people living with HIV less productive at work?. AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV, 2018, 30, 1265-1272.	1.2	8
69	Looking back and moving forward: On the application of proportional shortfall in healthcare priority setting in the Netherlands. Health Policy, 2018, 122, 621-629.	3.0	55
70	Is â€œend of lifeâ€•a special case? Connecting Q with survey methods to measure societal support for views on the value of lifeâ€•extending treatments. Health Economics (United Kingdom), 2018, 27, 819-831.	1.7	12
71	Are life-extending treatments for terminal illnesses a special case? Exploring choices and societal viewpoints. Social Science and Medicine, 2018, 198, 61-69.	3.8	16
72	What should we know about the person behind a TTO?. European Journal of Health Economics, 2018, 19, 1207-1211.	2.8	12

#	ARTICLE	IF	CITATIONS
73	Determinants of Employment in People Living with HIV in the Netherlands. Journal of Occupational Rehabilitation, 2018, 28, 45-56.	2.2	15
74	Parental attitudes towards oral health and caries-risk in their children. International Journal of Dental Hygiene, 2018, 16, 241-248.	1.9	4
75	New findings from the time trade-off for income approach to elicit willingness to pay for a quality adjusted life year. European Journal of Health Economics, 2018, 19, 277-291.	2.8	9
76	Task shifting between physicians and nurses in acute care hospitals: cross-sectional study in nine countries. Human Resources for Health, 2018, 16, 24.	3.1	51
77	Who should receive treatment? An empirical enquiry into the relationship between societal views and preferences concerning healthcare priority setting. PLoS ONE, 2018, 13, e0198761.	2.5	14
78	Time Is Money: Investigating the Value of Leisure Time and Unpaid Work. Value in Health, 2018, 21, 1428-1436.	0.3	38
79	What are the motivating and hindering factors for health professionals to undertake new roles in hospitals? A study among physicians, nurses and managers looking at breast cancer and acute myocardial infarction care in nine countries. Health Policy, 2018, 122, 1118-1125.	3.0	12
80	New professional roles and patient satisfaction: Evidence from a European survey along three clinical pathways. Health Policy, 2018, 122, 1078-1084.	3.0	13
81	A short note on measuring subjective life expectancy: survival probabilities versus point estimates. European Journal of Health Economics, 2017, 18, 7-12.	2.8	6
82	Priority to End of Life Treatments? Views of the Public in the Netherlands. Value in Health, 2017, 20, 107-117.	0.3	22
83	Acceptable health and priority weighting: Discussing a reference-level approach using sufficientarian reasoning. Social Science and Medicine, 2017, 181, 158-167.	3.8	9
84	Valid Outcome Measures in Care for Older People: Comparing the ASCOT and the ICECAP-O. Value in Health, 2017, 20, 936-944.	0.3	22
85	Measuring Care-Related Quality of Life of Caregivers for Use in Economic Evaluations: CarerQol Tariffs for Australia, Germany, Sweden, UK, and US. Pharmacoeconomics, 2017, 35, 469-478.	3.3	46
86	Perseverance time of informal caregivers for people with dementia: construct validity, responsiveness and predictive validity. Alzheimer's Research and Therapy, 2017, 9, 26.	6.2	3
87	A (Latent) Class of Their Own: Response Patterns in Trading Off Quantity and Quality of Life in Time Trade-Off Exercises. Value in Health, 2017, 20, 1403-1410.	0.3	1
88	The impact of the design of payment scales on the willingness to pay for health gains. European Journal of Health Economics, 2017, 18, 743-760.	2.8	22
89	The Challenge of Conditional Reimbursement: Stopping Reimbursement Can Be More Difficult Than Not Starting in the First Place!. Value in Health, 2017, 20, 118-125.	0.3	31
90	Patterns in clinical students' self-regulated learning behavior: a Q-methodology study. Advances in Health Sciences Education, 2017, 22, 105-121.	3.3	28

#	ARTICLE	IF	CITATIONS
91	Positive and negative outcomes of informal caregiving at home and in institutionalised long-term care: a cross-sectional study. BMC Geriatrics, 2017, 17, 232.	2.7	44
92	To vaccinate or not to vaccinate? Perspectives on HPV vaccination among girls, boys, and parents in the Netherlands: a Q-methodological study. BMC Public Health, 2017, 17, 872.	2.9	39
93	Reconfiguring health workforce: a case-based comparative study explaining the increasingly diverse professional roles in Europe. BMC Health Services Research, 2016, 16, 637.	2.2	44
94	The iMPact on practice, oUtcomes and costs of New roles for health pROfeSsionals: a study protocol for MUNROS. BMJ Open, 2016, 6, e010511.	1.9	11
95	Altruistic Preferences in Time Tradeoff. Medical Decision Making, 2016, 36, 187-198.	2.4	11
96	Health or Happiness? A Note on Trading Off Health and Happiness in Rationing Decisions. Value in Health, 2016, 19, 552-557.	0.3	4
97	Perseverance Time of Informal Caregivers for Institutionalized Elderly: Construct Validity and Test-Retest Reliability of a Single-Question Instrument. Journal of the American Medical Directors Association, 2016, 17, 761-762.	2.5	9
98	Measuring Health Spillovers for Economic Evaluation: A Case Study in Meningitis. Health Economics (United Kingdom), 2016, 25, 1529-1544.	1.7	68
99	From representing views to representativeness of views: Illustrating a new (Q2S) approach in the context of health care priority setting in nine European countries. Social Science and Medicine, 2016, 166, 205-213.	3.8	19
100	“Back to the future”: Influence of beliefs regarding the future on TTO answers. Health and Quality of Life Outcomes, 2016, 14, 4.	2.4	9
101	Are some QALYs more equal than others?. European Journal of Health Economics, 2016, 17, 117-127.	2.8	24
102	Exploring a new method for deriving the monetary value of a QALY. European Journal of Health Economics, 2016, 17, 801-809.	2.8	12
103	A long life in good health: subjective expectations regarding length and future health-related quality of life. European Journal of Health Economics, 2016, 17, 577-589.	2.8	30
104	A Framework for Including Family Health Spillovers in Economic Evaluation. Medical Decision Making, 2016, 36, 176-186.	2.4	82
105	Rational expectations? An explorative study of subjective survival probabilities and lifestyle across Europe. Health Expectations, 2016, 19, 121-137.	2.6	21
106	The ideal neighbourhood for ageing in place as perceived by frail and non-frail community-dwelling older people. Ageing and Society, 2015, 35, 1771-1795.	1.7	73
107	Consumer willingness to invest money and time for benefits of lifestyle behaviour change: an application of the contingent valuation method. Health Expectations, 2015, 18, 2252-2265.	2.6	3
108	The perseverance time of informal carers for people with dementia: results of a two-year longitudinal follow-up study. BMC Nursing, 2015, 14, 56.	2.5	12
