#	ARTICLE	IF	CITATIONS
1	The what, why and when of adapting interventions for new contexts: A qualitative study of researchers, funders, journal editors and practitioners's™ understandings. PLoS ONE, 2021, 16, e0254020.	2.5	9
2	Adapting interventions to new contexts's™the ADAPT guidance. BMJ, The, 2021, 374, n1679.	6.0	130
3	The ABA intervention for improving breastfeeding initiation and continuation: Feasibility study results. Maternal and Child Nutrition, 2020, 16, e12907.	3.0	15
4	Game of Stones: feasibility randomised controlled trial of how to engage men with obesity in text message and incentive interventions for weight loss. BMJ Open, 2020, 10, e032653.	1.9	22
5	Exploring the use and experience of an infant feeding genogram to facilitate an assets-based approach to support infant feeding. BMC Pregnancy and Childbirth, 2020, 20, 569.	2.4	4
6	Recruiting men from across the socioeconomic spectrum via GP registers and community outreach to a weight management feasibility randomised controlled trial. BMC Medical Research Methodology, 2020, 20, 249.	3.1	3
7	Women's and peer supporters' experiences of an assets-based peer support intervention for increasing breastfeeding initiation and continuation: A qualitative study. Health Expectations, 2020, 23, 622-631.	2.6	18
8	A systematic review with meta-analyses of text message-delivered behaviour change interventions for weight loss and weight loss maintenance. Obesity Reviews, 2020, 21, e12999.	6.5	28
9	Guidance for reporting intervention development studies in health research (GUIDED): an evidence-based consensus study. BMJ Open, 2020, 10, e033516.	1.9	171
10	An assets-based intervention before and after birth to improve breastfeeding initiation and continuation: the ABA feasibility RCT. Public Health Research, 2020, 8, 1-156.	1.3	4
11	Text messaging and financial incentives to encourage weight loss in men with obesity: the Game of Stones feasibility RCT. Public Health Research, 2020, 8, 1-224.	1.3	4
12	Text messaging to help women with overweight or obesity lose weight after childbirth: the intervention adaptation and SMS feasibility RCT. Public Health Research, 2020, 8, 1-152.	1.3	7
13	Attending to design when developing complex health interventions: A qualitative interview study with intervention developers and associated stakeholders. PLoS ONE, 2019, 14, e0223615.	2.5	28
14	Taxonomy of approaches to developing interventions to improve health: a systematic methods overview. Pilot and Feasibility Studies, 2019, 5, 41.	1.2	266
15	When and how do 'effective'™ interventions need to be adapted and/or re-evaluated in new contexts? The need for guidance. Journal of Epidemiology and Community Health, 2019, 73, 481-482.	3.7	59
16	Understanding successful development of complex health and healthcare interventions and its drivers from the perspective of developers and wider stakeholders: an international qualitative interview study. BMJ Open, 2019, 9, e028756.	1.9	41
17	Guidance on how to develop complex interventions to improve health and healthcare. BMJ Open, 2019, 9, e029954.	1.9	690
18	Developing interventions to improve health: a systematic mapping review of international practice between 2015 and 2016. Pilot and Feasibility Studies, 2019, 5, 127.	1.2	23

#	ARTICLE	IF	CITATIONS
19	Women's views about a free breast pump service: Online survey informing intervention development. <i>Maternal and Child Nutrition</i> , 2019, 15, e12745.	3.0	5
20	Proactive telephone support provided to breastfeeding mothers of preterm infants after discharge: a randomised controlled trial. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2018, 107, 791-798.	1.5	27
21	Protocol for a feasibility trial for improving breast feeding initiation and continuation: assets-based infant feeding help before and after birth (ABA). <i>BMJ Open</i> , 2018, 8, e019142.	1.9	9
22	Public acceptability of financial incentives to reward pregnant smokers who quit smoking: a United Kingdom-France comparison. <i>European Journal of Health Economics</i> , 2018, 19, 697-708.	2.8	12
23	Routinely collected infant feeding data: Time for global action. <i>Maternal and Child Nutrition</i> , 2018, 14, e12616.	3.0	10
24	Breastfeeding and risk for ceasing in mothers of preterm infants—Long-term follow-up. <i>Maternal and Child Nutrition</i> , 2018, 14, e12618.	3.0	32
25	How to incorporate patient and public perspectives into the design and conduct of research. <i>F1000Research</i> , 2018, 7, 752.	1.6	100
26	Clinical Effectiveness of Weight Loss and Weight Maintenance Interventions for Men: A Systematic Review of Men-Only Randomized Controlled Trials (The ROMEO Project). <i>American Journal of Men's Health</i> , 2017, 11, 1096-1123.	1.6	33
27	Breastfeeding booklet and proactive phone calls for increasing exclusive breastfeeding rates: RCT protocol. <i>Maternal and Child Nutrition</i> , 2017, 13, .	3.0	8
28	Step 10: the breastfeeding support paradox. <i>The Lancet Global Health</i> , 2016, 4, e19.	6.3	1
29	Breast pumps as an incentive for breastfeeding: a mixed methods study of acceptability. <i>Maternal and Child Nutrition</i> , 2016, 12, 726-739.	3.0	11
30	Combining PPI with qualitative research to engage "harder-to-reach"™ populations: service user groups as co-applicants on a platform study for a trial. <i>Research Involvement and Engagement</i> , 2016, 2, 7.	2.9	47
31	Should weight loss and maintenance programmes be designed differently for men? A systematic review of long-term randomised controlled trials presenting data for men and women: The ROMEO project. <i>Obesity Research and Clinical Practice</i> , 2016, 10, 70-84.	1.8	78
32	A qualitative evidence synthesis on the management of male obesity. <i>BMJ Open</i> , 2015, 5, e008372.	1.9	28
33	Perspectives on financial incentives to health service providers for increasing breast feeding and smoking quit rates during pregnancy: a mixed methods study. <i>BMJ Open</i> , 2015, 5, e008492-e008492.	1.9	3
34	A new era for intervention development studies. <i>Pilot and Feasibility Studies</i> , 2015, 1, 36.	1.2	118
35	Incentives to Promote Breastfeeding: A Systematic Review. <i>Pediatrics</i> , 2015, 135, e687-e702.	2.1	29
36	Incentives for breastfeeding and for smoking cessation in pregnancy: An exploration of types and meanings. <i>Social Science and Medicine</i> , 2015, 128, 10-17.	3.8	18

#	ARTICLE	IF	CITATIONS
37	A systematic review of the cost-effectiveness of non-surgical obesity interventions in men. <i>Obesity Research and Clinical Practice</i> , 2015, 9, 310-327.	1.8	11
38	How UK internet websites portray breast milk expression and breast pumps: a qualitative study of content. <i>BMC Pregnancy and Childbirth</i> , 2015, 15, 81.	2.4	8
39	Maximising the impact of qualitative research in feasibility studies for randomised controlled trials: guidance for researchers. <i>Pilot and Feasibility Studies</i> , 2015, 1, 32.	1.2	240
40	Benefits of Incentives for Breastfeeding and Smoking cessation in pregnancy (BIBS): a mixed-methods study to inform trial design. <i>Health Technology Assessment</i> , 2015, 19, 1-522.	2.8	51
41	Public acceptability of financial incentives for smoking cessation in pregnancy and breast feeding: a survey of the British public. <i>BMJ Open</i> , 2014, 4, e005524-e005524.	1.9	34
42	The push me, pull you of financial incentives and health inequalities: a mixed methods study investigating smoking cessation in pregnancy and breastfeeding. <i>Lancet, The</i> , 2014, 384, S37.	13.7	6
43	Are men difficult to find? Identifying male-specific studies in MEDLINE and Embase. <i>Systematic Reviews</i> , 2014, 3, 78.	5.3	8
44	Unintended Consequences of Incentive Provision for Behaviour Change and Maintenance around Childbirth. <i>PLoS ONE</i> , 2014, 9, e111322.	2.5	23
45	Systematic reviews of and integrated report on the quantitative, qualitative and economic evidence base for the management of obesity in men. <i>Health Technology Assessment</i> , 2014, 18, v-vi, xxiii-xxix, 1-424.	2.8	155
46	Significant others, situations and infant feeding behaviour change processes: a serial qualitative interview study. <i>BMC Pregnancy and Childbirth</i> , 2013, 13, 114.	2.4	37
47	The effectiveness of proactive telephone support provided to breastfeeding mothers of preterm infants: study protocol for a randomized controlled trial. <i>BMC Pediatrics</i> , 2013, 13, 73.	1.7	21
48	Process evaluation for the FEeding Support Team (FEST) randomised controlled feasibility trial of proactive and reactive telephone support for breastfeeding women living in disadvantaged areas. <i>BMJ Open</i> , 2012, 2, e001039.	1.9	25
49	A serial qualitative interview study of infant feeding experiences: idealism meets realism. <i>BMJ Open</i> , 2012, 2, e000504.	1.9	110
50	The FEeding Support Team (FEST) randomised, controlled feasibility trial of proactive and reactive telephone support for breastfeeding women living in disadvantaged areas. <i>BMJ Open</i> , 2012, 2, e000652.	1.9	45
51	Incentive interventions for smoking cessation in pregnancy: a mixed methods evidence synthesis. <i>Lancet, The</i> , 2012, 380, S48.	13.7	4
52	Incentives as connectors: insights into a breastfeeding incentive intervention in a disadvantaged area of North-West England. <i>BMC Pregnancy and Childbirth</i> , 2012, 12, 22.	2.4	38
53	A qualitative study comparing commercial and health service weight loss groups, classes and clubs. <i>Journal of Human Nutrition and Dietetics</i> , 2011, 24, 23-31.	2.5	11
54	Global evidence synthesis and UK idiosyncrasy: why have recent UK trials had no significant effects on breastfeeding rates?. <i>Maternal and Child Nutrition</i> , 2011, 7, 221-227.	3.0	37

#	ARTICLE	IF	CITATIONS
55	Why do interventions work in some places and not others: A breastfeeding support group trial. <i>Social Science and Medicine</i> , 2010, 70, 769-778.	3.8	87
56	Group interventions to improve health outcomes: a framework for their design and delivery. <i>BMC Public Health</i> , 2010, 10, 800.	2.9	70
57	The use of video support for infant feeding after hospital discharge: a study in remote and rural Scotland. <i>Maternal and Child Nutrition</i> , 2009, 5, 347-357.	3.0	5
58	Seeing other women breastfeed: how vicarious experience relates to breastfeeding intention and behaviour. <i>Maternal and Child Nutrition</i> , 2009, 6, 134-46.	3.0	19
59	Effectiveness of policy to provide breastfeeding groups (BIG) for pregnant and breastfeeding mothers in primary care: cluster randomised controlled trial. <i>BMJ: British Medical Journal</i> , 2009, 338, a3026-a3026.	2.3	57
60	Non-invasive diagnosis needed. <i>BMJ: British Medical Journal</i> , 2009, 338, b1070-b1070.	2.3	0
61	Breast feeding. <i>BMJ: British Medical Journal</i> , 2008, 336, 881-887.	2.3	188
62	Recruitment issues when primary care population clusters are used in randomised controlled clinical trials: Climbing mountains or pushing boulders uphill?. <i>Contemporary Clinical Trials</i> , 2007, 28, 232-241.	1.8	19
63	A systematic review of measures assessing mothers' knowledge, attitudes, confidence and satisfaction towards breastfeeding. <i>Breastfeeding Review</i> , 2007, 15, 17-25.	0.7	37
64	Breastfeeding peer support: Health service programmes in Scotland. <i>British Journal of Midwifery</i> , 2006, 14, 12-19.	0.4	16
65	Effectiveness of a Breastfeeding Peer Coaching Intervention in Rural Scotland. <i>Birth</i> , 2006, 33, 27-36.	2.2	35
66	One-to-One or Group-Based Peer Support for Breastfeeding? Women's Perceptions of a Breastfeeding Peer Coaching Intervention. <i>Birth</i> , 2006, 33, 139-146.	2.2	59
67	Health professionals, implementation and outcomes: reflections on a complex intervention to improve breastfeeding rates in primary care. <i>Family Practice</i> , 2006, 24, 84-91.	1.9	21
68	Lay support for breastfeeding. <i>British Journal of General Practice</i> , 2006, 56, 461-2.	1.4	1
69	'Breakfast, lunch and dinner': Attitudes to infant feeding amongst children in a Scottish primary school. A qualitative focus group study. <i>Health Education Journal</i> , 2004, 63, 70-80.	1.2	15
70	General practice consultation rates for mothers and babies in the first year after birth according to place of birth. A descriptive study in one general practice. <i>Primary Health Care Research and Development</i> , 2002, 3, 212-225.	1.2	2
71	A qualitative study of women's views about how health professionals communicate about infant feeding. <i>Health Expectations</i> , 2000, 3, 224-233.	2.6	82
72	Nobody actually tells you: a study of infant feeding. <i>British Journal of Midwifery</i> , 1999, 7, 558-565.	0.4	43

#	ARTICLE	IF	CITATIONS
73	Qualitative study of decisions about infant feeding among women in east end of London. BMJ: British Medical Journal, 1999, 318, 30-34.	2.3	165
74	A review of recently published qualitative research in general practice. More methodological questions than answers?. Family Practice, 1997, 14, 313-319.	1.9	44
75	Qualitative research interviewing by general practitioners. A personal view of the opportunities and pitfalls. Family Practice, 1997, 14, 307-312.	1.9	43
