#	ARTICLE	IF	CITATIONS
1	Action, actor, context, target, time (AACTT): a framework for specifying behaviour. Implementation Science, 2019, 14, 102.	6.9	160
2	Are interventions for low-income groups effective in changing healthy eating, physical activity and smoking behaviours? A systematic review and meta-analysis. BMJ Open, 2014, 4, e006046.	1.9	103
3	Diagnostic accuracy, risk assessment, and cost-effectiveness of component-resolved diagnostics for food allergy: A systematic review. Allergy: European Journal of Allergy and Clinical Immunology, 2018, 73, 1609-1621.	5.7	81
4	Endogenous and exogenous sex steroid hormones in asthma and allergy in females: A systematic review and meta-analysis. Journal of Allergy and Clinical Immunology, 2018, 141, 1510-1513.e8.	2.9	51
5	Interventions to Promote Healthy Eating, Physical Activity and Smoking in Low-Income Groups: a Systematic Review with Meta-Analysis of Behavior Change Techniques and Delivery/Context. International Journal of Behavioral Medicine, 2018, 25, 605-616.	1.7	46
6	Active ingredients are reported more often for pharmacologic than non-pharmacologic interventions: an illustrative review of reporting practices in titles and abstracts. Trials, 2013, 14, 146.	1.6	40
7	Developing habit-based health behaviour change interventions: twenty-one questions to guide future research. Psychology and Health, 2023, 38, 518-540.	2.2	26
8	Acid-suppressive medications during pregnancy and risk of asthma and allergy in children: A systematic review and meta-analysis. Journal of Allergy and Clinical Immunology, 2017, 139, 1985-1988.e12.	2.9	22
9	IMP2ART systematic review of education for healthcare professionals implementing supported self-management for asthma. Npj Primary Care Respiratory Medicine, 2018, 28, 42.	2.6	16
10	Healthcare professional behaviour: health impact, prevalence of evidence-based behaviours, correlates and interventions. Psychology and Health, 2023, 38, 766-794.	2.2	14
11	Testing feedback message framing and comparators to address prescribing of high-risk medications in nursing homes: protocol for a pragmatic, factorial, cluster-randomized trial. Implementation Science, 2017, 12, 86.	6.9	13
12	Behavior Change Techniques in Continuing Professional Development. Journal of Continuing Education in the Health Professions, 2020, 40, 268-273.	1.3	13
13	Audit and feedback to improve laboratory test and transfusion ordering in critical care: a systematic review. Implementation Science, 2020, 15, 46.	6.9	13
14	Barriers to and enablers of attendance at diabetic retinopathy screening experienced by immigrants to Canada from multiple cultural and linguistic minority groups. Diabetic Medicine, 2021, 38, e14429.	2.3	13
15	How and why a multifaceted intervention to improve adherence post-MI worked for some (and could) Tj ETQq1 1 0.784314 rgBT /Overl e036750.	1.9	11
16	Changing healthcare professionals' non-reflective processes to improve the quality of care. Social Science and Medicine, 2022, 298, 114840.	3.8	11
17	Interventions supporting cardiac rehabilitation completion: Process evaluation investigating theory-based mechanisms of action.. Health Psychology, 2020, 39, 1048-1061.	1.6	7
18	Addressing fidelity within complex health behaviour change interventions: A protocol of a scoping review of intervention fidelity frameworks and models.. HRB Open Research, 0, 1, 25.	0.6	6

#	ARTICLE	IF	CITATIONS
19	Identifying Barriers and Enablers to Attending Diabetic Retinopathy Screening in Immigrants to Canada From Ethnocultural Minority Groups: Protocol for a Qualitative Descriptive Study. JMIR Research Protocols, 2020, 9, e15109.	1.0	6
20	Motivation-based approach for tailoring persuasive mental health applications. Behaviour and Information Technology, 2023, 42, 569-595.	4.0	6
21	Perceived difficulty and appropriateness of decision making by General Practitioners: a systematic review of scenario studies. BMC Health Services Research, 2014, 14, 621.	2.2	5
22	Assisted reproductive technology and risk of asthma and allergy in the offspring: protocol for a systematic review and meta-analysis. BMJ Open, 2016, 6, e010697.	1.9	5
23	Creating and Breaking Habit in Healthcare Professional Behaviours to Improve Healthcare and Health. , 2018, , 247-265.		5
24	A multiple-behaviour investigation of goal prioritisation in physicians receiving audit and feedback to address high-risk prescribing in nursing homes. Implementation Science Communications, 2020, 1, 33.	2.2	5
25	Investigating the accuracy, risk impact, and cost-effectiveness of component-resolved diagnostic test for food allergy: a systematic review protocol. Npj Primary Care Respiratory Medicine, 2017, 27, 10.	2.6	4
26	“Better” clinical decisions do not necessarily require more time to make. Journal of Clinical Epidemiology, 2017, 82, 173-174.	5.0	3
27	Antibiotic prescribing for respiratory tract infection: exploring drivers of cognitive effort and factors associated with inappropriate prescribing. Family Practice, 2021, 38, 740-750.	1.9	3
28	Clustering of Unhealthy Behaviors: Protocol for a Multiple Behavior Analysis of Data From the Canadian Longitudinal Study on Aging. JMIR Research Protocols, 2021, 10, e24887.	1.0	2
29	Educating professionals to support self-management in people with asthma or diabetes: protocol for a systematic review and scoping exercise. BMJ Open, 2016, 6, e011937.	1.9	1
30	Periconception endogenous and exogenous maternal sex steroid hormones and risk of asthma and allergy in offspring: protocol for a systematic review and meta-analysis. BMJ Open, 2017, 7, e014637.	1.9	1
31	Impacts of two behavior change interventions on determinants of medication adherence: process evaluation applying the health action process approach and habit theory alongside a randomized controlled trial. Journal of Behavioral Medicine, 0, , .	2.1	0
