#	ARTICLE	IF	CITATIONS
1	Validation of the Chinese version bodily distress syndrome checklist in Chinese out-patients of general hospitals. <i>Journal of Psychosomatic Research</i> , 2022, 153, 110702.	2.6	2
2	The psychological impact of COVID-19 on Chinese healthcare workers: a systematic review and meta-analysis. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2022, 57, 1515-1529.	3.1	26
3	Prevalence of DSM-5 somatic symptom disorder in Chinese patients with breast cancer. <i>Psycho-Oncology</i> , 2022, 31, 1302-1312.	2.3	4
4	Mental Health in German Paralympic Athletes During the 1st Year of the COVID-19 Pandemic Compared to a General Population Sample. <i>Frontiers in Sports and Active Living</i> , 2022, 4, 870692.	1.8	12
5	Assessment of the structured clinical interview (SCID) for DSM-5 for somatic symptom disorder in general hospital outpatient clinics in China. <i>BMC Psychiatry</i> , 2021, 21, 144.	2.6	7
6	Severe sleep disturbance is associated with executive function impairment in patients with first-episode, treatment-naïve major depressive disorders. <i>BMC Psychiatry</i> , 2021, 21, 198.	2.6	2
7	Psychometric Evaluation of the Whiteley Index-8 in Chinese Outpatients in General Hospitals. <i>Frontiers in Psychology</i> , 2021, 12, 557662.	2.1	7
8	381-Implementation of psychiatric/psychotherapeutic support within a longitudinal health monitoring in competitive para athletes. , 2021, , .		1
9	077-The importance of health monitoring in competitive para athletes: results of the German injury and illness surveillance system. , 2021, , .		0
10	How can learning effects be measured in Balint groups? Validation of a Balint group questionnaire in China. <i>BMC Medical Education</i> , 2021, 21, 608.	2.4	1
11	Prevalence of DSM-5 somatic symptom disorder in Chinese outpatients from general hospital care. <i>General Hospital Psychiatry</i> , 2020, 62, 63-71.	2.4	25
12	Validation of the Chinese Version of the Somatic Symptom Disorder-B Criteria Scale for Detecting DSM-5 Somatic Symptom Disorders: A Multicenter Study. <i>Psychosomatic Medicine</i> , 2020, 82, 337-344.	2.0	13
13	Demographic and Psychosocial Variables Could Predict the Occurrence of Major Depressive Disorder, but Not the Severity of Depression in Patients with First-episode Major Depressive Disorder in China. <i>Journal of Affective Disorders</i> , 2020, 274, 103-111.	4.1	7
14	Psychometric Evaluation of the Major Depression Inventory (MDI) as a Depression Severity Scale in Chinese Patients With Coronary Artery Disease. Findings From the MEDEA FAR-EAST Study.. <i>Frontiers in Psychiatry</i> , 2019, 10, 493.	2.6	5
15	Dissociating frontal and temporal correlates of phonological and semantic fluency in a large sample of left hemisphere stroke patients. <i>NeuroImage: Clinical</i> , 2019, 23, 101840.	2.7	43
16	Antidepressants vs. Placebo for the Treatment of Functional Gastrointestinal Disorders in Adults: A Systematic Review and Meta-Analysis. <i>Frontiers in Psychiatry</i> , 2018, 9, 659.	2.6	10
17	Comparison of the Factor Structure of the Patient Health Questionnaire for Somatic Symptoms (PHQ-15) in Germany, the Netherlands, and China. A Transcultural Structural Equation Modeling (SEM) Study. <i>Frontiers in Psychiatry</i> , 2018, 9, 240.	2.6	29
18	The Effect of Active Creation on Psychological Health: A Feasibility Study on (Therapeutic) Mechanisms. <i>Behavioral Sciences (Basel, Switzerland)</i> , 2018, 8, 25.	2.1	8

#	ARTICLE	IF	CITATIONS
19	Psychophysiological correlates of the misinformation effect. <i>International Journal of Psychophysiology</i> , 2017, 117, 1-9.	1.0	4
20	Structured relearning of activities of daily living in dementia: the randomized controlled REDALI-DEM trial on errorless learning. <i>Alzheimer's Research and Therapy</i> , 2017, 9, 22.	6.2	31
21	Are semantic and phonological fluency based on the same or distinct sets of cognitive processes? Insights from factor analyses in healthy adults and stroke patients. <i>Neuropsychologia</i> , 2017, 99, 148-155.	1.6	35
22	Physical and psychological correlates of high somatic symptom severity in Chinese breast cancer patients. <i>Psycho-Oncology</i> , 2017, 26, 656-663.	2.3	23
23	Emotional distress and dysfunctional illness perception are associated with low mental and physical quality of life in Chinese breast cancer patients. <i>Health and Quality of Life Outcomes</i> , 2017, 15, 231.	2.4	36
24	Psychological and somatic distress in Chinese outpatients at general hospitals: a cross-sectional study. <i>Annals of General Psychiatry</i> , 2017, 16, 35.	2.7	12
25	Operationalization of diagnostic criteria of DSM-5 somatic symptom disorders. <i>BMC Psychiatry</i> , 2017, 17, 361.	2.6	14
26	The impact of pre-existing anxiety on affective and cognitive processing of a Virtual Reality analogue trauma. <i>PLoS ONE</i> , 2017, 12, e0190360.	2.5	24
27	Effect of a Website That Presents Patients's Experiences on Self-Efficacy and Patient Competence of Colorectal Cancer Patients: Web-Based Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2017, 19, e334.	4.3	21
28	A cross-cultural comparison of climacteric symptoms, self-esteem, and perceived social support between Mosuo women and Han Chinese women. <i>Menopause</i> , 2016, 23, 784-791.	2.0	63
29	Short-term intervention to reduce anxiety before coronary artery bypass surgery – a randomised controlled trial. <i>Journal of Clinical Nursing</i> , 2016, 25, 351-361.	3.0	18
30	How do consumers express their appreciation of wood surfaces? Norway spruce floors in Germany as an example. <i>Annals of Forest Science</i> , 2016, 73, 703-712.	2.0	9
31	Validation of the Chinese version of the PHQ-15 in a tertiary hospital. <i>BMC Psychiatry</i> , 2016, 16, 89.	2.6	57
32	Planning Decrements in Healthy Aging: Mediation Effects of Fluid Reasoning and Working Memory Capacity. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2016, 71, 230-242.	3.9	10
33	Quality of doctor-patient relationship in patients with high somatic symptom severity in China. <i>Complementary Therapies in Medicine</i> , 2015, 23, 23-31.	2.7	24
34	Validation of patient health questionnaire (PHQ) for major depression in Chinese outpatients with multiple somatic symptoms: A multicenter cross-sectional study. <i>Journal of Affective Disorders</i> , 2015, 174, 636-643.	4.1	78
35	Consumers' perceptions and preference profiles for wood surfaces tested with pairwise comparison in Germany. <i>Annals of Forest Science</i> , 2015, 72, 741-751.	2.0	25
36	Sense of coherence contributes to physical and mental health in general hospital patients in China. <i>Psychology, Health and Medicine</i> , 2015, 20, 614-622.	2.4	20

#	ARTICLE	IF	CITATIONS
37	Classification of wood surfaces according to visual appearance by multivariate analysis of wood feature data. <i>Journal of Wood Science</i> , 2015, 61, 89-112.	1.9	9
38	Negative illness perceptions associated with low mental and physical health status in general hospital outpatients in China. <i>Psychology, Health and Medicine</i> , 2014, 19, 273-285.	2.4	17
39	Dysfunctional illness perception and illness behaviour associated with high somatic symptom severity and low quality of life in general hospital outpatients in China. <i>Journal of Psychosomatic Research</i> , 2014, 77, 187-195.	2.6	21
40	Development of planning abilities in normal aging: Differential effects of specific cognitive demands.. <i>Developmental Psychology</i> , 2014, 50, 293-303.	1.6	24
41	Psychological and behavioral variables associated with the somatic symptom severity of general hospital outpatients in China. <i>General Hospital Psychiatry</i> , 2013, 35, 297-303.	2.4	33
42	Researcher allegiance in psychotherapy outcome research: An overview of reviews. <i>Clinical Psychology Review</i> , 2013, 33, 501-511.	11.4	190
43	Corticomuscular Coherence Reflects Interindividual Differences in the State of the Corticomuscular Network During Low-Level Static and Dynamic Forces. <i>Cerebral Cortex</i> , 2012, 22, 628-638.	2.9	67
44	Interview for Deterioration in Daily Living Activities in Dementia: construct and concurrent validity in patients with mild to moderate dementia. <i>International Psychogeriatrics</i> , 2012, 24, 382-390.	1.0	16
45	Reliability of the Perceive, Recall, Plan, and Perform (PRPP) assessment in community-dwelling dementia patients: test consistency and inter-rater agreement. <i>International Psychogeriatrics</i> , 2012, 24, 659-665.	1.0	10
46	Auxiliary variables in multiple imputation in regression with missing X: a warning against including too many in small sample research. <i>BMC Medical Research Methodology</i> , 2012, 12, 184.	3.1	107
47	Dementia quality of life instrument " construct and concurrent validity in patients with mild to moderate dementia. <i>European Journal of Neurology</i> , 2012, 19, 376-384.	3.3	13
48	Revising Superior Planning Performance in Chess Players: The Impact of Time Restriction and Motivation Aspects. <i>American Journal of Psychology</i> , 2011, 124, 213-225.	0.3	21
49	Study protocol of the multi-site randomised controlled REDALI-DEM trial - The effects of structured Relearning methods on Daily Living task performance of persons with Dementia. <i>BMC Geriatrics</i> , 2011, 11, 44.	2.7	8
50	A multicentre RCT on community occupational therapy in Alzheimer's disease: 10 sessions are not better than one consultation. <i>BMJ Open</i> , 2011, 1, e000096-e000096.	1.9	49
51	Why did an effective Dutch complex psycho-social intervention for people with dementia not work in the German healthcare context? Lessons learnt from a process evaluation alongside a multicentre RCT. <i>BMJ Open</i> , 2011, 1, e000094-e000094.	1.9	41
52	Working Alliance Inventoryâ€šShort Revised (WAIâ€šSR): psychometric properties in outpatients and inpatients. <i>Clinical Psychology and Psychotherapy</i> , 2010, 17, 231-239.	2.7	325
53	Multidimensional assessment of OCD: integration and revision of the vancouver obsessionalâ€šcompulsive inventory and the symmetry ordering and arranging questionnaire. <i>Journal of Clinical Psychology</i> , 2010, 66, 739-757.	1.9	12
54	The Padua Inventory: Do Revisions Need Revision?. <i>Assessment</i> , 2010, 17, 89-106.	3.1	21

#	ARTICLE	IF	CITATIONS
55	Diagnostic Discrimination of Patients with Different OCD Main Symptom Domains from each Other and from Anxious and Depressive Controls. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2009, 31, 159-167.	1.2	9
56	WHEDA study: Effectiveness of occupational therapy at home for older people with dementia and their caregivers - the design of a pragmatic randomised controlled trial evaluating a Dutch programme in seven German centres. <i>BMC Geriatrics</i> , 2009, 9, 44.	2.7	19
57	Communication matters: The impact of communication and participation in decision making on breast cancer patients' depression and quality of life. <i>Patient Education and Counseling</i> , 2009, 77, 391-397.	2.2	128
58	Identifikation der Hauptsymptome von Zwangspatienten anhand von Symptomskalen. <i>Verhaltenstherapie</i> , 2009, 19, 251-258.	0.4	9
59	The Obsessive-Compulsive Inventory-Revised (OCI-R): Validation of the German version in a sample of patients with OCD, anxiety disorders, and depressive disorders. <i>Journal of Anxiety Disorders</i> , 2008, 22, 734-749.	3.2	162
60	Time course of anger and other emotions in women with borderline personality disorder: A preliminary study. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2008, 39, 391-402.	1.2	51
61	Measuring effect sizes using manifest versus latent variables: consequences and implications for research. <i>International Journal of Rehabilitation Research</i> , 2008, 31, 207-216.	1.3	3
62	The impact of patient participation on adherence and clinical outcome in primary care of depression. <i>Patient Education and Counseling</i> , 2007, 65, 69-78.	2.2	208
63	How to make your own response boxes: A step-by-step guide for the construction of reliable and inexpensive parallel-port response pads from computer mice. <i>Behavior Research Methods</i> , 2007, 39, 797-801.	4.0	25
