#	ARTICLE	IF	CITATIONS
1	Upper airway changes in Class III patients using miniscrew-anchored maxillary protraction with hybrid and hyrax expanders: a randomized controlled trial. <i>Clinical Oral Investigations</i> , 2022, 26, 183-195.	3.0	6
2	Orthodontic-surgical treatment of Class III malocclusion with extraction of an impacted canine and multi-segmented maxillary surgery: An 8-year follow-up. <i>AJO-DO Clinical Companion</i> , 2022, , .	0.3	0
3	Periodontal status of maxillary central incisors after orthodontic traction: a longitudinal follow-up. <i>Journal of Applied Oral Science</i> , 2022, 30, e20210492.	1.8	2
4	Age estimation through third molar analysis using the Kullman method among Brazilians. <i>Forensic Imaging</i> , 2022, 28, 200492.	0.6	0
5	Late alveolar bone grafting in complete unilateral cleft lip and palate (UCLP): Biomechanical considerations for the success of orthodontic finishing. <i>Journal of Orthodontics</i> , 2022, 49, 457-462.	1.0	1
6	Concerns of orthodontic patients during the COVID-19 quarantine period. <i>Dental Press Journal of Orthodontics</i> , 2022, 27, e2220229.	0.9	1
7	Authors'™ response. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2022, 161, 616-617.	1.7	0
8	Authors'™ response. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2022, 161, 614-615.	1.7	1
9	Stability of first and second premolars extraction space closure. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2022, , .	1.7	0
10	Evaluation of root resorption following orthodontic intrusion: a systematic review and meta-analysis. <i>European Journal of Orthodontics</i> , 2021, 43, 432-441.	2.4	14
11	Stability of class II treatment with Pendulum and Jones jig followed by fixed appliances. <i>Orthodontics and Craniofacial Research</i> , 2021, 24, 370-378.	2.8	1
12	Dentoskeletal changes in open bite treatment using spurs and posterior build-ups: A randomized clinical trial. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2021, 159, 10-20.	1.7	8
13	Authors' response. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2021, 159, 6-7.	1.7	0
14	Effect of Class II camouflage treatment on anterior arch length ratio and canine relationship. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2021, 159, e7-e16.	1.7	2
15	Short-term efficacy of vacuum-formed maintainer for deciduous second molar space maintenance in the mixed dentition: A single-centre, randomized controlled clinical trial. <i>Orthodontics and Craniofacial Research</i> , 2021, 24, 502-510.	2.8	1
16	Treatment Effects of the Herbst Appliance in Class II Malocclusion Patients after the Growth Peak. <i>European Journal of Dentistry</i> , 2021, 15, 039-046.	1.7	6
17	Pretreatment dentoskeletal comparison between individuals treated with extractions in the 1970s and in the new millennium. <i>Clinical Oral Investigations</i> , 2021, 25, 1997-2005.	3.0	2
18	Dental arch changes comparison between expander with differential opening and fan-type expander: a randomized controlled trial. <i>European Journal of Orthodontics</i> , 2021, 43, 265-273.	2.4	7

#	ARTICLE	IF	CITATIONS
19	Orthopedic outcomes of hybrid and conventional Hyrax expanders:. Angle Orthodontist, 2021, 91, 178-186.	2.4	13
20	McNamara analysis cephalometric parameters in White-Brazilians, Japanese and Japanese-Brazilians with normal occlusion. Dental Press Journal of Orthodontics, 2021, 26, e2119133.	0.9	4
21	Sagittal, rotational and transverse changes with three intraoral distalization force systems: Jones jig, distal jet and first class. Journal of Clinical and Experimental Dentistry, 2021, 13, e455-e462.	1.2	2
22	Factors affecting the stability of maxillary extraction site closure. Dental Press Journal of Orthodontics, 2021, 26, e2119187.	0.9	1
23	Authors's™ response. American Journal of Orthodontics and Dentofacial Orthopedics, 2021, 159, e91.	1.7	0
24	Maxillary dentoskeletal outcomes of the expander with differential opening and the fan-type expander: a randomized controlled trial. Clinical Oral Investigations, 2021, 25, 5247-5256.	3.0	6
25	Three-dimensional mandibular dental changes with aging. American Journal of Orthodontics and Dentofacial Orthopedics, 2021, 159, 184-192.	1.7	7
26	Mechanical strength of stainless steel and titanium alloy mini-implants with different diameters: an experimental laboratory study. Progress in Orthodontics, 2021, 22, 9.	3.5	12
27	Authors' response. American Journal of Orthodontics and Dentofacial Orthopedics, 2021, 159, e189.	1.7	0
28	Prevention of non-cavitated lesions with fluoride and xylitol varnishes during orthodontic treatment: a randomized clinical trial. Clinical Oral Investigations, 2021, 25, 3421-3430.	3.0	5
29	Mesioangulation of mandibular second molars: A case report. Journal of Orthodontics, 2021, , 146531252110171.	1.0	0
30	Three-dimensional changes in root angulation of buccal versus palatal maxillary impacted canines after orthodontic traction: A retrospective before and after study. International Orthodontics, 2021, 19, 216-227.	1.9	3
31	Two-phase orthodontic treatment of two different types of tooth transposition in the same patient. Journal of Orthodontics, 2021, 48, 426-434.	1.0	4
32	Treatment Time of Class II Malocclusion, with and without Mandibular Crowding, Treated with Four Premolar Extractions: A Retrospective Study. Turkish Journal of Orthodontics, 2021, 34, 122-126.	1.1	1
33	Dental arch changes after open bite treatment with spurs associated with posterior build-ups in the mixed dentition: A randomized clinical trial. American Journal of Orthodontics and Dentofacial Orthopedics, 2021, 159, 714-723.e1.	1.7	6
34	Class II malocclusion treatment with a customized dual force distalizer. American Journal of Orthodontics and Dentofacial Orthopedics, 2021, 160, 743-756.	1.7	0
35	Dentoskeletal comparison of miniscrew-anchored maxillary protraction with hybrid and conventional hyrax expanders: A randomized clinical trial. American Journal of Orthodontics and Dentofacial Orthopedics, 2021, 160, 774-783.	1.7	10
36	Cephalometric radiographic comparison of alveolar bone height changes between adolescent and adult patients treated with premolar extractions: A retrospective study. International Orthodontics, 2021, 19, 633-640.	1.9	0

#	ARTICLE	IF	CITATIONS
37	Occlusal changes in orthodontically treated subjects 40 years after treatment and comparison with untreated control subjects. American Journal of Orthodontics and Dentofacial Orthopedics, 2021, 160, 671-685.	1.7	13
38	Comparison and reproducibility of three methods for maxillary digital dental model registration in open bite patients. Orthodontics and Craniofacial Research, 2021, , .	2.8	2
39	Changes in third molar position after Class II subdivision malocclusion treatment with asymmetric extractions. Orthodontics and Craniofacial Research, 2021, , .	2.8	2
40	Three-dimensional pharyngeal airway space changes after bimaxillary advancement. Dental Press Journal of Orthodontics, 2021, 26, e2119364.	0.9	1
41	Cephalometric changes during aging in subjects with normal occlusion. Journal of Applied Oral Science, 2021, 29, e20210199.	1.8	6
42	Evaluation of signs and symptoms of temporomandibular disorders in children and adolescents, before and after rapid maxillary expansion. Journal of Interdisciplinary Dentistry, 2021, 11, 108.	0.1	1
43	Strategies for compensatory orthodontic treatment of adult skeletal open bite. Journal of Clinical Orthodontics: JCO, 2021, 55, 419-428.	0.1	0
44	Mandibular incisor inclination and gingival recession after treatment with the Jasper Jumper: a 10-year follow-up. Progress in Orthodontics, 2021, 22, 45.	3.5	4
45	Maxillary expander with differential opening vs Hyrax expander: A randomized clinical trial. American Journal of Orthodontics and Dentofacial Orthopedics, 2020, 157, 7-18.	1.7	16
46	Evaluation of the influence of mandibular third molars on mandibular anterior crowding relapse. Acta Odontologica Scandinavica, 2020, 78, 297-302.	1.6	10
47	Comparison of Profile Attractiveness between Class III Orthodontic Camouflage and Predictive Tracing of Orthognathic Surgery. International Journal of Dentistry, 2020, 2020, 1-9.	1.5	10
48	Skeletal open bite cranial base characteristics in young Latin-American individuals with class I, II and III malocclusions: An observational study. International Orthodontics, 2020, 18, 237-245.	1.9	4
49	Transverse stability of Class II malocclusion correction with the pendulum appliance. American Journal of Orthodontics and Dentofacial Orthopedics, 2020, 158, 357-362.	1.7	1
50	Adult orthodontic retreatment of severe root resorption by skeletal anchorage: A case report. International Orthodontics, 2020, 18, 863-873.	1.9	0
51	Stability of Class II malocclusion treatment with the distal jet followed by fixed appliances. American Journal of Orthodontics and Dentofacial Orthopedics, 2020, 158, 363-370.	1.7	1
52	Dissipating tooth-mass discrepancy caused by a set of mandibular incisor anomalies. American Journal of Orthodontics and Dentofacial Orthopedics, 2020, 158, 738-751.	1.7	0
53	Diagnostic assessment of tooth maturation of the mandibular second molars as a skeletal maturation indicator: A retrospective longitudinal study. American Journal of Orthodontics and Dentofacial Orthopedics, 2020, 158, 383-390.	1.7	6
54	INFLUENCE OF LOW-LEVEL LASER IRRADIATION ON ORTHODONTIC MOVEMENT AND PAIN LEVEL - A RANDOMIZED CLINICAL TRIAL. Orthodontic Waves, 2020, 79, 105-112.	0.2	4

#	ARTICLE	IF	CITATIONS
55	Long-term occlusal changes and patient satisfaction in patients treated with and without extractions: 37 years after treatment. American Journal of Orthodontics and Dentofacial Orthopedics, 2020, 158, e17-e27.	1.7	8
56	Anterior tooth alignment and arch dimensions changes: 37-year follow-up in patients treated with and without premolar extraction. American Journal of Orthodontics and Dentofacial Orthopedics, 2020, 158, e5-e15.	1.7	11
57	Smile attractiveness in cases treated with self-ligating and conventional appliances with and without rapid maxillary expansion. Orthodontics and Craniofacial Research, 2020, 23, 413-418.	2.8	3
58	Low Intensity Laser Influence on Orthodontic Movement: A Randomized Clinical and Radiographic Trial. The Journal of Indian Orthodontic Society, 2020, 54, 127-134.	0.4	1
59	Dentoskeletal and soft-tissue changes comparison between the Jasper Jumper and Twin Force Bite Corrector in Class II malocclusion patients: A retrospective study. International Orthodontics, 2020, 18, 286-296.	1.9	0
60	Comparison of the dentoskeletal and soft tissue changes with the cervical headgear and Jones Jig followed by fixed appliances in Class II malocclusion patients: A retrospective study. International Orthodontics, 2020, 18, 424-435.	1.9	1
61	Authors' response. American Journal of Orthodontics and Dentofacial Orthopedics, 2020, 157, 734-735.	1.7	0
62	Evaluation of Mandibular First Molars'™ Axial Inclination and Alveolar Morphology in Different Facial Patterns: A CBCT Study. European Journal of Dentistry, 2020, 14, 250-259.	1.7	4
63	Authors' response. American Journal of Orthodontics and Dentofacial Orthopedics, 2020, 157, 733-734.	1.7	0
64	Miniscrew-anchored maxillary protraction in growing Class III patients. Journal of Orthodontics, 2020, 47, 170-180.	1.0	11
65	Dental anomaly pattern and multiple ectopic teeth. American Journal of Orthodontics and Dentofacial Orthopedics, 2020, 158, 102-113.	1.7	2
66	Influence of the growth pattern on cortical bone thickness and mini-implant stability. Dental Press Journal of Orthodontics, 2020, 25, 33-42.	0.9	5
67	Stability of maxillary interincisor diastema closure after extraction orthodontic treatment. Angle Orthodontist, 2020, 90, 627-633.	2.4	4
68	Cephalometric and occlusal changes of Class III malocclusion treated with or without extractions. Dental Press Journal of Orthodontics, 2020, 25, 24-32.	0.9	4
69	Incisor root length in individuals with and without anterior open bite: a comparative CBCT study. Dental Press Journal of Orthodontics, 2020, 25, 23e1-23e7.	0.9	5
70	Teeth angulations after class II treatment with the Jones Jig followed by fixed appliances: A retrospective panoramic analysis. International Orthodontics, 2020, 18, 436-442.	1.9	0
71	Class II malocclusion treatment changes with the Jones jig, Distal jet and First Class appliances. Journal of Applied Oral Science, 2020, 28, e20190364.	1.8	3
72	Elastic deflection study of nickel-titanium orthodontic wires: 3-point bending test X clinical simulation device. Journal of Interdisciplinary Dentistry, 2020, 10, 29.	0.1	1

#	ARTICLE	IF	CITATIONS
73	Aging of the normal occlusion. <i>European Journal of Orthodontics</i> , 2019, 41, 196-203.	2.4	18
74	Users'™ perceptions and preferences towards maxillary removable orthodontic retainers: a crossover randomized clinical trial. <i>Brazilian Oral Research</i> , 2019, 33, e078.	1.4	1
75	Prophylaxis protocols and their impact on bracket friction force. <i>Angle Orthodontist</i> , 2019, 89, 883-888.	2.4	2
76	Orthodontic brackets friction changes after clinical use: A systematic review. <i>Journal of Clinical and Experimental Dentistry</i> , 2019, 11, e482-e490.	1.2	11
77	Retreatment of a patient: Orthognathic surgery-first approach with customized lingual appliances combined with miniplate anchorage. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2019, 156, 675-684.	1.7	1
78	X-ray beam angulation can compromise 2-dimensional diagnosis of interradicular space for mini-implants. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2019, 156, 593-602.	1.7	2
79	Comparison of dentoskeletal and soft tissue effects of Class II malocclusion treatment with Jones Jig appliance and with maxillary first premolar extractions. <i>Dental Press Journal of Orthodontics</i> , 2019, 24, 56-65.	0.9	3
80	Time of maxillary molar distalization with non-compliance intraoral distalizing appliances: a meta-analysis. <i>European Journal of Orthodontics</i> , 2019, 41, 652-660.	2.4	8
81	Authors' response. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2019, 155, 614-615.	1.7	0
82	Superimposition of maxillary digital models using the palatal rugae: Does ageing affect the reliability?. <i>Orthodontics and Craniofacial Research</i> , 2019, 22, 183-193.	2.8	26
83	Cephalometric evaluation of rapid and slow maxillary expansion in patients with BCLP: Secondary data analysis from a randomized clinical trial. <i>Angle Orthodontist</i> , 2019, 89, 583-589.	2.4	5
84	Long-term profile attractiveness in Class II Division 1 malocclusion patients treated with and without extractions. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2019, 155, 362-371.	1.7	8
85	Dentoalveolar changes in adults promoted by the use of auxiliary expansion arch: A cbct study. <i>Journal of Clinical and Experimental Dentistry</i> , 2019, 11, 0-0.	1.2	3
86	Treatment time of Class I malocclusion four-premolar extraction protocol, with and without crowding: A retrospective study. <i>Journal of the World Federation of Orthodontists</i> , 2019, 8, 159-164.	2.3	0
87	Dental inclination with self-ligating and conventional fixed appliances, with and without rapid maxillary expansion. <i>Orthodontics and Craniofacial Research</i> , 2019, 22, 93-98.	2.8	1
88	Effects of Class II division 1 malocclusion treatment with three types of fixed functional appliances. <i>Dental Press Journal of Orthodontics</i> , 2019, 24, 30-39.	0.9	7
89	Dental, skeletal and soft tissue effects of the Distal Jet appliance: A prospective clinical study. <i>Dental Press Journal of Orthodontics</i> , 2019, 24, 56-64.	0.9	5
90	Evaluation of the force generated by gradual deflection of 0.016-inch NiTi and stainless steel orthodontic wires in self-ligating metallic and esthetic brackets. <i>Journal of Clinical and Experimental Dentistry</i> , 2019, 11, e464-e469.	1.2	8

#	ARTICLE	IF	CITATIONS
91	Impact of the nutrition education Program Nutriamigos® on levels of awareness on healthy eating habits in school-aged children. Journal of Human Growth and Development, 2019, 29, 390-402.	0.6	6
92	Comparison of torque expression in esthetic brackets. Journal of Clinical and Experimental Dentistry, 2019, 11, 0-0.	1.2	2
93	Force magnitude of nickel-titanium orthodontic wires. Journal of Interdisciplinary Dentistry, 2019, 9, 19.	0.1	0
94	Effects of Mandibular Protraction Appliance and Jasper Jumper in Class II Malocclusion Treatment. Open Dentistry Journal, 2019, 13, 53-60.	0.5	1
