#	ARTICLE	IF	CITATIONS
1	Research priorities for public mental health in Europe: recommendations of the ROAMER project. <i>European Journal of Public Health</i> , 2015, 25, 249-254.	0.3	113
2	Family-focused practice in mental health care: An integrative review. <i>Child and Youth Services</i> , 2016, 37, 129-155.	0.8	110
3	Prevalence of Posttraumatic Stress Disorder in Persons with Chronic Pain: A Meta-analysis. <i>Frontiers in Psychiatry</i> , 2017, 8, 164.	2.6	92
4	Predictors of involuntary hospitalizations to acute psychiatry. <i>International Journal of Law and Psychiatry</i> , 2013, 36, 136-143.	0.9	91
5	Recovery for all in the community; position paper on principles and key elements of community-based mental health care. <i>BMC Psychiatry</i> , 2019, 19, 174.	2.6	72
6	“It’s unbelievably humiliating” Patients’ expressions of negative effects of coercion in mental health care. <i>International Journal of Law and Psychiatry</i> , 2016, 49, 147-153.	0.9	69
7	Continuity of care as experienced by mental health service users - a qualitative study. <i>BMC Health Services Research</i> , 2017, 17, 763.	2.2	67
8	Development of a measure of model fidelity for mental health Crisis Resolution Teams. <i>BMC Psychiatry</i> , 2016, 16, 427.	2.6	59
9	A review of mental health recovery programs in selected industrialized countries. <i>International Journal of Mental Health Systems</i> , 2016, 10, 73.	2.7	56
10	Suicidal ideation in patients with mental illness and concurrent substance use: analyses of national census data in Norway. <i>BMC Psychiatry</i> , 2022, 22, 1.	2.6	51
11	Inter-rater Reliability of Clinician-rated Outcome Measures in Child and Adolescent Mental Health Services. <i>Administration and Policy in Mental Health and Mental Health Services Research</i> , 2007, 34, 504-512.	2.1	47
12	Children with ill parents: extent and nature of caring activities. <i>Scandinavian Journal of Caring Sciences</i> , 2018, 32, 793-804.	2.1	38
13	An implementation study of the crisis resolution team model in Norway: Are the crisis resolution teams fulfilling their role?. <i>BMC Health Services Research</i> , 2011, 11, 96.	2.2	36
14	Improving collaboration between primary care and mental health services. <i>World Journal of Biological Psychiatry</i> , 2019, 20, 748-765.	2.6	31
15	The quality of life when a partner has substance use problems: a scoping review. <i>Health and Quality of Life Outcomes</i> , 2018, 16, 219.	2.4	28
16	Adult Mental Health Outpatients Who Have Minor Children: Prevalence of Parents, Referrals of Their Children, and Patient Characteristics. <i>Frontiers in Psychiatry</i> , 2019, 10, 163.	2.6	27
17	Ethical challenges of seclusion in psychiatric inpatient wards: a qualitative study of the experiences of Norwegian mental health professionals. <i>BMC Health Services Research</i> , 2019, 19, 879.	2.2	27
18	Outcomes for children who care for a parent with a severe illness or substance abuse. <i>Child and Youth Services</i> , 2018, 39, 228-249.	0.8	26

#	ARTICLE	IF	CITATIONS
19	Walking the fine line: Self-reported reasons for substance use in persons with severe mental illness. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2013, 8, 21968.	1.6	24
20	Risk of violence among patients in psychiatric treatment: results from a national census. <i>Nordic Journal of Psychiatry</i> , 2017, 71, 551-560.	1.3	24
21	Group therapy in public mental health services: approaches, patients and group therapists. <i>Journal of Psychiatric and Mental Health Nursing</i> , 2014, 21, 219-225.	2.1	23
22	Block Training in Group Analysis: The Norwegian Program. <i>International Journal of Group Psychotherapy</i> , 1995, 45, 73-89.	0.6	22
23	Hospitals implementing changes in law to protect children of ill parents: a cross-sectional study. <i>BMC Health Services Research</i> , 2018, 18, 609.	2.2	22
24	Satisfaction with primary care and mental health care among individuals with severe mental illness in a rural area: a seven-year follow-up study of a clinical cohort. <i>International Journal of Mental Health Systems</i> , 2016, 10, 33.	2.7	21
25	Engagement in assertive community treatment as experienced by recovering clients with severe mental illness and concurrent substance use. <i>International Journal of Mental Health Systems</i> , 2014, 8, 40.	2.7	20
26	Predictors of family focused practice: organisation, profession, or the role as child responsible personnel?. <i>BMC Health Services Research</i> , 2019, 19, 793.	2.2	20
27	“At the extremities of life” Service user experiences of helpful help in mental health crises. <i>American Journal of Psychiatric Rehabilitation</i> , 2017, 20, 87-105.	0.7	19
28	Psychiatric admissions from crisis resolution teams in Norway: a prospective multicentre study. <i>BMC Psychiatry</i> , 2013, 13, 117.	2.6	18
29	Mental health professionals’ experiences with shared decision-making for patients with psychotic disorders: a qualitative study. <i>BMC Health Services Research</i> , 2020, 20, 1093.	2.2	18
30	Factors associated with quality of life for children affected by parental illness or substance abuse. <i>Scandinavian Journal of Caring Sciences</i> , 2021, 35, 405-419.	2.1	18
31	Editorial Perspective: Prato Research Collaborative for change in parent and child mental health – principles and recommendations for working with children and parents living with parental mental illness. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2022, 63, 350-353.	5.2	18
32	The association between GP and patient ratings of quality of care at outpatient clinics. <i>Family Practice</i> , 2009, 26, 384-390.	1.9	17
33	Post-traumatic stress disorder moderates the relationship between trauma exposure and chronic pain. <i>HÅgre Utbildning</i> , 2017, 8, 1375337.	3.0	17
34	Quality of life and service satisfaction in outpatients with severe or non-severe mental illness diagnoses. <i>Quality of Life Research</i> , 2019, 28, 713-724.	3.1	17
35	Health-related quality of life (HRQoL) in children of ill or substance abusing parents: examining factor structure and sub-group differences. <i>Quality of Life Research</i> , 2019, 28, 1063-1073.	3.1	17
36	Are Users Satisfied with Assertive Community Treatment in Spite of Personal Restrictions?. <i>Community Mental Health Journal</i> , 2016, 52, 891-897.	2.0	16

#	ARTICLE	IF	CITATIONS
37	Hospitalization of high and low inpatient service users before and after enrollment into Assertive Community Treatment teams: a naturalistic observational study. <i>International Journal of Mental Health Systems</i> , 2016, 10, 14.	2.7	16
38	“We are different people”: A narrative analysis of carers’ experiences with mental health crisis and support from crisis resolution teams. <i>Social Work in Mental Health</i> , 2016, 14, 658-675.	1.0	16
39	Service users’ expectations of treatment and support at the Community Mental Health Centre in their recovery. <i>Scandinavian Journal of Caring Sciences</i> , 2017, 31, 505-513.	2.1	16
40	Experiences of support in working toward personal recovery goals: a collaborative, qualitative study. <i>BMC Psychiatry</i> , 2016, 16, 426.	2.6	15
41	Collaborative care for mental health: a qualitative study of the experiences of patients and health professionals. <i>BMC Health Services Research</i> , 2020, 20, 844.	2.2	15
42	Perceived quality of life in partners of patients undergoing treatment in somatic health, mental health, or substance use disorder units: a cross-sectional study. <i>Health and Quality of Life Outcomes</i> , 2017, 15, 172.	2.4	14
