#	ARTICLE	IF	CITATIONS
1	Managing Outliers in Adolescent Food Frequency Questionnaire Data. <i>Journal of Nutrition Education and Behavior</i> , 2021, 53, 28-35.	0.7	4
2	Toward the Development of a Culturally Humble Intervention to Improve Glycemic Control and Quality of Life among Adolescents with Type-1 Diabetes and Their Families. <i>Behavioral Medicine</i> , 2021, 47, 99-110.	1.9	4
3	Effects of family and neighborhood risks on glycemic control among young black adolescents with type 1 diabetes: Findings from a multi-center study. <i>Pediatric Diabetes</i> , 2021, 22, 511-518.	2.9	9
4	Optimizing Recruitment of Black Adolescents into Behavioral Research: A Multi-Center Study. <i>Journal of Pediatric Psychology</i> , 2021, 46, 611-620.	2.1	16
5	Development of the Motivational Interviewing Coach Rating Scale (MI-CRS) for health equity implementation contexts. <i>Health Psychology</i> , 2021, 40, 439-449.	1.6	9
6	Naturalistically observed interpersonal problems and diabetes management in older adolescents and young adults with type 1 diabetes. <i>Psychology and Health</i> , 2021, , 1-16.	2.2	0
7	An mHealth-Based Intervention for Adolescents With Type 1 Diabetes and Their Parents: Pilot Feasibility and Efficacy Single-Arm Study. <i>JMIR MHealth and UHealth</i> , 2021, 9, e23916.	3.7	11
8	Improving Diabetes Management in Emerging Adulthood: An Intervention Development Study Using the Multiphase Optimization Strategy. <i>JMIR Research Protocols</i> , 2020, 9, e20191.	1.0	1
9	Efficacy of Mindfulness-Based Stress Reduction in Emerging Adults with Poorly Controlled, Type 1 Diabetes: A Pilot Randomized Controlled Trial. <i>Pediatric Diabetes</i> , 2019, 20, 226-234.	2.9	21
10	Physical Activity as a Predictor of Changes in Systolic Blood Pressure for African-American Adolescents Seeking Treatment for Obesity. <i>Journal of Adolescent Health</i> , 2019, 65, 430-432.	2.5	4
11	Outcomes From a Sequential Multiple Assignment Randomized Trial of Weight Loss Strategies for African American Adolescents With Obesity. <i>Annals of Behavioral Medicine</i> , 2019, 53, 928-938.	2.9	15
12	African-American Adolescents' Weight Loss Skills Utilization: Effects on Weight Change in a Sequential Multiple Assignment Randomized Trial. <i>Journal of Adolescent Health</i> , 2019, 64, 355-361.	2.5	8
13	Adaptation of an Evidence-Based Diabetes Management Intervention for Delivery in Community Settings: Findings From a Pilot Randomized Effectiveness Trial. <i>Journal of Pediatric Psychology</i> , 2019, 44, 110-125.	2.1	13
14	African American Adolescent-Caregiver Relationships in a Weight Loss Trial. <i>Journal of Child and Family Studies</i> , 2018, 27, 835-842.	1.3	6
15	Feasibility of Mindfulness-Based Stress Reduction for older adolescents and young adults with poorly controlled type 1 diabetes. <i>Health Psychology and Behavioral Medicine</i> , 2018, 6, 1-14.	1.8	14
16	Promoting resilience through neurocognitive functioning in youth living with HIV. <i>AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV</i> , 2018, 30, 59-64.	1.2	10
17	Comprehensive Community-Based Intervention and Asthma Outcomes in African American Adolescents. <i>Pediatrics</i> , 2018, 142, .	2.1	15
18	Older African American Men's Perspectives on Factors That Influence Type 2 Diabetes Self-Management and Peer-Led Interventions. <i>Geriatrics (Switzerland)</i> , 2018, 3, 38.	1.7	8

#	ARTICLE	IF	CITATIONS
19	Brief Computer-Delivered Intervention to Increase Parental Monitoring in Families of African American Adolescents with Type 1 Diabetes: A Randomized Controlled Trial. <i>Telemedicine Journal and E-Health</i> , 2017, 23, 493-502.	2.8	17
20	Biopsychosocial pathways linking subjective socioeconomic disadvantage to glycemic control in youths with type I diabetes. <i>Psychoneuroendocrinology</i> , 2017, 78, 222-228.	2.7	11
21	Improving Diabetes-Related Parent-Adolescent Communication With Individualized Feedback. <i>Journal of Pediatric Psychology</i> , 2017, 42, 1114-1122.	2.1	2
22	Mediators of Treatment Effects in a Randomized Clinical Trial of Multisystemic Therapy-Health Care in Adolescents With Poorly Controlled Asthma: Disease Knowledge and Device Use Skills. <i>Journal of Pediatric Psychology</i> , 2016, 41, 522-530.	2.1	13
23	Sequential Multiple Assignment Randomized Trial (SMART) to Construct Weight Loss Interventions for African American Adolescents. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2016, 45, 428-441.	3.4	62
24	Effects of Socio-Demographic Factors on Parental Monitoring, and Regimen Adherence Among Adolescents with Type 1 Diabetes: A Moderation Analysis. <i>Journal of Child and Family Studies</i> , 2016, 25, 176-188.	1.3	14
25	Individual, social and environmental predictors of physical activity in severe to morbid obese African American adolescents. <i>Acta Universitatis Carolinae: Kinanthropologica</i> , 2016, 52, 5-18.	0.3	1
26	Recruitment Strategies and the Retention of Obese Urban Racial/Ethnic Minority Adolescents in Clinical Trials: The FIT Families Project, Michigan, 2010-2014. <i>Preventing Chronic Disease</i> , 2015, 12, E22.	3.4	35
27	Computerized intervention to increase motivation for diabetes self-management in adolescents with type 1 diabetes. <i>Health Psychology and Behavioral Medicine</i> , 2015, 3, 236-250.	1.8	12
28	Multisystemic Therapy Improves the Patient-Provider Relationship in Families of Adolescents with Poorly Controlled Insulin Dependent Diabetes. <i>Journal of Clinical Psychology in Medical Settings</i> , 2015, 22, 169-178.	1.4	10
29	Effects of Family Treatment on Parenting Beliefs Among Caregivers of Youth With Poorly Controlled Asthma. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2014, 35, 486-493.	1.1	13
30	Adherence to asthma medication regimens in urban African American adolescents: Application of self-determination theory. <i>Health Psychology</i> , 2014, 33, 461-464.	1.6	32
31	Multisystemic Therapy for high-risk African American adolescents with asthma: A randomized clinical trial. <i>Journal of Consulting and Clinical Psychology</i> , 2014, 82, 536-545.	2.0	44
32	Enhancing Parental Motivation to Monitor African American Adolescents' Diabetes Care: Development and Beta Test of a Brief Computer-Delivered Intervention. <i>JMIR Research Protocols</i> , 2014, 3, e43.	1.0	6
33	Multisystemic therapy for poorly adherent youth with HIV: Results from a pilot randomized controlled trial. <i>AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV</i> , 2013, 25, 507-514.	1.2	43
34	Asthma Medication Device Skills in High-Risk African American Adolescents. <i>Journal of Asthma</i> , 2013, 50, 579-582.	1.7	7
35	Adolescent and Parent Motivation for Change Affects Psychotherapy Outcomes Among Youth With Poorly Controlled Diabetes. <i>Journal of Pediatric Psychology</i> , 2012, 37, 75-84.	2.1	16
36	Psychometric Properties of the Revised Parental Monitoring of Diabetes Care Questionnaire in Adolescents With Type 1 Diabetes. <i>Journal of Adolescent Health</i> , 2012, 50, 289-295.	2.5	20

#	ARTICLE	IF	CITATIONS
37	Factors Associated with Weight Resilience in Obesogenic Environments in Female African-American Adolescents. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2012, 112, 718-724.	0.8	20
38	Multisystemic Therapy Compared to Telephone Support for Youth with Poorly Controlled Diabetes: Findings from a Randomized Controlled Trial. <i>Annals of Behavioral Medicine</i> , 2012, 44, 207-215.	2.9	85
39	Social Support for Diabetes Illness Management: Supporting Adolescents and Caregivers. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2011, 32, 581-590.	1.1	40
40	Treatment Engagement in a Weight Loss Intervention for African American Adolescents and Their Families. <i>Children's Health Care</i> , 2011, 40, 232-252.	0.9	4
41	Dietary Vitamin D Intake Among High-Risk Adolescents With Insulin Dependent Diabetes. <i>The Diabetes Educator</i> , 2011, 37, 222-226.	2.5	6
42	The Effects of Multisystemic Therapy on Family Support for Weight Loss Among Obese African-American Adolescents: Findings From a Randomized Controlled Trial. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2010, 31, 461-468.	1.1	25
43	The Effects of Parental Depression and Parenting Practices on Depressive Symptoms and Metabolic Control in Urban Youth with Insulin Dependent Diabetes. <i>Journal of Pediatric Psychology</i> , 2010, 35, 426-435.	2.1	79
44	Case Study: Multisystemic Therapy for Adolescents Who Engage in HIV Transmission Risk Behaviors. <i>Journal of Pediatric Psychology</i> , 2010, 35, 120-127.	2.1	5
45	Predictors of Home-Based Obesity Treatment Efficacy for African American Youth. <i>Children's Health Care</i> , 2010, 39, 1-14.	0.9	15
46	Treating Pediatric Obesity Using an Empirically Supported Treatment: A Case Report. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2009, 39, 141-150.	3.4	5
47	Feasibility of Adapting Multisystemic Therapy to Improve Illness Management Behaviors and Reduce Asthma Morbidity in High Risk African American Youth: A Case Series. <i>Journal of Child and Family Studies</i> , 2009, 18, 564-573.	1.3	14
48	A Randomized Pilot Study of Multisystemic Therapy Targeting Obesity in African-American Adolescents. <i>Journal of Adolescent Health</i> , 2009, 45, 417-419.	2.5	46
49	The Parental Monitoring of Diabetes Care Scale: Development, Reliability and Validity of a Scale to Evaluate Parental Supervision of Adolescent Illness Management. <i>Journal of Adolescent Health</i> , 2008, 42, 146-153.	2.5	36
50	Multisystemic Therapy for Adolescents With Poorly Controlled Type 1 Diabetes. <i>Diabetes Care</i> , 2008, 31, 1746-1747.	8.6	107
51	Toward Conceptual Clarity in a Critical Parenting Construct: Parental Monitoring in Youth with Chronic Illness. <i>Journal of Pediatric Psychology</i> , 2008, 33, 799-808.	2.1	38
52	Multisystemic therapy for adolescents with poorly controlled type I diabetes: Stability of treatment effects in a randomized controlled trial.. <i>Journal of Consulting and Clinical Psychology</i> , 2007, 75, 168-174.	2.0	75
53	The Role of Parental Monitoring in Adolescent Health Outcomes: Impact on Regimen Adherence in Youth with Type 1 Diabetes. <i>Journal of Pediatric Psychology</i> , 2007, 32, 907-917.	2.1	200
54	Improving health outcomes among youth with poorly controlled type I diabetes: The role of treatment fidelity in a randomized clinical trial of multisystemic therapy.. <i>Journal of Family Psychology</i> , 2007, 21, 363-371.	1.3	41

#	ARTICLE	IF	CITATIONS
55	Multisystemic therapy decreases parental overestimation of adolescent responsibility for type 1 diabetes management in urban youth.. Families, Systems and Health, 2007, 25, 178-189.	0.6	23
56	Predicting metabolic control in the first 5â€ƒyr after diagnosis for youths with type 1 diabetes: the role of ethnicity and family structure. Pediatric Diabetes, 2007, 8, 220-227.	2.9	42
57	The effects of weight status on treatment outcomes in a randomized clinical trial of multisystemic therapy for adolescents with type 1 diabetes and chronically poor metabolic control. Pediatric Diabetes, 2007, 8, 206-213.	2.9	13
58	An intake profile of obese African American Adolescents (AAA) living in Detroit, MI. FASEB Journal, 2007, 21, A710.	0.5	0
59	Social ecological model of illness management in high-risk youths with type 1 diabetes.. Journal of Consulting and Clinical Psychology, 2006, 74, 785-789.	2.0	59
60	Achieving Adherence to Antiretroviral Medications for Pediatric HIV Disease Using an Empirically Supported Treatment. Journal of Developmental and Behavioral Pediatrics, 2006, 27, 44-50.	1.1	9
61	Family Mediators and Moderators of Treatment Outcomes Among Youths with Poorly Controlled Type 1 Diabetes: Results From a Randomized Controlled Trial. Journal of Pediatric Psychology, 2006, 32, 194-205.	2.1	48
62	Use of Multisystemic Therapy to Improve Antiretroviral Adherence and Health Outcomes in HIV-Infected Pediatric Patients: Evaluation of a Pilot Program. AIDS Patient Care and STDs, 2006, 20, 112-121.	2.5	60
63	The Effects of Multisystemic Therapy on Diabetes Stress Among Adolescents With Chronically Poorly Controlled Type 1 Diabetes: Findings From a Randomized, Controlled Trial. Pediatrics, 2005, 116, e826-e832.	2.1	77
64	Multisystemic Treatment of Poorly Controlled Type 1 Diabetes: Effects on Medical Resource Utilization. Journal of Pediatric Psychology, 2005, 30, 656-666.	2.1	59
65	Use of Multisystemic Therapy to Improve Regimen Adherence Among Adolescents With Type 1 Diabetes in Chronic Poor Metabolic Control: A randomized controlled trial. Diabetes Care, 2005, 28, 1604-1610.	8.6	191
66	Diabetes Management in Adolescents in Poor Metabolic Control. The Diabetes Educator, 2004, 30, 647-657.	2.5	28
67	Use of Multisystemic Therapy to Improve Regimen Adherence Among Adolescents with Type 1 Diabetes in Poor Metabolic Control: A Pilot Investigation. Journal of Clinical Psychology in Medical Settings, 2004, 11, 315-324.	1.4	49
68	Case Study: Feasibility of Multisystemic Therapy as a Treatment for Urban Adolescents With Poorly Controlled Type 1 Diabetes. Journal of Pediatric Psychology, 2003, 28, 287-293.	2.1	29
69	Intellectual, Cognitive, and Academic Performance Among Sons of Alcoholics During the Early School Years: Differences Related to Subtypes of Familial Alcoholism. Alcoholism: Clinical and Experimental Research, 2000, 24, 1020-1027.	2.4	74
70	Intellectual, Cognitive, and Academic Performance Among Sons of Alcoholics During the Early School Years: Differences Related to Subtypes of Familial Alcoholism. Alcoholism: Clinical and Experimental Research, 2000, 24, 1020-1027.	2.4	5
71	The Development of Alcoholic Subtypes: Risk Variation Among Alcoholic Families During the Early Childhood Years. Alcohol Health and Research World, 1996, 20, 46-54.	0.2	25
