## Désirée B Maltais

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/4761043/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	Rehabilitation interventions to modify endocrine-metabolic disease risk in individuals with chronic spinal cord injury living in the community (RIISC): A systematic search and review of prospective cohort and case–control studies. Journal of Spinal Cord Medicine, 2023, 46, 6-25.	1.4	4
2	Participation in leisure activities in adolescents with congenital heart defects. Developmental Medicine and Child Neurology, 2020, 62, 946-953.	2.1	8
3	Growth and muscle strength development in children with developmental coordination disorder. Developmental Medicine and Child Neurology, 2020, 62, 1082-1088.	2.1	2
4	Availability and Quality of Web Resources for Parents of Children With Disability: Content Analysis and Usability Study. JMIR Pediatrics and Parenting, 2020, 3, e19669.	1.6	5
5	Reliability of Inclinometer-Derived Passive Range of Motion Measures in Youth with Cerebral Palsy. Physical and Occupational Therapy in Pediatrics, 2019, 39, 655-668.	1.3	4
6	Validity of Instrumented Insoles for Step Counting, Posture and Activity Recognition: A Systematic Review. Sensors, 2019, 19, 2438.	3.8	31
7	Design and Accuray of an Instrumented Insole Using Pressure Sensors for Step Count. Sensors, 2019, 19, 984.	3.8	33
8	Children and Teens in Charge of their Health (CATCH): A protocol for a feasibility randomised controlled trial of solution-focused coaching to foster healthy lifestyles in childhood disability. BMJ Open, 2019, 9, e025119.	1.9	4
9	Clinician's Commentary on Hayes et al Physiotherapy Canada Physiotherapie Canada, 2019, 71, 195-195.	0.6	0
10	A Comparison of Developmental Outcomes of Adolescent Neonatal Intensive Care Unit Survivors Born with a Congenital Heart Defect or Born Preterm. Journal of Pediatrics, 2019, 207, 34-41.e2.	1.8	23
11	Use of clinical measures to document the effect of passive cycling on knee extensor spasticity and the ability to perform activities of daily living in spinal cord injury: a case report. International Journal of Rehabilitation Research, 2018, 41, 92-94.	1.3	0
12	Ottawa Panel Evidence-Based Clinical Practice Guidelines for Structured Physical Activity in the Management of Juvenile Idiopathic Arthritis. Archives of Physical Medicine and Rehabilitation, 2017, 98, 1018-1041.	0.9	36
13	Educational and rehabilitation service utilization in adolescents born preterm or with a congenital heart defect and at high risk for disability. Developmental Medicine and Child Neurology, 2017, 59, 1056-1062.	2.1	8
14	Rehabilitation Interventions to modify endocrine-metabolic disease risk in Individuals with chronic Spinal cord injury living in the Community (RIISC): A systematic review and scoping perspective. Journal of Spinal Cord Medicine, 2017, 40, 733-747.	1.4	16
15	Acute Physical Exercise Affects Cognitive Functioning in Children With Cerebral Palsy. Pediatric Exercise Science, 2016, 28, 304-311.	1.0	12
16	A Call to Action: Setting the Research Agenda for Addressing Obesity and Weight-Related Topics in Children with Physical Disabilities. Childhood Obesity, 2016, 12, 59-69.	1.5	18
17	Impact of a short walking exercise on gait kinematics in children with cerebral palsy who walk in a crouch gait. Clinical Biomechanics, 2016, 34, 18-21.	1.2	20
18	Ottawa Panel Evidence-Based Clinical Practice Guidelines for Foot Care in the Management of Juvenile Idiopathic Arthritis. Archives of Physical Medicine and Rehabilitation, 2016, 97, 1163-1181.e14.	0.9	3

Désirée B Maltais

#	Article	IF	CITATIONS
19	What we can learn from existing evidence about physical activity for juvenile idiopathic arthritis?. Rheumatology, 2015, 55, kev389.	1.9	3
20	Hand-Held Dynamometry Isometric Torque Reference Values for Children and Adolescents. Pediatric Physical Therapy, 2015, 27, 414-423.	0.6	38
21	Health-Related Physical Fitness for Children With Cerebral Palsy. Journal of Child Neurology, 2014, 29, 1091-1100.	1.4	57
22	Participation and enjoyment of leisure activities in adolescents born at â‰ <b>2</b> 9week gestation. Early Human Development, 2014, 90, 307-314.	1.8	17
23	Translation, cross-cultural adaptation and validation of the French version of the Knee Outcome Survey–Activities of Daily Living Scale. Clinical Rehabilitation, 2014, 28, 614-623.	2.2	23
24	Child and environmental factors associated with leisure participation in adolescents born extremely preterm. Early Human Development, 2014, 90, 665-672.	1.8	16
25	Anaerobic Performance in Children With Cerebral Palsy Compared to Children With Typical Development. Pediatric Physical Therapy, 2013, 25, 409-413.	0.6	15
26	Measuring steady-state oxygen uptake during the 6-min walk test in adults with cerebral palsy. International Journal of Rehabilitation Research, 2012, 35, 181-183.	1.3	12
27	Locomotor Tests Predict Community Mobility in Children and Youth With Cerebral Palsy. Adapted Physical Activity Quarterly, 2012, 29, 266-277.	0.8	5
28	Relationships Between Lower Limb Muscle Strength and Locomotor Capacity in Children and Adolescents with Cerebral Palsy Who Walk Independently. Physical and Occupational Therapy in Pediatrics, 2012, 32, 320-332.	1.3	23
29	The 220â€age equation does not predict maximum heart rate in children and adolescents. Developmental Medicine and Child Neurology, 2011, 53, 861-864.	2.1	53
30	Isometric Muscle Strength in Youth Assessed by Hand-held Dynamometry. Pediatric Physical Therapy, 2011, 23, 289-299.	0.6	183
31	Muscle Strengthening in Children and Adolescents With Spastic Cerebral Palsy: Considerations for Future Resistance Training Protocols. Physical Therapy, 2011, 91, 1130-1139.	2.4	119
32	Factors Related to Physical Activity in Adults with Cerebral Palsy May Differ for Walkers and Nonwalkers. American Journal of Physical Medicine and Rehabilitation, 2010, 89, 584-597.	1.4	20
33	The influence of selected personal and environmental factors on leisure activities in adults with cerebral palsy. Disability and Rehabilitation, 2010, 32, 1328-1338.	1.8	32
34	Physical Activity Level is Associated with the O2 Cost of Walking in Cerebral Palsy. Medicine and Science in Sports and Exercise, 2005, 37, 347-353.	0.4	107
35	A Clinical Practice Guide to Enhance Physical Activity Participation for Children with Developmental Coordination Disorder in Canada. Physiotherapy Canada Physiotherapie Canada, 0, , .	0.6	0
