#	ARTICLE	IF	CITATIONS
1	The feasibility and acceptability of a brief psychological intervention for adults with long-term health conditions and subthreshold depression delivered via community pharmacies: a mixed methods evaluation—the Community Pharmacies Mood Intervention Study (CHEMIST). Pilot and Feasibility Studies, 2022, 8, 27.	1.2	3
2	Interventions developed to reduce secondary care utilisation in patients with type 2 diabetes mellitus: a narrative review. International Journal of Pharmacy Practice, 2022, 30, 116-128.	0.6	1
3	Service Users’s Views and Experiences of Alcohol Relapse Prevention Treatment and Adherence: New Role for Pharmacists?. Alcohol and Alcoholism, 2022, 57, 602-608.	1.6	1
4	A psychological intervention by community pharmacies to prevent depression in adults with subthreshold depression and long-term conditions: the CHEMIST pilot RCT. Public Health Research, 2022, 10, 1-160.	1.3	2
5	Initial cardiovascular treatment patterns during the first 90 days following an incident cardiovascular event. British Journal of Clinical Pharmacology, 2021, 87, 1043-1055.	2.4	3
6	Impact of multiple cardiovascular medications on mortality after an incidence of ischemic stroke or transient ischemic attack. BMC Medicine, 2021, 19, 24.	5.5	3
7	Patient and public perception and experience of community pharmacy services post-discharge in the UK: a rapid review and qualitative study. BMJ Open, 2021, 11, e043344.	1.9	9
8	Prevalence of adverse drug reactions in the primary care setting: A systematic review and meta-analysis. PLoS ONE, 2021, 16, e0252161.	2.5	43
9	Structured medication reviews: origins, implementation, evidence, and prospects. British Journal of General Practice, 2021, 71, 340-341.	1.4	14
10	Young people’s perceptions of accessing a community pharmacy for a chlamydia testing kit: a qualitative study based in North East England. BMJ Open, 2021, 11, e052228.	1.9	3
11	Process study within a pilot cluster randomised trial in community pharmacy: An exploration of pharmacist readiness for research. Research in Social and Administrative Pharmacy, 2021, 17, 1750-1757.	3.0	8
12	Addressing complex pharmacy consultations: methods used to develop a person-centred intervention to highlight alcohol within pharmacist reviews of medications. Addiction Science & Clinical Practice, 2021, 16, 63.	2.6	6
13	Evaluation of the practice of dose-rounding in paediatrics. International Journal of Pharmacy Practice, 2020, 28, 107-110.	0.6	2
14	Community pharmacist led medication reviews in the UK: A scoping review of the medicines use review and the new medicine service literatures. Research in Social and Administrative Pharmacy, 2020, 16, 111-122.	3.0	43
15	A pilot cluster randomised trial of the Medicines and Alcohol Consultation (MAC): an intervention to discuss alcohol use in community pharmacy medicine review services. BMC Health Services Research, 2020, 20, 943.	2.2	9
16	Diabetes medications and risk of Parkinson’s disease: a cohort study of patients with diabetes. Brain, 2020, 143, 3067-3076.	7.6	108
17	Epidemiology and treatment of atrial fibrillation in patients with type 2 diabetes in the UK, 2001–2016. Scientific Reports, 2020, 10, 12468.	3.3	7
18	Attitudes and perceptions towards hypoglycaemia in patients with diabetes mellitus: A multinational cross-sectional study. PLoS ONE, 2019, 14, e0222275.	2.5	13

#	ARTICLE	IF	CITATIONS
19	Community Pharmacies Mood Intervention Study (CHEMIST): feasibility and external pilot randomised controlled trial protocol. Pilot and Feasibility Studies, 2019, 5, 71.	1.2	4
20	Standardised concentrations of morphine infusions for nurse/patient-controlled analgesia use in children. BMC Anesthesiology, 2019, 19, 26.	1.8	4
21	Discussing alcohol in medicines use reviews: experiences of patients in a community pharmacy context. International Journal of Pharmacy Practice, 2019, 27, 318-321.	0.6	0
22	Current practice of preparing morphine infusions for nurse/patient-controlled analgesia in a UK paediatric hospital: healthcare professionals' views and experiences. European Journal of Hospital Pharmacy, 2018, 25, 327-330.	1.1	2
23	Use of multiple antidiabetic medications in patients with diabetes and its association with hypoglycaemic events: a case-crossover study in Jordan. BMJ Open, 2018, 8, e024909.	1.9	8
24	Improving specialist drug prescribing in primary care using task and error analysis: an observational study. British Journal of General Practice, 2017, 67, e157-e167.	1.4	12
25	Use of a service evaluation and lean thinking transformation to redesign an NHS 111 refer to community Pharmacy for Emergency Repeat Medication Supply Service (PERMSS). BMJ Open, 2016, 6, e011269.	1.9	7
26	Sources and magnitude of error in preparing morphine infusions for nurse-patient controlled analgesia in a UK paediatric hospital. International Journal of Clinical Pharmacy, 2016, 38, 1069-1074.	2.1	10
27	Summative service and stakeholder evaluation of an NHS-funded community Pharmacy Emergency Repeat Medication Supply Service (PERMSS). BMJ Open, 2016, 6, e009736.	1.9	7
28	Qualitative process study of community pharmacist brief alcohol intervention effectiveness trial: Can research participation effects explain a null finding?. Drug and Alcohol Dependence, 2016, 161, 36-41.	3.2	20
29	The effectiveness of brief alcohol interventions delivered by community pharmacists: randomized controlled trial. Addiction, 2015, 110, 1586-1594.	3.3	44
30	A pre-postintervention study to evaluate the impact of dose calculators on the accuracy of gentamicin and vancomycin initial doses. BMJ Open, 2015, 5, e006610-e006610.	1.9	15
31	The feasibility of using dose-banded syringes to improve the safety and availability of patient-controlled opioid analgesic infusions in children. European Journal of Hospital Pharmacy, 2014, 21, 306-308.	1.1	6
32	Statin-related adverse drug reactions in UK primary care consultations: A retrospective cohort study to evaluate the risk of cardiovascular events and all-cause mortality. British Journal of Clinical Pharmacology, 0, , .	2.4	3
