#	ARTICLE	IF	CITATIONS
1	Predictors of new onsets of irritable bowel syndrome, chronic fatigue syndrome and fibromyalgia: the lifelines study. <i>Psychological Medicine</i> , 2022, 52, 112-120.	4.5	13
2	The risk factors for self-reported fibromyalgia with and without multiple somatic symptoms: The Lifelines cohort study. <i>Journal of Psychosomatic Research</i> , 2022, 155, 110745.	2.6	10
3	Risk Factors for Self-reported Irritable Bowel Syndrome With Prior Psychiatric Disorder: The Lifelines Cohort Study. <i>Journal of Neurogastroenterology and Motility</i> , 2022, 28, 442-453.	2.4	6
4	A review of the incidence and risk factors for fibromyalgia and chronic widespread pain in population-based studies. <i>Pain</i> , 2020, 161, 1169-1176.	4.2	81
5	Review article: the incidence and risk factors for irritable bowel syndrome in population-based studies. <i>Alimentary Pharmacology and Therapeutics</i> , 2019, 50, 507-516.	3.7	59
6	Associations between antenatal depression and neonatal outcomes in Malawi. <i>Maternal and Child Nutrition</i> , 2019, 15, e12709.	3.0	9
7	Management of Functional Somatic Syndromes and Bodily Distress. <i>Psychotherapy and Psychosomatics</i> , 2018, 87, 12-31.	8.8	202
8	Reply to the Letter by Van Den Eede and Van der Feltz-Cornelis Related to Our Paper "Management of Functional Somatic Syndromes and Bodily Distress". <i>Psychotherapy and Psychosomatics</i> , 2018, 87, 236-236.	8.8	0
9	The associated features of multiple somatic symptom complexes. <i>Journal of Psychosomatic Research</i> , 2018, 112, 1-8.	2.6	18
10	Exploding myths about medically unexplained symptoms. <i>Journal of Psychosomatic Research</i> , 2016, 85, 91-93.	2.6	21
11	Authors' reply. <i>British Journal of Psychiatry</i> , 2014, 204, 322-323.	2.8	0
12	Total somatic symptom score as a predictor of health outcome in somatic symptom disorders. <i>British Journal of Psychiatry</i> , 2013, 203, 373-380.	2.8	107
13	Emerging themes in the revision of the classification of somatoform disorders. <i>International Review of Psychiatry</i> , 2012, 24, 556-567.	2.8	23
14	The Relationship Between Somatic Symptoms, Health Anxiety, and Outcome in Medical Out-Patients. <i>Psychiatric Clinics of North America</i> , 2011, 34, 545-564.	1.3	27
15	Epidemiology: prevalence, causes and consequences. , 2011, , 1-42.		16
16	Current state of management and organisation of care. , 2011, , 97-123.		6
17	Barriers to improving treatment. , 2011, , 124-131.		10
18	Gender, lifespan and cultural aspects. , 2011, , 132-157.		10

#	ARTICLE	IF	CITATIONS
19	Depressive disorder and social stress in Pakistan compared to people of Pakistani origin in the UK. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2011, 46, 1153-1159.	3.1	4
20	Social intervention for British Pakistani women with depression: randomised controlled trial. <i>British Journal of Psychiatry</i> , 2010, 197, 227-233.	2.8	55
21	Psychological Distress, Somatization, and Defense Mechanisms Associated with Quality of Life in Inflammatory Bowel Disease Patients. <i>Digestive Diseases and Sciences</i> , 2010, 55, 724-732.	2.3	36
22	Is there a better term than "Medically unexplained symptoms"? <i>Journal of Psychosomatic Research</i> , 2010, 68, 5-8.	2.6	172
23	The genetic, physiological and psychological mechanisms underlying disabling medically unexplained symptoms and somatisation. <i>Journal of Psychosomatic Research</i> , 2010, 68, 395-397.	2.6	13
24	Development and pilot testing of a social intervention for depressed women of Pakistani family origin in the UK. <i>Journal of Mental Health</i> , 2009, 18, 504-509.	1.9	19
25	Psychodynamic interpersonal therapy and improvement in interpersonal difficulties in people with severe irritable bowel syndrome. <i>Pain</i> , 2009, 145, 196-203.	4.2	57
26	Somatization is associated with physical health-related quality of life independent of anxiety and depression in cancer, glaucoma and rheumatological disorders. <i>Quality of Life Research</i> , 2009, 18, 1029-1042.	3.1	30
27	Persistent depressive disorders and social stress in people of Pakistani origin and white Europeans in UK. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2009, 44, 198-207.	3.1	68
28	The outcome of medically unexplained symptoms "Will DSM-V improve on DSM-IV somatoform disorders?". <i>Journal of Psychosomatic Research</i> , 2009, 66, 379-381.	2.6	5
29	New research on medically unexplained symptoms "much remains to be done before DSM V and ICD-10 can provide a satisfactory new classification. <i>Journal of Psychosomatic Research</i> , 2009, 66, 359-361.	2.6	6
30	The proposed diagnosis of somatic symptom disorders in DSM-V to replace somatoform disorders in DSM-IV "a preliminary report. <i>Journal of Psychosomatic Research</i> , 2009, 66, 473-476.	2.6	155
31	Medically unexplained symptoms "blurring the line between "mental" and "physical" in somatoform disorders. <i>Journal of Psychosomatic Research</i> , 2009, 67, 185-187.	2.6	15
32	Negative illness perceptions are associated with new-onset depression following myocardial infarction. <i>General Hospital Psychiatry</i> , 2008, 30, 414-420.	2.4	53
33	Violence in psychosis: Estimating the predictive validity of readily accessible clinical information in a community sample. <i>Schizophrenia Research</i> , 2008, 101, 176-184.	2.0	25
34	The relationship between somatisation and outcome in patients with severe irritable bowel syndrome. <i>Journal of Psychosomatic Research</i> , 2008, 64, 613-620.	2.6	68
35	Somatisation in functional dyspepsia: integrating gastric physiology with psychological state. <i>Gut</i> , 2008, 57, 1642-1643.	12.1	5
36	Cognitive behavioural model of irritable bowel syndrome. <i>Gut</i> , 2007, 56, 1039-1041.	12.1	10

#	ARTICLE	IF	CITATIONS
37	Number of bodily symptoms predicts outcome more accurately than health anxiety in patients attending neurology, cardiology, and gastroenterology clinics. <i>Journal of Psychosomatic Research</i> , 2006, 60, 357-363.	2.6	80
38	Can DSM-V facilitate productive research into the somatoform disorders?. <i>Journal of Psychosomatic Research</i> , 2006, 60, 331-334.	2.6	46
39	Depression in the medically ill. , 2006, , 3-18.		12
40	Should general psychiatry ignore somatization and hypochondriasis?. <i>World Psychiatry</i> , 2006, 5, 146-50.	10.4	24
41	Reported Sexual Abuse Predicts Impaired Functioning but a Good Response to Psychological Treatments in Patients With Severe Irritable Bowel Syndrome. <i>Psychosomatic Medicine</i> , 2005, 67, 490-499.	2.0	56
42	Does Psychological Treatment Help Only Those Patients with Severe Irritable Bowel Syndrome Who Also Have a Concurrent Psychiatric Disorder?. <i>Australian and New Zealand Journal of Psychiatry</i> , 2005, 39, 807-815.	2.3	54
43	Outcome in severe irritable bowel syndrome with and without accompanying depressive, panic and neurasthenic disorders. <i>British Journal of Psychiatry</i> , 2005, 186, 507-515.	2.8	77
44	Does psychological treatment help only those patients with severe irritable bowel syndrome who also have a concurrent psychiatric disorder?. <i>Australian and New Zealand Journal of Psychiatry</i> , 2005, 39, 807-815.	2.3	6
45	Childhood adversity and frequent medical consultations. <i>General Hospital Psychiatry</i> , 2004, 26, 367-377.	2.4	64
46	Differences between out-patients with physical disease and those with medically unexplained symptoms with respect to patient satisfaction, emotional distress and illness perception. <i>British Journal of Health Psychology</i> , 2004, 9, 433-446.	3.5	12
47	A systematic review of the epidemiology of somatisation disorder and hypochondriasis. <i>Journal of Psychosomatic Research</i> , 2004, 56, 391-408.	2.6	383
48	Changes in Tolerance to Rectal Distension Correlate With Changes in Psychological State in Patients With Severe Irritable Bowel Syndrome. <i>Psychosomatic Medicine</i> , 2004, 66, 578-582.	2.0	67
49	The cost-effectiveness of psychotherapy and paroxetine for severe irritable bowel syndrome. <i>Gastroenterology</i> , 2003, 124, 303-317.	1.3	415
50	A screening questionnaire for the detection of serious mental illness in the criminal justice system. <i>Journal of Forensic Psychiatry and Psychology</i> , 2003, 14, 138-150.	1.0	25
51	Do Childhood Adversity and Recent Social Stress Predict Health Care Use in Patients Presenting With Upper Abdominal or Chest Pain?. <i>Psychosomatic Medicine</i> , 2003, 65, 1020-1028.	2.0	19
52	Impact of comorbid personality disorder on violence in psychosis. <i>British Journal of Psychiatry</i> , 2003, 182, 129-134.	2.8	138
53	Depression and Anxiety Impair Health-Related Quality of Life and Are Associated With Increased Costs in General Medical Inpatient. <i>Psychosomatics</i> , 2002, 43, 302-309.	2.5	143
54	Management and costs of deliberate self-poisoning in the general hospital: A multi-centre study. <i>Journal of Mental Health</i> , 2002, 11, 223-230.	1.9	10

#	ARTICLE	IF	CITATIONS
55	Relatives of patients with severe psychotic disorders: Factors that influence contact frequency. <i>British Journal of Psychiatry</i> , 2001, 178, 248-254.	2.8	25
56	Health-Related Quality of Life and Health Care Costs in Severe, Refractory Irritable Bowel Syndrome. <i>Annals of Internal Medicine</i> , 2001, 134, 860.	3.9	207
57	Medically unexplained symptoms, illness perception and childhood experience in neurology outpatients. <i>Irish Journal of Psychological Medicine</i> , 2001, 18, 16-20.	1.0	5
58	Reducing violence in severe mental illness: randomised controlled trial of intensive case management compared with standard care. <i>BMJ: British Medical Journal</i> , 2001, 323, 1093-1093.	2.3	127
59	Hospital management and costs of antidepressant overdose: multicentre comparison of tricyclic antidepressants and selective serotonin reuptake inhibitors. <i>Journal of Medical Economics</i> , 2001, 4, 193-197.	2.1	4
60	Intensive versus standard case management for severe psychotic illness: a randomised trial. <i>Lancet</i> , The, 1999, 353, 2185-2189.	13.7	324
61	The relationship between psychosocial parameters and outcome in irritable bowel syndrome. <i>American Journal of Medicine</i> , 1999, 107, 74-80.	1.5	59
62	Open all hours: extending the role of the psychiatric day hospital. <i>Psychiatric Bulletin</i> , 1999, 23, 400-404.	0.3	15
63	Management of deliberate self poisoning in adults in four teaching hospitals: descriptive study. <i>BMJ: British Medical Journal</i> , 1998, 316, 831-832.	2.3	140
64	Costing day hospital and in-patient care for acute psychiatric illness. <i>Epidemiologia E Psichiatria Sociale Monograph Supplement</i> , 1997, 6, 167-176.	0.0	1
65	Adverse social circumstances and depression in people of Pakistani origin in the UK. <i>British Journal of Psychiatry</i> , 1997, 171, 434-438.	2.8	68
66	Evaluating models of working at the interface between mental health services and primary care. <i>British Journal of Psychiatry</i> , 1997, 170, 6-11.	2.8	164
67	Outcome of anxiety and depressive disorders in primary care. <i>British Journal of Psychiatry</i> , 1997, 171, 427-433.	2.8	116
68	Cost effectiveness of day and inpatient psychiatric treatment: results of a randomised controlled trial. <i>BMJ: British Medical Journal</i> , 1997, 314, 1381-1381.	2.3	75
69	Social Deprivation and Psychiatric Admission Rates Among Different Diagnostic Groups. <i>British Journal of Psychiatry</i> , 1995, 167, 456-462.	2.8	71
70	Life Events and Miscarriage. <i>British Journal of Psychiatry</i> , 1995, 167, 799-805.	2.8	45
71	Techniques for Interviewing the Somatising Patient. <i>British Journal of Psychiatry</i> , 1993, 162, 467-471.	2.8	26
72	Psychiatric Referrals within the General Hospital: Comparison with Referrals to General Practitioners. <i>British Journal of Psychiatry</i> , 1993, 162, 204-211.	2.8	29
