#	ARTICLE	IF	CITATIONS
1	Recent innovations in the field of interpersonal emotion regulation. <i>Current Opinion in Psychology</i> , 2015, 3, 36-42.	4.9	93
2	Abnormal relationships between the neural response to high- and low-calorie foods and endogenous acylated ghrelin in women with active and weight-recovered anorexia nervosa. <i>Psychiatry Research - Neuroimaging</i> , 2014, 223, 94-103.	1.8	47
3	Food insecurity associated with elevated eating disorder symptoms, impairment, and eating disorder diagnoses in an American University student sample before and during the beginning of the COVID-19 pandemic. <i>International Journal of Eating Disorders</i> , 2021, 54, 1213-1223.	4.0	46
4	Linking the Expanded Process Model of Emotion Regulation to Psychopathology by Focusing on Behavioral Outcomes of Regulation. <i>Psychological Inquiry</i> , 2015, 26, 27-36.	0.9	31
5	A preliminary systematic review and meta-analysis of randomized-controlled trials of cognitive remediation therapy for anorexia nervosa. <i>Eating Behaviors</i> , 2020, 37, 101391.	2.0	29
6	A theoretical review of interpersonal emotion regulation in eating disorders: enhancing knowledge by bridging interpersonal and affective dysfunction. <i>Journal of Eating Disorders</i> , 2020, 8, 21.	2.7	28
7	Loneliness mediates the relationship between emotion dysregulation and bulimia nervosa/binge eating disorder psychopathology in a clinical sample. <i>Eating and Weight Disorders</i> , 2014, 19, 509-513.	2.5	24
8	The posited effect of positive affect in anorexia nervosa: Advocating for a forgotten piece of a puzzling disease. <i>International Journal of Eating Disorders</i> , 2019, 52, 971-976.	4.0	23
9	Eating disorder psychopathology in female athletes and nonathletes: A meta-analysis. <i>International Journal of Eating Disorders</i> , 2022, 55, 861-885.	4.0	20
10	Factors Associated with Suicide Ideation in Severely Obese Bariatric Surgery-Seeking Individuals. <i>Suicide and Life-Threatening Behavior</i> , 2012, 42, 541-549.	1.9	19
11	The case for investigating a bidirectional association between insomnia symptoms and eating disorder pathology. <i>International Journal of Eating Disorders</i> , 2021, 54, 701-707.	4.0	18
12	Distress tolerance across self-report, behavioral and psychophysiological domains in women with eating disorders, and healthy controls. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2018, 61, 24-31.	1.2	17
13	Divergent associations between ghrelin and neural responsivity to palatable food in hyperphagic and hypophagic depression. <i>Journal of Affective Disorders</i> , 2019, 242, 29-38.	4.1	16
14	Measurement invariance of the Eating Pathology Symptoms Inventory (EPSI) in adolescents and adults. <i>Eating Behaviors</i> , 2021, 42, 101538.	2.0	16
15	Development and initial validation of the Eating Pathology Symptoms Inventory "Clinician-Rated Version (EPSI-CRV).. <i>Psychological Assessment</i> , 2020, 32, 943-955.	1.5	13
16	An empirical evaluation of the diagnostic threshold between full-threshold and sub-threshold bulimia nervosa. <i>Eating Behaviors</i> , 2021, 42, 101540.	2.0	11
17	Emotional feeding as interpersonal emotion regulation: A developmental risk factor for binge-eating behaviors. <i>International Journal of Eating Disorders</i> , 2019, 52, 515-519.	4.0	10
18	Habitual reappraisal in context: peer victimisation moderates its association with physiological reactivity to social stress. <i>Cognition and Emotion</i> , 2017, 31, 384-394.	2.0	8

#	ARTICLE	IF	CITATIONS
19	Using multilevel modeling to characterize interpersonal emotion regulation strategies and psychopathology in female friends. <i>Personality and Individual Differences</i> , 2020, 165, 110156.	2.9	7
20	Evaluating associations between fitspiration and thinspiration content on Instagram and <scp>disordered eating</scp> behaviors using ecological momentary assessment: A registered report. <i>International Journal of Eating Disorders</i> , 2021, 54, 1307-1315.	4.0	7
21	Tipping points for adaptation: connecting emotion regulation, motivated behavior, and psychopathology. <i>Current Opinion in Psychology</i> , 2015, 3, 70-74.	4.9	6
22	Validation of the factor structure of the Eating Pathology Symptoms Inventory in an international sample of sexual minority men. <i>Eating Behaviors</i> , 2021, 42, 101511.	2.0	6
23	Predicting probable eating disorder case-status in men using the Clinical Impairment Assessment: Evidence for a gender-specific threshold. <i>Eating Behaviors</i> , 2021, 42, 101541.	2.0	6
24	A single-case multiple baseline design for treating insomnia in eating disorders: The TIREDD study. <i>International Journal of Eating Disorders</i> , 2021, 54, 652-659.	4.0	5
25	Multi-method assessment of palatable food exposure in women with and without eating disorders. <i>European Eating Disorders Review</i> , 2020, 28, 594-602.	4.1	4
26	When are Worry and Rumination Negatively Associated with Resting Respiratory Sinus Arrhythmia? It Depends: The Moderating Role of Cognitive Reappraisal. <i>Cognitive Therapy and Research</i> , 2020, 44, 874-884.	1.9	3
27	Evaluating interactions between emotion regulation strategies through the interpersonal context of female friends. <i>Journal of Clinical Psychology</i> , 2022, 78, 266-282.	1.9	3
28	Habitual, but not momentary, avoidance strategy use moderates the association between disgust sensitivity and affective response to a disgust-inducing film clip.. <i>Canadian Journal of Behavioural Science</i> , 2021, 53, 254-262.	0.6	1
29	Clinical science can address rising eating disorder psychopathology during the COVID-19 pandemic: Comment on Gruber et al. (2020).. <i>American Psychologist</i> , 2022, 77, 140-142.	4.2	1
30	Habitual adaptive emotion regulation moderates the association between maladaptive emotion regulation and eating disorder symptoms, but not clinical impairment. <i>Eating and Weight Disorders</i> , 2022, , 1.	2.5	1
31	A Call for Increased Psychometric Validation of Measures Used with Populations with Food Insecurity. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2022, , .	0.8	1
