#	ARTICLE	IF	CITATIONS
1	A Multilab Preregistered Replication of the Ego-Depletion Effect. Perspectives on Psychological Science, 2016, 11, 546-573.	9.0	660
2	The Malevolent Side of Human Nature. Perspectives on Psychological Science, 2017, 12, 183-204.	9.0	589
3	Three traditional and three new childhood anxiety questionnaires: their reliability and validity in a normal adolescent sample. Behaviour Research and Therapy, 2002, 40, 753-772.	3.1	390
4	Comorbid Anxiety Symptoms in Children with Pervasive Developmental Disorders. Journal of Anxiety Disorders, 1998, 12, 387-393.	3.2	318
5	Fears, Worries, and Scary Dreams in 4- to 12-Year-Old Children: Their Content, Developmental Pattern, and Origins. Journal of Clinical Child and Adolescent Psychology, 2000, 29, 43-52.	2.1	247
6	The Creative Experiences Questionnaire (CEQ): a brief self-report measure of fantasy proneness. Personality and Individual Differences, 2001, 31, 987-995.	2.9	245
7	Introducing the Maastricht Acute Stress Test (MAST): A quick and non-invasive approach to elicit robust autonomic and glucocorticoid stress responses. Psychoneuroendocrinology, 2012, 37, 1998-2008.	2.7	236
8	Individual differences in thought suppression. The White Bear Suppression Inventory: Factor structure, reliability, validity and correlates. Behaviour Research and Therapy, 1996, 34, 501-513.	3.1	226
9	Cognitive processes in dissociation: An analysis of core theoretical assumptions.. Psychological Bulletin, 2008, 134, 617-647.	6.1	211
10	Correlations among two self-report questionnaires for measuring DSM-defined anxiety disorder symptoms in children: the Screen for Child Anxiety Related Emotional Disorders and the Spence Children's Anxiety Scale. Personality and Individual Differences, 2000, 28, 333-346.	2.9	203
11	The revised version of the Screen for Child Anxiety Related Emotional Disorders (SCARED-R): Factor structure in normal children. Personality and Individual Differences, 1998, 26, 99-112.	2.9	194
12	A cross-cultural study of animal fears. Behaviour Research and Therapy, 1998, 36, 735-750.	3.1	180
13	The role of parental fearfulness and modeling in children's fear. Behaviour Research and Therapy, 1996, 34, 265-268.	3.1	177
14	A comparison of two spider fear questionnaires. Journal of Behavior Therapy and Experimental Psychiatry, 1996, 27, 241-244.	1.2	174
15	Attention, not anxiety, influences pain. Behaviour Research and Therapy, 1991, 29, 41-50.	3.1	169
16	How serious are common childhood fears?. Behaviour Research and Therapy, 2000, 38, 217-228.	3.1	163
17	Blood-injection-injury phobia and fear of spiders: Domain specific individual differences in disgust sensitivity. Personality and Individual Differences, 1998, 24, 153-158.	2.9	162
18	The causal link between self-reported trauma and dissociation: a critical review. Behaviour Research and Therapy, 2001, 39, 245-254.	3.1	148

#	ARTICLE	IF	CITATIONS
19	Correlates of autobiographical memory specificity: the role of depression, anxiety and childhood trauma. <i>Behaviour Research and Therapy</i> , 2001, 39, 409-421.	3.1	147
20	Threat Perception Bias in Nonreferred, Socially Anxious Children. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2000, 29, 348-359.	2.1	145
21	Autobiographical memory specificity and the course of major depressive disorder. <i>Comprehensive Psychiatry</i> , 2002, 43, 344-350.	3.1	142
22	The relationship between anxious rearing behaviours and anxiety disorders symptomatology in normal children. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 1999, 30, 27-35.	1.2	138
23	Worry in children is related to perceived parental rearing and attachment. <i>Behaviour Research and Therapy</i> , 2000, 38, 487-497.	3.1	132
24	Thought-action fusion as a causal factor in the development of intrusions. <i>Behaviour Research and Therapy</i> , 1999, 37, 231-237.	3.1	130
25	Anxiety sensitivity in adolescents: factor structure and relationships to trait anxiety and symptoms of anxiety disorders and depression. <i>Behaviour Research and Therapy</i> , 2001, 39, 89-100.	3.1	130
26	Paradoxical and less paradoxical effects of thought suppression A critical review. <i>Clinical Psychology Review</i> , 2000, 20, 973-995.	11.4	129
27	Fantasy proneness and cognitive failures as correlates of dissociative experiences. <i>Personality and Individual Differences</i> , 1999, 26, 961-967.	2.9	115
28	The Structured Inventory of Malingered Symptomatology (SIMS): A Systematic Review and Meta-Analysis. <i>Clinical Neuropsychologist</i> , 2014, 28, 1336-1365.	2.3	115
29	Effects of gaze manipulation on subjective evaluation of neutral and phobia-relevant stimuli. <i>Acta Psychologica</i> , 1989, 70, 147-151.	1.5	113
30	Getting A Grip on Ourselves: Challenging Expectancies About Loss of Energy After Self-Control. <i>Social Cognition</i> , 2002, 20, 441-460.	0.9	113
31	Children's nighttime fears: parent-child ratings of frequency, content, origins, coping behaviors and severity. <i>Behaviour Research and Therapy</i> , 2001, 39, 13-28.	3.1	112
32	Disgust sensitivity, trait anxiety and anxiety disorders symptoms in normal children. <i>Behaviour Research and Therapy</i> , 1999, 37, 953-961.	3.1	109
33	Fragmented Sleep, Fragmented Mind. <i>Perspectives on Psychological Science</i> , 2012, 7, 159-175.	9.0	108
34	The trauma model of dissociation: Inconvenient truths and stubborn fictions. Comment on Dalenberg et al. (2012).. <i>Psychological Bulletin</i> , 2014, 140, 896-910.	6.1	108
35	Anxiety and depression as correlates of self-reported behavioural inhibition in normal adolescents. <i>Behaviour Research and Therapy</i> , 2001, 39, 1051-1061.	3.1	107
36	The role of evaluative learning and disgust sensitivity in the etiology and treatment of spider phobia. <i>Advances in Behaviour Research and Therapy</i> , 1993, 15, 243-255.	3.0	102

#	ARTICLE	IF	CITATIONS
37	Abnormal and normal compulsions. <i>Behaviour Research and Therapy</i> , 1997, 35, 249-252.	3.1	102
38	The thought-action fusion scale: further evidence for its reliability and validity. <i>Behaviour Research and Therapy</i> , 2001, 39, 537-544.	3.1	101
39	Perceived parental rearing behaviour and anxiety disorders symptoms in normal children. <i>Personality and Individual Differences</i> , 1998, 25, 1199-1206.	2.9	100
40	Peritraumatic dissociation as a predictor of post-traumatic stress disorder: a critical review. <i>Comprehensive Psychiatry</i> , 2004, 45, 44-50.	3.1	100
41	The TOM test: a new instrument for assessing theory of mind in normal children and children with pervasive developmental disorders. <i>Journal of Autism and Developmental Disorders</i> , 1999, 29, 67-80.	2.7	99
42	Individual Differences and False Confessions: A Conceptual Replication of Kassin and Kiechel (1996). <i>Psychology, Crime and Law</i> , 2003, 9, 1-8.	1.0	99
43	The Return of the Repressed: The Persistent and Problematic Claims of Long-Forgotten Trauma. <i>Perspectives on Psychological Science</i> , 2019, 14, 1072-1095.	9.0	97
44	Dissociation and Dissociative Disorders. <i>Current Directions in Psychological Science</i> , 2012, 21, 48-53.	5.3	95
45	Common childhood fears and their origins. <i>Behaviour Research and Therapy</i> , 1997, 35, 929-937.	3.1	94
46	Self-reported cognitive failures and neurotic symptomatology. <i>Personality and Individual Differences</i> , 1996, 20, 715-724.	2.9	93
47	Responding to subliminal threat cues is related to trait anxiety and emotional vulnerability: a successful replication of Macleod and Hagan (1992). <i>Behaviour Research and Therapy</i> , 1995, 33, 451-454.	3.1	90
48	Cognitive Development and Worry in Normal Children. <i>Cognitive Therapy and Research</i> , 2002, 26, 775-787.	1.9	86
49	Phobic dimensions: III. factor analytic approaches to the study of common phobic fears; An updated review of findings obtained with adult subjects. <i>Advances in Behaviour Research and Therapy</i> , 1991, 13, 73-130.	3.0	85
50	Dissociative experiences, response bias, and fantasy proneness in college students. <i>Personality and Individual Differences</i> , 2000, 28, 49-58.	2.9	85
51	Thought-action fusion and thought suppression in obsessive-compulsive disorder. <i>Behaviour Research and Therapy</i> , 2001, 39, 757-764.	3.1	84
52	Fantasy proneness, but not self-reported trauma is related to DRM performance of women reporting recovered memories of childhood sexual abuse. <i>Consciousness and Cognition</i> , 2005, 14, 602-612.	1.5	83
53	Acute dissociation after 1 night of sleep loss.. <i>Journal of Abnormal Psychology</i> , 2007, 116, 599-606.	1.9	83
54	Rebound Effects of Thought Suppression: Instruction-Dependent?. <i>Behavioural and Cognitive Psychotherapy</i> , 1991, 19, 225-238.	1.2	81

#	ARTICLE	IF	CITATIONS
55	Anxiety and Threat Perception Abnormalities in Normal Children. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2000, 22, 183-199.	1.2	81
56	Eye movement desensitisation and reprocessing versus exposure in vivo. <i>British Journal of Psychiatry</i> , 1997, 171, 82-86.	2.8	79
57	The effect of acute stress on memory depends on word valence. <i>International Journal of Psychophysiology</i> , 2006, 62, 30-37.	1.0	79
58	Relationships between thought-action fusion, thought suppression and obsessive-compulsive symptoms: a structural equation modeling approach. <i>Behaviour Research and Therapy</i> , 2000, 38, 889-897.	3.1	78
59	Disgust and psychopathological symptoms in a nonclinical sample. <i>Personality and Individual Differences</i> , 2000, 29, 1163-1167.	2.9	75
60	Fear of the beast: a prospective study on the effects of negative information on childhood fear. <i>Behaviour Research and Therapy</i> , 2003, 41, 195-208.	3.1	72
61	Symptom Validity Testing in Somatoform and Dissociative Disorders: A Critical Review. <i>Psychological Injury and Law</i> , 2013, 6, 122-137.	1.6	72
62	Dissociation, Schizotypy, and Fantasy Proneness in Undergraduate Students. <i>Journal of Nervous and Mental Disease</i> , 2000, 188, 428-431.	1.0	72
63	Modeling the connection between self-reported trauma and dissociation in a student sample. <i>Personality and Individual Differences</i> , 2002, 32, 695-705.	2.9	71
64	Telling a good story: Fantasy proneness and the quality of fabricated memories. <i>Personality and Individual Differences</i> , 2004, 37, 1371-1382.	2.9	71
65	The etiology of specific fears and phobias in children: a critique of the non-associative account. <i>Behaviour Research and Therapy</i> , 2002, 40, 185-195.	3.1	70
66	Why Dissociation and Schizotypy Overlap. <i>Journal of Nervous and Mental Disease</i> , 2007, 195, 812-818.	1.0	69
67	Suppression of emotional and neutral material. <i>Behaviour Research and Therapy</i> , 1992, 30, 639-642.	3.1	68
68	“Danger is lurking everywhere”: The relation between anxiety and threat perception abnormalities in normal children. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2000, 31, 123-136.	1.2	67
69	Sleep loss increases dissociation and affects memory for emotional stimuli. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015, 47, 9-17.	1.2	67
70	THE LINKS BETWEEN THE ADOLESCENT DISSOCIATIVE EXPERIENCES SCALE (A-DES), FANTASY PRONENESS, AND ANXIETY SYMPTOMS. <i>Journal of Nervous and Mental Disease</i> , 2003, 191, 18-24.	1.0	66
71	Abducted by a UFO: prevalence information affects young children's false memories for an implausible event. <i>Applied Cognitive Psychology</i> , 2009, 23, 115-125.	1.6	65
72	Differential recall of central and peripheral details of emotional slides is not a stable phenomenon. <i>Memory</i> , 2000, 8, 95-109.	1.7	64

#	ARTICLE	IF	CITATIONS
73	False claims about false memory research. <i>Consciousness and Cognition</i> , 2007, 16, 18-28.	1.5	64
74	Dissociative experiences and interrogative suggestibility in college students. <i>Personality and Individual Differences</i> , 2000, 29, 1133-1140.	2.9	63
75	Another White Christmas: fantasy proneness and reports of "hallucinatory experiences"™ in undergraduate students. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2001, 32, 137-144.	1.2	63
76	Thought-action fusion and anxiety disorders symptoms in normal adolescents. <i>Behaviour Research and Therapy</i> , 2001, 39, 843-852.	3.1	63
77	Strong, but Wrong: Lay People's™ and Police Officers'™ Beliefs about Verbal and Nonverbal Cues to Deception. <i>PLoS ONE</i> , 2016, 11, e0156615.	2.5	63
78	Pathways to spider phobia. <i>Behaviour Research and Therapy</i> , 1992, 30, 543-546.	3.1	62
79	Cognitive Underperformance and Symptom Over-Reporting in a Mixed Psychiatric Sample. <i>Clinical Neuropsychologist</i> , 2011, 25, 812-828.	2.3	62
80	False confessions in the lab: Do plausibility and consequences matter?. <i>Psychology, Crime and Law</i> , 2006, 12, 61-75.	1.0	61
81	Children's™ false memories: Easier to elicit for a negative than for a neutral event. <i>Acta Psychologica</i> , 2008, 128, 350-354.	1.5	61
82	Dissociation and its disorders: Competing models, future directions, and a way forward. <i>Clinical Psychology Review</i> , 2019, 73, 101755.	11.4	60
83	Covariation bias and the return of fear. <i>Behaviour Research and Therapy</i> , 1995, 33, 211-213.	3.1	58
84	The structure of specific phobia symptoms among children and adolescents. <i>Behaviour Research and Therapy</i> , 1999, 37, 863-868.	3.1	57
85	Sleep normalization and decrease in dissociative experiences: Evaluation in an inpatient sample.. <i>Journal of Abnormal Psychology</i> , 2012, 121, 140-150.	1.9	57
86	Pathways to fear in spider phobic children. <i>Behaviour Research and Therapy</i> , 1996, 34, 935-938.	3.1	56
87	Dissociation and fantasy proneness in psychiatric patients: a preliminary study. <i>Comprehensive Psychiatry</i> , 2005, 46, 181-185.	3.1	55
88	Retrieval inhibition of trauma-related words in women reporting repressed or recovered memories of childhood sexual abuse. <i>Behaviour Research and Therapy</i> , 2006, 44, 1129-1136.	3.1	55
89	Dreaming to reduce fantasy? " Fantasy proneness, dissociation, and subjective sleep experiences. <i>Personality and Individual Differences</i> , 2006, 41, 697-706.	2.9	55
90	The Self-Report Symptom Inventory (SRSI): a New Instrument for the Assessment of Distorted Symptom Endorsement. <i>Psychological Injury and Law</i> , 2016, 9, 102-111.	1.6	55

#	ARTICLE	IF	CITATIONS
91	Nonregulation of food intake in restrained, emotional, and external eaters. <i>Journal of Psychopathology and Behavioral Assessment</i> , 1988, 10, 345-354.	1.2	54
92	The Screen for Child Anxiety Related Emotional Disorders (SCARED): Relationship with anxiety and depression in normal children. <i>Personality and Individual Differences</i> , 1998, 24, 451-456.	2.9	54
93	Conditioning experiences and phobias. <i>Behaviour Research and Therapy</i> , 1989, 27, 657-662.	3.1	53
94	Alters in dissociative identity disorder. <i>Clinical Psychology Review</i> , 2002, 22, 481-497.	11.4	52
95	Dissociation in Undergraduate Students. <i>Journal of Nervous and Mental Disease</i> , 2004, 192, 567-569.	1.0	52
96	Poor working memory predicts false memories. <i>European Journal of Cognitive Psychology</i> , 2007, 19, 213-232.	1.3	52
97	Covariation bias and electrodermal responding in spider phobics before and after behavioural treatment. <i>Behaviour Research and Therapy</i> , 1991, 29, 307-314.	3.1	51
98	Amnesia, flashbacks, nightmares, and dissociation in aging concentration camp survivors. <i>Behaviour Research and Therapy</i> , 2003, 41, 351-360.	3.1	51
99	Confusing thoughts and speech: source monitoring and psychosis. <i>Psychiatry Research</i> , 2005, 133, 57-63.	3.3	51
100	BRIEF REPORT Forgetting "murder" is not harder than forgetting "circle" Listwise-directed forgetting of emotional words. <i>Cognition and Emotion</i> , 2006, 20, 129-137.	2.0	51
101	Overcoming ego depletion: the influence of exemplar priming on self-control performance. <i>European Journal of Social Psychology</i> , 2007, 37, 231-238.	2.4	51
102	Long term consequences of suppression of intrusive anxious thoughts and repressive coping. <i>Behaviour Research and Therapy</i> , 2006, 44, 1451-1460.	3.1	50
103	Psychophysiological and subjective reactions of social phobics and normals to facial stimuli. <i>Behaviour Research and Therapy</i> , 1989, 27, 289-294.	3.1	49
104	Subjective sleep experiences are related to dissociation. <i>Personality and Individual Differences</i> , 2004, 37, 1341-1345.	2.9	49
105	Symptom overreporting and dissociative experiences: A qualitative review. <i>Consciousness and Cognition</i> , 2017, 49, 132-144.	1.5	49
106	The placebo effect in pain reduction: The influence of conditioning experiences and response expectancies. <i>International Journal of Behavioral Medicine</i> , 1996, 3, 14-29.	1.7	48
107	Memory for Actions and Dissociation in Obsessive-Compulsive Disorder. <i>Journal of Nervous and Mental Disease</i> , 2000, 188, 846-848.	1.0	47
108	Feigning amnesia undermines memory for a mock crime. <i>Applied Cognitive Psychology</i> , 2004, 18, 505-518.	1.6	45

#	ARTICLE	IF	CITATIONS
109	Trying to recollect past events: Confidence, beliefs, and memories. <i>Clinical Psychology Review</i> , 2005, 25, 917-934.	11.4	45
110	Dissociation, memory commission errors, and heightened autonomic reactivity. <i>Psychiatry Research</i> , 2007, 150, 277-285.	3.3	45
111	Carrying on or giving in: The role of automatic processes in overcoming ego depletion. <i>British Journal of Social Psychology</i> , 2007, 46, 383-399.	2.8	45
112	Fantasy proneness as a confounder of verbal lie detection tools. <i>Journal of Investigative Psychology and Offender Profiling</i> , 2010, 7, 247-260.	0.6	45
113	Neuropsychologists'™ ability to predict distorted symptom presentation. <i>Journal of Clinical and Experimental Neuropsychology</i> , 2017, 39, 257-264.	1.3	45
114	Autobiographical memory and trauma in adolescents. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2000, 31, 29-39.	1.2	44
115	Autobiographical memory specificity after manipulating retrieval cues in adults reporting childhood sexual abuse.. <i>Journal of Abnormal Psychology</i> , 2008, 117, 444-453.	1.9	44
116	Memory for Threat-relevant and Threat-irrelevant Cues in Spider Phobics. <i>Cognition and Emotion</i> , 1998, 12, 93-104.	2.0	43
117	Traumatic memories of war veterans: Not so special after all. <i>Consciousness and Cognition</i> , 2007, 16, 170-177.	1.5	43
118	Many stimuli are frightening, but some are more frightening than others: The contributions of preparedness, dangerousness, and unpredictability to making a stimulus fearful. <i>Journal of Psychopathology and Behavioral Assessment</i> , 1988, 10, 355-366.	1.2	42
119	The corrective effects of warning on false memories in the DRM paradigm are limited to full attention conditions. <i>Acta Psychologica</i> , 2008, 129, 308-314.	1.5	42
120	The Effects of Alcohol on Crime-related Memories: A Field Study. <i>Applied Cognitive Psychology</i> , 2012, 26, 82-90.	1.6	42
121	Dissociative symptoms and sleep parameters " an all-night polysomnography study in patients with insomnia. <i>Comprehensive Psychiatry</i> , 2013, 54, 658-664.	3.1	42
122	THE GUDJONSSON SUGGESTIBILITY SCALE (GSS): FURTHER DATA ON ITS RELIABILITY, VALIDITY, AND METACOGNITION CORRELATES. <i>Social Behavior and Personality</i> , 1998, 26, 203-209.	0.6	41
123	The random number generation task: Psychometric properties and normative data of an executive function task in a mixed sample. <i>Journal of the International Neuropsychological Society</i> , 2007, 13, 626-34.	1.8	41
124	When Patients Overreport Symptoms: More Than Just Malingering. <i>Current Directions in Psychological Science</i> , 2019, 28, 321-326.	5.3	41
125	How serious are common childhood fears? II. The parent's point of view. <i>Behaviour Research and Therapy</i> , 2000, 38, 813-818.	3.1	40
126	The connection between cognitive development and specific fears and worries in normal children and children with below-average intellectual abilities: a preliminary study. <i>Behaviour Research and Therapy</i> , 2002, 40, 37-56.	3.1	40

#	ARTICLE	IF	CITATIONS
127	Subclinical dissociation, schizotypy, and traumatic distress. <i>Personality and Individual Differences</i> , 2006, 40, 365-374.	2.9	40
128	Script knowledge enhances the development of children's false memories. <i>Acta Psychologica</i> , 2010, 133, 57-63.	1.5	40
129	What do children fear most often?. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 1997, 28, 263-267.	1.2	39
130	Stress-induced cortisol responses, sex differences, and false recollections in a DRM paradigm. <i>Biological Psychology</i> , 2006, 72, 164-172.	2.2	39
131	Frontal Lobe Dysfunctions, Dissociation, and Trauma Self-Reports in Forensic Psychiatric Patients. <i>Journal of Nervous and Mental Disease</i> , 2001, 189, 188-190.	1.0	39
132	Conditioning experiences in spider phobics. <i>Behaviour Research and Therapy</i> , 1991, 29, 333-335.	3.1	38
133	Thought suppression in spider phobia. <i>Behaviour Research and Therapy</i> , 1997, 35, 769-774.	3.1	38
134	Sensitivity for Treatment Effects of the Screen for Child Anxiety Related Emotional Disorders. <i>Journal of Psychopathology and Behavioral Assessment</i> , 1999, 21, 323-335.	1.2	38
135	The role of schizotypy, mental imagery, and fantasy proneness in hallucinatory reports of undergraduate students. <i>Personality and Individual Differences</i> , 2003, 35, 889-896.	2.9	37
136	Memory distrust and acceptance of misinformation. <i>Applied Cognitive Psychology</i> , 2010, 24, 885-896.	1.6	37
137	What Drives False Memories in Psychopathology? A Case for Associative Activation. <i>Clinical Psychological Science</i> , 2017, 5, 1048-1069.	4.0	37
138	Verbalization and environmental cuing in thought suppression. <i>Behaviour Research and Therapy</i> , 1993, 31, 609-612.	3.1	36
139	Did I say that word or did you? Executive dysfunctions in schizophrenic patients affect memory efficiency, but not source attributions. <i>Cognitive Neuropsychiatry</i> , 2007, 12, 391-411.	1.3	36
