#	ARTICLE	IF	CITATIONS
1	Evaluation of psychotherapy: Efficacy, effectiveness, and patient progress.. American Psychologist, 1996, 51, 1059-1064.	4.2	517
2	Enhancing outcome for potential treatment failures: Therapistâ€œclient feedback and clinical support tools. Psychotherapy Research, 2007, 17, 379-392.	1.8	214
3	Therapist effects in outpatient psychotherapy: A three-level growth curve approach.. Journal of Counseling Psychology, 2007, 54, 32-39.	2.0	195
4	Patterns of early change and their relationship to outcome and follow-up among patients with major depressive disorders. Journal of Affective Disorders, 2009, 118, 60-68.	4.1	156
5	Effects of an Internet intervention (Deprexis) on severe depression symptoms: Randomized controlled trial. Internet Interventions, 2015, 2, 48-59.	2.7	149
6	The ups and downs of psychotherapy: Sudden gains and sudden losses identified with session reports. Psychotherapy Research, 2013, 23, 14-24.	1.8	142
7	Assessing treatment progress of individual patients using expected treatment response models.. Journal of Consulting and Clinical Psychology, 2001, 69, 150-158.	2.0	128
8	Advancing psychotherapy and evidenceâ€œbased psychological interventions. International Journal of Methods in Psychiatric Research, 2014, 23, 58-91.	2.1	126
9	Effects of a Psychological Internet Intervention in the Treatment of Mild to Moderate Depressive Symptoms: Results of the EVIDENT Study, a Randomized Controlled Trial. Psychotherapy and Psychosomatics, 2016, 85, 218-228.	8.8	124
10	Towards integrating personalized feedback research into clinical practice: Development of the Trier Treatment Navigator (TTN). Behaviour Research and Therapy, 2019, 120, 103438.	3.1	111
11	Shapes of early change in psychotherapy under routine outpatient conditions.. Journal of Consulting and Clinical Psychology, 2007, 75, 864-874.	2.0	108
12	Predicting change for individual psychotherapy clients on the basis of their nearest neighbors.. Journal of Consulting and Clinical Psychology, 2005, 73, 904-913.	2.0	107
13	Patient profiling: An application of random coefficient regression models to depicting the response of a patient to outpatient psychotherapy.. Journal of Consulting and Clinical Psychology, 1999, 67, 571-577.	2.0	99
14	How durable is the effect of low intensity CBT for depression and anxiety? Remission and relapse in a longitudinal cohort study. Behaviour Research and Therapy, 2017, 94, 1-8.	3.1	97
15	Patient-Focused Psychotherapy Research and Individual Treatment Progress as Scientific Groundwork for an Empirically Based Clinical Practice. Psychotherapy Research, 2002, 12, 251-272.	1.8	93
16	The reciprocal relationship between alliance and early treatment symptoms: A two-stage individual participant data meta-analysis.. Journal of Consulting and Clinical Psychology, 2020, 88, 829-843.	2.0	92
17	Patterns of early change and their relationship to outcome and early treatment termination in patients with panic disorder.. Journal of Consulting and Clinical Psychology, 2014, 82, 287-297.	2.0	90
18	Patient-focused and feedback research in psychotherapy: Where are we and where do we want to go?. Psychotherapy Research, 2015, 25, 625-632.	1.8	89

#	ARTICLE	IF	CITATIONS
19	Research on psychotherapy integration: Building on the past, looking to the future. <i>Psychotherapy Research</i> , 2015, 25, 365-382.	1.8	88
20	Doseâ€“effect relationship in routine outpatient psychotherapy: Does treatment duration matter?. <i>Journal of Counseling Psychology</i> , 2013, 60, 593-600.	2.0	86
21	Feedback-informed treatment versus usual psychological treatment for depression and anxiety: a multisite, open-label, cluster randomised controlled trial. <i>Lancet Psychiatry</i> , 2018, 5, 564-572.	7.4	86
22	Prediction of doseâ€“response relations based on patient characteristics. <i>Journal of Clinical Psychology</i> , 2001, 57, 889-900.	1.9	85
23	The probability of treatment success, failure and durationâ€“what can be learned from empirical data to support decision making in clinical practice?. <i>Clinical Psychology and Psychotherapy</i> , 2006, 13, 223-232.	2.7	84
24	Nonverbal synchrony: A new approach to better understand psychotherapeutic processes and drop-out.. <i>Journal of Psychotherapy Integration</i> , 2018, 28, 367-384.	1.1	80
25	Different people respond differently to therapy: A demonstration using patient profiling and risk stratification. <i>Behaviour Research and Therapy</i> , 2016, 79, 15-22.	3.1	79
26	Attitudes Towards Internet Interventions Among Psychotherapists and Individuals with Mild to Moderate Depression Symptoms. <i>Cognitive Therapy and Research</i> , 2017, 41, 745-756.	1.9	79
27	Using network analysis for the prediction of treatment dropout in patients with mood and anxiety disorders: A methodological proof-of-concept study. <i>Scientific Reports</i> , 2018, 8, 7819.	3.3	75
28	Multidimensional patterns of change in outpatient psychotherapy: The phase model revisited. <i>Journal of Clinical Psychology</i> , 2007, 63, 817-833.	1.9	72
29	Therapist Effects on and Predictors of Nonâ€“Consensual Dropout in Psychotherapy. <i>Clinical Psychology and Psychotherapy</i> , 2017, 24, 312-321.	2.7	72
30	The association between adherence and outcome in an Internet intervention for depression. <i>Journal of Affective Disorders</i> , 2018, 229, 443-449.	4.1	70
31	Psychopathological networks: Theory, methods and practice. <i>Behaviour Research and Therapy</i> , 2022, 149, 104011.	3.1	70
32	Feedback and therapist effects in the context of treatment outcome and treatment length. <i>Psychotherapy Research</i> , 2015, 25, 647-660.	1.8	67
33	Therapeutic bond judgments: Congruence and incongruence.. <i>Journal of Consulting and Clinical Psychology</i> , 2015, 83, 773-784.	2.0	66
34	Time to get personal? The impact of researchers choices on the selection of treatment targets using the experience sampling methodology. <i>Journal of Psychosomatic Research</i> , 2020, 137, 110211.	2.6	66
35	Empirically and clinically useful decision making in psychotherapy: Differential predictions with treatment response models.. <i>Psychological Assessment</i> , 2006, 18, 133-141.	1.5	61
36	Individual treatment selection for patients with posttraumatic stress disorder. <i>Depression and Anxiety</i> , 2018, 35, 541-550.	4.1	60

#	ARTICLE	IF	CITATIONS
37	Patients' in-session experiences and symptom change: Session-to-session effects on a within- and between-patient level. <i>Behaviour Research and Therapy</i> , 2017, 90, 58-66.	3.1	58
38	Improving the efficiency of psychological treatment using outcome feedback technology. <i>Behaviour Research and Therapy</i> , 2017, 99, 89-97.	3.1	58
39	Prospective evaluation of a clinical decision support system in psychological therapy.. <i>Journal of Consulting and Clinical Psychology</i> , 2022, 90, 90-106.	2.0	57
40	Quantification of nonverbal synchrony using linear time series analysis methods: Lack of convergent validity and evidence for facets of synchrony. <i>Behavior Research Methods</i> , 2019, 51, 361-383.	4.0	56
41	Translating Person-Specific Network Models into Personalized Treatments: Development and Demonstration of the Dynamic Assessment Treatment Algorithm for Individual Networks (DATA-IN). <i>Psychotherapy and Psychosomatics</i> , 2018, 87, 249-251.	8.8	52
42	Reliability of Therapist Effects in Practice-Based Psychotherapy Research: A Guide for the Planning of Future Studies. <i>Administration and Policy in Mental Health and Mental Health Services Research</i> , 2017, 44, 598-613.	2.1	51
43	Associations between movement synchrony and outcome in patients with social anxiety disorder: Evidence for treatment specific effects. <i>Psychotherapy Research</i> , 2020, 30, 574-590.	1.8	51
44	Personalized treatment selection in routine care: Integrating machine learning and statistical algorithms to recommend cognitive behavioral or psychodynamic therapy. <i>Psychotherapy Research</i> , 2021, 31, 33-51.	1.8	49
45	A Development Pathway Towards Precision Mental Health Care. <i>JAMA Psychiatry</i> , 2020, 77, 889.	11.0	48
46	Exploring individual change.. <i>Journal of Consulting and Clinical Psychology</i> , 1998, 66, 838-845.	2.0	47
47	The EVIDENT-trial: protocol and rationale of a multicenter randomized controlled trial testing the effectiveness of an online-based psychological intervention. <i>BMC Psychiatry</i> , 2013, 13, 239.	2.6	47
48	Outcomes management, expected treatment response, and severity-adjusted provider profiling in outpatient psychotherapy. <i>Journal of Clinical Psychology</i> , 2002, 58, 1291-1304.	1.9	46
49	Benefits and challenges in practice-oriented psychotherapy research in Germany: The TK and the QS-PSY-BAY projects of quality assurance in outpatient psychotherapy. <i>Psychotherapy Research</i> , 2015, 25, 32-51.	1.8	46
50	Linguistic analysis of patients with mood and anxiety disorders during cognitive behavioral therapy. <i>Cognitive Behaviour Therapy</i> , 2018, 47, 315-327.	3.5	42
51	Congruence of therapeutic bond perceptions and its relation to treatment outcome: Within- and between-dyad effects.. <i>Journal of Consulting and Clinical Psychology</i> , 2018, 86, 341-353.	2.0	42
52	Efficacy, effectiveness, and expected treatment response in psychotherapy. <i>Journal of Clinical Psychology</i> , 2003, 59, 745-750.	1.9	40
53	Process transforms inputs to determine outcomes: Therapists are responsible for managing process.. <i>Clinical Psychology: Science and Practice</i> , 2009, 16, 73-81.	0.9	39
54	Beyond words: Sensory properties of depressive thoughts. <i>Cognition and Emotion</i> , 2014, 28, 1047-1056.	2.0	39

#	ARTICLE	IF	CITATIONS
55	The need for a behavioural science focus in research on mental health and mental disorders. <i>International Journal of Methods in Psychiatric Research</i> , 2014, 23, 28-40.	2.1	38
56	Emotional congruence between clients and therapists and its effect on treatment outcome.. <i>Journal of Counseling Psychology</i> , 2018, 65, 51-64.	2.0	38
57	Mindfulness and progressive muscle relaxation as standardized sessionâ€”introduction in individual therapy: A randomized controlled trial. <i>Journal of Clinical Psychology</i> , 2019, 75, 21-45.	1.9	37
58	Lending an Ear to Feedback Systems: Evaluation of Recovery and Non-Response in Psychotherapy in a German Outpatient Setting. <i>Community Mental Health Journal</i> , 2011, 47, 311-317.	2.0	36
59	Dynamic prediction of psychological treatment outcomes: development and validation of a prediction model using routinely collected symptom data. <i>The Lancet Digital Health</i> , 2021, 3, e231-e240.	12.3	36
60	Nonverbal synchrony predicts premature termination of psychotherapy for social anxiety disorder.. <i>Psychotherapy</i> , 2019, 56, 503-513.	1.2	36
61	The Predicted and Observed Course of Psychotherapy for Anxiety and Mood Disorders. <i>Journal of Nervous and Mental Disease</i> , 2000, 188, 127-134.	1.0	36
62	Defining early positive response to psychotherapy: An empirical comparison between clinically significant change criteria and growth mixture modeling.. <i>Psychological Assessment</i> , 2015, 27, 478-488.	1.5	35
63	Diagnostic Features of Nonverbal Synchrony in Psychotherapy: Comparing Depression and Anxiety. <i>Cognitive Therapy and Research</i> , 2018, 42, 539-551.	1.9	35
64	Measurement-Based and Data-Informed Psychological Therapy. <i>Annual Review of Clinical Psychology</i> , 2022, 18, 71-98.	12.3	35
65	Predicting patients' responses to psychotherapy: Are some more predictable than others?. <i>Journal of Consulting and Clinical Psychology</i> , 1999, 67, 698-704.	2.0	32
66	Patterns of Change in Different Phases of Outpatient Psychotherapy: A Stageâ€”Sequential Pattern Analysis of Change in Session Reports. <i>Clinical Psychology and Psychotherapy</i> , 2015, 22, 1-14.	2.7	32
67	Clinical effectiveness of cognitive behavioral therapy for depression in routine care: A propensity score based comparison between randomized controlled trials and clinical practice. <i>Journal of Affective Disorders</i> , 2016, 189, 150-158.	4.1	32
68	Physiological synchrony and therapeutic alliance in an imagery-based treatment.. <i>Journal of Counseling Psychology</i> , 2019, 66, 508-517.	2.0	32
69	Standing on the Shoulders of a Giant: Development of an Outcome Management System Based on the Dose Model and Phase Model of Psychotherapy. <i>Psychotherapy Research</i> , 2002, 12, 397-412.	1.8	31
70	Defining and Predicting Patterns of Early Response in a Web-Based Intervention for Depression. <i>Journal of Medical Internet Research</i> , 2017, 19, e206.	4.3	31
71	Wie effektiv sind systematische RÃ¼ckmeldungen des Therapieverlaufs an den Therapeuten?. <i>Zeitschrift FÃ¼r Klinische Psychologie Und Psychotherapie</i> , 2006, 35, 21-29.	0.3	30
72	Quantitative and qualitative methods for psychotherapy research: Introduction to special section. <i>Psychotherapy Research</i> , 2009, 19, 369-373.	1.8	30

#	ARTICLE	IF	CITATIONS
73	Randomized controlled trial to evaluate the effects of personalized prediction and adaptation tools on treatment outcome in outpatient psychotherapy: study protocol. <i>BMC Psychiatry</i> , 2017, 17, 306.	2.6	30
74	Predicting personalized process-outcome associations in psychotherapy using machine learning approachesâ€”A demonstration. <i>Psychotherapy Research</i> , 2020, 30, 300-309.	1.8	30
75	Negative affectivity as a transdiagnostic factor in patients with common mental disorders. <i>Journal of Affective Disorders</i> , 2014, 166, 270-278.	4.1	29
76	Daily affect dynamics predict early response in CBT: Feasibility and predictive validity of EMA for outpatient psychotherapy. <i>Journal of Affective Disorders</i> , 2016, 206, 305-314.	4.1	29
77	Adaptive Modeling of Progress in Outpatient Psychotherapy. <i>Psychotherapy Research</i> , 2002, 12, 427-443.	1.8	28
78	Impact and change of attitudes toward Internet interventions within a randomized controlled trial on individuals with depression symptoms. <i>Depression and Anxiety</i> , 2018, 35, 421-430.	4.1	27
79	Bridging the â€œdigital divideâ€: A comparison of use and effectiveness of an online intervention for depression between Baby Boomers and Millennials. <i>Journal of Affective Disorders</i> , 2018, 236, 243-251.	4.1	25
80	Identification of movement synchrony: Validation of windowed cross-lagged correlation and -regression with peak-picking algorithm. <i>PLoS ONE</i> , 2019, 14, e0211494.	2.5	25
81	Patterns of early change in interpersonal problems and their relationship to nonverbal synchrony and multidimensional outcome.. <i>Journal of Counseling Psychology</i> , 2020, 67, 449-461.	2.0	25
82	Methodological background of decision rules and feedback tools for outcomes management in psychotherapy. <i>Psychotherapy Research</i> , 2009, 19, 502-510.	1.8	24
83	Time to remission from mild to moderate depressive symptoms: One year results from the EVIDENT-study, an RCT of an internet intervention for depression. <i>Behaviour Research and Therapy</i> , 2017, 97, 154-162.	3.1	24
84	The Association of Therapeutic Alliance With Long-Term Outcome in a Guided Internet Intervention for Depression: Secondary Analysis From a Randomized Control Trial. <i>Journal of Medical Internet Research</i> , 2020, 22, e15824.	4.3	24
85	QualitÃtsmonitoring in der ambulanten Psychotherapie: Modellprojekt der Techniker Krankenkasse. <i>Verhaltenstherapie</i> , 2003, 13, 291-295.	0.4	23
86	Processes of change after a sudden gain and relation to treatment outcomeâ€”Evidence for an upward spiral.. <i>Journal of Consulting and Clinical Psychology</i> , 2017, 85, 1199-1210.	2.0	23
87	Structure and Change of the IIP-D Pre- and Postpsychotherapy. <i>European Journal of Psychological Assessment</i> , 2006, 22, 98-103.	3.0	22
88	Session-to-session effects of alliance ruptures in outpatient CBT: Within- and between-patient associations.. <i>Journal of Consulting and Clinical Psychology</i> , 2018, 86, 354-366.	2.0	21
89	Does recruitment source moderate treatment effectiveness? A subgroup analysis from the EVIDENT study, a randomised controlled trial of an internet intervention for depressive symptoms. <i>BMJ Open</i> , 2017, 7, e015391.	1.9	20
90	Exploring change in cognitive-behavioral therapy for generalized anxiety disorderâ€”A two-arms ABAB crossed-therapist randomized clinical implementation trial.. <i>Journal of Consulting and Clinical Psychology</i> , 2021, 89, 454-468.	2.0	20

#	ARTICLE	IF	CITATIONS
91	Therapistâ€client agreement in assessments of clientsâ€™ functioning.. Journal of Consulting and Clinical Psychology, 2016, 84, 1127-1134.	2.0	20
92	The effect of therapist experience on psychotherapy outcomes. Clinical Psychology and Psychotherapy, 2005, 12, 417-426.	2.7	19
93	Selfâ€Regulation and Mechanisms of Action in Psychotherapy: A Theoryâ€Based Translational Perspective. Journal of Personality, 2013, 81, 542-553.	3.2	19
94	Die Identifikation frÃ¼her VerÃ¤nderungsmuster in der ambulanten Psychotherapie. Zeitschrift FÃ¼r Klinische Psychologie Und Psychotherapie, 2007, 36, 93-104.	0.3	19
95	Assessing treatment integrity in personalized CBT: the inventory of therapeutic interventions and skills. Cognitive Behaviour Therapy, 2020, 49, 210-227.	3.5	18
96	Working along sudden gains: Responsiveness on small and subtle early changes and exceptions.. Psychotherapy, 2013, 50, 292-297.	1.2	17
97	Sudden gains in routine care cognitive behavioral therapy for depression: A replication with extensions. Behaviour Research and Therapy, 2017, 89, 24-32.	3.1	17
98	The Use of Digitally Assessed Stress Levels to Model Change Processes in CBT - A Feasibility Study on Seven Case Examples. Frontiers in Psychiatry, 2021, 12, 613085.	2.6	17
99	Therapistsâ€™ empathic accuracy toward their clientsâ€™ emotions.. Journal of Consulting and Clinical Psychology, 2019, 87, 33-45.	2.0	17
100	Evaluation und stÃ¼rungsspezifische RÃ¼ckmeldung des therapeutischen Fortschritts in der Psychotherapie. Verhaltenstherapie, 2005, 15, 168-175.	0.4	16
101	Similarities and differences between retrospective and preâ€post measurements of outcome. Psychotherapy Research, 2007, 17, 359-364.	1.8	16
102	The regression discontinuity design showed to be a valid alternative to a randomized controlled trial for estimating treatment effects. Journal of Clinical Epidemiology, 2017, 82, 94-102.	5.0	16
103	Movement synchrony and attachment related anxiety and avoidance in social anxiety disorder.. Journal of Psychotherapy Integration, 2021, 31, 163-179.	1.1	16
104	Cost-effectiveness of feedback-informed psychological treatment: Evidence from the IAPT-FIT trial. Behaviour Research and Therapy, 2021, 142, 103873.	3.1	16
105	Imagery-based treatment for test anxiety: A multiple-baseline open trial. Journal of Affective Disorders, 2019, 244, 187-195.	4.1	15
106	Zeitliche und sequenzielle Muster von nonlinearen VerÃ¤nderungen im Therapieverlauf. Zeitschrift FÃ¼r Klinische Psychologie Und Psychotherapie, 2007, 36, 261-269.	0.3	15
107	The role of sampling in clinical trial design. Psychotherapy Research, 2011, 21, 243-251.	1.8	14
108	Relapse and Recurrence of Common Mental Health Problems after Low Intensity Cognitive Behavioural Therapy: The WYLOW Longitudinal Cohort Study. Psychotherapy and Psychosomatics, 2018, 87, 116-117.	8.8	14
