#	ARTICLE	IF	CITATIONS
1	Resuscitation in the "Gray Zone" of Viability: Determining Physician Preferences and Predicting Infant Outcomes. <i>Pediatrics</i> , 2007, 120, 519-526.	2.1	178
2	The Impact of Pulmonary Hypertension in Preterm Infants with Severe Bronchopulmonary Dysplasia through 1 Year. <i>Journal of Pediatrics</i> , 2018, 203, 218-224.e3.	1.8	87
3	Just, in Time: Ethical Implications of Serial Predictions of Death and Morbidity for Ventilated Premature Infants. <i>Pediatrics</i> , 2008, 121, 732-740.	2.1	65
4	Clinical Predictors and Institutional Variation in Home Oxygen Use in Preterm Infants. <i>Journal of Pediatrics</i> , 2012, 160, 232-238.	1.8	43
5	Varying Patterns of Home Oxygen Use in Infants at 23-43 Weeks' Gestation Discharged from United States Neonatal Intensive Care Units. <i>Journal of Pediatrics</i> , 2013, 163, 976-982.e2.	1.8	37
6	The Mathematics of Morality for Neonatal Resuscitation. <i>Clinics in Perinatology</i> , 2012, 39, 941-956.	2.1	31
7	A Prospective Study of Parent Health-Related Quality of Life before and after Discharge from the Neonatal Intensive Care Unit. <i>Journal of Pediatrics</i> , 2019, 213, 38-45.e3.	1.8	28
8	Infant illness severity and perinatal post-traumatic stress disorder after discharge from the neonatal intensive care unit. <i>Early Human Development</i> , 2020, 140, 104930.	1.8	28
9	Home Oxygen Use for Preterm Infants with Bronchopulmonary Dysplasia in California. <i>Journal of Pediatrics</i> , 2019, 210, 55-62.e1.	1.8	25
10	Home Oxygen Use and 1-Year Readmission among Infants Born Preterm with Bronchopulmonary Dysplasia Discharged from Children's Hospital Neonatal Intensive Care Units. <i>Journal of Pediatrics</i> , 2020, 220, 40-48.e5.	1.8	25
11	The Prediction and Cost of Futility in the NICU. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2012, 101, 397-402.	1.5	21
12	A comparison of newer classifications of bronchopulmonary dysplasia: findings from the Children's Hospitals Neonatal Consortium Severe BPD Group. <i>Journal of Perinatology</i> , 2022, 42, 58-64.	2.0	21
13	Early Neonatal Intensive Care Unit Therapy Improves Predictive Power for the Outcomes of Ventilated Extremely Low Birth Weight Infants. <i>Journal of Pediatrics</i> , 2011, 159, 384-391.e1.	1.8	19
14	The association between 5-min Apgar score and mortality disappears after 24-h at the borderline of viability. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2012, 101, e243-7.	1.5	19
15	A Comparison of Prenatal and Postnatal Models to Predict Outcomes at the Border of Viability. <i>Journal of Pediatrics</i> , 2016, 173, 96-100.	1.8	19
16	Actual and Potential Impact of a Home Nasogastric Tube Feeding Program for Infants Whose Neonatal Intensive Care Unit Discharge Is Affected by Delayed Oral Feedings. <i>Journal of Pediatrics</i> , 2021, 234, 38-45.e2.	1.8	18
17	Population-Based Outcomes Data for Counseling at the Margin of Gestational Viability. <i>Journal of Pediatrics</i> , 2017, 181, 208-212.e4.	1.8	13
18	Qualitative indications for tracheostomy and chronic mechanical ventilation in patients with severe bronchopulmonary dysplasia. <i>Journal of Perinatology</i> , 2021, 41, 2651-2657.	2.0	13

#	ARTICLE	IF	CITATIONS
19	NICU management and outcomes of infants with trisomy 21 without major anomalies. Journal of Perinatology, 2018, 38, 1068-1073.	2.0	12
20	Parent Preferences Regarding Home Oxygen Use for Infants with Bronchopulmonary Dysplasia. Journal of Pediatrics, 2019, 213, 30-37.e3.	1.8	12
21	Utility of echocardiography in predicting mortality in infants with severe bronchopulmonary dysplasia. Journal of Perinatology, 2020, 40, 149-156.	2.0	10
22	Using a home oxygen weaning protocol and pCO ₂ to evaluate outcomes for infants with bronchopulmonary dysplasia discharged on home oxygen. Pediatric Pulmonology, 2020, 55, 3293-3303.	2.0	7
23	Parent Health-Related Quality of Life for Infants with Congenital Anomalies Receiving Neonatal Intensive Care. Journal of Pediatrics, 2022, 245, 39-46.e2.	1.8	6
24	Association of time of first corticosteroid treatment with bronchopulmonary dysplasia in preterm infants. Pediatric Pulmonology, 2021, 56, 3283-3292.	2.0	5
25	Comparative Effectiveness and Practice Variation in Neonatal Care. Clinics in Perinatology, 2014, 41, 833-845.	2.1	4
26	Finally, A Tool to Address Extubation Anxiety!. Journal of Perinatology, 2019, 39, 1581-1583.	2.0	3
27	Does prenatal counseling for pregnancies complicated by multiple fetal abnormalities concord with postnatal outcomes?. Prenatal Diagnosis, 2020, 40, 538-548.	2.3	2
28	Implementation of a pilot electronic parent support tool in and after neonatal intensive care unit discharge. Journal of Perinatology, 2022, 42, 1110-1117.	2.0	2
29	Chronic lung disease in full-term infants: Characteristics and neonatal intensive care outcomes in infants referred to children's hospitals. Pediatric Pulmonology, 2022, 57, 2082-2091.	2.0	2
30	Room air challenge predicts duration of supplemental respiratory support for infants with bronchopulmonary dysplasia. Journal of Perinatology, 2021, 41, 772-778.	2.0	0
31	Initiation of Life Support at the Border of Viability. , 2017, , 747-750.		0
