#	Article	IF	Citations
1	Effectiveness of two procedures for deploying a facilitated collaborative modeling implementation strategy—the PVS-PREDIAPS strategy—to optimize type 2 diabetes prevention in primary care: the PREDIAPS cluster randomized hybrid type II implementation trial. Implementation Science, 2021, 16, 58.	2.5	3
2	"My Patients Asked Me If I Owned a Fruit Stand in Town or Something.―Barriers and Facilitators of Personalized Dietary Advice Implemented in a Primary Care Setting. Journal of Personalized Medicine, 2021, 11, 747.	1.1	4
3	Implementing Exercise in Standard Cancer Care (Bizi Orain Hybrid Exercise Program): Protocol for a Randomized Controlled Trial. JMIR Research Protocols, 2021, 10, e24835.	0.5	6
4	Barriers and facilitators in the implementation of an evidence-based health promotion intervention in a primary care setting: a qualitative study. Journal of Health Organization and Management, 2021, 35, 349-367.	0.6	13
5	Consensus on priorities in maternal education: results of Delphi and nominal group technique approaches. BMC Pregnancy and Childbirth, 2019, 19, 264.	0.9	20
6	Future Directions for the Organizational Readiness for Knowledge Translation (OR4KT) Tool: Response to Recent Commentaries. International Journal of Health Policy and Management, 2019, 8, 315-316.	0.5	4
7	Effective translation of a type-2 diabetes primary prevention programme into routine primary care: The PreDE cluster randomised clinical trial. Diabetes Research and Clinical Practice, 2018, 139, 32-42.	1.1	8
8	An evaluation of Spanish and English on-line information sources regarding pregnancy, birth and the postnatal period. Midwifery, 2018, 58, 19-26.	1.0	21
9	Engaging primary care professionals in collaborative processes for optimising type 2 diabetes prevention practice: the PREDIAPS cluster randomised type II hybrid implementation trial. Implementation Science, 2018, 13, 94.	2.5	6
10	Development and Content Validation of a Transcultural Instrument to Assess Organizational Readiness for Knowledge Translation in Healthcare Organizations: The OR4KT. International Journal of Health Policy and Management, 2018, 7, 791-797.	0.5	25
11	Efficiency of "Prescribe Vida Saludableâ€, a health promotion innovation. Pilot phase. Gaceta Sanitaria, 2017, 31, 404-409.	0.6	2
12	Feasibility of an implementation strategy for the integration of health promotion in routine primary care: a quantitative process evaluation. BMC Family Practice, 2017, 18, 24.	2.9	16
13	The implementation of health promotion in primary and community care: a qualitative analysis of the â€~Prescribe Vida Saludable' strategy. BMC Family Practice, 2017, 18, 23.	2.9	19
14	Framework for the establishment of a feasible, tailored and effective perinatal education programme. BMC Pregnancy and Childbirth, 2017, 17, 58.	0.9	16
15	Validity and reliability of the Spanish version of the Organizational Readiness for Knowledge Translation (OR4KT) questionnaire. Implementation Science, 2017, 12, 128.	2.5	11
16	Collaborative modeling of an implementation strategy: a case study to integrate health promotion in primary and community care. BMC Research Notes, 2017, 10, 699.	0.6	12
17	Standards for Reporting Implementation Studies (StaRI) Statement. BMJ: British Medical Journal, 2017, 356, i6795.	2.4	621
18	Type-2 diabetes primary prevention program implemented in routine primary care: a process evaluation study. Trials, 2016, 17, 254.	0.7	6

#	Article	IF	CITATIONS
19	Metric properties of the "prescribe healthy life―screening questionnaire to detect healthy behaviors: a cross-sectional pilot study. BMC Public Health, 2016, 16, 1228.	1.2	16
20	Supervised physical exercise to improve the quality of life of cancer patients: the EFICANCER randomised controlled trial. BMC Cancer, 2015, 15, 40.	1.1	17
21	Effectiveness of physical activity promotion interventions in primary care: A review of reviews. Preventive Medicine, 2015, 76, S56-S67.	1.6	113
22	Feasibility and effectiveness of the implementation of a primary prevention programme for type 2 diabetes in routine primary care practice: a phase IV cluster randomised clinical trial. BMC Family Practice, 2012, 13, 109.	2.9	6
23	Two-Year Longitudinal Analysis of a Cluster Randomized Trial of Physical Activity Promotion by General Practitioners. PLoS ONE, 2011, 6, e18363.	1.1	41
24	Effectiveness of Physical Activity Advice and Prescription by Physicians in Routine Primary Care <subtitle>A Cluster Randomized Trial</subtitle> . Archives of Internal Medicine, 2009, 169, 694.	4.3	176
25	Modelling innovative interventions for optimising healthy lifestyle promotion in primary health care: "Prescribe Vida Saludable" phase I research protocol. BMC Health Services Research, 2009, 9, 103.	0.9	14
26	Targeting physical activity promotion in general practice: Characteristics of inactive patients and willingness to change. BMC Public Health, 2008, 8, 172.	1.2	50
27	Is integration of healthy lifestyle promotion into primary care feasible? Discussion and consensus sessions between clinicians and researchers. BMC Health Services Research, 2008, 8, 213.	0.9	58
28	Predictors of long-term outcome of a smoking cessation programme in primary care. British Journal of General Practice, 2003, 53, 101-7.	0.7	32
