#	ARTICLE	IF	CITATIONS
1	Nutrition in medical education: a systematic review. <i>Lancet Planetary Health</i> , The, 2019, 3, e379-e389.	11.4	237
2	Students' perceptions of using Facebook as an interactive learning resource at university. <i>Australasian Journal of Educational Technology</i> , 2012, 28, .	3.5	197
3	The relationship between food literacy and dietary intake in adolescents: a systematic review. <i>Public Health Nutrition</i> , 2015, 18, 649-658.	2.2	193
4	Effectiveness of group-based self-management education for individuals with Type 2 diabetes: a systematic review with meta-analyses and meta-regression. <i>Diabetic Medicine</i> , 2017, 34, 1027-1039.	2.3	151
5	Effectiveness of Dietetic Consultations in Primary Health Care: A Systematic Review of Randomized Controlled Trials. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2017, 117, 1941-1962.	0.8	138
6	Adolescents' perspectives on food literacy and its impact on their dietary behaviours. <i>Appetite</i> , 2016, 107, 549-557.	3.7	88
7	Patient-centred care to improve dietetic practice: an integrative review. <i>Journal of Human Nutrition and Dietetics</i> , 2017, 30, 453-470.	2.5	68
8	Nutrition in general practice: role and workforce preparation expectations of medical educators. <i>Australian Journal of Primary Health</i> , 2010, 16, 304.	0.9	65
9	Consumption and reasons for use of dietary supplements in an Australian university population. <i>Nutrition</i> , 2016, 32, 524-530.	2.4	63
10	An exploration of individuals' preferences for nutrition care from Australian primary care health professionals. <i>Australian Journal of Primary Health</i> , 2014, 20, 113.	0.9	59
11	General practitioners can offer effective nutrition care to patients with lifestyle-related chronic disease. <i>Journal of Primary Health Care</i> , 2013, 5, 59.	0.6	57
12	How Effective Are Dietitians in Weight Management? A Systematic Review and Meta-Analysis of Randomized Controlled Trials. <i>Healthcare (Switzerland)</i> , 2019, 7, 20.	2.0	47
13	Food Literacy at Secondary Schools in Australia. <i>Journal of School Health</i> , 2016, 86, 823-831.	1.6	42
14	Utilization and preference of nutrition information sources in Australia. <i>Health Expectations</i> , 2015, 18, 2288-2295.	2.6	40
15	Australian practice nurses' perceptions of their role and competency to provide nutrition care to patients living with chronic disease. <i>Australian Journal of Primary Health</i> , 2014, 20, 203.	0.9	38
16	Patients' perceptions of nutrition care provided by general practitioners: focus on Type 2 diabetes. <i>Family Practice</i> , 2012, 29, 719-725.	1.9	37
17	Patients' perceptions and experiences of patient-centred care in dietetic consultations. <i>Journal of Human Nutrition and Dietetics</i> , 2018, 31, 188-196.	2.5	37
18	Effect of nutrition care provided by primary health professionals on adults' dietary behaviours: a systematic review. <i>Family Practice</i> , 2015, 32, cmv067.	1.9	35

#	ARTICLE	IF	CITATIONS
19	What is the status of food literacy in Australian high schools? Perceptions of home economics teachers. <i>Appetite</i> , 2017, 108, 326-334.	3.7	34
20	Experiences and nutrition support strategies in dementia care: Lessons from family carers. <i>Nutrition and Dietetics</i> , 2015, 72, 22-29.	1.8	33
21	Doctors' attitudes and confidence towards providing nutrition care in practice: Comparison of New Zealand medical students, general practice registrars and general practitioners. <i>Journal of Primary Health Care</i> , 2015, 7, 244.	0.6	32
22	The self-perceived knowledge, skills and attitudes of Australian practice nurses in providing nutrition care to patients with chronic disease. <i>Family Practice</i> , 2014, 31, 201-208.	1.9	30
23	Altered redox regulation and S-glutathionylation of BiP contribute to bortezomib resistance in multiple myeloma. <i>Free Radical Biology and Medicine</i> , 2020, 160, 755-767.	2.9	30
24	Environmental factors of food literacy in Australian high schools: views of home economics teachers. <i>International Journal of Consumer Studies</i> , 2017, 41, 19-27.	11.6	29
25	Nutrition in medical education: reflections from an initiative at the University of Cambridge. <i>Journal of Multidisciplinary Healthcare</i> , 2014, 7, 209.	2.7	28
26	Digital disruption of dietetics: are we ready?. <i>Journal of Human Nutrition and Dietetics</i> , 2021, 34, 134-146.	2.5	28
27	Obesity management by general practitioners: the unavoidable necessity. <i>Australian Journal of Primary Health</i> , 2015, 21, 366.	0.9	27
28	Isoflavone ME-344 Disrupts Redox Homeostasis and Mitochondrial Function by Targeting Heme Oxygenase 1. <i>Cancer Research</i> , 2019, 79, 4072-4085.	0.9	27
29	Building skills, knowledge and confidence in eating and exercise behavior change: Brief motivational interviewing training for healthcare providers. <i>Patient Education and Counseling</i> , 2015, 98, 674-676.	2.2	26
30	Understanding the nutrition care needs of patients newly diagnosed with type 2 diabetes: a need for open communication and patient-focussed consultations. <i>Australian Journal of Primary Health</i> , 2016, 22, 416.	0.9	25
31	Effectiveness of dietetic consultation for lowering blood lipid levels in the management of cardiovascular disease risk: A systematic review and meta-analysis of randomised controlled trials. <i>Nutrition and Dietetics</i> , 2019, 76, 199-210.	1.8	25
32	Obesity Bias Among Health and Non-Health Students Attending an Australian University and Their Perceived Obesity Education. <i>Journal of Nutrition Education and Behavior</i> , 2014, 46, 390-395.	0.7	23
33	Dietary intake by food group of individuals with type 2 diabetes mellitus: A systematic review. <i>Diabetes Research and Clinical Practice</i> , 2018, 137, 160-172.	2.8	23
34	General practitioners can offer effective nutrition care to patients with lifestyle-related chronic disease. <i>Journal of Primary Health Care</i> , 2013, 5, 59-69.	0.6	22
35	Nutrition guidelines for undergraduate medical curricula: a six-country comparison. <i>Advances in Medical Education and Practice</i> , 2015, 6, 127.	1.5	21
36	Development of a validated questionnaire to measure the self-perceived competence of primary health professionals in providing nutrition care to patients with chronic disease. <i>Family Practice</i> , 2015, 32, cmv073.	1.9	21

#	ARTICLE	IF	CITATIONS
37	General practitionersâ€™ views on providing nutrition care to patients with chronic disease: a focus group study. <i>Journal of Primary Health Care</i> , 2016, 8, 357.	0.6	21
38	The nutrition care needs of patients newly diagnosed with type 2 diabetes: informing dietetic practice. <i>Journal of Human Nutrition and Dietetics</i> , 2016, 29, 487-494.	2.5	21
39	Quality of development and reporting of dietetic intervention studies in primary care: a systematic review of randomised controlled trials. <i>Journal of Human Nutrition and Dietetics</i> , 2018, 31, 47-57.	2.5	21
40	Health professionals' views of the effectiveness of nutrition care in general practice setting. <i>Nutrition and Dietetics</i> , 2013, 70, 35-41.	1.8	20
41	Working profile of <sc>A</sc>ustralian private practice <sc>A</sc>ccredited <sc>P</sc>ractising <sc>D</sc>ietitians. <i>Nutrition and Dietetics</i> , 2013, 70, 196-205.	1.8	20
42	Patients' perceptions of their general practitioner's health and weight influences their perceptions of nutrition and exercise advice received. <i>Journal of Primary Health Care</i> , 2013, 5, 301.	0.6	19
43	Personal trainers are confident in their ability to provide nutrition care: a cross-sectional investigation. <i>Public Health</i> , 2016, 140, 39-44.	2.9	19
44	A new model of patient-centred care for general practitioners: results of an integrative review. <i>Family Practice</i> , 2020, 37, 154-172.	1.9	19
45	Impact of an undergraduate course on medical students' self-perceived nutrition intake and self-efficacy to improve their health behaviours and counselling practices. <i>Journal of Primary Health Care</i> , 2014, 6, 101.	0.6	17
46	"I wish they could be in my shoes": patients' insights into tertiary health care for type 2 diabetes mellitus. <i>Patient Preference and Adherence</i> , 2015, 9, 1647.	1.8	17
47	New Zealand Medical Students Have Positive Attitudes and Moderate Confidence in Providing Nutrition Care: A Cross-Sectional Survey. <i>Journal of Biomedical Education</i> , 2015, 2015, 1-7.	0.6	17
48	How Does Diet Change with A Diagnosis of Diabetes? Protocol of the 3D Longitudinal Study. <i>Nutrients</i> , 2019, 11, 158.	4.1	17
49	Nutrition care by primary-care physicians: advancing our understanding using the COM-B framework. <i>Public Health Nutrition</i> , 2020, 23, 41-52.	2.2	17
50	Australian general practitioners' views regarding providing nutrition care: results of a national survey. <i>Public Health</i> , 2016, 140, 7-13.	2.9	16
51	A comparison of patients' and dietitians' perceptions of patient-centred care: A cross-sectional survey. <i>Health Expectations</i> , 2019, 22, 457-464.	2.6	16
52	Decade of Medicare: The contribution of private practice dietitians to chronic disease management and diabetes group services. <i>Nutrition and Dietetics</i> , 2015, 72, 284-290.	1.8	15
53	Dietitians' Perspectives on Teaching Nutrition to Medical Students. <i>Journal of the American College of Nutrition</i> , 2017, 36, 415-421.	1.8	15
54	Dietitians' perspectives of the barriers and enablers to delivering patient-centred care. <i>Journal of Human Nutrition and Dietetics</i> , 2020, 33, 106-114.	2.5	15
