#	ARTICLE	IF	CITATIONS
1	Exploring health professionals'™ perceptions of how their own diet influences their self-efficacy in providing nutrition care. <i>Psychology and Health</i> , 2024, 39, 252-267.	2.2	0
2	Patients'™ experiences with rehabilitation care: a qualitative study to inform patient-centred outcomes. <i>Disability and Rehabilitation</i> , 2023, 45, 1307-1314.	1.8	2
3	Developing the Quality in Nutrition Care Model for Dietitians (QUINCEâ€MOD) in primary care: A mixedâ€method survey of healthcare consumers and professionals. <i>Journal of Human Nutrition and Dietetics</i> , 2023, 36, 311-322.	2.5	2
4	Patient-centred care delivered by general practitioners: a qualitative investigation of the experiences and perceptions of patients and providers. <i>BMJ Quality and Safety</i> , 2022, 31, 191-198.	3.7	14
5	How cost-effective is nutrition care delivered in primary healthcare settings? A systematic review of trial-based economic evaluations. <i>Nutrition Reviews</i> , 2022, 80, 1480-1496.	5.8	4
6	Patient and clinician perspectives of factors that influence the delivery of alcohol brief interventions in Australian primary care: a qualitative descriptive study. <i>Family Practice</i> , 2022, 39, 275-281.	1.9	6
7	Perceptions of private practice dietitians regarding the collection and use of outcomes data in primary healthcare practices: A qualitative study. <i>Journal of Human Nutrition and Dietetics</i> , 2022, 35, 154-164.	2.5	7
8	Is there enough behaviour change science in nutrition and dietetics curricula in Australia and New Zealand? A descriptive study. <i>Nutrition and Dietetics</i> , 2022, 79, 636-646.	1.8	8
9	The <i>Qu</i>ality <i>N</i>utrition <i>C</i>are <i>e</i> (QUINCE) model: development of a model based on Australian healthcare consumer perspectives. <i>Family Practice</i> , 2022, 39, 471-478.	1.9	4
10	What happens to diet quality in people newly diagnosed with type 2 diabetes? The 3D caseâ€series study. <i>Journal of Human Nutrition and Dietetics</i> , 2022, 35, 191-201.	2.5	0
11	Quality improvement strategies enhance primary care dietetics: A systematic review and metaâ€analysis. <i>Journal of Human Nutrition and Dietetics</i> , 2022, 35, 479-493.	2.5	6
12	Behaviour change for type 2 diabetes: perspectives of general practitioners, primary care academics, and behaviour change experts on the use of the 5As framework. <i>Family Practice</i> , 2022, 39, 891-896.	1.9	2
13	Global architecture for the nutrition training of health professionals: a scoping review and blueprint for next steps. <i>BMJ Nutrition, Prevention and Health</i> , 2022, 5, 106-117.	3.7	8
14	Participatory design application in obesity prevention targeting young adults and adolescents: a mixed-methods systematic scoping review protocol. <i>Systematic Reviews</i> , 2022, 11, 51.	5.3	4
15	A 2020 Evaluation of Global Knowledge Networks in the UN Decade of Action on Nutrition (2016-2025): Proceedings of the 6th International Summit on Medical and Public Health Nutrition Education and Research. , 2022, , .		0
16	Who is at the centre of what? A scoping review of the conceptualisation of â€centrednessâ€™ in healthcare. <i>BMJ Open</i> , 2022, 12, e059400.	1.9	14
17	How has the COVID-19 pandemic influenced patient-centred care? Analysis of a qualitative collective case study by high performing practice teams. <i>Australian Journal of General Practice</i> , 2022, 51, 357-364.	0.8	3
18	Analyzing Dietary Behaviors Self-reported by People With Diabetes Using a Behavior Change Technique Taxonomy. <i>Journal of Nutrition Education and Behavior</i> , 2022, 54, 753-763.	0.7	2

#	ARTICLE	IF	CITATIONS
19	How have temporary Medicare telehealth item numbers impacted the use of dietetics services in primary care settings?. Nutrition and Dietetics, 2022, 79, 481-488.	1.8	8
20	Exploring culinary medicine as a promising method of nutritional education in medical school: a scoping review. BMC Medical Education, 2022, 22, .	2.4	15
21	Health service usage and re-referral rates: comparison of a dietitian-first clinic with a medical specialist-first model of care in a cohort of gastroenterology patients. Frontline Gastroenterology, 2021, 12, 175-181.	1.8	3
22	Digital disruption of dietetics: are we ready?. Journal of Human Nutrition and Dietetics, 2021, 34, 134-146.	2.5	28
23	Spotlight on nutrition and weight management care in family practice: how did we get to this point?. Family Practice, 2021, 38, 1-3.	1.9	3
24	Providing food to patients in primary care to induce weight loss: a systematic literature review. BMJ Nutrition, Prevention and Health, 2021, 4, 333-341.	3.7	1
25	Putting patients first: development of a patient advocate and general practitioner-informed model of patient-centred care. BMC Health Services Research, 2021, 21, 261.	2.2	11
26	Embedding brief interventions for alcohol in general practice: a study protocol for the REACH Project feasibility trial. BJGP Open, 2021, 5, BJGPO.2021.0037.	1.8	2
27	Innovation at the Edge of Nutrition Education Research. Nutrients, 2021, 13, 2018.	4.1	0
28	What role do dietitians have in providing nutrition care for eating disorder treatment? An integrative review. Journal of Human Nutrition and Dietetics, 2021, 34, 724-735.	2.5	6
29	How do healthcare providers support people with prediabetes to eat well? An in-depth, mixed-methods case study of provider practices. Australian Journal of General Practice, 2021, 50, 497-504.	0.8	2
30	Adolescentsâ€™ views on high school food environments. Health Promotion Journal of Australia, 2021, 32, 458-466.	1.2	6
31	Where to from here? Nutrition and dietetics research into the future. Nutrition and Dietetics, 2021, 78, 463-465.	1.8	0
32	Allied health are key to improving health for people with chronic disease: but where are the outcomes and where is the strategy?. Australian Journal of Primary Health, 2021, 27, 437-441.	0.9	6
33	How do patients want to receive nutrition care? Qualitative findings from Australian health consumers. Australian Journal of Primary Health, 2021, , .	0.9	0
34	A new model of patient-centred care for general practitioners: results of an integrative review. Family Practice, 2020, 37, 154-172.	1.9	19
35	Dietitiansâ€™ perspectives of the barriers and enablers to delivering patientâ€centred care. Journal of Human Nutrition and Dietetics, 2020, 33, 106-114.	2.5	15
36	Replicating groupâ€based education interventions for the management of type 2 diabetes: a review of intervention reporting. Diabetic Medicine, 2020, 37, 768-778.	2.3	6

#	ARTICLE	IF	CITATIONS
37	Nutrition care by primary-care physicians: advancing our understanding using the COM-B framework. <i>Public Health Nutrition</i> , 2020, 23, 41-52.	2.2	17
38	"I could have made those changes years earlier": experiences and characteristics associated with receiving a prediabetes diagnosis among individuals recently diagnosed with type 2 diabetes. <i>Family Practice</i> , 2020, 37, 382-389.	1.9	12
39	Altered redox regulation and S-glutathionylation of BiP contribute to bortezomib resistance in multiple myeloma. <i>Free Radical Biology and Medicine</i> , 2020, 160, 755-767.	2.9	30
40	Voltage-Dependent Anion Channels Influence Cytotoxicity of ME-344, a Therapeutic Isoflavone. <i>Journal of Pharmacology and Experimental Therapeutics</i> , 2020, 374, 308-318.	2.5	6
41	Short-term improvements in diet quality in people newly diagnosed with type 2 diabetes are associated with smoking status, physical activity and body mass index: the 3D case series study. <i>Nutrition and Diabetes</i> , 2020, 10, 25.	3.2	2
42	How does self-perceived nutrition competence change over time during medical training? A prospective longitudinal observational study of New Zealand medical students. <i>BMJ Nutrition, Prevention and Health</i> , 2020, 3, 270-276.	3.7	5
43	Nutrition competence of primary care physicians in Saudi Arabia: a cross-sectional study. <i>BMJ Open</i> , 2020, 10, e033443.	1.9	11
44	Building on what we know: moving beyond effectiveness to consider how to implement, sustain and spread successful health interventions. <i>BMJ Nutrition, Prevention and Health</i> , 2020, 3, 123-125.	3.7	3
45	Hidden curriculum within nutrition education in medical schools. <i>BMJ Nutrition, Prevention and Health</i> , 2020, 3, 18-23.	3.7	10
46	Celebrating diversity and adaptability in academic primary care. <i>Australian Journal of Primary Health</i> , 2020, 26, i.	0.9	1
47	Understanding the knowledge, attitudes and practices of providing and receiving nutrition care for prediabetes: an integrative review. <i>Australian Journal of Primary Health</i> , 2019, 25, 289.	0.9	8
48	Nutrition in medical education: a systematic review. <i>Lancet Planetary Health</i> , The, 2019, 3, e379-e389.	11.4	237
49	A comparison of patients' and dietitians' perceptions of patient-centred care: A cross-sectional survey. <i>Health Expectations</i> , 2019, 22, 457-464.	2.6	16
50	Isoflavone ME-344 Disrupts Redox Homeostasis and Mitochondrial Function by Targeting Heme Oxygenase 1. <i>Cancer Research</i> , 2019, 79, 4072-4085.	0.9	27
51	A dietitian-first gastroenterology clinic results in improved symptoms and quality of life in patients referred to a tertiary gastroenterology service. <i>Clinical Nutrition ESPEN</i> , 2019, 33, 188-194.	1.2	9
52	Clients expect nutrition care to be provided by personal trainers in Australia. <i>Nutrition and Dietetics</i> , 2019, 76, 421-427.	1.8	6
53	Development and psychometric testing of an inventory to measure patient-centred care in dietetic practice – "Dietitian version". <i>Journal of Human Nutrition and Dietetics</i> , 2019, 32, 535-546.	2.5	8
54	Effectiveness of dietetic consultation for lowering blood lipid levels in the management of cardiovascular disease risk: A systematic review and meta-analysis of randomised controlled trials. <i>Nutrition and Dietetics</i> , 2019, 76, 199-210.	1.8	25

#	ARTICLE	IF	CITATIONS
55	How Effective Are Dietitians in Weight Management? A Systematic Review and Meta-Analysis of Randomized Controlled Trials. <i>Healthcare (Switzerland)</i> , 2019, 7, 20.	2.0	47
56	Development and psychometric testing of a patient-reported inventory to measure patient-centred care in dietetic practice. <i>Australian Journal of Primary Health</i> , 2019, 25, 547.	0.9	1
57	How Does Diet Change with A Diagnosis of Diabetes? Protocol of the 3D Longitudinal Study. <i>Nutrients</i> , 2019, 11, 158.	4.1	17
58	The tension between efficiency and effectiveness: a study of dietetic practice in primary care. <i>Journal of Human Nutrition and Dietetics</i> , 2019, 32, 259-266.	2.5	6
59	Nutrition care guidelines for men with prostate cancer undergoing androgen deprivation therapy: do we have enough evidence?. <i>Prostate Cancer and Prostatic Diseases</i> , 2019, 22, 221-234.	3.9	10
60	Physical activity counselling and referrals by general practitioners for prostate cancer survivors in Australia. <i>Australian Journal of Primary Health</i> , 2019, 25, 152.	0.9	8
61	General practitioners with special interests: An integrative review of their role, impact and potential for the future. <i>Australian Journal of General Practice</i> , 2019, 48, 639-643.	0.8	9
62	Cutting-edge primary health research: how our work follows world events. <i>Australian Journal of Primary Health</i> , 2019, 25, i.	0.9	0
63	Dietary intake by food group of individuals with type 2 diabetes mellitus: A systematic review. <i>Diabetes Research and Clinical Practice</i> , 2018, 137, 160-172.	2.8	23
64	Patients' perceptions and experiences of patient-centred care in dietetic consultations. <i>Journal of Human Nutrition and Dietetics</i> , 2018, 31, 188-196.	2.5	37
65	Quality of development and reporting of dietetic intervention studies in primary care: a systematic review of randomised controlled trials. <i>Journal of Human Nutrition and Dietetics</i> , 2018, 31, 47-57.	2.5	21
66	Questionnaires that measure the quality of relationships between patients and primary care providers: a systematic review. <i>BMC Health Services Research</i> , 2018, 18, 866.	2.2	7
67	Investigating the Perceptions of Primary Care Dietitians on the Potential for Information Technology in the Workplace: Qualitative Study. <i>Journal of Medical Internet Research</i> , 2018, 20, e265.	4.3	12
68	Continuity of care: Vital, but how do we measure and promote it?. , 2018, 47, 662-664.		11
69	Patient-centred care to improve dietetic practice: an integrative review. <i>Journal of Human Nutrition and Dietetics</i> , 2017, 30, 453-470.	2.5	68
70	Effectiveness of group-based self-management education for individuals with Type 2 diabetes: a systematic review with meta-analyses and meta-regression. <i>Diabetic Medicine</i> , 2017, 34, 1027-1039.	2.3	151
71	Using logic models to enhance the methodological quality of primary health-care interventions: guidance from an intervention to promote nutrition care by general practitioners and practice nurses. <i>Australian Journal of Primary Health</i> , 2017, 23, 53.	0.9	14
72	Patients' Perceptions of a Pressure Ulcer Prevention Care Bundle in Hospital: A Qualitative Descriptive Study to Guide Evidence-Based Practice. <i>Worldviews on Evidence-Based Nursing</i> , 2017, 14, 385-393.	2.9	8

#	ARTICLE	IF	CITATIONS
73	Developing research priorities in Australian primary health care: a focus on nutrition and physical activity. <i>Australian Journal of Primary Health</i> , 2017, 23, 554.	0.9	2
74	Effectiveness of Dietetic Consultations in Primary Health Care: A Systematic Review of Randomized Controlled Trials. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2017, 117, 1941-1962.	0.8	138
75	An International Comparison of Nutrition Education Standards, Occupational Standards and Scopes of Practice for Personal Trainers. <i>International Journal of Sport Nutrition and Exercise Metabolism</i> , 2017, 27, 507-519.	2.1	3
