#	ARTICLE	IF	CITATIONS
1	Value-based care in surgery: implications in crisis and beyond. ANZ Journal of Surgery, 2022, 92, 646-648.	0.7	5
2	Impact of comorbidities on survival following major injury across different types of road users. Injury, 2022, 53, 3178-3185.	1.7	1
3	Assessing primary care organization and performance: Literature synthesis and proposition of a consolidated framework. Health Policy, 2021, 125, 160-167.	3.0	7
4	Improving access to primary health care: a cross-case comparison based on an a priori program theory. International Journal for Equity in Health, 2021, 20, 223.	3.5	6
5	Unwarranted clinical variation in health care: Definitions and proposal of an analytic framework. Journal of Evaluation in Clinical Practice, 2020, 26, 687-696.	1.8	71
6	Correlating injury severity scores and major trauma volume using a state-wide in-patient administrative dataset linked to trauma registry data—A retrospective analysis from New South Wales Australia. Injury, 2020, 51, 109-113.	1.7	7
7	Assessing Performance in Health Care Using International Surveys: Are Patient and Clinician Perspectives Complementary or Substitutive. Journal of Patient Experience, 2020, 7, 169-180.	0.9	2
8	Does healthcare inequity reflect variations in peoples' abilities to access healthcare? Results from a multi-jurisdictional interventional study in two high-income countries. International Journal for Equity in Health, 2020, 19, 167.	3.5	22
9	Envisioning the future of clinical analytics: a modified Delphi process in New South Wales, Australia. BMC Medical Informatics and Decision Making, 2020, 20, 210.	3.0	3
10	How to implement patient experience surveys and use their findings for service improvement: a qualitative expert consultation study in Australian general practiceHow to implement patient experience surveys and use their findings for service improvement: a qualitative expert consultation study in Australian general practice. Integrated Healthcare Journal, 2020, 22, .	0.4	4
11	Avoiding unnecessary hospitalisation for patients with chronic conditions: a systematic review of implementation determinants for hospital avoidance programmes. Implementation Science, 2020, 15, 91.	6.9	34
12	What do consumers with chronic conditions expect from their interactions with general practitioners? A qualitative study of Australian consumer and provider perspectives. Health Expectations, 2020, 23, 707-716.	2.6	10
13	Combining patient, clinical and system perspectives in assessing performance in healthcare: an integrated measurement framework. BMC Health Services Research, 2020, 20, 23.	2.2	35
14	Extreme events: how do public health systems learn and adapt?. Public Health Research and Practice, 2020, 30, .	1.5	0
15	Exploring variation in low-value care: a multilevel modelling study. BMC Health Services Research, 2019, 19, 345.	2.2	12
16	What matters to people with chronic conditions when accessing care in Australian general practice? A qualitative study of patient, carer, and provider perspectives. BMC Family Practice, 2019, 20, 79.	2.9	15
17	Factors associated with successful chronic disease treatment plans for older Australians: Implications for rural and Indigenous Australians. Australian Journal of Rural Health, 2019, 27, 290-297.	1.5	2
18	Patterns of patient experience with primary care access in Australia, Canada, New Zealand and Switzerland: a comparative study. International Journal for Quality in Health Care, 2019, 31, G126-G132.	1.8	13

#	ARTICLE	IF	CITATIONS
19	Improving access to primary healthcare for vulnerable populations in Australia and Canada: protocol for a mixed-method evaluation of six complex interventions. <i>BMJ Open</i> , 2019, 9, e027869.	1.9	22
20	Barriers and facilitators to implementing playlists as a novel personalised music intervention in public healthcare settings in New South Wales, Australia. <i>Australian Journal of Primary Health</i> , 2019, 25, 31.	0.9	5
21	The Quebec emergency department guide: A cross-sectional study to evaluate its use, perceived usefulness, and implementation in rural emergency departments. <i>Canadian Journal of Emergency Medicine</i> , 2019, 21, 103-110.	1.1	1
22	Accuracy of inter-hospital transfer information in Australian hospital administrative databases. <i>Health Informatics Journal</i> , 2019, 25, 960-972.	2.1	6
23	Is the weekend effect really ubiquitous? A retrospective clinical cohort analyses of 30-day mortality by day of week and time of day using linked population data from New South Wales, Australia. <i>BMJ Open</i> , 2018, 8, e016943.	1.9	12
24	Impact of the Elderly on Household Health Expenditure in Bihar and Kerala, India. <i>Journal of Health Management</i> , 2018, 20, 1-14.	1.1	5
25	Predictive risk modelling under different data access scenarios: who is identified as high risk and for how long?. <i>BMJ Open</i> , 2018, 8, e018909.	1.9	6
26	Dimensions and intensity of inter-professional teamwork in primary care: evidence from five international jurisdictions. <i>Family Practice</i> , 2018, 35, 285-294.	1.9	19
27	The influence of patientâ€™ clinician ethnocultural and language concordance on continuity and quality of care: a cross-sectional analysis. <i>CMAJ Open</i> , 2018, 6, E276-E284.	2.4	10
28	Contextual levers for team-based primary care: lessons from reform interventions in five jurisdictions in three countries. <i>Family Practice</i> , 2018, 35, 276-284.	1.9	18
29	Uncovering the wisdom hidden between the lines: the Collaborative Reflexive Deliberative Approach. <i>Family Practice</i> , 2018, 35, 266-275.	1.9	6
30	Moving regional health services planning and management to a population-based approach: implementation of the Regional Operating Model (ROM) in Victoria, Australia. <i>Australian Journal of Primary Health</i> , 2018, 24, 311.	0.9	2
31	The Influence of Individualsâ€™ Vulnerabilities and Their Interactions on the Assessment of a Primary Care Experience. <i>International Journal of Health Services</i> , 2018, 48, 798-819.	2.5	5
32	Measuring the effect of Family Medicine Group enrolment on avoidable visits to emergency departments by patients with diabetes in Quebec, Canada. <i>Journal of Evaluation in Clinical Practice</i> , 2017, 23, 369-376.	1.8	4
33	Out-of-pocket healthcare expenditure and chronic disease â€™ do Australians forgo care because of the cost?. <i>Australian Journal of Primary Health</i> , 2017, 23, 15.	0.9	83
34	Scoping of models to support population-based regional health planning and management: comparison with the regional operating model in Victoria, Australia. <i>Australian Health Review</i> , 2017, 41, 162.	1.1	1
35	Do Gender-Predominant Primary Health Care Organizations Have an Impact on Patient Experience of Care, Use of Services, and Unmet Needs?. <i>Inquiry (United States)</i> , 2017, 54, 004695801770968.	0.9	6
36	Healthcare needs and access in a sample of Chinese young adults in Vancouver, British Columbia: A qualitative analysis. <i>International Journal of Nursing Sciences</i> , 2017, 4, 173-178.	1.3	4

#	ARTICLE	IF	CITATIONS
37	Public Reporting of Mortality Rates for Hospitalized Medicare Patients. <i>Annals of Internal Medicine</i> , 2017, 166, 75.	3.9	0
38	Validation of a new measure of availability and accommodation of health care that is valid for rural and urban contexts. <i>Health Expectations</i> , 2017, 20, 321-334.	2.6	21
39	Barriers to accessing primary health care: comparing Australian experiences internationally. <i>Australian Journal of Primary Health</i> , 2017, 23, 223.	0.9	39
40	Risk-adjusted hospital mortality rates for stroke: evidence from the Australian Stroke Clinical Registry (AuSCR). <i>Medical Journal of Australia</i> , 2017, 207, 315-315.	1.7	1
41	Disparities in experiences and outcomes of hospital care between Aboriginal and non-Aboriginal patients in New South Wales. <i>Medical Journal of Australia</i> , 2017, 207, 17-18.	1.7	2
42	Exploring interhospital transfers and partnerships in the hospital sector in New South Wales, Australia. <i>Australian Health Review</i> , 2017, 41, 672.	1.1	15
43	What role does performance information play in securing improvement in healthcare? a conceptual framework for levers of change. <i>BMJ Open</i> , 2017, 7, e014825.	1.9	24
44	The challenges of measuring quality-of-care indicators in rural emergency departments: a cross-sectional descriptive study. <i>CMAJ Open</i> , 2016, 4, E398-E403.	2.4	2
45	Interprofessional teamwork innovations for primary health care practices and practitioners: evidence from a comparison of reform in three countries. <i>Journal of Multidisciplinary Healthcare</i> , 2016, 9, 35.	2.7	67
46	Evolution of Experience of Care of Patients with and without Chronic Diseases following a Quebec Primary Healthcare Reform. <i>International Journal of Chronic Diseases</i> , 2016, 2016, 1-13.	1.0	2
47	Impacts of Quebec Primary Healthcare Reforms on Patients' Experience of Care, Unmet Needs, and Use of Services. <i>International Journal of Family Medicine</i> , 2016, 2016, 1-13.	1.2	13
48	Recast the debate about preventable readmissions. <i>BMJ Quality and Safety</i> , 2016, 25, 386-387.	3.7	2
49	Why Is Bigger Not Always Better in Primary Health Care Practices? The Role of Mediating Organizational Factors. <i>Inquiry (United States)</i> , 2016, 53, 004695801562684.	0.9	9
50	The impact of primary care reform on health system performance in Canada: a systematic review. <i>BMC Health Services Research</i> , 2016, 16, 324.	2.2	52
51	Organizational interventions improving access to community-based primary health care for vulnerable populations: a scoping review. <i>International Journal for Equity in Health</i> , 2016, 15, 168.	3.5	50
52	Effect of family medicine groups on visits to the emergency department among diabetic patients in Quebec between 2000 and 2011: a population-based segmented regression analysis. <i>BMC Family Practice</i> , 2016, 17, 23.	2.9	11
53	Equity of access to primary healthcare for vulnerable populations: the IMPACT international online survey of innovations. <i>International Journal for Equity in Health</i> , 2016, 15, 64.	3.5	96
54	Impact of Type of Medical Specialist Involvement in Chronic Illness Care on Emergency Department Use. <i>Healthcare Policy</i> , 2016, 11, 54-66.	0.6	2
