#	ARTICLE	IF	CITATIONS
1	Development of a core outcome set for multimorbidity trials in low/middle-income countries (COSMOS): study protocol. <i>BMJ Open</i> , 2022, 12, e051810.	1.9	6
2	Challenges in eating disorder diagnosis and management among family physicians and trainees: a qualitative study. <i>Journal of Eating Disorders</i> , 2022, 10, 45.	2.7	5
3	Applying systems thinking to identify enablers and challenges to scale-up interventions for hypertension and diabetes in low-income and middle-income countries: protocol for a longitudinal mixed-methods study. <i>BMJ Open</i> , 2022, 12, e053122.	1.9	1
4	Barriers to and strategies to address COVID-19 testing hesitancy: a rapid scoping review. <i>BMC Public Health</i> , 2022, 22, 750.	2.9	33
5	Integrating community paramedicine with primary health care: a qualitative study of community paramedic views. <i>CMAJ Open</i> , 2022, 10, E331-E337.	2.4	5
6	Workplace violence against emergency health care workers: What Strategies do Workers use?. <i>BMC Emergency Medicine</i> , 2022, 22, 78.	1.9	6
7	Health knowledge and self-efficacy to make health behaviour changes: a survey of older adults living in Ontario social housing. <i>BMC Geriatrics</i> , 2022, 22, .	2.7	6
8	Older adults living in social housing in Canada: the next COVID-19 hotspot?. <i>Canadian Journal of Public Health</i> , 2021, 112, 4-7.	2.3	6
9	Reshaping healthcare delivery for elderly patients: the role of community paramedicine; a systematic review. <i>BMC Health Services Research</i> , 2021, 21, 29.	2.2	35
10	Participation in the Cardiovascular Health Awareness Program (CHAP) by older adults residing in social housing in Quebec: Social network analysis. <i>BMC Health Services Research</i> , 2021, 21, 37.	2.2	0
11	Economic Analysis of Mobile Integrated Health Care Delivered by Emergency Medical Services Paramedic Teams. <i>JAMA Network Open</i> , 2021, 4, e210055.	5.9	6
12	The effect of COVID-19 on emergency medical service call volumes and patient acuity: a cross-sectional study in Niagara, Ontario. <i>BMC Emergency Medicine</i> , 2021, 21, 39.	1.9	36
13	Type 2 Diabetes Risk in Older Adults Living in Social Housing: A Cross-Sectional Study. <i>Canadian Journal of Diabetes</i> , 2021, 45, 355-359.	0.8	2
14	Subjective social isolation or loneliness in older adults residing in social housing in Ontario: a cross-sectional study. <i>CMAJ Open</i> , 2021, 9, E915-E925.	2.4	6
15	Paramedics assessing patients with complex comorbidities in community settings: results from the CARPE study. <i>Canadian Journal of Emergency Medicine</i> , 2021, 23, 828-836.	1.1	8
16	Team approach to polypharmacy evaluation and reduction: study protocol for a randomized controlled trial. <i>Trials</i> , 2021, 22, 746.	1.6	14
17	Time to reshape our delivery of primary care to vulnerable older adults in social housing?. <i>British Journal of General Practice</i> , 2021, 71, 6-7.	1.4	0
18	Relevance of assessment items in community paramedicine home visit programmes: results of a modified Delphi study. <i>BMJ Open</i> , 2021, 11, e048504.	1.9	2

#	ARTICLE	IF	CITATIONS
19	Understanding Why Frequent Users of EMS Call 9-1-1: A Grounded Theory Study. <i>Health Promotion Practice</i> , 2020, 21, 440-447.	1.6	14
20	Exploration of volunteers as health connectors within a multicomponent primary care-based program supporting self-management of diabetes and hypertension. <i>Health and Social Care in the Community</i> , 2020, 28, 734-746.	1.6	5
21	Cost-effectiveness analysis of a community paramedicine programme for low-income seniors living in subsidised housing: the community paramedicine at clinic programme (CP@clinic). <i>BMJ Open</i> , 2020, 10, e037386.	1.9	14
22	Feasibility of implementing a community cardiovascular health promotion program with paramedics and volunteers in a South Asian population. <i>BMC Public Health</i> , 2020, 20, 1618.	2.9	2
23	Critical review of multimorbidity outcome measures suitable for low-income and middle-income country settings: perspectives from the Global Alliance for Chronic Diseases (GACD) researchers. <i>BMJ Open</i> , 2020, 10, e037079.	1.9	25
24	Poverty and food insecurity of older adults living in social housing in Ontario: a cross-sectional study. <i>BMC Public Health</i> , 2020, 20, 1320.	2.9	22
25	Legal needs of patients attending an urban family practice in Hamilton, Ontario, Canada: an observational study of a legal health clinic. <i>BMC Family Practice</i> , 2020, 21, 267.	2.9	4
26	Risk of falls and fear of falling in older adults residing in public housing in Ontario, Canada: findings from a multisite observational study. <i>BMC Geriatrics</i> , 2020, 20, 11.	2.7	28
27	Disconnected relationships between primary care and community-based health and social services and system navigation for older adults: a qualitative descriptive study. <i>BMC Family Practice</i> , 2020, 21, 69.	2.9	25
28	Examining Interprofessional teams structures and processes in the implementation of a primary care intervention (Health TAPESTRY) for older adults using normalization process theory. <i>BMC Family Practice</i> , 2020, 21, 63.	2.9	15
29	What do community paramedics assess? An environmental scan and content analysis of patient assessment in community paramedicine. <i>Canadian Journal of Emergency Medicine</i> , 2019, 21, 766-775.	1.1	10
30	Multimorbidity, eHealth and implications for equity: a cross-sectional survey of patient perspectives on eHealth. <i>BMJ Open</i> , 2019, 9, e023731.	1.9	40
31	Pilot randomized controlled trial of a complex intervention for diabetes self-management supported by volunteers, technology, and interprofessional primary health care teams. <i>Pilot and Feasibility Studies</i> , 2019, 5, 118.	1.2	9
32	Choosing the most appropriate existing type 2 diabetes risk assessment tool for use in the Philippines: a case-control study with an urban Filipino population. <i>BMC Public Health</i> , 2019, 19, 1169.	2.9	8
33	Health TAPESTRY: co-designing interprofessional primary care programs for older adults using the persona-scenario method. <i>BMC Family Practice</i> , 2019, 20, 122.	2.9	25
34	Rationale and methods of an Evaluation of the Effectiveness of the Community Paramedicine at Home (CP@home) program for frequent users of emergency medical services in multiple Ontario regions: a study protocol for a randomized controlled trial. <i>Trials</i> , 2019, 20, 75.	1.6	9
35	Reducing 9-1-1 Emergency Medical Service Calls By Implementing A Community Paramedicine Program For Vulnerable Older Adults In Public Housing In Canada: A Multi-Site Cluster Randomized Controlled Trial. <i>Prehospital Emergency Care</i> , 2019, 23, 718-729.	1.8	36
36	Social factors in frequent callers: a description of isolation, poverty and quality of life in those calling emergency medical services frequently. <i>BMC Public Health</i> , 2019, 19, 684.	2.9	39

#	ARTICLE	IF	CITATIONS
37	The Community Health Assessment Program in the Philippines (CHAP-P) diabetes health promotion program for low- to middle-income countries: study protocol for a cluster randomized controlled trial. <i>BMC Public Health</i> , 2019, 19, 682.	2.9	5
38	The primary care and other health system use of home care patients: a retrospective cohort analysis. <i>CMAJ Open</i> , 2019, 7, E360-E370.	2.4	10
39	Combining volunteers and primary care teamwork to support health goals and needs of older adults: a pragmatic randomized controlled trial. <i>Cmaj</i> , 2019, 191, E491-E500.	2.0	40
40	Community paramedicine: A systematic review of program descriptions and training. <i>Canadian Journal of Emergency Medicine</i> , 2019, 21, 749-761.	1.1	53
41	The effect of community-based programs on diabetes prevention in low- and middle-income countries: a systematic review and meta-analysis. <i>Globalization and Health</i> , 2019, 15, 10.	4.9	36
42	The Electronic Asthma Management System (eAMS) improves primary care asthma management. <i>European Respiratory Journal</i> , 2019, 53, 1802241.	6.7	33
43	Large care gaps in primary care management of asthma: a longitudinal practice audit. <i>BMJ Open</i> , 2019, 9, e022506.	1.9	28
44	Patient trade-offs between continuity and access in primary care interprofessional teaching clinics in Canada: a cross-sectional survey using discrete choice experiment. <i>BMJ Open</i> , 2019, 9, e023578.	1.9	20
45	DIVERT-Collaboration Action Research and Evaluation (CARE) Trial Protocol: a multiprovincial pragmatic cluster randomised trial of cardiorespiratory management in home care. <i>BMJ Open</i> , 2019, 9, e030301.	1.9	7
46	Perceptions of older adults in Ontario, Canada on the implementation and impact of a primary care programme, Health Teams Advancing Patient Experience: Strengthening Quality (Health TAPESTRY): a descriptive qualitative study. <i>BMJ Open</i> , 2019, 9, e026257.	1.9	11
47	Examining consensus for a standardised patient assessment in community paramedicine home visits: a RAND/UCLA-modified Delphi Study. <i>BMJ Open</i> , 2019, 9, e031956.	1.9	4
48	Salutogenesis: the case for a holistic tool for paramedic assessment of wellness. <i>Journal of Paramedic Practice: the Clinical Monthly for Emergency Care Professionals</i> , 2019, 11, 440-447.	0.1	3
49	Design and rationale for a pragmatic cluster randomized trial of the Cardiovascular Health Awareness Program (CHAP) for social housing residents in Ontario and Quebec, Canada. <i>Trials</i> , 2019, 20, 760.	1.6	1
50	Development of the Health Awareness and Behaviour Tool (HABiT): reliability and suitability for a Canadian older adult population. <i>Journal of Health, Population and Nutrition</i> , 2019, 38, 40.	2.0	5
51	Medical students' challenges and suggestions regarding research training: a synthesis of comments from a cross-sectional survey. <i>Canadian Medical Education Journal</i> , 2019, 10, e91-e100.	0.4	1
52	A scoping review of intimate partner violence educational programs for health care professionals. <i>Women and Health</i> , 2018, 58, 1192-1206.	1.0	31
53	Global, regional, and national age-sex-specific mortality for 282 causes of death in 195 countries and territories, 1980–2017: a systematic analysis for the Global Burden of Disease Study 2017. <i>Lancet</i> , The, 2018, 392, 1736-1788.	13.7	4,989
54	Global, regional, and national comparative risk assessment of 84 behavioural, environmental and occupational, and metabolic risks or clusters of risks for 195 countries and territories, 1990–2017: a systematic analysis for the Global Burden of Disease Study 2017. <i>Lancet</i> , The, 2018, 392, 1923-1994.	13.7	3,269

#	ARTICLE	IF	CITATIONS
55	Global, regional, and national incidence, prevalence, and years lived with disability for 354 diseases and injuries for 195 countries and territories, 1990–2017: a systematic analysis for the Global Burden of Disease Study 2017. <i>Lancet, The</i> , 2018, 392, 1789-1858.	13.7	8,569
56	Global, regional, and national disability-adjusted life-years (DALYs) for 359 diseases and injuries and healthy life expectancy (HALE) for 195 countries and territories, 1990–2017: a systematic analysis for the Global Burden of Disease Study 2017. <i>Lancet, The</i> , 2018, 392, 1859-1922.	13.7	2,123
57	Descriptive analysis of pharmacy services provided after community pharmacy screening. <i>International Journal of Clinical Pharmacy</i> , 2018, 40, 1577-1586.	2.1	3
58	Evaluation of a community paramedicine health promotion and lifestyle risk assessment program for older adults who live in social housing: a cluster randomized trial. <i>Cmaj</i> , 2018, 190, E638-E647.	2.0	47
59	Assessing health literacy among older adults living in subsidized housing: a cross-sectional study. <i>Canadian Journal of Public Health</i> , 2018, 109, 401-409.	2.3	28
60	Effects of a community health promotion program on social factors in a vulnerable older adult population residing in social housing. <i>BMC Geriatrics</i> , 2018, 18, 95.	2.7	14
61	Alcohol use and burden for 195 countries and territories, 1990–2016: a systematic analysis for the Global Burden of Disease Study 2016. <i>Lancet, The</i> , 2018, 392, 1015-1035.	13.7	2,005
62	Effectiveness of the CANRISK tool in the identification of dysglycemia in First Nations and Métis in Canada. <i>Health Promotion and Chronic Disease Prevention in Canada: Research, Policy and Practice</i> , 2018, 38, 55-63.	1.1	12
63	Effectiveness of the CANRISK tool in the identification of dysglycemia in a Canadian South Asian Population. <i>Health Promotion and Chronic Disease Prevention in Canada: Research, Policy and Practice</i> , 2018, 38, 286-294.	1.1	4
64	A scoping study and qualitative assessment of care planning and case management in community paramedicine. <i>Irish Journal of Paramedicine</i> , 2018, 3, .	0.2	12
65	Strengthening family medicine: a Canadian perspective and the RCGP International and Overseas Network. <i>BJGP Open</i> , 2018, 1, bjgpopen17X101301.	1.8	0
66	Evaluation of a Computerized Self-Management Tool for Children with Type 1 Diabetes: A Pilot Project. <i>Canadian Journal of Diabetes</i> , 2017, 41, 124-128.	0.8	3
67	Choosing the optimal method of blood pressure measurement for limited-resource rural communities in the “Community Health Assessment Program” Philippines. <i>Journal of Clinical Hypertension</i> , 2017, 19, 899-903.	2.0	5
68	A healthy lifestyle app for older adults with diabetes and hypertension: usability assessment. <i>International Journal of Healthcare Technology and Management</i> , 2017, 16, 250.	0.1	5
69	Assessment of dysglycemia risk in the Kitikmeot region of Nunavut: using the CANRISK tool. <i>Health Promotion and Chronic Disease Prevention in Canada: Research, Policy and Practice</i> , 2017, 37, 114-122.	1.1	3
70	Choice of a suitable diabetes risk assessment tool in Nepal – can we learn from Canada?. <i>Journal of College of Medical Sciences-Nepal</i> , 2016, 6, 548-550.	0.3	0
71	High prevalence of modifiable stroke risk factors identified in a pharmacy-based screening programme. <i>Open Heart</i> , 2016, 3, e000515.	2.3	38
72	Effectiveness of a community paramedic-led health assessment and education initiative in a seniors’ residence building: the Community Health Assessment Program through Emergency Medical Services (CHAP-EMS). <i>BMC Emergency Medicine</i> , 2016, 17, 8.	1.9	38

#	ARTICLE	IF	CITATIONS
73	The CHAP-EMS health promotion program: a qualitative study on participants' views of the role of paramedics. <i>BMC Health Services Research</i> , 2016, 16, 435.	2.2	34
74	Email Between Patient and Provider: Assessing the Attitudes and Perspectives of 624 Primary Health Care Patients. <i>JMIR Medical Informatics</i> , 2016, 4, e42.	2.6	6
75	A protocol for a pragmatic randomized controlled trial using the Health Teams Advancing Patient Experience: Strengthening Quality (Health TAPESTRY) platform approach to promote person-focused primary healthcare for older adults. <i>Implementation Science</i> , 2015, 11, 49.	6.9	31
76	Development of a community health and wellness pilot in a subsidised seniors' apartment building in Hamilton, Ontario: Community Health Awareness Program delivered by Emergency Medical Services (CHAP-EMS). <i>BMC Research Notes</i> , 2015, 8, 113.	1.4	18
77	Rationale and methods of a multicentre randomised controlled trial of the effectiveness of a Community Health Assessment Programme with Emergency Medical Services (CHAP-EMS) implemented on residents aged 55 years and older in subsidised seniors' housing buildings in Ontario, Canada. <i>BMJ Open</i> , 2015, 5, e008110-e008110.	1.9	24
78	Managing pain medications in long-term care: nurses' views. <i>British Journal of Nursing</i> , 2015, 24, 484-489.	0.7	4
79	Nurses' Perception and Comfort Level with Diabetes Management Practices in Long-Term Care. <i>Canadian Journal of Diabetes</i> , 2014, 38, 314-319.	0.8	5
80	Effectiveness of a Community Health and Wellness Pilot in a Subsidized Seniors' Apartment Building: CHAP-EMS. <i>Canadian Journal of Diabetes</i> , 2014, 38, S72.	0.8	1
81	Persona-scenario exercise for codesigning primary care interventions. <i>Canadian Family Physician</i> , 2014, 60, 294-6.	0.4	11
82	A Community Health Awareness Program in Subsidized Seniors Homes: Using CANRISK as a Risk Assessment and Health Promotion Tool. <i>Canadian Journal of Diabetes</i> , 2013, 37, S75.	0.8	1
83	South Asian Temple-Goers' Perspective on Diabetes and its Prevention. <i>Canadian Journal of Diabetes</i> , 2013, 37, S73.	0.8	0
84	Community Health Awareness of Diabetes (CHAD): Description of a Community-Wide Diabetes Awareness Demonstration Program and its Feasibility. <i>Canadian Journal of Diabetes</i> , 2013, 37, 294-300.	0.8	7
85	Helping primary care teams emerge through a quality improvement program. <i>Family Practice</i> , 2013, 30, 204-211.	1.9	19
86	Personal health records--an overview of the changing face of family practice. <i>Family Practice</i> , 2013, 30, 363-364.	1.9	3
87	Screening for Diabetes in Family Practice: A Case Study in Ontario, Canada. , 2013, , .		0
88	Intimate partner violence: patients' experiences and perceptions in family practice. <i>Family Practice</i> , 2012, 29, 593-600.	1.9	24
89	Care for Patients with Type 2 Diabetes in a Random Sample of Community Family Practices in Ontario, Canada. <i>International Journal of Family Medicine</i> , 2012, 2012, 1-7.	1.2	3
90	Uptake of Online versus Paper-based Diabetes Risk Screening Assessment in a Large Primary Care Setting. <i>Canadian Journal of Diabetes</i> , 2012, 36, S2.	0.8	0

#	ARTICLE	IF	CITATIONS
91	Chronically ill Canadians's experiences of being unattached to a family doctor: a qualitative study of marginalized patients in British Columbia. <i>BMC Family Practice</i> , 2012, 13, 69.	2.9	33
92	Nurses' perceptions of and satisfaction with the medication administration system in long-term-care homes. <i>Canadian Journal of Nursing Research</i> , 2010, 42, 58-79.	1.5	4
93	Patient satisfaction with access in two interprofessional academic family medicine clinics. <i>Family Practice</i> , 2009, 26, 407-412.	1.9	20
94	Accuracy of self-reports of Pap and mammography screening compared to medical record: a meta-analysis. <i>Cancer Causes and Control</i> , 2009, 20, 1-13.	1.8	142
95	Consent for use of personal information for health research: Do people with potentially stigmatizing health conditions and the general public differ in their opinions?. <i>BMC Medical Ethics</i> , 2009, 10, 10.	2.4	56
96	What are the roles involved in establishing and maintaining informational continuity of care within family practice? A systematic review. <i>BMC Family Practice</i> , 2008, 9, 65.	2.9	25
97	Development of a program for improving interprofessional relationships through intentional conversations in primary care. <i>Journal of Interprofessional Care</i> , 2008, 22, 432-435.	1.7	3
98	GPs' approach to insulin prescribing in older patients: a qualitative study. <i>British Journal of General Practice</i> , 2008, 58, 569-575.	1.4	20
99	The nature of informational continuity of care in general practice. <i>British Journal of General Practice</i> , 2008, 58, e17-e24.	1.4	27
100	Incidence and Disposition of Diabetic Emergencies by Paramedic Services in Halton, Ontario. <i>Canadian Journal of Diabetes</i> , 2007, 31, 62-66.	0.8	1
101	Obesity registers. <i>Cmaj</i> , 2006, 176, 65-65.	2.0	0
