#	Article	IF	CITATIONS
1	Fewer Emergency Readmissions and Better Quality of Life for Older Adults at Risk of Hospital Readmission: A Randomized Controlled Trial to Determine the Effectiveness of a 24â€Week Exercise and Telephone Followâ€Up Program. Journal of the American Geriatrics Society, 2009, 57, 395-402.	2.6	183
2	The impact of clinical placement location on nursing students' competence and preparedness for practice. Nurse Education Today, 2004, 24, 248-255.	3.3	125
3	A randomised controlled trial of a community nursing intervention: improved quality of life and healing for clients with chronic leg ulcers. Journal of Clinical Nursing, 2009, 18, 1541-1549.	3.0	99
4	Factors associated with recurrence of venous leg ulcers: A survey and retrospective chart review. International Journal of Nursing Studies, 2009, 46, 1071-1078.	5.6	85
5	Health service pathways for patients with chronic leg ulcers: identifying effective pathways for facilitation of evidence based wound care. BMC Health Services Research, 2013, 13, 86.	2.2	85
6	Elevated uric acid correlates with wound severity. International Wound Journal, 2012, 9, 139-149.	2.9	83
7	The impact of psychosocial factors on adherence to compression therapy to prevent recurrence of venous leg ulcers. Journal of Clinical Nursing, 2010, 19, 1289-1297.	3.0	80
8	Transitional care interventions reduce unplanned hospital readmissions in high-risk older adults. BMC Health Services Research, 2018, 18, 956.	2.2	73
9	Evaluating the effectiveness of a selfâ€management exercise intervention on wound healing, functional ability and healthâ€related quality of life outcomes in adults with venous leg ulcers: a randomised controlled trial. International Wound Journal, 2017, 14, 130-137.	2.9	72
10	Identifying risk factors and protective factors for venous leg ulcer recurrence using a theoretical approach: A longitudinal study. International Journal of Nursing Studies, 2015, 52, 1042-1051.	5.6	67
11	Identification of Symptom Clusters in Patients With Chronic Venous Leg Ulcers. Journal of Pain and Symptom Management, 2014, 47, 867-875.	1.2	54
12	Relationships between preventive activities, psychosocial factors and recurrence of venous leg ulcers: a prospective study. Journal of Advanced Nursing, 2011, 67, 2180-2190.	3.3	52
13	The impact of rural clinical placement On Student Nurses' Employment Intentions. Collegian, 2002, 9, 12-18.	1.3	50
14	Improved functional ability and independence in activities of daily living for older adults at high risk of hospital readmission: a randomized controlled trial. Journal of Evaluation in Clinical Practice, 2012, 18, 128-134.	1.8	50
15	Validity of the Malnutrition Screening Tool for Older Adults at High Risk of Hospital Readmission. Journal of Gerontological Nursing, 2012, 38, 38-45.	0.6	49
16	The effectiveness of a fourâ€layer compression bandage system in comparison with Class 3 compression hosiery on healing and quality of life in patients with venous leg ulcers: a randomised controlled trial. International Wound Journal, 2014, 11, 21-27.	2.9	49
17	Improved healing rates for chronic venous leg ulcers: Pilot study results from a randomized controlled trial of a community nursing intervention. International Journal of Nursing Practice, 2005, 11, 169-176.	1.7	48
18	Predicting the likelihood of venous leg ulcer recurrence: The diagnostic accuracy of a newly developed risk assessment tool. International Wound Journal, 2018, 15, 686-694.	2.9	45

KATHLEEN J FINLAYSON

#	Article	IF	CITATIONS
19	Chronic venous leg ulcers: effect of a community nursing intervention on pain and healing. Nursing Standard (Royal College of Nursing (Great Britain): 1987), 2005, 19, 47-54.	0.1	44
20	Cost-effectiveness analysis of guideline-based optimal care for venous leg ulcers in Australia. BMC Health Services Research, 2018, 18, 421.	2.2	44
21	Distinct Wound Healing and Quality-of-Life Outcomes in Subgroups of Patients With Venous Leg Ulcers With Different Symptom Cluster Experiences. Journal of Pain and Symptom Management, 2017, 53, 871-879.	1.2	43
22	A randomised controlled trial to prevent hospital readmissions and loss of functional ability in high risk older adults: a study protocol. BMC Health Services Research, 2011, 11, 202.	2.2	29
23	Effectiveness of a theory-based foot care education program (3STEPFUN) in improving foot self-care behaviours and foot risk factors for ulceration in people with type 2 diabetes. Diabetes Research and Clinical Practice, 2019, 152, 29-38.	2.8	29
24	The effectiveness of hyperbaric oxygen therapy for healing chronic venous leg ulcers: A randomized, doubleâ€blind, placeboâ€controlled trial. Wound Repair and Regeneration, 2018, 26, 324-331.	3.0	28
25	Cost-Effectiveness of an Intervention to Reduce Emergency Re-Admissions to Hospital among Older Patients. PLoS ONE, 2009, 4, e7455.	2.5	27
26	Learning About Baby: What New Mothers Would Like to Know. Journal of Perinatal Education, 2008, 17, 33-41.	0.4	26
27	Identification and nursing management of dysphagia in individuals with acute neurological impairment (update). International Journal of Evidence-Based Healthcare, 2011, 9, 148-150.	0.5	22
28	Ulcer area reduction at 2 weeks predicts failure to heal by 24 weeks in the venous leg ulcers of patients living alone. Journal of Wound Care, 2016, 25, 626-634.	1.2	22
29	Reduced prevalence and severity of wounds following implementation of the Champions for Skin Integrity model to facilitate uptake of evidenceâ€based practice in aged care. Journal of Clinical Nursing, 2017, 26, 4276-4285.	3.0	21
30	The diagnosis of infection in chronic leg ulcers: A narrative review on clinical practice. International Wound Journal, 2019, 16, 601-620.	2.9	18
31	Identifying risk factors associated with infection in patients with chronic leg ulcers. International Wound Journal, 2018, 15, 283-290.	2.9	17
32	Identifying relationships between symptom clusters and quality of life in adults with chronic mixed venous and arterial leg ulcers. International Wound Journal, 2016, 13, 904-911.	2.9	15
33	Risk factors for infection in patients with chronic leg ulcers: A survival analysis. International Journal of Clinical Practice, 2018, 72, e13263.	1.7	15
34	Factors associated with adherence to using removable cast walker treatment among patients with diabetes-related foot ulcers. BMJ Open Diabetes Research and Care, 2022, 10, e002640.	2.8	15
35	A peptidomimetic inhibitor of matrix metalloproteinases containing a tetherable linker group. Journal of Biomedical Materials Research - Part A, 2011, 96A, 663-672.	4.0	13
36	Improving patient outcomes by coaching primary health general practitioners and practice nurses in evidence based wound management at on-site wound clinics. Collegian, 2019, 26, 62-68.	1.3	13

KATHLEEN J FINLAYSON

#	Article	IF	CITATIONS
37	Reflection on the cause and avoidance of recurrent venous leg ulcers: An interpretive descriptive approach. Journal of Clinical Nursing, 2018, 27, e931-e939.	3.0	12
38	Exploring the prevalence and management of wounds for people with dementia in longâ€ŧerm care. International Wound Journal, 2020, 17, 650-659.	2.9	10
39	Using a theoretical approach to identify factors influencing adherence to an exercise programme for adults with venous leg ulcers. Journal of Health Psychology, 2018, 23, 691-700.	2.3	9
40	Predicting the Likelihood of Delayed Venous Leg Ulcer Healing and Recurrence: Development and Reliability Testing of Risk Assessment Tools. Ostomy - Wound Management, 2017, 63, 16-33.	0.8	7
41	Decreased mobility, lack of social support, haemosiderosis and use of antidepressant medications may predict recurrent venous leg ulcers within 12Âmonths of healing: A prospective longitudinal study. Phlebology, 2022, 37, 206-215.	1.2	5
42	The First Steps Program: a case study of a new model of community child health service. Australian Health Review, 2010, 34, 386.	1.1	4
43	Validation of predictive factors for infection in adults with chronic leg ulcers: A prospective longitudinal study. Journal of Clinical Nursing, 2020, 29, 1074-1084.	3.0	3
44	Implementation of the Champions for Skin Integrity model to improve leg and foot ulcer care in the primary healthcare setting. Journal of Clinical Nursing, 2019, 28, 2517-2525.	3.0	2
45	Risk factors for the recurrence of venous leg ulcers in adults: A systematic review protocol. Journal of Tissue Viability, 2022, 31, 804-807.	2.0	2
46	COMPARISON OF ROLES AND PROFESSIONAL DEVELOPMENT NEEDS OF NURSE EXECUTIVES WORKING IN METROPOLITAN, PROVINCIAL, RURAL OR REMOTE SETTINGS IN QUEENSLAND. Australian Journal of Rural Health, 2002, 10, 202-208.	1.5	0
