#	ARTICLE	IF	CITATIONS
1	Factors associated with adherence to using removable cast walker treatment among patients with diabetes-related foot ulcers. <i>BMJ Open Diabetes Research and Care</i> , 2022, 10, e002640.	2.8	15
2	Decreased mobility, lack of social support, haemosiderosis and use of antidepressant medications may predict recurrent venous leg ulcers within 12 months of healing: A prospective longitudinal study. <i>Phlebology</i> , 2022, 37, 206-215.	1.2	5
3	Risk factors for the recurrence of venous leg ulcers in adults: A systematic review protocol. <i>Journal of Tissue Viability</i> , 2022, 31, 804-807.	2.0	2
4	Validation of predictive factors for infection in adults with chronic leg ulcers: A prospective longitudinal study. <i>Journal of Clinical Nursing</i> , 2020, 29, 1074-1084.	3.0	3
5	Exploring the prevalence and management of wounds for people with dementia in long-term care. <i>International Wound Journal</i> , 2020, 17, 650-659.	2.9	10
6	The diagnosis of infection in chronic leg ulcers: A narrative review on clinical practice. <i>International Wound Journal</i> , 2019, 16, 601-620.	2.9	18
7	Effectiveness of a theory-based foot care education program (3STEPFUN) in improving foot self-care behaviours and foot risk factors for ulceration in people with type 2 diabetes. <i>Diabetes Research and Clinical Practice</i> , 2019, 152, 29-38.	2.8	29
8	Implementation of the Champions for Skin Integrity model to improve leg and foot ulcer care in the primary healthcare setting. <i>Journal of Clinical Nursing</i> , 2019, 28, 2517-2525.	3.0	2
9	Improving patient outcomes by coaching primary health general practitioners and practice nurses in evidence based wound management at on-site wound clinics. <i>Collegian</i> , 2019, 26, 62-68.	1.3	13
10	Identifying risk factors associated with infection in patients with chronic leg ulcers. <i>International Wound Journal</i> , 2018, 15, 283-290.	2.9	17
11	Predicting the likelihood of venous leg ulcer recurrence: The diagnostic accuracy of a newly developed risk assessment tool. <i>International Wound Journal</i> , 2018, 15, 686-694.	2.9	45
12	Using a theoretical approach to identify factors influencing adherence to an exercise programme for adults with venous leg ulcers. <i>Journal of Health Psychology</i> , 2018, 23, 691-700.	2.3	9
13	Reflection on the cause and avoidance of recurrent venous leg ulcers: An interpretive descriptive approach. <i>Journal of Clinical Nursing</i> , 2018, 27, e931-e939.	3.0	12
14	Transitional care interventions reduce unplanned hospital readmissions in high-risk older adults. <i>BMC Health Services Research</i> , 2018, 18, 956.	2.2	73
15	Risk factors for infection in patients with chronic leg ulcers: A survival analysis. <i>International Journal of Clinical Practice</i> , 2018, 72, e13263.	1.7	15
16	Cost-effectiveness analysis of guideline-based optimal care for venous leg ulcers in Australia. <i>BMC Health Services Research</i> , 2018, 18, 421.	2.2	44
17	The effectiveness of hyperbaric oxygen therapy for healing chronic venous leg ulcers: A randomized, double-blind, placebo-controlled trial. <i>Wound Repair and Regeneration</i> , 2018, 26, 324-331.	3.0	28
18	Evaluating the effectiveness of a self-management exercise intervention on wound healing, functional ability and health-related quality of life outcomes in adults with venous leg ulcers: a randomised controlled trial. <i>International Wound Journal</i> , 2017, 14, 130-137.	2.9	72

#	ARTICLE	IF	CITATIONS
19	Distinct Wound Healing and Quality-of-Life Outcomes in Subgroups of Patients With Venous Leg Ulcers With Different Symptom Cluster Experiences. <i>Journal of Pain and Symptom Management</i> , 2017, 53, 871-879.	1.2	43
20	Reduced prevalence and severity of wounds following implementation of the Champions for Skin Integrity model to facilitate uptake of evidence-based practice in aged care. <i>Journal of Clinical Nursing</i> , 2017, 26, 4276-4285.	3.0	21
21	Predicting the Likelihood of Delayed Venous Leg Ulcer Healing and Recurrence: Development and Reliability Testing of Risk Assessment Tools. <i>Ostomy - Wound Management</i> , 2017, 63, 16-33.	0.8	7
22	Ulcer area reduction at 2 weeks predicts failure to heal by 24 weeks in the venous leg ulcers of patients living alone. <i>Journal of Wound Care</i> , 2016, 25, 626-634.	1.2	22
23	Identifying relationships between symptom clusters and quality of life in adults with chronic mixed venous and arterial leg ulcers. <i>International Wound Journal</i> , 2016, 13, 904-911.	2.9	15
24	Identifying risk factors and protective factors for venous leg ulcer recurrence using a theoretical approach: A longitudinal study. <i>International Journal of Nursing Studies</i> , 2015, 52, 1042-1051.	5.6	67
25	The effectiveness of a four-layer compression bandage system in comparison with Class 3 compression hosiery on healing and quality of life in patients with venous leg ulcers: a randomised controlled trial. <i>International Wound Journal</i> , 2014, 11, 21-27.	2.9	49
26	Identification of Symptom Clusters in Patients With Chronic Venous Leg Ulcers. <i>Journal of Pain and Symptom Management</i> , 2014, 47, 867-875.	1.2	54
27	Health service pathways for patients with chronic leg ulcers: identifying effective pathways for facilitation of evidence based wound care. <i>BMC Health Services Research</i> , 2013, 13, 86.	2.2	85
28	Validity of the Malnutrition Screening Tool for Older Adults at High Risk of Hospital Readmission. <i>Journal of Gerontological Nursing</i> , 2012, 38, 38-45.	0.6	49
29	Improved functional ability and independence in activities of daily living for older adults at high risk of hospital readmission: a randomized controlled trial. <i>Journal of Evaluation in Clinical Practice</i> , 2012, 18, 128-134.	1.8	50
30	Elevated uric acid correlates with wound severity. <i>International Wound Journal</i> , 2012, 9, 139-149.	2.9	83
31	Relationships between preventive activities, psychosocial factors and recurrence of venous leg ulcers: a prospective study. <i>Journal of Advanced Nursing</i> , 2011, 67, 2180-2190.	3.3	52
32	Identification and nursing management of dysphagia in individuals with acute neurological impairment (update). <i>International Journal of Evidence-Based Healthcare</i> , 2011, 9, 148-150.	0.5	22
33	A randomised controlled trial to prevent hospital readmissions and loss of functional ability in high risk older adults: a study protocol. <i>BMC Health Services Research</i> , 2011, 11, 202.	2.2	29
34	A peptidomimetic inhibitor of matrix metalloproteinases containing a tetherable linker group. <i>Journal of Biomedical Materials Research - Part A</i> , 2011, 96A, 663-672.	4.0	13
35	The First Steps Program: a case study of a new model of community child health service. <i>Australian Health Review</i> , 2010, 34, 386.	1.1	4
36	The impact of psychosocial factors on adherence to compression therapy to prevent recurrence of venous leg ulcers. <i>Journal of Clinical Nursing</i> , 2010, 19, 1289-1297.	3.0	80

#	ARTICLE	IF	CITATIONS
37	Factors associated with recurrence of venous leg ulcers: A survey and retrospective chart review. <i>International Journal of Nursing Studies</i> , 2009, 46, 1071-1078.	5.6	85
38	A randomised controlled trial of a community nursing intervention: improved quality of life and healing for clients with chronic leg ulcers. <i>Journal of Clinical Nursing</i> , 2009, 18, 1541-1549.	3.0	99
39	Fewer Emergency Readmissions and Better Quality of Life for Older Adults at Risk of Hospital Readmission: A Randomized Controlled Trial to Determine the Effectiveness of a 24-Week Exercise and Telephone Follow-Up Program. <i>Journal of the American Geriatrics Society</i> , 2009, 57, 395-402.	2.6	183
40	Cost-Effectiveness of an Intervention to Reduce Emergency Re-Admissions to Hospital among Older Patients. <i>PLoS ONE</i> , 2009, 4, e7455.	2.5	27
41	Learning About Baby: What New Mothers Would Like to Know. <i>Journal of Perinatal Education</i> , 2008, 17, 33-41.	0.4	26
42	Improved healing rates for chronic venous leg ulcers: Pilot study results from a randomized controlled trial of a community nursing intervention. <i>International Journal of Nursing Practice</i> , 2005, 11, 169-176.	1.7	48
43	Chronic venous leg ulcers: effect of a community nursing intervention on pain and healing. <i>Nursing Standard (Royal College of Nursing (Great Britain): 1987)</i> , 2005, 19, 47-54.	0.1	44
44	The impact of clinical placement location on nursing students' competence and preparedness for practice. <i>Nurse Education Today</i> , 2004, 24, 248-255.	3.3	125
45	The impact of rural clinical placement On Student Nurses' Employment Intentions. <i>Collegian</i> , 2002, 9, 12-18.	1.3	50
46	COMPARISON OF ROLES AND PROFESSIONAL DEVELOPMENT NEEDS OF NURSE EXECUTIVES WORKING IN METROPOLITAN, PROVINCIAL, RURAL OR REMOTE SETTINGS IN QUEENSLAND. <i>Australian Journal of Rural Health</i> , 2002, 10, 202-208.	1.5	0
