#	ARTICLE	IF	CITATIONS
1	The attitudes, beliefs and behaviours of GPs regarding exercise for chronic knee pain: a systematic review. <i>BMC Family Practice</i> , 2010, 11, 4.	2.9	68
2	Improvement in the management of gout is vital and overdue: an audit from a UK primary care medical practice. <i>BMC Family Practice</i> , 2013, 14, 170.	2.9	66
3	Using simple telehealth in primary care to reduce blood pressure: a service evaluation. <i>BMJ Open</i> , 2012, 2, e001391.	1.9	41
4	A cross-sectional survey and service evaluation of simple telehealth in primary care: what do patients think?. <i>BMJ Open</i> , 2012, 2, e001392.	1.9	41
5	Maximising response from GPs to questionnaire surveys: do length or incentives make a difference?. <i>BMC Medical Research Methodology</i> , 2015, 15, 3.	3.1	39
6	A systematic review and evidence synthesis of non-medical triage, self-referral and direct access services for patients with musculoskeletal pain. <i>PLoS ONE</i> , 2020, 15, e0235364.	2.5	37
7	Modelling successful primary care for multimorbidity: a realist synthesis of successes and failures in concurrent learning and healthcare delivery. <i>BMC Family Practice</i> , 2015, 16, 23.	2.9	29
8	GPs' attitudes, beliefs and behaviours regarding exercise for chronic knee pain: a questionnaire survey. <i>BMJ Open</i> , 2017, 7, e014999.	1.9	27
9	Lived experiences of multimorbidity: An interpretative meta-synthesis of patients'™, general practitioners'™ and trainees'™ perceptions. <i>Chronic Illness</i> , 2015, 11, 279-303.	1.5	26
10	What influences general practitioners'™ use of exercise for patients with chronic knee pain? Results from a national survey. <i>BMC Family Practice</i> , 2016, 17, 172.	2.9	24
11	Acceptability of bisphosphonates among patients, clinicians and managers: a systematic review and framework synthesis. <i>BMJ Open</i> , 2020, 10, e040634.	1.9	22
12	Implementation of simple telehealth to manage hypertension in general practice: a service evaluation. <i>BMC Family Practice</i> , 2015, 16, 83.	2.9	19
13	Patient and professional user experiences of simple telehealth for hypertension, medication reminders and smoking cessation: a service evaluation. <i>BMJ Open</i> , 2015, 5, e007270-e007270.	1.9	15
14	Addison'™s disease: identification and management in primary care. <i>British Journal of General Practice</i> , 2015, 65, 488-490.	1.4	15
15	Patterns of routine primary care for osteoarthritis in the UK: a cross-sectional electronic health records study. <i>BMJ Open</i> , 2017, 7, e019694.	1.9	11
16	A qualitative exploration of two risk calculators using video-recorded NHS health check consultations. <i>BMC Family Practice</i> , 2020, 21, 250.	2.9	11
17	Understanding the uptake of a clinical innovation for osteoarthritis in primary care: a qualitative study of knowledge mobilisation using the i-PARIHS framework. <i>Implementation Science</i> , 2020, 15, 95.	6.9	10
18	Inflammatory arthritis: case review and primary care perspectives. <i>Clinical Rheumatology</i> , 2012, 31, 739-744.	2.2	8

#	ARTICLE	IF	CITATIONS
19	A qualitative study of cardiovascular disease risk communication in NHS Health Check using different risk calculators: protocol for the Risk COmmunication in NHS Health Check (RICO) study. BMC Family Practice, 2019, 20, 11.	2.9	8
20	A mixed methods exploration of physiotherapistâ€™s approaches to analgesic use among patients with hip osteoarthritis. Physiotherapy, 2019, 105, 328-337.	0.4	8
21	Quantitative examination of video-recorded NHS Health Checks: comparison of the use of QRISK2 versus JBS3 cardiovascular risk calculators. BMJ Open, 2020, 10, e037790.	1.9	8
22	Cardiovascular disease risk communication in NHS Health Checks using QRISKÂ®2 and JBS3 risk calculators: the RICO qualitative and quantitative study. Health Technology Assessment, 2021, 25, 1-124.	2.8	8
23	Acceptability of, and preferences for, remote consulting during COVID-19 among older patients with two common long-term musculoskeletal conditions: findings from three qualitative studies and recommendations for practice. BMC Musculoskeletal Disorders, 2022, 23, 312.	1.9	8
24	Telescopic otology referrals: Evaluation of feasibility and acceptability. Laryngoscope Investigative Otolaryngology, 2020, 5, 221-227.	1.5	7
25	Developing a model Fracture Liaison Service consultation with patients, carers and clinicians: a Delphi survey to inform content of the iFraP complex consultation intervention. Archives of Osteoporosis, 2021, 16, 58.	2.4	7
26	Cardiovascular disease risk communication in NHS Health Checks: a qualitative video-stimulated recall interview study with practitioners. BJGP Open, 2021, 5, BJGPO.2021.0049.	1.8	7
27	Evaluation of the First Contact Physiotherapy (FCP) model of primary care: patient characteristics and outcomes. Physiotherapy, 2021, 113, 199-208.	0.4	7
28	Co-prescription of gabapentinoids and opioids among adults with and without osteoarthritis in the United Kingdom between 1995 and 2017. Rheumatology, 2021, 60, 1942-1950.	1.9	6
29	Improving osteoarthritis management in primary healthcare: results from a quasi-experimental study. BMC Musculoskeletal Disorders, 2021, 22, 79.	1.9	6
30	Improving uptake of Fracture Prevention drug treatments: a protocol for Development of a consultation intervention (iFraP-D). BMJ Open, 2021, 11, e048811.	1.9	6
31	Ambulatory emergency care: how should acute generalists manage risk in undifferentiated illness?. British Journal of General Practice, 2018, 68, 12-13.	1.4	5
32	Understanding success and failure in multimorbidity: protocol for using realist synthesis to identify how social learning and workplace practices can be optimised. Systematic Reviews, 2013, 2, 87.	5.3	3
33	Assessing academic clinical fellows in general practice: square pegs in round holes?. Education for Primary Care, 2013, 24, 266-273.	0.6	3
34	Barriers and facilitators to the implementation of osteoarthritis management programmes in primary or community care settings: a systematic review and qualitative framework synthesis protocol. HRB Open Research, 2021, 4, 102.	0.6	3
35	Association between received treatment elements and satisfaction with care for patients with knee osteoarthritis seen in general practice in Denmark. Scandinavian Journal of Primary Health Care, 2021, 39, 257-264.	1.5	2
36	Primary care-based models of care for osteoarthritis: a scoping review protocol. HRB Open Research, 2021, 4, 48.	0.6	2

#	ARTICLE	IF	CITATIONS
37	Changes in received quality of care for knee osteoarthritis after a multicomponent intervention in a general practice in Denmark. Health Science Reports, 2021, 4, e402.	1.5	2
38	Healthcare professionals' knowledge of calories. Nursing Standard (Royal College of Nursing (Great Tj ETQq0 0,0 rgBT /Overlock 10	0.1	1
39	P117'Exploring experiences of Fracture Liaison Services and perceptions of a new decision tool to support patient and clinician decisions: a focus group study. Rheumatology, 2021, 60, .	1.9	0
40	P118'Co-design of a model Fracture Liaison Service consultation: a Delphi survey with patients and clinicians. Rheumatology, 2021, 60, .	1.9	0
41	Acceptability of physician associate interns in primary care: results from a service evaluation. BMC Family Practice, 2021, 22, 250.	2.9	0
42	Title is missing!. , 2020, 15, e0235364.		0
43	Title is missing!. , 2020, 15, e0235364.		0
44	Title is missing!. , 2020, 15, e0235364.		0
45	Title is missing!. , 2020, 15, e0235364.		0
46	P059'Acceptability of remote consulting during COVID-19 among patients with two common long-term musculoskeletal conditions: findings from three qualitative studies and recommendations for practice. Rheumatology, 2022, 61, .	1.9	0
47	P077'Developing a better explanation of osteoarthritis: results from a conjoint analysis of patient preferences. Rheumatology, 2022, 61, .	1.9	0
