citing authors

#	ARTICLE	IF	CITATIONS
1	Acupuncture for brain diseases: Conception, application, and exploration. <i>Anatomical Record</i> , 2023, 306, 2958-2973.	1.4	2
2	Analysis of Acupoint Selection and Combinations in Acupuncture Treatment of Asthma Based on Data Mining. <i>Complementary Medicine Research</i> , 2022, 29, 136-146.	1.2	4
3	Electroacupuncture at ST36 (Zusanli) Prevents T-Cell Lymphopenia and Improves Survival in Septic Mice. <i>Journal of Inflammation Research</i> , 2022, Volume 15, 2819-2833.	3.5	9
4	Cyclophilin A Plays Potential Roles in a Rat Model of Asthma and Suppression of Immune Response. <i>Journal of Asthma and Allergy</i> , 2021, Volume 14, 471-480.	3.4	1
5	Metallothionein-2 is associated with the amelioration of asthmatic pulmonary function by acupuncture through protein phosphorylation. <i>Biomedicine and Pharmacotherapy</i> , 2020, 123, 109785.	5.6	5
6	Discovery of potential asthma targets based on the clinical efficacy of Traditional Chinese Medicine formulas. <i>Journal of Ethnopharmacology</i> , 2020, 252, 112635.	4.1	24
7	Transgelin-2 as a therapeutic target for asthmatic pulmonary resistance. <i>Science Translational Medicine</i> , 2018, 10, .	12.4	47
8	S100A8 protein attenuates airway hyperresponsiveness by suppressing the contraction of airway smooth muscle. <i>Biochemical and Biophysical Research Communications</i> , 2017, 484, 184-188.	2.1	16
9	Serum from asthmatic rat treated with acupuncture inhibits acetylcholine-induced contractile responses of airway smooth muscle cells. <i>Journal of Traditional Chinese Medicine = Chung I Tsa Chih Ying Wen Pan / Sponsored By All-China Association of Traditional Chinese Medicine, Academy of Traditional Chinese Medicine</i> . 2017, 37, 101-107.	0.4	1
10	S100A8 inhibits PDGF-induced proliferation of airway smooth muscle cells dependent on the receptor for advanced glycation end-products. <i>Biological Research</i> , 2017, 50, 23.	3.4	8
11	Decreased S100A9 Expression Promoted Rat Airway Smooth Muscle Cell Proliferation by Stimulating ROS Generation and Inhibiting p38 MAPK. <i>Canadian Respiratory Journal</i> , 2016, 2016, 1-7.	1.6	9
12	Acupuncture Has a Positive Effect on Asthmatic Rats in a Glucocorticoid-Independent Manner. <i>Acupuncture in Medicine</i> , 2016, 34, 433-440.	1.0	8
13	Exogenous S100A8 protein inhibits PDGF-induced migration of airway smooth muscle cells in a RAGE-dependent manner. <i>Biochemical and Biophysical Research Communications</i> , 2016, 472, 243-249.	2.1	11
14	Efficacy of acupuncture for chronic asthma: study protocol for a randomized controlled trial. <i>Trials</i> , 2015, 16, 424.	1.6	10
15	Non-specific physiological background effects of acupuncture revealed by proteomic analysis in normal rats. <i>BMC Complementary and Alternative Medicine</i> , 2014, 14, 375.	3.7	4
16	Simultaneous application of BrdU and WST-1 measurements for detection of the proliferation and viability of airway smooth muscle cells. <i>Biological Research</i> , 2014, 47, 75.	3.4	15
17	Considerations for Use of Acupuncture as Supplemental Therapy for Patients with Allergic Asthma. <i>Clinical Reviews in Allergy and Immunology</i> , 2013, 44, 254-261.	6.5	36
18	Recombinant Rat CC10 Protein Inhibits PDGF-Induced Airway Smooth Muscle Cells Proliferation and Migration. <i>BioMed Research International</i> , 2013, 2013, 1-8.	1.9	15

#	ARTICLE	IF	CITATIONS
19	The Research of Acupuncture Effective Biomolecules: Retrospect and Prospect. Evidence-based Complementary and Alternative Medicine, 2013, 2013, 1-6.	1.2	11
20	An In Vivo and In Vitro Evaluation of the Mutual Interactions between the Lung and the Large Intestine. Evidence-based Complementary and Alternative Medicine, 2013, 2013, 1-9.	1.2	10
21	Long Term and Standard Incubations of WST-1 Reagent Reflect the Same Inhibitory Trend of Cell Viability in Rat Airway Smooth Muscle Cells. International Journal of Medical Sciences, 2013, 10, 68-72.	2.5	43
22	Proteomic Analysis Reveals the Deregulation of Inflammation-Related Proteins in Acupuncture-Treated Rats with Asthma Onset. Evidence-based Complementary and Alternative Medicine, 2012, 2012, 1-14.	1.2	15
23	Crowding-Induced Crystallization of Poly(Ethylene Terephthalate). Journal of Macromolecular Science - Physics, 2012, 51, 1893-1903.	1.0	3
24	Effects of acupuncture on the gene expression profile of lung tissue from normal rats. Molecular Medicine Reports, 2012, 6, 345-60.	2.4	6
25	Alteration of the proteome profile of the pancreas in diabetic rats induced by streptozotocin. International Journal of Molecular Medicine, 2011, 28, 153-60.	4.0	20
26	Assessments of different kinds of sham acupuncture applied in randomized controlled trials. Journal of Acupuncture and Tuina Science, 2011, 9, 199-203.	0.3	19
27	Prof. CHEN Han-ping: A thinker in principles and practice of acupuncture-moxibustion. Journal of Acupuncture and Tuina Science, 2010, 8, 199-203.	0.3	1
28	The early asthmatic response is associated with glycolysis, calcium binding and mitochondria activity as revealed by proteomic analysis in rats. Respiratory Research, 2010, 11, 107.	3.6	28
29	Effects of S100A9 in a rat model of asthma and in isolated tracheal spirals. Biochemical and Biophysical Research Communications, 2010, 398, 547-552.	2.1	29
30	SDS-PAGE analysis of components in serum with anti-asthma activity derived from rats treated by acupuncture. Journal of Acupuncture and Tuina Science, 2009, 7, 8-12.	0.3	4
31	Proteomics analysis of component in serum with anti-asthma activity derived from rats treated by acupuncture. Journal of Acupuncture and Tuina Science, 2009, 7, 326-331.	0.3	5
32	Use of serial analysis of gene expression to reveal the specific regulation of gene expression profile in asthmatic rats treated by acupuncture. Journal of Biomedical Science, 2009, 16, 46.	7.0	28
33	Serial analysis of gene expression in a rat lung model of asthma. Respiriology, 2008, 13, 972-982.	2.3	16
