#	ARTICLE	IF	CITATIONS
1	Health Behavior. , 2022, , 1-33.		2
2	Mechanisms of Action in a Behavioral Weight-Management Program: Latent Growth Curve Analysis. Annals of Behavioral Medicine, 2022, 56, 64-77.	2.9	2
3	Attitude stability as a moderator of the relationships between cognitive and affective attitudes and behaviour. British Journal of Social Psychology, 2022, 61, 121-142.	2.8	8
4	Testing predictors of attitude strength as determinants of attitude stability and attitude-behaviour relationships: A multi-behaviour study. European Journal of Social Psychology, 2022, 52, 656-668.	2.4	4
5	Applying an extended protection motivation theory to predict Covid-19 vaccination intentions and uptake in 50-64 year olds in the UK. Social Science and Medicine, 2022, 298, 114819.	3.8	20
6	Mindful parenting intervention for parents of children with skin conditions: a single group experimental cases series. Behavioural and Cognitive Psychotherapy, 2022, 50, 462-480.	1.2	5
7	Does Temporal Stability Moderate Reasoned Action Approach Relations With Covid-19 Preventive Behaviors?. Annals of Behavioral Medicine, 2022, 56, 769-780.	2.9	4
8	Predicting long-term healthy eating behaviour: understanding the role of cognitive and affective attitudes. Psychology and Health, 2021, 36, 1165-1181.	2.2	13
9	Delivery of nutritional management services to people with amyotrophic lateral sclerosis (ALS). Amyotrophic Lateral Sclerosis and Frontotemporal Degeneration, 2021, 22, 350-359.	1.7	5
10	Predicting exercise after university: an application of the reasoned action approach across a significant life transition. Psychology, Health and Medicine, 2021, , 1-12.	2.4	0
11	The nutritional management of people living with amyotrophic lateral sclerosis: A national survey of dietitians. Journal of Human Nutrition and Dietetics, 2021, 34, 1064-1071.	2.5	6
12	Understanding the Implementation of "Sit Less at Work" Interventions in Three Organisations: A Mixed Methods Process Evaluation. International Journal of Environmental Research and Public Health, 2021, 18, 7361.	2.6	7
13	Using Co-Production to Develop "Sit Less at Work" Interventions in a Range of Organisations. International Journal of Environmental Research and Public Health, 2021, 18, 7751.	2.6	3
14	Is Parental Mindfulness Associated with Quality of Life and Itch Intensity in Children with Psoriasis and Eczema and Well-being in Parents?. Mindfulness, 2021, 12, 2707-2717.	2.8	2
15	Do socio-structural factors moderate the effects of health cognitions on COVID-19 protection behaviours?. Social Science and Medicine, 2021, 285, 114261.	3.8	19
16	Comparing self-affirmation manipulations to reduce alcohol consumption in university students. Journal of American College Health, 2021, , 1-10.	1.5	2
17	A Systematic Review of Methods to Predict Weight Trajectories in Health Economic Models of Behavioral Weight-Management Programs: The Potential Role of Psychosocial Factors. Medical Decision Making, 2020, 40, 90-105.	2.4	2
18	Interventions to promote oral nutritional behaviours in people living with neurodegenerative disorders of the motor system: A systematic review. Clinical Nutrition, 2020, 39, 2547-2556.	5.0	8

#	ARTICLE	IF	CITATIONS
19	Reasoned action approach and compliance with recommended behaviours to prevent the transmission of the SARS-CoV-2 virus in the UK. <i>British Journal of Health Psychology</i> , 2020, 25, 1006-1019.	3.5	51
20	Why do new members stop attending health and fitness venues? The importance of developing frequent and stable attendance behaviour. <i>Psychology of Sport and Exercise</i> , 2020, 51, 101771.	2.1	15
21	A systematic review of interventions to increase attendance at health and fitness venues: identifying key behaviour change techniques. <i>BMC Public Health</i> , 2020, 20, 1874.	2.9	3
22	Depression in people with skin conditions: The effects of disgust and self-compassion. <i>British Journal of Health Psychology</i> , 2020, 25, 540-557.	3.5	10
23	How can adolescent aggression be reduced? A multi-level meta-analysis. <i>Clinical Psychology Review</i> , 2020, 78, 101853.	11.4	16
24	Is mentalization-based therapy effective in treating the symptoms of borderline personality disorder? A systematic review. <i>Psychology and Psychotherapy: Theory, Research and Practice</i> , 2019, 92, 441-464.	2.5	43
25	Health behaviour: cancer screening, blood and organ donation, and opioid (mis)use. <i>Psychology and Health</i> , 2019, 34, 1029-1035.	2.2	1
26	Sitting less at work: a qualitative study of barriers and enablers in organisations of different size and sector. <i>BMC Public Health</i> , 2019, 19, 884.	2.9	15
27	Does the structure (tunneled vs. free-roam) and content (if-then plans vs. choosing strategies) of a brief online alcohol intervention effect engagement and effectiveness? A randomized controlled trial. <i>Translational Behavioral Medicine</i> , 2019, 9, 1122-1130.	2.4	3
28	The optimisation of noninvasive ventilation in amyotrophic lateral sclerosis: a systematic review. <i>European Respiratory Journal</i> , 2019, 54, 1900261.	6.7	18
29	Health care professionals' views on psychological factors affecting nutritional behaviour in people with motor neuron disease: A thematic analysis. <i>British Journal of Health Psychology</i> , 2019, 24, 953-969.	3.5	17
30	Optimizing the noninvasive ventilation pathway for patients with amyotrophic lateral sclerosis/motor neuron disease: a systematic review. <i>Amyotrophic Lateral Sclerosis and Frontotemporal Degeneration</i> , 2019, 20, 461-472.	1.7	11
31	Disruptive illness contexts and liminality in the accounts of young people with type 1 diabetes. <i>Sociology of Health and Illness</i> , 2019, 41, 1289-1304.	2.1	13
32	Prospective Study of Psychological Morbidity and Illness Perceptions in Young People With Inflammatory Bowel Disease. <i>Journal of Crohn's and Colitis</i> , 2019, 13, 1003-1011.	1.3	26
33	The influence of attachment style and relationship quality on quality of life and psychological distress in carers of people with epileptic and nonepileptic seizures. <i>Epilepsy and Behavior</i> , 2019, 93, 16-21.	1.7	9
34	Using the theory of planned behaviour and implementation intentions to reduce binge drinking in new university students. <i>Psychology and Health</i> , 2019, 34, 478-496.	2.2	26
35	A randomized controlled trial of a brief online intervention to reduce alcohol consumption in new university students: Combining self-affirmation, theory of planned behaviour messages, and implementation intentions. <i>British Journal of Health Psychology</i> , 2018, 23, 108-127.	3.5	93
36	The development, implementation and evaluation of interventions to reduce workplace sitting: a qualitative systematic review and evidence-based operational framework. <i>BMC Public Health</i> , 2018, 18, 833.	2.9	17

#	ARTICLE	IF	CITATIONS
37	Open-label, cluster randomised controlled trial and economic evaluation of a brief letter from a GP on unscheduled medical contacts associated with the start of the school year: the PLEASANT trial. <i>BMJ Open</i> , 2018, 8, e017367.	1.9	2
38	The acceptability and feasibility of an anxiety reduction intervention for emergency department patients with non-cardiac chest pain. <i>Psychology, Health and Medicine</i> , 2017, 22, 1-11.	2.4	10
39	Information processing in illness representation: Implications from an associative-learning framework.. <i>Health Psychology</i> , 2017, 36, 280-290.	1.6	13
40	Using Temporal Self-Regulation Theory to understand healthy and unhealthy eating intentions and behaviour. <i>Appetite</i> , 2017, 116, 357-364.	3.7	40
41	Attachment style, relationship quality, and psychological distress in patients with psychogenic non-epileptic seizures versus epilepsy. <i>Epilepsy and Behavior</i> , 2017, 66, 120-126.	1.7	47
42	Health behaviour: Current issues and challenges. <i>Psychology and Health</i> , 2017, 32, 895-906.	2.2	118
43	Typology and Dynamics of Heavier Drinking Styles in Great Britain: 1978â€“2010. <i>Alcohol and Alcoholism</i> , 2017, 52, 372-381.	1.6	3
44	Measurement of quality of life and attitudes towards illness in children and young people with chronic kidney disease. <i>Quality of Life Research</i> , 2017, 26, 2409-2419.	3.1	15
45	Impact of brief selfâ€“affirmation manipulations on university students' reactions to risk information about binge drinking. <i>British Journal of Health Psychology</i> , 2016, 21, 570-583.	3.5	18
46	Correlates of healthâ€“related quality of life in adults with psychogenic nonepileptic seizures: A systematic review. <i>Epilepsia</i> , 2016, 57, 171-181.	5.1	82
47	PPI in the PLEASANT trial: involving children with asthma and their parents in designing an intervention for a randomised controlled trial based within primary care. <i>Primary Health Care Research and Development</i> , 2016, 17, 536-548.	1.2	12
48	Combining self-affirmation and implementation intentions to reduce heavy episodic drinking in university students.. <i>Psychology of Addictive Behaviors</i> , 2016, 30, 434-441.	2.1	27
49	Identifying beliefs underlying pre-driversâ€™ intentions to take risks: An application of the Theory of Planned Behaviour. <i>Accident Analysis and Prevention</i> , 2016, 89, 49-56.	5.7	68
50	How well does the theory of planned behaviour predict alcohol consumption? A systematic review and meta-analysis. <i>Health Psychology Review</i> , 2016, 10, 148-167.	8.6	335
51	PLEASANT: Preventing and Lessening Exacerbations of Asthma in School-age children Associated with a New Term â€“ a cluster randomised controlled trial and economic evaluation. <i>Health Technology Assessment</i> , 2016, 20, 1-154.	2.8	18
52	â€“Everything's fine, so why does it happen?â€™ A qualitative investigation of patients' perceptions of noncardiac chest pain. <i>Journal of Clinical Nursing</i> , 2015, 24, 1936-1945.	3.0	14
53	A theory-based online health behaviour intervention for new university students (U@Uni:LifeGuide): results from a repeat randomized controlled trial. <i>Trials</i> , 2015, 16, 555.	1.6	51
54	Illness representations and psychological distress in Indian patients with cancer: does being aware of one's cancer diagnosis make a difference?. <i>Psycho-Oncology</i> , 2015, 24, 1694-1700.	2.3	17

#	ARTICLE	IF	CITATIONS
55	Development of theory-based health messages: three-phase programme of formative research. <i>Health Promotion International</i> , 2015, 30, 756-768.	1.8	42
56	Differences in relatives' and patients' illness perceptions in functional neurological symptom disorders compared with neurological diseases. <i>Epilepsy and Behavior</i> , 2015, 42, 159-164.	1.7	22
57	Estimating the prevalence of socially sensitive behaviors: Attributing guilty and innocent noncompliance with the single sample count method.. <i>Psychological Methods</i> , 2014, 19, 334-355.	3.5	16
58	A theory-based online health behavior intervention for new university students: study protocol. <i>BMC Public Health</i> , 2013, 13, 107.	2.9	23
59	Relationships between perceived diagnostic disclosure, patient characteristics, psychological distress and illness perceptions in Indian cancer patients. <i>Psycho-Oncology</i> , 2013, 22, 1375-1380.	2.3	56
60	Associations between abstainer, moderate and heavy drinker prototypes and drinking behaviour in young adults. <i>Psychology and Health</i> , 2013, 28, 1407-1423.	2.2	21
61	Reasons for binge drinking among undergraduate students: An application of behavioural reasoning theory. <i>British Journal of Health Psychology</i> , 2012, 17, 682-698.	3.5	49
62	The theory of planned behavior and binge drinking among undergraduate students: Assessing the impact of habit strength. <i>Addictive Behaviors</i> , 2011, 36, 502-507.	3.0	157
63	The theory of planned behaviour and breast self-examination: Assessing the impact of past behaviour, context stability and habit strength. <i>Psychology and Health</i> , 2011, 26, 1156-1172.	2.2	54
64	Cognitive appraisals and posttraumatic stress disorder symptoms in informal caregivers of stroke survivors.. <i>Rehabilitation Psychology</i> , 2010, 55, 91-96.	1.3	17
65	Using Action Planning to Promote Exercise Behavior. <i>Annals of Behavioral Medicine</i> , 2010, 40, 65-76.	2.9	69
66	Illness representations, coping and psychological adjustment to Parkinson's disease. <i>Psychology and Health</i> , 2009, 24, 1181-1196.	2.2	44
67	Cognitive processing and posttraumatic growth after stroke.. <i>Rehabilitation Psychology</i> , 2009, 54, 69-75.	1.3	106
68	Cross-sectional and prospective associations between cognitive appraisals and posttraumatic stress disorder symptoms following stroke. <i>Behaviour Research and Therapy</i> , 2008, 46, 62-70.	3.1	49
69	The theory of planned behavior and binge drinking: Assessing the impact of binge drinker prototypes. <i>Addictive Behaviors</i> , 2007, 32, 1753-1768.	3.0	139
70	Does dispositional optimism predict psychological responses to counseling for familial breast cancer?. <i>Journal of Psychosomatic Research</i> , 2007, 63, 247-254.	2.6	14
71	Psychological correlates of PTSD symptoms following stroke. <i>Psychology, Health and Medicine</i> , 2007, 12, 592-602.	2.4	54
72	Simulating behaviour change interventions based on the theory of planned behaviour: Impacts on intention and action. <i>British Journal of Social Psychology</i> , 2007, 46, 43-68.	2.8	80

#	ARTICLE	IF	CITATIONS
73	The theory of planned behaviour and binge drinking: Assessing the moderating role of past behaviour within the theory of planned behaviour. <i>British Journal of Health Psychology</i> , 2006, 11, 55-70.	3.5	194
74	An application of an extended health belief model to the prediction of breast self-examination among women with a family history of breast cancer. <i>British Journal of Health Psychology</i> , 2005, 10, 1-16.	3.5	98
75	The Theory of Planned Behavior and Breast Self-Examination: Distinguishing Between Perceived Control and Self-Efficacy. <i>Journal of Applied Social Psychology</i> , 2004, 34, 694-708.	2.0	80
76	Predicting adherence to eye patching in children with amblyopia: An application of protection motivation theory. <i>British Journal of Health Psychology</i> , 2003, 8, 67-82.	3.5	24
77	Does State Versus Action Orientation Moderate the Intention-Behavior Relationship?. <i>Journal of Applied Social Psychology</i> , 2003, 33, 536-553.	2.0	25
78	The theory of planned behavior and healthy eating.. <i>Health Psychology</i> , 2002, 21, 194-201.	1.6	411
79	Temporal stability as a moderator of relationships in the Theory of Planned Behaviour. <i>British Journal of Social Psychology</i> , 2000, 39, 469-493.	2.8	170
80	The Theory of Planned Behaviour and exercise: Evidence for the moderating role of past behaviour. <i>British Journal of Health Psychology</i> , 2000, 5, 249-261.	3.5	112
81	Differential effects of mood on information processing: evidence from the theories of reasoned action and planned behaviour. , 1999, 29, 419-433.		44
82	Anxiety and Adherence to Breast Self-Examination in Women With a Family History of Breast Cancer. <i>Psychosomatic Medicine</i> , 1999, 61, 181-187.	2.0	100
83	Differential effects of mood on information processing: evidence from the theories of reasoned action and planned behaviour. <i>European Journal of Social Psychology</i> , 1999, 29, 419-433.	2.4	2
84	The theory of planned behavior and smoking cessation.. <i>Health Psychology</i> , 1999, 18, 89-94.	1.6	87
85	The interpretation of change in verbal reports: Implications for health psychology. <i>Psychology and Health</i> , 1996, 11, 301-314.	2.2	29
86	Applying the health belief model to the prediction of attendance at health checks in general practice. <i>British Journal of Clinical Psychology</i> , 1995, 34, 461-470.	3.5	23
87	The theory of planned behaviour and exercise: An investigation into the role of prior behaviour, behavioural intentions and attitude variability. <i>European Journal of Social Psychology</i> , 1995, 25, 403-415.	2.4	208
88	The role of social cognition models in predicting attendance at health checks. <i>Psychology and Health</i> , 1993, 8, 447-462.	2.2	41
89	Causal Attributions, Health Locus Of Control Beliefs And Lifestyle Changes Among Pre-Operative Coronary Patients. <i>Psychology and Health</i> , 1992, 7, 201-211.	2.2	37
90	Causal beliefs for coronary heart disease. <i>Journal of the Institute of Health Education</i> , 1992, 30, 17-24.	0.1	5

#	ARTICLE	IF	CITATIONS
91	“Healthy eating”™ clinics in primary care: Programme intensity and patients' health beliefs. <i>Counselling Psychology Quarterly</i> , 1992, 5, 135-148.	2.3	0
92	“When an ounce is worth a pound”: alpha, beta and gamma change in health promotion initiatives. <i>Journal of the Institute of Health Education</i> , 1991, 29, 27-31.	0.1	1
93	Social learning theory and the prediction of attendance at screening. <i>Psychology and Health</i> , 1991, 5, 231-239.	2.2	13
94	Predicting attendance at health screening: Organizational factors and patients' health beliefs. <i>Counselling Psychology Quarterly</i> , 1991, 4, 143-155.	2.3	18
95	Intention to attend a health screening appointment: Some implications for general practice. <i>Counselling Psychology Quarterly</i> , 1989, 2, 261-272.	2.3	26
