#	ARTICLE	IF	CITATIONS
1	Plasma palmitoleic acid content and obesity in children. American Journal of Clinical Nutrition, 2005, 82, 747-750.	4.7	138
2	New criteria of normal serum lipid levels in Japanese children: The nationwide study. Pediatrics International, 2002, 44, 596-601.	0.5	69
3	Early postnatal alteration of body composition in preterm and small-for-gestational-age infants: implications of catch-up fat. Pediatric Research, 2015, 77, 136-142.	2.3	60
4	Relationship between serum adiponectin level and lipid composition in each lipoprotein fraction in adolescent children. Atherosclerosis, 2006, 188, 179-183.	0.8	30
5	Very low-density lipoprotein in the cord blood of preterm neonates. Metabolism: Clinical and Experimental, 2009, 58, 704-707.	3.4	27
6	Long-Term Prognostic Impact of Dobutamine Stress Echocardiography in Patients With Kawasaki Disease and Coronary Artery Lesions. Journal of the American College of Cardiology, 2014, 63, 337-344.	2.8	27
7	Reference Ranges for the Non-High-Density Lipoprotein Cholesterol Levels in Japanese Children and Adolescents. Journal of Atherosclerosis and Thrombosis, 2015, 22, 669-675.	2.0	22
8	Anderson's disease/chylomicron retention disease in a Japanese patient with uniparental disomy 7 and a normal SAR1B gene protein coding sequence. Orphanet Journal of Rare Diseases, 2011, 6, 78.	2.7	21
9	Efficacy and Safety of Pitavastatin in Children and Adolescents with Familial Hypercholesterolemia in Japan and Europe. Journal of Atherosclerosis and Thrombosis, 2018, 25, 422-429.	2.0	17
10	Identification of recurrent and novel mutations in the LDL receptor gene in Japanese familial hypercholesterolemia. Human Mutation, 1999, 14, 87-87.	2.5	15
11	Thr-encoding Allele Homozygosity at Codon 54 of FABP 2 Gene May be Associated with Impaired Delta 6 Desaturase Activity and Reduced Plasma Arachidonic Acid in Obese Children. Journal of Atherosclerosis and Thrombosis, 2006, 13, 192-196.	2.0	15
12	Growth impairment in individuals with citrin deficiency. Journal of Inherited Metabolic Disease, 2019, 42, 501-508.	3.6	14
13	Characteristics of obese children with low content of arachidonic acid in plasma lipids. Pediatrics International, 2007, 49, 437-442.	0.5	13
14	Assessment of individual changes in body fatness in boys during early pubertal period. Pediatrics International, 2005, 47, 495-497.	0.5	11
15	Changes in apolipoproteins during the acute phase of Kawasaki disease. Pediatrics International, 1995, 37, 672-676.	0.5	9
16	Delta-6 desaturase activity during the first year of life in preterm infants. Prostaglandins Leukotrienes and Essential Fatty Acids, 2016, 115, 8-11.	2.2	9
17	Relationship between fat distribution and lipid and apolipoprotein profiles in young teenagers. Pediatrics International, 2007, 40, 35-40.	0.5	7
18	<p>The Characteristics Of Abdominal Fat Distribution In Japanese Adolescents With Type 2 Diabetes Mellitus<p>. Diabetes, Metabolic Syndrome and Obesity: Targets and Therapy, 2019, Volume 12, 2281-2288.	2.4	7

#	ARTICLE	IF	CITATIONS
19	Prognosis of infantile obesity: Is infantile obesity "benign" childhood obesity?. <i>Pediatrics International</i> , 2011, 53, 643-648.	0.5	6
20	Age- and sex-specific body composition of Chinese children. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2005, 94, 1139-1142.	1.5	5
21	Subclass distribution of low-density lipoprotein triglyceride and the clustering of metabolic syndrome components in Japanese children. <i>Pediatrics International</i> , 2021, 63, 664-670.	0.5	5
22	Acute febrile mucocutaneous lymph node syndrome with multiple aneurysms: Report of a case. <i>Pediatric Cardiology</i> , 1983, 4, 215-218.	1.3	4
23	Intra-abdominal fat in obese children. <i>Pediatrics International</i> , 1995, 37, 617-620.	0.5	4
24	Effect of cod liver oil supplementation on the stearoyl-CoA desaturase index in obese children: A pilot study. <i>Obesity Research and Clinical Practice</i> , 2015, 9, 31-34.	1.8	3
25	Apolipoprotein A-V concentration in preterm infants. <i>Journal of Clinical Lipidology</i> , 2015, 9, 647-651.	1.5	2
26	Characterization of chylomicron in preterm infants. <i>Pediatrics International</i> , 2019, 61, 63-66.	0.5	2
27	Umbilical cord blood stearoyl-CoA desaturase index and lipoprotein lipase mass level in small-for-gestational age newborns. <i>Prostaglandins Leukotrienes and Essential Fatty Acids</i> , 2020, 156, 102028.	2.2	0
28	Atherosclerotic Risk Factors in Children. <i>The Journal of Japan Atherosclerosis Society</i> , 1991, 19, 805-813.	0.0	0
29	Determination of Apo E phenotype in school children ; Relationship between Apo E phenotype and the levels of apolipoprotein. <i>The Journal of Japan Atherosclerosis Society</i> , 1997, 25, 179-183.	0.0	0
30	Dyslipidemia, a common complication in obese children. <i>Journal of Lipid Nutrition</i> , 2022, 31, 36-44.	0.1	0
