#	ARTICLE	IF	CITATIONS
1	Time course of selective attention in clinically depressed young adults: An eye tracking study. Behaviour Research and Therapy, 2008, 46, 1238-1243.	3.1	248
2	Adverse effects of social pressure to be thin on young women: An experimental investigation of the effects of 'fat talk'. International Journal of Eating Disorders, 2003, 34, 108-117.	4.0	201
3	Biased attention and dysphoria: Manipulating selective attention reduces subsequent depressive symptoms. Cognition and Emotion, 2010, 24, 719-728.	2.0	177
4	Association of the serotonin transporter gene promoter region (5-HTTLPR) polymorphism with biased attention for emotional stimuli.. Journal of Abnormal Psychology, 2009, 118, 670-681.	1.9	153
5	Association of Predeployment Gaze Bias for Emotion Stimuli With Later Symptoms of PTSD and Depression in Soldiers Deployed in Iraq. American Journal of Psychiatry, 2011, 168, 735-741.	7.2	98
6	Serotonin transporter gene promoter region polymorphism and selective processing of emotional images. Biological Psychology, 2010, 83, 260-265.	2.2	73
7	Attentional biases and the persistence of sad mood in major depressive disorder.. Journal of Abnormal Psychology, 2013, 122, 74-85.	1.9	64
8	Attention Allocation and Incidental Recognition of Emotional Information in Dysphoria. Cognitive Therapy and Research, 2011, 35, 425-433.	1.9	62
9	The BDNF Val66Met polymorphism is associated with rumination in healthy adults.. Emotion, 2009, 9, 579-584.	1.8	60
10	Identification of Emotionally Ambiguous Interpersonal Stimuli Among Dysphoric and Nondysphoric Individuals. Cognitive Therapy and Research, 2009, 33, 283-290.	1.9	43
11	Optimism, hope, and attention for emotional stimuli. Personality and Individual Differences, 2018, 124, 84-90.	2.9	41
12	Effect of Antidepressant Medication Use on Emotional Information Processing in Major Depression. American Journal of Psychiatry, 2014, 171, 195-200.	7.2	37
13	Association of the serotonin transporter promoter region polymorphism with biased attention for negative word stimuli. Depression and Anxiety, 2010, 27, 746-751.	4.1	31
14	Randomized controlled trial of attention bias modification in a racially diverse, socially anxious, alcohol dependent sample. Behaviour Research and Therapy, 2016, 87, 58-69.	3.1	30
15	Serotonin transporter and BDNF genetic variants interact to predict cognitive reactivity in healthy adults. Journal of Affective Disorders, 2010, 126, 223-229.	4.1	29
16	Childhood abuse and vulnerability to depression: Cognitive scars in otherwise healthy young adults. Cognition and Emotion, 2014, 28, 821-833.	2.0	29
17	Gaze behavior predicts memory bias for angry facial expressions in stable dysphoria.. Emotion, 2010, 10, 894-902.	1.8	27
18	Predicting response to depression treatment: The role of negative cognition.. Journal of Consulting and Clinical Psychology, 2007, 75, 422-431.	2.0	24

#	ARTICLE	IF	CITATIONS
19	Rejection sensitivity, interpersonal rejection, and attention for emotional facial expressions. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2018, 59, 31-39.	1.2	24
20	Effects of partial sleep deprivation on food consumption and food choice. <i>Psychology and Health</i> , 2006, 21, 79-86.	2.2	19
21	The role of controlled attention on recall in major depression. <i>Cognition and Emotion</i> , 2014, 28, 520-529.	2.0	17
22	Implicit Association with Suicide as Measured by the Suicide Affect Misattribution Procedure (Sâ€AMP) Predicts Suicide Ideation. <i>Suicide and Life-Threatening Behavior</i> , 2018, 48, 720-731.	1.9	15
23	Social anxiety as a precursor for depression: Influence of interpersonal rejection and attention to emotional stimuli. <i>Psychiatry Research</i> , 2019, 275, 296-303.	3.3	14
24	5-HTTLPR, HTR1A, and HTR2A cumulative genetic score interacts with mood reactivity to predict mood-congruent gaze bias. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2014, 14, 1259-1270.	2.0	12
25	Sex differences in attention to disgust facial expressions. <i>Cognition and Emotion</i> , 2017, 31, 1692-1697.	2.0	12
26	Emotional dysregulation in dysphoria: Support for emotion context insensitivity in response to performance-based feedback. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2009, 40, 443-454.	1.2	10
27	Dopamine D4 receptor gene variation is associated with context-dependent attention for emotion stimuli. <i>International Journal of Neuropsychopharmacology</i> , 2013, 16, 525-534.	2.1	9
28	Extending a Rejection Sensitivity Model to Suicidal Thoughts and Behaviors in Sexual Minority Groups and to Transgender Mental Health. <i>Archives of Sexual Behavior</i> , 2020, 49, 2291-2294.	1.9	9
29	Decision Justification Theory in Depression: Regret and Self-Blame. <i>Cognitive Therapy and Research</i> , 2017, 41, 556-561.	1.9	8
30	The role of excessive reassurance seeking: An eye tracking study of the indirect effect of social anxiety symptoms on attention bias. <i>Psychiatry Research</i> , 2019, 274, 220-227.	3.3	6
31	Implicit bias for suicide persists after ideation resolves. <i>Psychiatry Research</i> , 2020, 285, 112784.	3.3	6
32	Association between depressive symptom clusters and food attentional bias. <i>Eating Behaviors</i> , 2018, 31, 24-27.	2.0	4
33	Trait mindfulness and attention to emotional information: An eye tracking study. <i>Consciousness and Cognition</i> , 2021, 95, 103213.	1.5	4
34	Inhibition of attention for affective material: Contributions by HOMER1 gene variation.. <i>Psychology and Neuroscience</i> , 2015, 8, 495-508.	0.8	3
35	Altering preferences for suicide crisis resources using the decoy nudge: Evidence of context-dependent effects in suicide prevention decision making.. <i>Journal of Consulting and Clinical Psychology</i> , 2021, 89, 11-20.	2.0	1
