#	ARTICLE	IF	CITATIONS
1	Religious coping with interpersonal hurts: Psychosocial correlates of the brief RCOPE in four non-Western countries.. <i>Psychology of Religion and Spirituality</i> , 2023, 15, 43-55.	0.9	7
2	The complex creation of happiness: Multidimensional conditionality in the drivers of happy people and societies. <i>Journal of Positive Psychology</i> , 2023, 18, 15-33.	2.6	9
3	Associations of online religious participation during COVID-19 lockdown with subsequent health and well-being among UK adults. <i>Psychological Medicine</i> , 2023, 53, 3887-3896.	2.7	12
4	Opening the Blackbox of Treatment Interference: Tracing Treatment Diffusion through Network Analysis. <i>Sociological Methods and Research</i> , 2022, 51, 141-164.	4.3	5
5	Are Greenland, Ioannidis and Poole opposed to the Cornfield conditions? A defence of the E-value. <i>International Journal of Epidemiology</i> , 2022, 51, 364-371.	0.9	13
6	Invited Commentary: Religious Service Attendance and Implications for Clinical Care, Community Participation, and Public Health. <i>American Journal of Epidemiology</i> , 2022, 191, 31-35.	1.6	14
7	The Importance, Opportunities, and Challenges of Empirically Assessing Character for the Promotion of Flourishing. <i>Journal of Education</i> , 2022, 202, 170-180.	0.7	12
8	Sense of Purpose in Life and Subsequent Physical, Behavioral, and Psychosocial Health: An Outcome-Wide Approach. <i>American Journal of Health Promotion</i> , 2022, 36, 137-147.	0.9	40
9	Are all domains of life satisfaction equal? Differential associations with health and well-being in older adults. <i>Quality of Life Research</i> , 2022, 31, 1043-1056.	1.5	23
10	Methods to Address Confounding and Other Biases in Meta-Analyses: Review and Recommendations. <i>Annual Review of Public Health</i> , 2022, 43, 19-35.	7.6	29
11	Sensitivity analysis for direct and indirect effects in the presence of exposure-induced mediator-outcome confounders. , 2022, 11, .		42
12	Constructed Measures and Causal Inference. <i>Epidemiology</i> , 2022, 33, 141-151.	1.2	17
13	The Association of Religion and Spirituality with Obesity and Weight Change in the USA: A Large-Scale Cohort Study. <i>Journal of Religion and Health</i> , 2022, 61, 4062-4080.	0.8	2
14	Resource loss, positive religious coping, and suffering during the COVID-19 pandemic: a prospective cohort study of US adults with chronic illness. <i>Mental Health, Religion and Culture</i> , 2022, 25, 288-304.	0.6	23
15	How to report E-values for meta-analyses: Recommended improvements and additions to the new GRADE approach. <i>Environment International</i> , 2022, 160, 107032.	4.8	3
16	Quality assessment practice in systematic reviews of mediation studies: results from an overview of systematic reviews. <i>Journal of Clinical Epidemiology</i> , 2022, 143, 137-148.	2.4	5
17	Mental Health During the First Year of the COVID-19 Pandemic: A Review and Recommendations for Moving Forward. <i>Perspectives on Psychological Science</i> , 2022, 17, 915-936.	5.2	255
18	Associations Between Satisfaction With Aging and Health and Well-being Outcomes Among Older US Adults. <i>JAMA Network Open</i> , 2022, 5, e2147797.	2.8	13

#	ARTICLE	IF	CITATIONS
19	Ikigai and subsequent health and wellbeing among Japanese older adults: Longitudinal outcome-wide analysis. <i>The Lancet Regional Health - Western Pacific</i> , 2022, 21, 100391.	1.3	23
20	The puzzling relationship between multi-laboratory replications and meta-analyses of the published literature. <i>Royal Society Open Science</i> , 2022, 9, 211499.	1.1	11
21	Longitudinal associations between domains of flourishing. <i>Scientific Reports</i> , 2022, 12, 2740.	1.6	12
22	Global Trends of Mean and Inequality in Multidimensional Wellbeing: Analysis of 1.2 Million Individuals From 162 Countries, 2009â€“2019. <i>Frontiers in Public Health</i> , 2022, 10, 824960.	1.3	10
23	Flourishing in head and neck cancer survivors. <i>Cancer Medicine</i> , 2022, , .	1.3	1
24	Associations of home confinement during COVID-19 lockdown with subsequent health and well-being among UK adults. <i>Current Psychology</i> , 2022, , 1-10.	1.7	19
25	Assessing Uncontrolled Confounding in Associations of Being Overweight With All-Cause Mortality. <i>JAMA Network Open</i> , 2022, 5, e222614.	2.8	5
26	E-values for effect heterogeneity and approximations for causal interaction. <i>International Journal of Epidemiology</i> , 2022, 51, 1268-1275.	0.9	6
27	APOE Î¼4 and late-life cognition: mediation by structural brain imaging markers. <i>European Journal of Epidemiology</i> , 2022, 37, 591-601.	2.5	6
28	A new tool for reporting mediation analyses. <i>Epidemiology</i> , 2022, Publish Ahead of Print, .	1.2	0
29	Using selection models to assess sensitivity to publication bias: A tutorial and call for more routine use. <i>Campbell Systematic Reviews</i> , 2022, 18, .	1.2	14
30	Spirituality in Serious Illness and Health. <i>JAMA - Journal of the American Medical Association</i> , 2022, 328, 184.	3.8	88
31	Long-Term Associations between Disaster-Related Home Loss and Health and Well-Being of Older Survivors: Nine Years after the 2011 Great East Japan Earthquake and Tsunami. <i>Environmental Health Perspectives</i> , 2022, 130, .	2.8	9
32	Effects of Religious Service Attendance and Religious Importance on Depression: Examining the Meta-analytic Evidence. <i>International Journal for the Psychology of Religion, The</i> , 2021, 31, 21-26.	1.3	15
33	Religious-service attendance and subsequent health and well-being throughout adulthood: evidence from three prospective cohorts. <i>International Journal of Epidemiology</i> , 2021, 49, 2030-2040.	0.9	49
34	Character Strengths Involving an Orientation to Promote Good Can Help Your Health and Well-Being. Evidence From two Longitudinal Studies. <i>American Journal of Health Promotion</i> , 2021, 35, 388-398.	0.9	31
35	Estimating publication bias in <scp>metaâ€œanalyses</scp> of <scp>peerâ€œreviewed</scp> studies: A <scp>metaâ€œmetaâ€œanalysis</scp> across disciplines and journal tiers. <i>Research Synthesis Methods</i> , 2021, 12, 176-191.	4.2	34
36	National Well-Being Measures Before and During the COVID-19 Pandemic in Online Samples. <i>Journal of General Internal Medicine</i> , 2021, 36, 248-250.	1.3	48

#	ARTICLE	IF	CITATIONS
37	Can Sophisticated Study Designs With Regression Analyses of Observational Data Provide Causal Inferences?. <i>JAMA Psychiatry</i> , 2021, 78, 244.	6.0	50
38	Suffering, Mental Health, and Psychological Well-being During the COVID-19 Pandemic: A Longitudinal Study of U.S. Adults With Chronic Health Conditions. <i>Wellbeing, Space and Society</i> , 2021, 2, 100048.	0.9	31
39	Life Satisfaction and Subsequent Physical, Behavioral, and Psychosocial Health in Older Adults. <i>Milbank Quarterly</i> , 2021, 99, 209-239.	2.1	67
40	Correction of $\hat{\tau}$ -Bias factor, maximum bias and the E-value TM . <i>International Journal of Epidemiology</i> , 2021, 50, 1394-1395.	0.9	1
41	Tradition-Specific Measures of Spiritual Well-Being. , 2021, , 482-498.		8
42	Psychometric Properties of Flourishing Scales From a Comprehensive Well-Being Assessment. <i>Frontiers in Psychology</i> , 2021, 12, 652209.	1.1	26
43	CMAverse: A Suite of Functions for Reproducible Causal Mediation Analyses. <i>Epidemiology</i> , 2021, 32, e20-e22.	1.2	84
44	Psychological and spiritual outcomes during the COVID-19 pandemic: A prospective longitudinal study of adults with chronic disease.. <i>Health Psychology</i> , 2021, 40, 347-356.	1.3	44
45	Multiple-bias Sensitivity Analysis Using Bounds. <i>Epidemiology</i> , 2021, 32, 625-634.	1.2	17
46	The role of financial conditions for physical and mental health. Evidence from a longitudinal survey and insurance claims data. <i>Social Science and Medicine</i> , 2021, 281, 114041.	1.8	34
47	Associations Between Purpose in Life and Mortality by SES. <i>American Journal of Preventive Medicine</i> , 2021, 61, e53-e61.	1.6	19
48	$\langle \text{scp} \rangle$ Meta $\hat{\tau}$ regression $\langle / \text{scp} \rangle$ methods to characterize evidence strength using $\langle \text{scp} \rangle$ meaningful $\hat{\tau}$ effect $\langle / \text{scp} \rangle$ percentages conditional on study characteristics. <i>Research Synthesis Methods</i> , 2021, 12, 731-749.	4.2	3
49	The positive influence of sense of control on physical, behavioral, and psychosocial health in older adults: An outcome-wide approach. <i>Preventive Medicine</i> , 2021, 149, 106612.	1.6	39
50	Changes in Attributable Fractions and Causal Inference for Schizophrenia and Other Psychiatric Outcomes. <i>JAMA Psychiatry</i> , 2021, 78, 949.	6.0	0
51	A Guideline for Reporting Mediation Analyses of Randomized Trials and Observational Studies. <i>JAMA - Journal of the American Medical Association</i> , 2021, 326, 1045.	3.8	169
52	Mental health economics: A prospective study on psychological flourishing and associations with healthcare costs and sickness benefit transfers in Denmark. <i>Mental Health and Prevention</i> , 2021, 24, 200222.	0.7	7
53	Religious or spiritual coping, religious service attendance, and type 2 diabetes: A prospective study of women in the United States. <i>Annals of Epidemiology</i> , 2021, 67, 1-1.	0.9	1
54	Deaths From COVID-19. <i>JAMA - Journal of the American Medical Association</i> , 2021, 325, 133-134.	3.8	73

#	ARTICLE	IF	CITATIONS
55	Self-assessed importance of domains of flourishing: Demographics and correlations with well-being. <i>Journal of Positive Psychology</i> , 2021, 16, 137-144.	2.6	35
56	Faith-Based Organizations and SARS-CoV-2 Vaccination. <i>Public Health Reports</i> , 2021, , 003335492110540.	1.3	8
57	Strengthening the Reporting of Observational Studies in Epidemiology Using Mendelian Randomization. <i>JAMA - Journal of the American Medical Association</i> , 2021, 326, 1614.	3.8	829
58	Religion and Spirituality among American Indian, South Asian, Black, Hispanic/Latina, and White Women in the Study on Stress, Spirituality, and Health. <i>Journal for the Scientific Study of Religion</i> , 2021, 60, 198-215.	0.9	8
59	THE NEUROLOGICAL CONSEQUENCES OF CONTRACTING COVID-19. <i>Acta Neuropsychologica</i> , 2021, 19, 301-305.	0.3	3
60	School types in adolescence and subsequent health and well-being in young adulthood: An outcome-wide analysis. <i>PLoS ONE</i> , 2021, 16, e0258723.	1.1	4
61	Facets of optimism: Comment on Scheier et al. (2021).. <i>American Psychologist</i> , 2021, 76, 1191-1193.	3.8	1
62	Are All Domains of Life Satisfaction Equal? Differential Associations With Health and Well-Being in Older Adults. <i>Innovation in Aging</i> , 2021, 5, 251-252.	0.0	0
63	Sensitivity Analysis for Unmeasured Confounding in Meta-Analyses. <i>Journal of the American Statistical Association</i> , 2020, 115, 163-172.	1.8	69
64	Invited Commentary: Counterfactuals in Social Epidemiologyâ€”Thinking Outside of â€œthe Boxâ€œ. <i>American Journal of Epidemiology</i> , 2020, 189, 175-178.	1.6	15
65	Religious Service Attendance, Religious Coping, and Risk of Hypertension in Women Participating in the Nursesâ€™ Health Study II. <i>American Journal of Epidemiology</i> , 2020, 189, 193-203.	1.6	13
66	The Authors Respond. <i>Epidemiology</i> , 2020, 31, e31-e31.	1.2	0
67	VanderWeele and Chen Respond to â€œReligion as a Social Determinant of Healthâ€œ. <i>American Journal of Epidemiology</i> , 2020, 189, 1464-1466.	1.6	4
68	Optimal approximate conversions of odds ratios and hazard ratios to risk ratios. <i>Biometrics</i> , 2020, 76, 746-752.	0.8	52
69	Positive Epidemiology?. <i>Epidemiology</i> , 2020, 31, 189-193.	1.2	89
70	A Simple, Interpretable Conversion from Pearsonâ€™s Correlation to Cohenâ€™s for d Continuous Exposures. <i>Epidemiology</i> , 2020, 31, e16-e18.	1.2	8
71	The Authors Respond. <i>Epidemiology</i> , 2020, 31, e37-e38.	1.2	1
72	Perceived neighborhood social cohesion and subsequent health and well-being in older adults: An outcome-wide longitudinal approach. <i>Health and Place</i> , 2020, 66, 102420.	1.5	45

#	ARTICLE	IF	CITATIONS
73	E Values and Incidence Density Sampling. <i>Epidemiology</i> , 2020, 31, e51-e52.	1.2	16
74	Sensitivity Analysis for Publication Bias in Meta-Analyses. <i>Journal of the Royal Statistical Society Series C: Applied Statistics</i> , 2020, 69, 1091-1119.	0.5	101
75	Current recommendations on the selection of measures for well-being. <i>Preventive Medicine</i> , 2020, 133, 106004.	1.6	84
76	Challenges Estimating Total Lives Lost in COVID-19 Decisions. <i>JAMA - Journal of the American Medical Association</i> , 2020, 324, 445.	3.8	61
77	Evidence Relating Health Care Provider Burnout and Quality of Care. <i>Annals of Internal Medicine</i> , 2020, 172, 437.	2.0	5
78	Commentary: Developing best-practice guidelines for the reporting of E-values. <i>International Journal of Epidemiology</i> , 2020, 49, 1495-1497.	0.9	67
79	Invited Commentary: Frontiers of Power Assessment in Mediation Analysis. <i>American Journal of Epidemiology</i> , 2020, 189, 1568-1570.	1.6	5
80	Simple Sensitivity Analysis for Control Selection Bias. <i>Epidemiology</i> , 2020, 31, e44-e45.	1.2	3
81	Forgiveness of others and subsequent health and well-being in mid-life: a longitudinal study on female nurses. <i>BMC Psychology</i> , 2020, 8, 104.	0.9	13
82	Antecedents of purpose in life: Evidence from a lagged exposure-wide analysis. <i>Cogent Psychology</i> , 2020, 7, 1825043.	0.6	14
83	On the identification of individual level pleiotropic, pure direct, and principal stratum direct effects without cross world assumptions. <i>Scandinavian Journal of Statistics</i> , 2020, 48, 881.	0.9	0
84	Accurate Statistics on COVID-19 Are Essential for Policy Guidance and Decisions. <i>American Journal of Public Health</i> , 2020, 110, 949-951.	1.5	112
85	Religious Service Attendance and Deaths Related to Drugs, Alcohol, and Suicide Among US Health Care Professionals. <i>JAMA Psychiatry</i> , 2020, 77, 737.	6.0	49
86	Spiritually Motivated Self-Forgiveness and Divine Forgiveness, and Subsequent Health and Well-Being Among Middle-Aged Female Nurses: An Outcome-Wide Longitudinal Approach. <i>Frontiers in Psychology</i> , 2020, 11, 1337.	1.1	16
87	Love of Neighbor During a Pandemic: Navigating the Competing Goods of Religious Gatherings and Physical Health. <i>Journal of Religion and Health</i> , 2020, 59, 2196-2202.	0.8	40
88	Volunteering and Subsequent Health and Well-Being in Older Adults: An Outcome-Wide Longitudinal Approach. <i>American Journal of Preventive Medicine</i> , 2020, 59, 176-186.	1.6	66
89	Robust Metrics and Sensitivity Analyses for Meta-analyses of Heterogeneous Effects. <i>Epidemiology</i> , 2020, 31, 356-358.	1.2	28
90	Controversy and debate on credibility ceilings. Paper 3: errors in the statistical justification for the "credibility ceiling" method remain uncorrected. <i>Journal of Clinical Epidemiology</i> , 2020, 127, 214-216.	2.4	1

#	ARTICLE	IF	CITATIONS
91	A Public Health Approach to Negative News Media: The 3-to-1 Solution. <i>American Journal of Health Promotion</i> , 2020, , 089011712091422.	0.9	4
92	Chen and VanderWeele Respond to "Religion, Spirituality, and Health". <i>American Journal of Epidemiology</i> , 2020, 189, 759-760.	1.6	3
93	Religion and psychiatry: clinical applications. <i>BJ Psych Advances</i> , 2020, 26, 273-281.	0.5	10
94	Conducting sensitivity analysis for unmeasured confounding in observational studies using E-values: The evalua package. <i>The Stata Journal</i> , 2020, 20, 162-175.	0.9	69
95	The Authors Respond. <i>Epidemiology</i> , 2020, 31, e34.	1.2	1
96	Development and Validation of a Machine Learning Individualized Treatment Rule in First-Episode Schizophrenia. <i>JAMA Network Open</i> , 2020, 3, e1921660.	2.8	21
97	The role of Hope in subsequent health and well-being for older adults: An outcome-wide longitudinal approach. <i>Global Epidemiology</i> , 2020, 2, 100018.	0.6	51
98	Longitudinal meta-analysis of job crafting shows positive association with work engagement. <i>Cogent Psychology</i> , 2020, 7, .	0.6	41
99	Well-Being in Life and Well-Being at Work: Which Comes First? Evidence From a Longitudinal Study. <i>Frontiers in Public Health</i> , 2020, 8, 103.	1.3	57
100	Brief well-being assessments, or nothing at all?. <i>Preventive Medicine</i> , 2020, 135, 106095.	1.6	4
101	Empirical comparison of approaches for odds ratios to risk ratio transformations in meta-analyses of randomized controlled trials with common outcomes. <i>Annals of Epidemiology</i> , 2020, 44, 57-59.e3.	0.9	2
102	Ill health and distraction at work: Costs and drivers for productivity loss. <i>PLoS ONE</i> , 2020, 15, e0230562.	1.1	19
103	Religion and psychiatry: recent developments in research. <i>BJ Psych Advances</i> , 2020, 26, 262-272.	0.5	50
104	Spirituality, religion, and suicide. , 2020, , 27-40.		2
105	Controversy and debate on credibility ceilings. Paper 1: Fundamental problems with the "credibility ceiling" method for meta-analyses. <i>Journal of Clinical Epidemiology</i> , 2020, 127, 208-210.	2.4	11
106	Outcome-Wide Longitudinal Designs for Causal Inference: A New Template for Empirical Studies. <i>Statistical Science</i> , 2020, 35, .	1.6	115
107	Rejoinder: The Future of Outcome-Wide Studies. <i>Statistical Science</i> , 2020, 35, .	1.6	0
108	Direct Effects under Differential Misclassification in Outcomes, Exposures, and Mediators. <i>Journal of Causal Inference</i> , 2020, 8, 286-299.	0.5	2

#	ARTICLE	IF	CITATIONS
109	Flourish Index and Secure Flourish Index – Validation in workplace settings. <i>Cogent Psychology</i> , 2019, 6, .	0.6	38
