#	ARTICLE	IF	CITATIONS
1	Motivation to change predicts naturalistic changes in binge eating and purging, but not fasting or driven exercise among individuals with eating disorders. <i>Eating Disorders</i> , 2022, 30, 279-301.	1.9	3
2	Delusional intensity as a prognostic indicator among individuals with severe to extreme anorexia nervosa hospitalized at an acute medical stabilization program. <i>International Journal of Eating Disorders</i> , 2022, 55, 215-222.	2.1	3
3	Sleep/waketime preference and delayed diurnal eating rhythms are associated through light exposure timing and modified by sleep efficiency. <i>Appetite</i> , 2022, 170, 105904.	1.8	1
4	Practice makes perfect: Commentary on Burnette et al. (2021). <i>International Journal of Eating Disorders</i> , 2022, 55, 273-275.	2.1	4
5	A biobehavioral circadian model of restrictive eating and binge eating. <i>International Journal of Eating Disorders</i> , 2022, 55, 1291-1295.	2.1	8
6	Examining heart rate variability as an indicator of top-down inhibitory control over emotions and eating behaviors among individuals with and without binge eating. <i>Appetite</i> , 2021, 159, 105071.	1.8	2
7	Cannabis Use Is Differentially Associated with Individual Facets of Impulsivity through Expectancy Effects: A Comprehensive Application of the Acquired Preparedness Model. <i>Journal of Psychoactive Drugs</i> , 2021, 53, 302-311.	1.0	0
8	Eating disorder prevalence among Amazon MTurk workers assessed using a rigorous online, self-report anthropometric assessment. <i>Eating Behaviors</i> , 2021, 41, 101481.	1.1	11
9	Persistence: A key factor in understanding the circumstances under which dietary restraint predicts restriction of caloric intake. <i>Eating Behaviors</i> , 2021, 43, 101563.	1.1	3
10	The differential associations of shame and guilt with eating disorder behaviors. <i>Eating Behaviors</i> , 2020, 39, 101427.	1.1	16
11	Development and validation of a questionnaire assessing weighing tendencies: the Approach/Avoidance of Weighing Questionnaire (AAWQ). <i>Eating Disorders</i> , 2020, , 1-21.	1.9	0
12	Identifying duration criteria for eating disorder remission and recovery through intensive modeling of longitudinal data. <i>International Journal of Eating Disorders</i> , 2020, 53, 1224-1233.	2.1	12
13	Differentiating motives for nonmedical prescription stimulant use by personality characteristics. <i>Addictive Behaviors</i> , 2019, 88, 187-193.	1.7	13
14	The Relation of Dietary Restraint and Affect with Food Choice and the Experience of Guilt after Eating. <i>Current Psychology</i> , 2019, 38, 92-99.	1.7	3
15	Experiential avoidance, eating expectancies, and binge eating: A preliminary test of an adaption of the Acquired Preparedness model of eating disorder risk. <i>Appetite</i> , 2018, 120, 423-430.	1.8	16
16	A summary of reporting guidelines and evaluation domains for using single-case experimental designs and recommendations for the study of eating disorders. <i>International Journal of Eating Disorders</i> , 2018, 51, 617-628.	2.1	7
17	Negative affect and past month binge eating may drive perceptions of loss of control. <i>Appetite</i> , 2018, 128, 116-119.	1.8	1
18	An Interactive, Graphical Tool for Retrospectively Assessing Symptom Frequency and Severity: An Illustration With Eating Disorder Behaviors, Body Weight, and Stress. <i>Assessment</i> , 2017, 24, 835-852.	1.9	3

#	ARTICLE	IF	CITATIONS
19	Trends in professionals' use of eating disorder assessment instruments.. Professional Psychology: Research and Practice, 2017, 48, 243-250.	0.6	4
20	The Role of Anonymity in Determining the Self-Reported Use of Cocaine and Nonmedical Prescription Stimulant Use Among College Students. Substance Use and Misuse, 2016, 51, 795-802.	0.7	5
21	A preliminary mechanistic test of the effects of light therapy in bulimia nervosa. Advances in Eating Disorders (Abingdon, England), 2016, 4, 237-249.	0.8	3
22	Nonmedical prescription stimulant use for suppressing appetite and controlling body weight is uniquely associated with more severe eating disorder symptomatology. International Journal of Eating Disorders, 2016, 49, 813-816.	2.1	16
23	Unique contributions of individual eating disorder symptoms to eating disorder-related impairment. Eating Behaviors, 2015, 18, 103-106.	1.1	17
24	Individual differences in negative affect and weekly variability in binge eating frequency. International Journal of Eating Disorders, 2014, 47, 296-301.	2.1	11
25	Bidirectional associations between binge eating and restriction in anorexia nervosa. An ecological momentary assessment study. Appetite, 2014, 83, 69-74.	1.8	28
26	Beliefs about the emotional consequences of eating and binge eating frequency. Eating Behaviors, 2014, 15, 31-36.	1.1	22
27	Moderators of post-binge eating negative emotion in eating disorders. Journal of Psychiatric Research, 2013, 47, 323-328.	1.5	31
28	Restrictive eating behaviors are a nonweight-based marker of severity in anorexia nervosa. International Journal of Eating Disorders, 2013, 46, 849-854.	2.1	27
29	Challenging expectancies to prevent nonmedical prescription stimulant use: A randomized, controlled trial. Drug and Alcohol Dependence, 2013, 132, 362-368.	1.6	40
30	Associations between retrospective versus ecological momentary assessment measures of emotion and eating disorder symptoms in anorexia nervosa. Journal of Psychiatric Research, 2013, 47, 1514-1520.	1.5	31
31	Daily patterns of anxiety in anorexia nervosa: Associations with eating disorder behaviors in the natural environment.. Journal of Abnormal Psychology, 2013, 122, 672-683.	2.0	96
32	Binge Eating Disorder in DSM-5. Psychiatric Annals, 2012, 42, 410-413.	0.1	4
33	An investigation of the joint longitudinal trajectories of low body weight, binge eating, and purging in women with anorexia nervosa and bulimia nervosa. International Journal of Eating Disorders, 2011, 44, 679-686.	2.1	13
34	Prevalence and correlates of exercise motivated by negative affect. International Journal of Eating Disorders, 2010, 43, 50-58.	2.1	24
35	Binge eating is not associated with elevated eating, weight, or shape concerns in the absence of the desire to lose weight in men. International Journal of Eating Disorders, 2010, 43, 732-736.	2.1	17
36	The importance of the function of exercise in the relationship between obligatory exercise and eating and body image concerns. Eating Behaviors, 2010, 11, 62-64.	1.1	19
