#	ARTICLE	IF	CITATIONS
1	A Longitudinal Examination of Child Maltreatment Dimensions, Emotion Regulation, and Comorbid Psychopathology. <i>Research on Child and Adolescent Psychopathology</i> , 2023, 51, 71-85.	1.4	7
2	Profiles of diurnal cortisol and DHEA regulation among children: Associations with maltreatment experiences, symptomatology, and positive adaptation. <i>Development and Psychopathology</i> , 2023, 35, 1614-1626.	1.4	1
3	Impact of childhood maltreatment and resilience on behavioral and neural patterns of inhibitory control during emotional distraction. <i>Development and Psychopathology</i> , 2022, 34, 1260-1271.	1.4	13
4	Attachment goes to court: child protection and custody issues. <i>Attachment and Human Development</i> , 2022, 24, 1-52.	1.2	51
5	The Association Between Patterns of Trauma Exposure, Family Dysfunction, and Psychopathology Among Adolescent Females With Depressive Symptoms From Low-Income Contexts. <i>Child Maltreatment</i> , 2022, , 107755952110503.	2.0	0
6	Psychobiological foundations of coping and emotion regulation: Links to maltreatment and depression in a racially diverse, economically disadvantaged sample of adolescent girls. <i>Psychoneuroendocrinology</i> , 2022, 143, 105826.	1.3	3
7	Patterns of Dating Violence Moderate the Effect of Child Maltreatment on Suicide Risk among Disadvantaged Minority Female Adolescents with Depressive Symptoms. <i>Journal of Family Violence</i> , 2021, 36, 5-16.	2.1	11
8	Gestational Stress and Resilience: Perspectives to Guide Interdisciplinary Research. , 2021, , 387-431.		1
9	Transforming the paradigm of child welfare. <i>Development and Psychopathology</i> , 2021, 33, 377-393.	1.4	5
10	Child maltreatment: An intergenerational cascades model of risk processes potentiating child psychopathology. <i>Child Abuse and Neglect</i> , 2021, 112, 104829.	1.3	18
11	Longitudinal Outcomes of Child Parent Psychotherapy: Response to Commentaries. <i>Research on Child and Adolescent Psychopathology</i> , 2021, 49, 595-601.	1.4	3
12	Child maltreatment, recent stressful life events, and suicide ideation: A test of the stress sensitivity hypothesis. <i>Child Abuse and Neglect</i> , 2021, 113, 104926.	1.3	24
13	Parsing alcohol-dependent mothers' insensitivity to child distress: Longitudinal links with children's affective and anxiety problems.. <i>Developmental Psychology</i> , 2021, 57, 900-912.	1.2	5
14	Child maltreatment and the development of psychopathology: The role of developmental timing and chronicity. <i>Child Abuse and Neglect</i> , 2021, 120, 105215.	1.3	48
15	Using development and psychopathology principles to inform the Research Domain Criteria (RDoC) framework. <i>Development and Psychopathology</i> , 2021, 33, 1521-1525.	1.4	10
16	The Moderating Role of Child Maltreatment in Treatment Efficacy for Adolescent Depression. <i>Journal of Abnormal Child Psychology</i> , 2020, 48, 1351-1365.	3.5	15
17	Resilience. <i>Handbook of Clinical Neurology</i> / Edited By P J Vinken and G W Bruyn, 2020, 173, 67-73.	1.0	22
18	Studying Psychopathology in Early Life. , 2020, , 193-204.		1

#	ARTICLE	IF	CITATIONS
19	The role of coping strategies in the pathway between child maltreatment and internalizing and externalizing behaviors. <i>Child Abuse and Neglect</i> , 2020, 101, 104323.	1.3	28
20	Intergenerational maltreatment and child emotion dysregulation. <i>Child Abuse and Neglect</i> , 2020, 102, 104377.	1.3	26
21	Characterizing competence among a high-risk sample of emerging adults: Prospective predictions and biological considerations. <i>Development and Psychopathology</i> , 2020, 32, 1937-1953.	1.4	9
22	Maltreatment timing, HPA axis functioning, multigenic risk, and depressive symptoms in African American youth: Differential associations without moderated mediation. <i>Development and Psychopathology</i> , 2020, 32, 1838-1853.	1.4	2
23	Interparental conflict as a curvilinear risk factor of youth emotional and cortisol reactivity. <i>Developmental Psychology</i> , 2020, 56, 1787-1802.	1.2	3
24	Interparental conflict as a curvilinear risk factor of youth emotional and cortisol reactivity.. <i>Developmental Psychology</i> , 2020, 56, 1787-1802.	1.2	6
25	Infancy onset maltreatment and the development of suicide ideation: An investigation of moderation by oxytocin-related gene polymorphisms. <i>Journal of Affective Disorders</i> , 2019, 257, 421-427.	2.0	7
26	Emotional Development and Depression. , 2019, , 695-748.		2
27	Childhood Maltreatment Disrupts Brain-Mediated Pathways Between Adolescent Maternal Relationship Quality and Positive Adult Outcomes. <i>Child Maltreatment</i> , 2019, 24, 424-434.	2.0	16
28	Emotional insecurity as a mediator of the moderating role of dopamine genes in the association between interparental conflict and youth externalizing problems. <i>Development and Psychopathology</i> , 2019, 31, 1111-1126.	1.4	15
29	Child maltreatment, adaptive functioning, and polygenic risk: A structural equation mixture model. <i>Development and Psychopathology</i> , 2019, 31, 443-456.	1.4	7
30	Intimate partner violence as a mechanism underlying the intergenerational transmission of maltreatment among economically disadvantaged mothers and their adolescent daughters. <i>Development and Psychopathology</i> , 2019, 31, 83-93.	1.4	23
31	Investigating multilevel pathways of developmental consequences of maltreatment. <i>Development and Psychopathology</i> , 2019, 31, 1227-1236.	1.4	3
32	Child maltreatment and the development of substance use and disorder. <i>Neurobiology of Stress</i> , 2019, 10, 100144.	1.9	119
33	Motherâ€™s Daughter Interpersonal Processes Underlying the Association Between Child Maltreatment and Adolescent Suicide Ideation. <i>Suicide and Life-Threatening Behavior</i> , 2019, 49, 1232-1240.	0.9	13
34	Identifying maltreatment subgroups with patterns of maltreatment subtype and chronicity: A latent class analysis approach. <i>Child Abuse and Neglect</i> , 2019, 87, 28-39.	1.3	98
35	Maternal relationship quality and peer social acceptance as mediators between child maltreatment and adolescent depressive symptoms: Gender differences. <i>Journal of Adolescence</i> , 2018, 63, 19-28.	1.2	53
36	Separable Effects of Childhood Maltreatment and Adult Adaptive Functioning on Amygdala Connectivity During Emotion Processing. <i>Biological Psychiatry: Cognitive Neuroscience and Neuroimaging</i> , 2018, 3, 116-124.	1.1	23

#	ARTICLE	IF	CITATIONS
37	Cultural development and psychopathology. <i>Development and Psychopathology</i> , 2018, 30, 1549-1555.	1.4	32
38	Patterns of Adolescent Regulatory Responses During Family Conflict and Mental Health Trajectories. <i>Journal of Research on Adolescence</i> , 2017, 27, 229-245.	1.9	15
39	The mediating roles of cortisol reactivity and executive functioning difficulties in the pathways between childhood histories of emotional insecurity and adolescent school problems. <i>Development and Psychopathology</i> , 2017, 29, 1483-1498.	1.4	15
40	From the cradle to the grave: The effect of adverse caregiving environments on attachment and relationships throughout the lifespan.. <i>Clinical Psychology: Science and Practice</i> , 2017, 24, 203-217.	0.6	79
41	Family instability and children's effortful control in the context of poverty: Sometimes a bird in the hand is worth two in the bush. <i>Development and Psychopathology</i> , 2017, 29, 685-696.	1.4	51
42	The interactive effects of child maltreatment and the FK506 binding protein 5 gene (<i>FKBP5</i>) on dissociative symptoms in adolescence. <i>Development and Psychopathology</i> , 2017, 29, 1105-1117.	1.4	17
43	From child maltreatment to emerging adult problem drinking: Identification of a multilevel internalizing pathway among African American youth. <i>Development and Psychopathology</i> , 2017, 29, 1807-1821.	1.4	23
44	Methylation of the glucocorticoid receptor gene, nuclear receptor subfamily 3, group C, member 1 (<i>NR3C1</i>), in maltreated and nonmaltreated children: Associations with behavioral undercontrol, emotional lability/negativity, and externalizing and internalizing symptoms. <i>Development and Psychopathology</i> , 2017, 29, 1795-1806.	1.4	57
45	An investigation of child maltreatment and epigenetic mechanisms of mental and physical health risk. <i>Development and Psychopathology</i> , 2016, 28, 1305-1317.	1.4	66
46	Child maltreatment, attachment and psychopathology: mediating relations. <i>World Psychiatry</i> , 2016, 15, 89-90.	4.8	51
47	Application of environmental sensitivity theories in personalized prevention for youth substance abuse: a transdisciplinary translational perspective. <i>Translational Behavioral Medicine</i> , 2016, 6, 81-89.	1.2	7
48	A Multilevel Developmental Psychopathology Systems Perspective on Depression. , 2016, , 3-28.		3
49	Socioemotional, Personality, and Biological Development: Illustrations from a Multilevel Developmental Psychopathology Perspective on Child Maltreatment. <i>Annual Review of Psychology</i> , 2016, 67, 187-211.	9.9	260
50	The distinctive sequelae of children's coping with interparental conflict: Testing the reformulated emotional security theory.. <i>Developmental Psychology</i> , 2016, 52, 1646-1665.	1.2	42
51	Child maltreatment, callous-unemotional traits, and defensive responding in high-risk children: An investigation of emotion-modulated startle response. <i>Development and Psychopathology</i> , 2015, 27, 1527-1545.	1.4	34
52	Child maltreatment, impulsivity, and antisocial behavior in African American children: Moderation effects from a cumulative dopaminergic gene index. <i>Development and Psychopathology</i> , 2015, 27, 1621-1636.	1.4	48
53	Developmental pathways from child maltreatment to adolescent marijuana dependence: Examining moderation by FK506 binding protein 5 gene (<i>FKBP5</i>). <i>Development and Psychopathology</i> , 2015, 27, 1489-1502.	1.4	10
54	Mechanisms of change: Testing how preventative interventions impact psychological and physiological stress functioning in mothers in neglectful families. <i>Development and Psychopathology</i> , 2015, 27, 1661-1674.	1.4	31

#	ARTICLE	IF	CITATIONS
55	Multilevel developmental perspectives on child maltreatment. <i>Development and Psychopathology</i> , 2015, 27, 1385-1386.	1.4	20
56	Long-term consequences of childhood maltreatment: Altered amygdala functional connectivity. <i>Development and Psychopathology</i> , 2015, 27, 1577-1589.	1.4	119
57	Tracing Differential Pathways of Risk: Associations Among Family Adversity, Cortisol, and Cognitive Functioning in Childhood. <i>Child Development</i> , 2015, 86, 1142-1158.	1.7	59
58	Neighborhood Disadvantage and Adolescent Substance Use Disorder. <i>Child Maltreatment</i> , 2015, 20, 193-202.	2.0	31
59	Neural plasticity, sensitive periods, and psychopathology. <i>Development and Psychopathology</i> , 2015, 27, 319-320.	1.4	25
60	Preventive Intervention Efficacy, Development, and Neural Plasticity. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2015, 54, 83-85.	0.3	5
61	Interrelations of Maternal Expressed Emotion, Maltreatment, and Separation/Divorce and Links to Family Conflict and Children's Externalizing Behavior. <i>Journal of Abnormal Child Psychology</i> , 2015, 43, 217-228.	3.5	26
62	Genetic moderation of interpersonal psychotherapy efficacy for low-income mothers with major depressive disorder: Implications for differential susceptibility. <i>Development and Psychopathology</i> , 2015, 27, 19-35.	1.4	22
63	Child maltreatment, inflammation, and internalizing symptoms: Investigating the roles of C-reactive protein, gene variation, and neuroendocrine regulation. <i>Development and Psychopathology</i> , 2015, 27, 553-566.	1.4	58
64	Childhood maltreatment and its effect on neurocognitive functioning: Timing and chronicity matter. <i>Development and Psychopathology</i> , 2015, 27, 521-533.	1.4	202
65	Assessment of the Harmful Psychiatric and Behavioral Effects of Different Forms of Child Maltreatment. <i>JAMA Psychiatry</i> , 2015, 72, 1135.	6.0	359
66	Reflections on Carroll Izard's Contributions: Influences on Diverse Scientific Disciplines and Personal Recollections. <i>Emotion Review</i> , 2015, 7, 104-109.	2.1	4
67	Emotional Development in Maltreated Children. <i>Contributions To Human Development</i> , 2014, , 29-41.	0.7	16
68	Genetic moderation of child maltreatment effects on depression and internalizing symptoms by serotonin transporter linked polymorphic region (5-HTTLPR), brain-derived neurotrophic factor (BDNF), norepinephrine transporter (NET), and corticotropin releasing hormone receptor 1 (CRHR1) genes in African American children. <i>Development and Psychopathology</i> , 2014, 26, 1219-1239.	1.4	29
69	How and Why Does the 5-HTTLPR Gene Moderate Associations Between Maternal Unresponsiveness and Children's Disruptive Problems?. <i>Child Development</i> , 2014, 85, 484-500.	1.7	33
70	Asymmetry in children's salivary cortisol and alpha-amylase in the context of marital conflict: Links to children's emotional security and adjustment. <i>Developmental Psychobiology</i> , 2014, 56, 836-849.	0.9	31
71	Oxytocin receptor gene polymorphism, perceived social support, and psychological symptoms in maltreated adolescents. <i>Development and Psychopathology</i> , 2014, 26, 465-477.	1.4	83
72	Illustrative Developmental Psychopathology Perspectives on Precursors and Pathways to Personality Disorder: Commentary on the Special Issue. <i>Journal of Personality Disorders</i> , 2014, 28, 172-179.	0.8	24

#	ARTICLE	IF	CITATIONS
73	A typology of interpartner conflict and maternal parenting practices in high-risk families: Examining spillover and compensatory models and implications for child adjustment. <i>Development and Psychopathology</i> , 2014, 26, 983-998.	1.4	38
74	Moderation of maltreatment effects on childhood borderline personality symptoms by gender and oxytocin receptor and FK506 binding protein 5 genes. <i>Development and Psychopathology</i> , 2014, 26, 831-849.	1.4	59
75	Longitudinal Patterns of Cortisol Regulation Differ in Maltreated and Nonmaltreated Children. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2014, 53, 1206-1215.	0.3	77
76	Borderline personality features in childhood: The role of subtype, developmental timing, and chronicity of child maltreatment. <i>Development and Psychopathology</i> , 2014, 26, 805-815.	1.4	49
77	The prospective contribution of childhood maltreatment to low self-worth, low relationship quality, and symptomatology across adolescence: A developmental-organizational perspective.. <i>Developmental Psychology</i> , 2014, 50, 2165-2175.	1.2	39
78	A Developmental Psychopathology Perspective on Child Maltreatment. , 2014, , 723-741.		58
79	Vulnerability to depression: A moderated mediation model of the roles of child maltreatment, peer victimization, and serotonin transporter linked polymorphic region genetic variation among children from low socioeconomic status backgrounds. <i>Development and Psychopathology</i> , 2013, 25, 599-614.	1.4	49
80	Child Maltreatment and Mediating Influences of Childhood Personality Types on the Development of Adolescent Psychopathology. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2013, 42, 287-301.	2.2	80
81	Contributions of maltreatment and serotonin transporter genotype to depression in childhood, adolescence, and early adulthood. <i>Journal of Affective Disorders</i> , 2013, 149, 30-37.	2.0	21
82	Annual Research Review: Resilient functioning in maltreated children â€œ past, present, and future perspectives. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2013, 54, 402-422.	3.1	441
83	Child maltreatment and gender interactions as predictors of differential neuroendocrine profiles. <i>Psychoneuroendocrinology</i> , 2013, 38, 1442-1454.	1.3	69
84	A Developmental Psychopathology Perspective on Child Maltreatment. <i>Child Maltreatment</i> , 2013, 18, 135-139.	2.0	116
85	Relational interventions for child maltreatment: Past, present, and future perspectives. <i>Development and Psychopathology</i> , 2013, 25, 1601-1617.	1.4	106
86	The legacy of development and psychopathology. <i>Development and Psychopathology</i> , 2013, 25, 1199-1200.	1.4	8
87	A Longitudinal Study of Emotion Regulation, Emotion Labilityâ€Negativity, and Internalizing Symptomatology in Maltreated and Nonmaltreated Children. <i>Child Development</i> , 2013, 84, 512-527.	1.7	234
88	Genetic contributions to continuity and change in attachment security: a prospective, longitudinal investigation from infancy to young adulthood. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2013, 54, 1223-1230.	3.1	62
89	Patterns of children's adrenocortical reactivity to interparental conflict and associations with child adjustment: A growth mixture modeling approach.. <i>Developmental Psychology</i> , 2013, 49, 317-326.	1.2	61
90	An Overview of Developmental Psychopathology. , 2013, , .		5

#	ARTICLE	IF	CITATIONS
91	Differential susceptibility in spillover between interparental conflict and maternal parenting practices: Evidence for OXTR and 5-HTT genes.. <i>Journal of Family Psychology</i> , 2012, 26, 431-442.	1.0	62
92	The role of limbic system irritability in linking history of childhood maltreatment and psychiatric outcomes in low-income, high-risk women: Moderation by FK506 binding protein 5 haplotype. <i>Development and Psychopathology</i> , 2012, 24, 1237-1252.	1.4	62
93	The effects of child maltreatment on early signs of antisocial behavior: Genetic moderation by tryptophan hydroxylase, serotonin transporter, and monoamine oxidase A genes. <i>Development and Psychopathology</i> , 2012, 24, 907-928.	1.4	121
94	Differential expression of social dominance as a function of age and maltreatment experience.. <i>Developmental Psychology</i> , 2012, 48, 575-588.	1.2	20
95	Interparental violence, maternal emotional unavailability and children's cortisol functioning in family contexts.. <i>Developmental Psychology</i> , 2012, 48, 237-249.	1.2	100
96	Gene × Environment interaction and resilience: Effects of child maltreatment and serotonin, corticotropin releasing hormone, dopamine, and oxytocin genes. <i>Development and Psychopathology</i> , 2012, 24, 411-427.	1.4	217
97	Genetic and Caregiving-Based Contributions to Infant Attachment. <i>Psychological Science</i> , 2012, 23, 1016-1023.	1.8	41
98	Pathways and processes of risk in associations among maternal antisocial personality symptoms, interparental aggression, and preschooler's psychopathology. <i>Development and Psychopathology</i> , 2012, 24, 807-832.	1.4	32
99	Longitudinal associations among child maltreatment, social functioning, and cortisol regulation.. <i>Developmental Psychology</i> , 2012, 48, 224-236.	1.2	218
100	Illogical Thinking and Thought Disorder in Maltreated Children. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2011, 50, 659-668.	0.3	32
101	Allostatic load. <i>Development and Psychopathology</i> , 2011, 23, 723-724.	1.4	25
102	The effects of child maltreatment and polymorphisms of the serotonin transporter and dopamine D4 receptor genes on infant attachment and intervention efficacy. <i>Development and Psychopathology</i> , 2011, 23, 357-372.	1.4	70
103	Understanding children's emotional processes and behavioral strategies in the context of marital conflict. <i>Journal of Experimental Child Psychology</i> , 2011, 109, 336-352.	0.7	46
104	Interparental aggression and children's adrenocortical reactivity: Testing an evolutionary model of allostatic load. <i>Development and Psychopathology</i> , 2011, 23, 801-814.	1.4	54
105	Affective facial expression processing in young children who have experienced maltreatment during the first year of life: An event-related potential study. <i>Development and Psychopathology</i> , 2011, 23, 373-395.	1.4	75
106	Developmental pathways to adolescent cannabis abuse and dependence: Child maltreatment, emerging personality, and internalizing versus externalizing psychopathology.. <i>Psychology of Addictive Behaviors</i> , 2011, 25, 634-644.	1.4	117
107	Moderation of the association between childhood maltreatment and neuroticism by the corticotropin-releasing hormone receptor 1 gene. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2011, 52, 898-906.	3.1	74
108	Sources of cognitive exploration: Genetic variation in the prefrontal dopamine system predicts Openness/Intellect. <i>Journal of Research in Personality</i> , 2011, 45, 364-371.	0.9	127

#	ARTICLE	IF	CITATIONS
109	Normalizing the development of cortisol regulation in maltreated infants through preventive interventions. <i>Development and Psychopathology</i> , 2011, 23, 789-800.	1.4	147
110	Interactive effects of corticotropin releasing hormone receptor 1, serotonin transporter linked polymorphic region, and child maltreatment on diurnal cortisol regulation and internalizing symptomatology. <i>Development and Psychopathology</i> , 2011, 23, 1125-1138.	1.4	107
111	Child maltreatment and allostatic load: Consequences for physical and mental health in children from low-income families. <i>Development and Psychopathology</i> , 2011, 23, 1107-1124.	1.4	134
112	Longitudinal pathways linking child maltreatment, emotion regulation, peer relations, and psychopathology. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2010, 51, 706-716.	3.1	819
113	Mothers' Parenting Practices as Explanatory Mechanisms in Associations Between Interparental Violence and Child Adjustment. <i>Partner Abuse</i> , 2010, 1, 45-60.	0.2	25
114	The Differential Impacts of Early Physical and Sexual Abuse and Internalizing Problems on Daytime Cortisol Rhythm in School-Aged Children. <i>Child Development</i> , 2010, 81, 252-269.	1.7	304
115	The Effects of Maltreatment and Neuroendocrine Regulation on Memory Performance. <i>Child Development</i> , 2010, 81, 1504-1519.	1.7	44
116	Interaction of Child Maltreatment and 5-HTT Polymorphisms: Suicidal Ideation among Children from low-SES Backgrounds. <i>Journal of Pediatric Psychology</i> , 2010, 35, 536-546.	1.1	68
117	From child maltreatment to adolescent cannabis abuse and dependence: A developmental cascade model. <i>Development and Psychopathology</i> , 2010, 22, 883-897.	1.4	136
118	Developmental cascades. <i>Development and Psychopathology</i> , 2010, 22, 491-495.	1.4	1,193
119	Resilience under conditions of extreme stress: a multilevel perspective. <i>World Psychiatry</i> , 2010, 9, 145-154.	4.8	508
120	Declarative memory in abused and neglected infants. <i>Advances in Child Development and Behavior</i> , 2010, 38, 161-182.	0.7	15
121	Child maltreatment and trajectories of personality and behavioral functioning: Implications for the development of personality disorder. <i>Development and Psychopathology</i> , 2009, 21, 889-912.	1.4	100
122	Adaptive coping under conditions of extreme stress: Multilevel influences on the determinants of resilience in maltreated children. <i>New Directions for Child and Adolescent Development</i> , 2009, 2009, 47-59.	1.3	130
123	Maternal Depression, Children's Attachment Security, and Representational Development: An Organizational Perspective. <i>Child Development</i> , 2009, 80, 192-208.	1.7	99
124	The past achievements and future promises of developmental psychopathology: the coming of age of a discipline. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2009, 50, 16-25.	3.1	439
125	Children's patterns of emotional reactivity to conflict as explanatory mechanisms in links between interpartner aggression and child physiological functioning. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2009, 50, 1384-1391.	3.1	59
126	The role of mothers' and fathers' adrenocortical reactivity in spillover between interparental conflict and parenting practices.. <i>Journal of Family Psychology</i> , 2009, 23, 215-225.	1.0	48

#	ARTICLE	IF	CITATIONS
127	Memory, Maternal Representations, and Internalizing Symptomatology Among Abused, Neglected, and Nonmaltreated Children. <i>Child Development</i> , 2008, 79, 705-719.	1.7	31
128	Adrenocortical Underpinnings of Children's Psychological Reactivity to Interparental Conflict. <i>Child Development</i> , 2008, 79, 1693-1706.	1.7	79
129	Childhood Maltreatment and the Development of Relational and Physical Aggression: The Importance of a Gender-Informed Approach. <i>Child Development</i> , 2008, 79, 1736-1751.	1.7	117
130	True and false recall and dissociation among maltreated children: The role of self-schema. <i>Development and Psychopathology</i> , 2008, 20, 213-232.	1.4	32
