23	Biographical disruption, abruption and repair in the context of Motor Neurone Disease. Sociology of Health and Illness, 2009, 31, 1043-1058.	1.1	98
24	Fertility Issues: The Perceptions and Experiences of Young Men Recently Diagnosed and Treated for Cancer. Journal of Adolescent Health, 2007, 40, 69-75.	1.2	97
25	Breast cancer in the family—children's perceptions of their mother's cancer and its initial treatment: qualitative study. BMJ: British Medical Journal, 2006, 332, 998-1003.	2.4	96
26	Is †watchful waiting' a real choice for men with prostate cancer? A qualitative study. BJU International, 2002, 90, 257-264.	1.3	91
27	Factors contributing to the time taken to consult with symptoms of lung cancer: a cross-sectional study. Thorax, 2009, 64, 523-531.	2.7	91
28	Infertility; isolation and the Internet: A qualitative interview study. Patient Education and Counseling, 2010, 81, 436-441.	1.0	91
29	Development and validation of the Day in the Life Questionnaire (DILQ) as a measure of fruit and vegetable questionnaire for 7-9 year olds. Health Education Research, 2002, 17, 211-220.	1.0	88
30	Talk of frustration in the narratives of people with chronic pain. Chronic Illness, 2012, 8, 176-191.	0.6	86
31	Desire for the body normal: body image and discrepancies between self reported and measured height and weight in a British population Journal of Epidemiology and Community Health, 1996, 50, 105-106.	2.0	84
32	Using a national archive of patient experience narratives to promote local patient-centered quality improvement: an ethnographic process evaluation of †accelerated' experience-based co-design. Journal of Health Services Research and Policy, 2014, 19, 200-207.	0.8	84
33	Personal identity and the role of â€~carer' among relatives and friends of people with multiple sclerosis. Social Science and Medicine, 2013, 96, 78-85.	1.8	81
34	Disclosing a Cancer Diagnosis to Friends and Family: A Gendered Analysis of Young Men's and Women's Experiences. Qualitative Health Research, 2009, 19, 744-754.	1.0	77
35	Taboo and the different death? Perceptions of those bereaved by suicide or other traumatic death. Sociology of Health and Illness, 2015, 37, 610-625.	1.1	77
36	Face-to-Face Compared With Online Collected Accounts of Health and Illness Experiences: A Scoping Review. Qualitative Health Research, 2020, 30, 2092-2102.	1.0	77

#	Article	IF	CITATIONS
37	Reported barriers to eating more fruit and vegetables before and after participation in a randomized controlled trial: a qualitative study. Health Education Research, 2004, 19, 165-174.	1.0	76
38	Comparison of two approaches to measuring change in health status in rheumatoid arthritis: the Health Assessment Questionnaire (HAQ) and modified HAQ Annals of the Rheumatic Diseases, 1992, 51, 1202-1205.	0.5	74
39	Minimizing delays in ovarian cancer diagnosis: an expansion of Andersen's model of 'total patient delay'. Family Practice, 2006, 24, 48-55.	0.8	74
40	Alternatives to the face-to-face consultation in general practice: focused ethnographic case study. British Journal of General Practice, 2018, 68, e293-e300.	0.7	74
41	"The Old Me Could Never Have Done That†How People Give Meaning to Recovery Following Depression. Qualitative Health Research, 2006, 16, 1038-1053.	1.0	73
42	The Role of Humor for Men with Testicular Cancer. Qualitative Health Research, 2004, 14, 1123-1139.	1.0	71
43	Testing accelerated experience-based co-design: a qualitative study of using a national archive of patient experience narrative interviews to promote rapid patient-centred service improvement. Health Services and Delivery Research, 2014, 2, 1-122.	1.4	71
44	Expressions of Loss of Adulthood in the Narratives of People with Colorectal Cancer. Qualitative Health Research, 2004, 14, 187-203.	1.0	70
45	Using secondary analysis of qualitative data of patient experiences of health care to inform health services research and policy. Journal of Health Services Research and Policy, 2014, 19, 177-182.	0.8	70
46	What people close to death say about euthanasia and assisted suicide: a qualitative study. Journal of Medical Ethics, 2006, 32, 706-710.	1.0	69
47	Getting through' not  going under': A qualitative study of gender and spousal support after diagnos with colorectal cancer. Social Science and Medicine, 2009, 68, 1169-1175.	is <sub>1.8</sub>	68
48	Does it matter if clinicians recruiting for a trial don't understand what the trial is really about? Qualitative study of surgeons' experiences of participation in a pragmatic multi-centre RCT. Trials, 2007, 8, 4.	0.7	66
49	Ethics and dementia: mapping the literature by bibliometric analysis. International Journal of Geriatric Psychiatry, 2003, 18, 41-54.	1.3	62
50	How patients' experiences contribute to decision making: illustrations from DIPEx (personal) Tj ETQq0 0 0 rgE	BT <sub>1</sub> /Qverlo	ck 10 Tf 50 2
51	"lt can't be very important because it comes and goesâ€â€"patients' accounts of intermittent symptoms preceding a pancreatic cancer diagnosis: a qualitative study: TableÂ1. BMJ Open, 2014, 4, e004215.	0.8	61
52	Exploring men's and women's experiences of depression and engagement with health professionals: more similarities than differences? A qualitative interview study. BMC Family Practice, 2007, 8, 43.	2.9	59
53	The potential of alternatives to face-to-face consultation in general practice, and the impact on different patient groups: a mixed-methods case study. Health Services and Delivery Research, 2018, 6, 1-200.	1.4	59
54	Lack of willpower or lack of wherewithal? "Internal―and "external―barriers to changing diet and exercise in a three year follow-up of participants in a health check. Social Science and Medicine, 1998, 46, 461-465.	1.8	58

#	Article	IF	CITATIONS
55	Breast cancer in young families: a qualitative interview study of fathers and their role and communication with their children following the diagnosis of maternal breast cancer. Psycho-Oncology, 2009, 18, 96-103.	1.0	58
56	Qualitative study of men's perceptions of why treatment delays occur in the UK for those with testicular cancer. British Journal of General Practice, 2004, 54, 25-32.	0.7	58
57	The Effect of Joint Interviewing on the Performance of Gender. Field Methods, 2008, 20, 107-128.	0.5	55
58	Measuring the effects of online health information: Scale validation for the e-Health Impact Questionnaire. Patient Education and Counseling, 2015, 98, 1418-1424.	1.0	55
59	Patients' views of routine hospital follow-up: a qualitative study of women with breast cancer in remission., 1998, 7, 436-439.		52
60	Measuring the effects of online health information for patients: Item generation for an e-health impact questionnaire. Patient Education and Counseling, 2013, 93, 433-438.	1.0	51
61	What patients do and their impact on implementation. Journal of Health Organization and Management, 2016, 30, 258-278.	0.6	50
62	A protocol for developing, disseminating, and implementing a core outcome set for pre-eclampsia. Pregnancy Hypertension, 2016, 6, 274-278.	0.6	48
63	Understanding the role of GPs' gut feelings in diagnosing cancer in primary care: a systematic review and meta-analysis of existing evidence. British Journal of General Practice, 2020, 70, e612-e621.	0.7	48
64	Why men with prostate cancer want wider access to prostate specific antigen testing: qualitative study. BMJ: British Medical Journal, 2002, 325, 737-737.	2.4	46
65	Incurable, invisible and inconclusive: watchful waiting for chronic lymphocytic leukaemia and implications for doctor-patient communication. European Journal of Cancer Care, 2012, 21, 67-77.	0.7	45
66	â€~My brain couldn't move from planning a birth to planning a funeral': A qualitative study of parents' experiences of decisions after ending a pregnancy for fetal abnormality. International Journal of Nursing Studies, 2009, 46, 1111-1121.	2.5	44
67	An Overview of Self-Administered Health Literacy Instruments. PLoS ONE, 2014, 9, e109110.	1.1	43
68	How the Internet is changing the experience of bereavement by suicide: A qualitative study in the UK. Health (United Kingdom), 2011, 15, 173-187.	0.9	42
69	If social determinants of health are so important, shouldn't we ask patients about them?. BMJ, The, 2020, 371, m4150.	3.0	42
70	Tackling poorly selected, collected, andÂreported outcomes in obstetrics andÂgynecology research. American Journal of Obstetrics and Gynecology, 2019, 220, 71.e1-71.e4.	0.7	41
71	In the absence of evidence, who chooses? A qualitative study of patients' needs after treatment for colorectal cancer. Journal of Health Services Research and Policy, 2004, 9, 159-164.	0.8	40
72	'Can I come off the tablets now?' A qualitative analysis of heart failure patients' understanding of their medication. Family Practice, 2006, 23, 624-630.	0.8	39
