#	ARTICLE	IF	CITATIONS
1	The Development and Internal Evaluation of a Predictive Model to Identify for Whom Mindfulness-Based Cognitive Therapy Offers Superior Relapse Prevention for Recurrent Depression Versus Maintenance Antidepressant Medication. <i>Clinical Psychological Science</i> , 2023, 11, 59-76.	4.0	5
2	Social determinants of mental health during a year of the COVID-19 pandemic. <i>Development and Psychopathology</i> , 2023, 35, 1701-1713.	2.3	9
3	Affective working memory capacity in refugee adolescents.. <i>Psychological Trauma: Theory, Research, Practice, and Policy</i> , 2022, 14, 983-988.	2.1	15
4	Cognitive training in recently-abstinent individuals with alcohol use disorder improves emotional stroop performance: Evidence from a randomized pilot trial. <i>Drug and Alcohol Dependence</i> , 2022, 231, 109239.	3.2	6
5	Trajectory of post-traumatic stress and depression among children and adolescents following single-incident trauma. <i>European Journal of Psychotraumatology</i> , 2022, 13, 2037906.	2.5	3
6	Age-Related Enhancements in Positive Emotionality across The Life Span: Structural Equation Modeling of Brain and Behavior. <i>Journal of Neuroscience</i> , 2022, 42, 3461-3472.	3.6	7
7	Measuring online and offline social rejection sensitivity in the digital age.. <i>Psychological Assessment</i> , 2022, 34, 742-751.	1.5	8
8	Affective Control Training (AffeCT) reduces negative affect in depressed individuals. <i>Journal of Affective Disorders</i> , 2022, 313, 167-176.	4.1	1
9	How biopsychosocial depressive risk shapes behavioral and neural responses to social evaluation in adolescence. <i>Brain and Behavior</i> , 2021, 11, e02005.	2.2	5
10	The effectiveness of affective compared to neutral working memory training in university students with test anxiety. <i>Behaviour Research and Therapy</i> , 2021, 147, 103974.	3.1	7
11	Age-related differences in affective control and its association with mental health difficulties. <i>Development and Psychopathology</i> , 2020, 32, 329-341.	2.3	24
12	Mood and neural responses to social rejection do not seem to be altered in resilient adolescents with a history of adversity. <i>Development and Psychopathology</i> , 2020, 32, 411-423.	2.3	11
13	The effect of emotional working memory training on emotional and cognitive outcomes in individuals with elevated social anxiety. <i>Journal of Affective Disorders</i> , 2020, 261, 76-83.	4.1	20
14	Neural correlates of emotion-attention interactions: From perception, learning, and memory to social cognition, individual differences, and training interventions. <i>Neuroscience and Biobehavioral Reviews</i> , 2020, 108, 559-601.	6.1	117
15	Effectiveness of an Emotional Working Memory Training in Borderline Personality Disorder: A Proof-of-Principle Study. <i>Psychotherapy and Psychosomatics</i> , 2020, 89, 122-124.	8.8	13
16	A trial protocol for the effectiveness of digital interventions for preventing depression in adolescents: The Future Proofing Study. <i>Trials</i> , 2020, 21, 2.	1.6	23
17	The psychometric properties of the cognitive emotion regulation questionnaire (CERQ) in a clinical sample of adults with recurrent depression. <i>Journal of Affective Disorders</i> , 2020, 276, 212-219.	4.1	12
18	The role of affective control in emotion regulation during adolescence.. <i>Emotion</i> , 2020, 20, 80-86.	1.8	79

#	ARTICLE	IF	CITATIONS
19	The neurocognitive correlates of academic diligence in adolescent girls. <i>Cognitive Neuroscience</i> , 2019, 10, 88-99.	1.4	4
20	The relationship between maladaptive appraisals and posttraumatic stress disorder: a meta-analysis. <i>HÅrge Utbildning</i> , 2019, 10, 1620084.	3.0	53
21	Age-related decline in positive emotional reactivity and emotion regulation in a population-derived cohort. <i>Social Cognitive and Affective Neuroscience</i> , 2019, 14, 623-631.	3.0	16
22	Positive memory specificity is associated with reduced vulnerability to depression. <i>Nature Human Behaviour</i> , 2019, 3, 265-273.	12.0	53
23	The impact of affective information on working memory: A pair of meta-analytic reviews of behavioral and neuroimaging evidence.. <i>Psychological Bulletin</i> , 2019, 145, 566-609.	6.1	82
24	Protocol for an app-based affective control training for adolescents: proof-of-principle double-blind randomized controlled trial. <i>Wellcome Open Research</i> , 2019, 4, 91.	1.8	12
25	Protocol for an app-based affective control training for adolescents: proof-of-principle double-blind randomized controlled trial. <i>Wellcome Open Research</i> , 2019, 4, 91.	1.8	8
26	A cluster randomized controlled platform trial comparing group MEmory specificity training (MEST) to group psychoeducation and supportive counselling (PSC) in the treatment of recurrent depression. <i>Behaviour Research and Therapy</i> , 2018, 105, 1-9.	3.1	33
27	Symptoms of depression in a large healthy population cohort are related to subjective memory complaints and memory performance in negative contexts. <i>Psychological Medicine</i> , 2018, 48, 104-114.	4.5	57
28	Affective enhancement of working memory is maintained in depression.. <i>Emotion</i> , 2018, 18, 127-137.	1.8	9
29	Engaging in an experiential processing mode increases positive emotional response during recall of pleasant autobiographical memories. <i>Behaviour Research and Therapy</i> , 2017, 92, 68-76.	3.1	29
30	Improving cognitive control in adolescents with post-traumatic stress disorder (PTSD). <i>Behaviour Research and Therapy</i> , 2017, 93, 88-94.	3.1	47
31	Social pain and social gain in the adolescent brain: A common neural circuitry underlying both positive and negative social evaluation. <i>Scientific Reports</i> , 2017, 7, 42010.	3.3	57
32	Efficacy of Mindfulness-Based Cognitive Therapy in Prevention of Depressive Relapse. <i>JAMA Psychiatry</i> , 2016, 73, 565.	11.0	558
33	Enhanced emotion regulation capacity and its neural substrates in those exposed to moderate childhood adversity. <i>Social Cognitive and Affective Neuroscience</i> , 2016, 11, 272-281.	3.0	58
34	The impact of affective contexts on working memory capacity in healthy populations and in individuals with PTSD.. <i>Emotion</i> , 2016, 16, 16-23.	1.8	36
35	Trauma-focused cognitive behaviour therapy versus treatment as usual for post traumatic stress disorder (PTSD) in young children aged 3 to 8Åyears: study protocol for a randomised controlled trial. <i>Trials</i> , 2015, 16, 116.	1.6	20
36	A comparison of MEmory Specificity Training (MEST) to education and support (ES) in the treatment of recurrent depression: study protocol for a cluster randomised controlled trial. <i>Trials</i> , 2014, 15, 293.	1.6	19

#	ARTICLE	IF	CITATIONS
37	Training the Emotional Brain: Improving Affective Control through Emotional Working Memory Training. <i>Journal of Neuroscience</i> , 2013, 33, 5301-5311.	3.6	265
38	Differential neural circuitry and self-interest in real vs hypothetical moral decisions. <i>Social Cognitive and Affective Neuroscience</i> , 2012, 7, 743-751.	3.0	89
39	Emotional working memory capacity in posttraumatic stress disorder (PTSD). <i>Behaviour Research and Therapy</i> , 2011, 49, 498-504.	3.1	85
40	Extending Brain-Training to the Affective Domain: Increasing Cognitive and Affective Executive Control through Emotional Working Memory Training. <i>PLoS ONE</i> , 2011, 6, e24372.	2.5	140
41	Does illness attribution affect treatment assignment in depression?. <i>Clinical Psychology and Psychotherapy</i> , 2010, 17, 418-426.	2.7	15
42	Emotion-regulation strategies across psychopathology: A meta-analytic review. <i>Clinical Psychology Review</i> , 2010, 30, 217-237.	11.4	4,297
43	A Key Role for Similarity in Vicarious Reward. <i>Science</i> , 2009, 324, 900-900.	12.6	230
44	Ironic effects of emotion suppression when recounting distressing memories.. <i>Emotion</i> , 2009, 9, 744-749.	1.8	74
45	Development of a gamified cognitive training app "Social Brain Train" to enhance adolescent mental health: a participatory design study protocol. <i>Wellcome Open Research</i> , 0, 7, 21.	1.8	0
