#	ARTICLE	IF	CITATIONS
1	Does an association exist between socio-economic status and subjective physical, mental and social well-being among early adolescents?. <i>International Journal of Adolescent Medicine and Health</i> , 2022, 34, .	0.6	1
2	Sex differences in injury rates in team-sport athletes: A systematic review and meta-regression analysis. <i>Journal of Sport and Health Science</i> , 2022, 11, 104-114.	3.3	32
3	The Interval Between Matches Significantly Influences Injury Risk in Field Hockey. <i>International Journal of Sports Medicine</i> , 2022, 43, 262-268.	0.8	9
4	Beneath the Surface: Mental Health and Harassment and Abuse of Athletes Participating in the FINA (Aquatics) World Championships, 2019. <i>Clinical Journal of Sport Medicine</i> , 2022, 32, 95-102.	0.9	15
5	An Uneven Playing Field: Athlete Injury, Illness, Load, and Daily Training Environment in the Year Before the FINA (Aquatics) World Championships, 2017. <i>Clinical Journal of Sport Medicine</i> , 2021, 31, e425-e431.	0.9	6
6	In-competition injuries and performance success in combined events during major international athletics championships. <i>Journal of Science and Medicine in Sport</i> , 2021, 24, 152-158.	0.6	14
7	Game Exposure, Player Characteristics, and Neuromuscular Performance Influence Injury Risk in Professional and Youth Field Hockey Players. <i>Orthopaedic Journal of Sports Medicine</i> , 2021, 9, 232596712199516.	0.8	6
8	Lower limb muscle injury location shift from posterior lower leg to hamstring muscles with increasing discipline-related running velocity in international athletics championships. <i>Journal of Science and Medicine in Sport</i> , 2021, 24, 653-659.	0.6	16
9	Apparent temperature and heat-related illnesses during international athletic championships: A prospective cohort study. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2021, 31, 2092-2102.	1.3	11
10	Sex-Specific Differences in Running Injuries: A Systematic Review with Meta-Analysis and Meta-Regression. <i>Sports Medicine</i> , 2021, 51, 1011-1039.	3.1	43
11	Every second retired elite female football player has MRI evidence of knee osteoarthritis before age 50: a cross-sectional study of clinical and MRI outcomes. <i>Knee Surgery, Sports Traumatology, Arthroscopy</i> , 2020, 28, 353-362.	2.3	19
12	Infographic. Useful steps in the prevention of illnesses during international athletics championships. <i>British Journal of Sports Medicine</i> , 2020, 54, 251-252.	3.1	5
13	Epidemiology of injuries during the Wheelchair Basketball World Championships 2018: A prospective cohort study. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2020, 30, 199-207.	1.3	23
14	Injury frequency and characteristics (location, type, cause and severity) differed significantly among athletics (track and field) disciplines during 14 international championships (2007-2018): implications for medical service planning. <i>British Journal of Sports Medicine</i> , 2020, 54, 159-167.	3.1	53
15	International consensus statement: methods for recording and reporting of epidemiological data on injuries and illnesses in golf. <i>British Journal of Sports Medicine</i> , 2020, 54, 1136-1141.	3.1	22
16	Neurocognitive performance and mental health of retired female football players compared to non-contact sport athletes. <i>BMJ Open Sport and Exercise Medicine</i> , 2020, 6, e000952.	1.4	8
17	Cognitive Ageing in Top-Level Female Soccer Players Compared to a Normative Sample from the General Population: A Cross-sectional Study. <i>Journal of the International Neuropsychological Society</i> , 2020, 26, 645-653.	1.2	2
18	International Olympic Committee Consensus Statement: Methods for Recording and Reporting of Epidemiological Data on Injury and Illness in Sports 2020 (Including the STROBE Extension for Sports) <i>British Journal of Sports Medicine</i> , 2020, 54, 232596712090290.	0.8	90

#	ARTICLE	IF	CITATIONS
19	International Olympic Committee consensus statement: methods for recording and reporting of epidemiological data on injury and illness in sport 2020 (including STROBE Extension for Sport Injury) <a href="#">Tj ETQq1 1 03784314 rgBf /Ov</a>		
20	Comparison of the 11+ Kids™ injury prevention programme and a regular warmup in children's football (soccer): a cost effectiveness analysis. <i>British Journal of Sports Medicine</i> , 2019, 53, 309-314.	3.1	50
21	Neurocognitive Performance of 425 Top-Level Football Players: Sport-specific Norm Values and Implications. <i>Archives of Clinical Neuropsychology</i> , 2019, 34, 575-584.	0.3	8
22	Illnesses during 11 international athletics championships between 2009 and 2017: incidence, characteristics and sex-specific and discipline-specific differences. <i>British Journal of Sports Medicine</i> , 2019, 53, 1174-1182.	3.1	21
23	Health promotion by International Olympic Sport Federations: priorities and barriers. <i>British Journal of Sports Medicine</i> , 2019, 53, 1117-1125.	3.1	11
24	How does sport affect mental health? An investigation into the relationship of leisure-time physical activity with depression and anxiety. <i>Human Movement</i> , 2019, 20, 62-74.	0.5	24
25	Relation of Team Size and Success With Injuries and Illnesses During Eight International Outdoor Athletics Championships. <i>Frontiers in Sports and Active Living</i> , 2019, 1, 8.	0.9	16
26	Analysis of water polo injuries during 8904 player matches at FINA World Championships and Olympic games to make the sport safer. <i>British Journal of Sports Medicine</i> , 2019, 53, 25-31.	3.1	34
27	Effects of the 11+ Kids™ injury prevention programme on severe injuries in children's football: a secondary analysis of data from a multicentre cluster-randomised controlled trial. <i>British Journal of Sports Medicine</i> , 2019, 53, 1418-1423.	3.1	30
28	Depression and anxiety symptoms in 17 teams of female football players including 10 German first league teams. <i>British Journal of Sports Medicine</i> , 2019, 53, 471-477.	3.1	40
29	Interrater reliability of the injury reporting of the injury surveillance system used in international athletics championships. <i>Journal of Science and Medicine in Sport</i> , 2018, 21, 894-898.	0.6	7
30	Epidemiology of Head Injuries Focusing on Concussions in Team Contact Sports: A Systematic Review. <i>Sports Medicine</i> , 2018, 48, 953-969.	3.1	143
31	A Multinational Cluster Randomised Controlled Trial to Assess the Efficacy of 11+ Kids™: A Warm-Up Programme to Prevent Injuries in Children's Football. <i>Sports Medicine</i> , 2018, 48, 1493-1504.	3.1	98
32	Gymnastics injury incidence during the 2008, 2012 and 2016 Olympic Games: analysis of prospectively collected surveillance data from 963 registered gymnasts during Olympic Games. <i>British Journal of Sports Medicine</i> , 2018, 52, 475-481.	3.1	52
33	Risk factors for football injuries in young players aged 7 to 12 years. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2018, 28, 1176-1182.	1.3	33
34	Epidemiology of injuries in outdoor and indoor hockey players over one season: a prospective cohort study. <i>British Journal of Sports Medicine</i> , 2018, 52, 1091-1096.	3.1	33
35	Head injuries in children's football: results from two prospective cohort studies in four European countries. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2017, 27, 1986-1992.	1.3	17
36	Towards the reduction of injury and illness in athletes: defining our research priorities. <i>British Journal of Sports Medicine</i> , 2017, 51, 1178-1182.	3.1	11

#	ARTICLE	IF	CITATIONS
37	Injury and illness in aquatic sport: how high is the risk? A comparison of results from three FINA World Championships. <i>British Journal of Sports Medicine</i> , 2017, 51, 277-282.	3.1	59
38	“FIFA 11 for Health”™ for Europe. 1: effect on health knowledge and well-being of 10- to 12-year-old Danish school children. <i>British Journal of Sports Medicine</i> , 2017, 51, 1483-1488.	3.1	21
39	Prevalence of potential sports-associated risk factors in Swiss amyotrophic lateral sclerosis patients. <i>Brain and Behavior</i> , 2017, 7, e00630.	1.0	22
40	Health problems in former elite female football players: Prevalence and risk factors. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2017, 27, 1404-1410.	1.3	15
41	<sc>MRI</sc> of the wrist is not recommended for age determination in female football players of <sc>U</sc>16/<sc>U</sc>17 competitions. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2016, 26, 324-328.	1.3	17
42	Symptoms and risk factors of depression during and after the football career of elite female players. <i>BMJ Open Sport and Exercise Medicine</i> , 2016, 2, e000124.	1.4	51
43	Methodological quality of the injury surveillance system used in international athletics championships. <i>Journal of Science and Medicine in Sport</i> , 2016, 19, 984-989.	0.6	15
44	Soccer Injuries in Players Aged 7 to 12 Years. <i>American Journal of Sports Medicine</i> , 2016, 44, 309-317.	1.9	87
45	Prevalence of depression and anxiety in top-level male and female football players. <i>BMJ Open Sport and Exercise Medicine</i> , 2016, 2, e000087.	1.4	108
46	FIFA 11 for Health programme: Implementation in five countries in Sub-Saharan Africa. <i>Health Education Journal</i> , 2015, 74, 103-119.	0.6	7
47	Sex differences in injury during top-level international athletics championships: surveillance data from 14 championships between 2007 and 2014. <i>British Journal of Sports Medicine</i> , 2015, 49, 472-477.	3.1	52
48	Twenty years of the FIFA Medical Assessment and Research Centre: from “Medicine for Football”™ to “Football for Health”™. <i>British Journal of Sports Medicine</i> , 2015, 49, 561-563.	3.1	17
49	Football injuries during the 2014 FIFA World Cup. <i>British Journal of Sports Medicine</i> , 2015, 49, 599-602.	3.1	118
50	A successful nationwide implementation of the “FIFA 11 for Health”™ programme in Brazilian elementary schools. <i>British Journal of Sports Medicine</i> , 2015, 49, 623-629.	3.1	12
51	Efficacy of the FIFA 11+ Injury Prevention Program in the Collegiate Male Soccer Player. <i>American Journal of Sports Medicine</i> , 2015, 43, 2628-2637.	1.9	246
52	FIFA 11+ Injury Prevention in Amateur Football from Development to Worldwide Dissemination. , 2015, , 199-208.		3
53	Use and abuse of medication during 2014 FIFA World Cup Brazil: a retrospective survey. <i>BMJ Open</i> , 2015, 5, e007608.	0.8	27
54	Epidemiology in Female Football Players. , 2015, , 21-27.		2

#	ARTICLE	IF	CITATIONS
55	Competing with injuries: injuries prior to and during the 15th FINA World Championships 2013 (aquatics). <i>British Journal of Sports Medicine</i> , 2015, 49, 37-43.	3.1	66
56	FIFA 11 for Health in Mexico: a school-based intervention for the prevention of obesity and non-communicable diseases. <i>British Journal of Sports Medicine</i> , 2014, 48, 940-941.	3.1	5
57	Exercise-Based Injury Prevention in Child and Adolescent Sport: A Systematic Review and Meta-Analysis. <i>Sports Medicine</i> , 2014, 44, 1733-1748.	3.1	171
58	Injury and illness definitions and data collection procedures for use in epidemiological studies in Athletics (track and field): Consensus statement. <i>British Journal of Sports Medicine</i> , 2014, 48, 483-490.	3.1	257
59	Injury surveillance during a 2-day national female youth football tournament in Kenya. <i>British Journal of Sports Medicine</i> , 2014, 48, 924-928.	3.1	12
60	Injuries in 13 international Athletics championships between 2007-2012. <i>British Journal of Sports Medicine</i> , 2014, 48, 513-522.	3.1	76
61	Football Injuries in Children and Adolescent Players: Are There Clues for Prevention?. <i>Sports Medicine</i> , 2013, 43, 819-837.	3.1	167
62	Physiological and performance responses to the "FIFA 11+(part 1): is it an appropriate warm-up?. <i>Journal of Sports Sciences</i> , 2013, 31, 1481-1490.	1.0	78
63	Physiological and performance responses to the FIFA 11+ (part 2): a randomised controlled trial on the training effects. <i>Journal of Sports Sciences</i> , 2013, 31, 1491-1502.	1.0	105
64	Implementation of the FIFA 11+ football warm up program: How to approach and convince the Football associations to invest in prevention. <i>British Journal of Sports Medicine</i> , 2013, 47, 803-806.	3.1	161
65	FIFA Women's World Cup 2011: Pre-Competition Medical Assessment of female referees and assistant referees. <i>British Journal of Sports Medicine</i> , 2013, 47, 179-181.	3.1	9
66	Increased risk of injury following red and yellow cards, injuries and goals in FIFA World Cups. <i>British Journal of Sports Medicine</i> , 2013, 47, 970-973.	3.1	9
67	Injury surveillance in the World Football Tournaments 1998-2012. <i>British Journal of Sports Medicine</i> , 2013, 47, 782-788.	3.1	135
68	The role of International Sport Federations in the protection of the athlete's health and promotion of sport for health of the general population. <i>British Journal of Sports Medicine</i> , 2013, 47, 1023-1027.	3.1	30
69	Foul play is associated with injury incidence: an epidemiological study of three FIFA World Cups (2002-2010). <i>British Journal of Sports Medicine</i> , 2013, 47, 986-991.	3.1	30
70	Risk management: FIFA's approach for protecting the health of football players. <i>British Journal of Sports Medicine</i> , 2012, 46, 11-17.	3.1	78
71	Feasibility of precompetition medical assessment at FIFA World Cups for female youth players. <i>British Journal of Sports Medicine</i> , 2012, 46, 1132-1133.	3.1	17
72	Precompetition medical assessment of referees and assistant referees selected for the 2010 FIFA World Cup: Table 1. <i>British Journal of Sports Medicine</i> , 2012, 46, 374-376.	3.1	12
