FISKE SALEMINK

#	Article	IF	CITATIONS
1	Cognitive Bias Modification and Cognitive Control Training in Addiction and Related Psychopathology. Clinical Psychological Science, 2013, 1, 192-212.	4.0	401
2	Autobiographical memories become less vivid and emotional after eye movements. British Journal of Clinical Psychology, 2001, 40, 121-130.	3.5	208
3	Selective attention and threat: Quick orienting versus slow disengagement and two versions of the dot probe task. Behaviour Research and Therapy, 2007, 45, 607-615.	3.1	195
4	Confusing procedures with process when appraising the impact of cognitive bias modification on emotional vulnerability. British Journal of Psychiatry, 2017, 211, 266-271.	2.8	140
5	Efficacy and safety of high-dose baclofen for the treatment of alcohol dependence: A multicentre, randomised, double-blind controlled trial. European Neuropsychopharmacology, 2016, 26, 1950-1959.	0.7	118
6	A review of cognitive biases in youth depression: attention, interpretation and memory. Cognition and Emotion, 2017, 31, 462-483.	2.0	117
7	Ruminative coping as avoidance. European Archives of Psychiatry and Clinical Neuroscience, 2007, 257, 462-472.	3.2	106
8	Effects of positive interpretive bias modification in highly anxious individuals. Journal of Anxiety Disorders, 2009, 23, 676-683.	3.2	103
9	Visual search attentional bias modification reduced social phobia in adolescents. Journal of Behavior Therapy and Experimental Psychiatry, 2014, 45, 252-259.	1.2	88
10	Trained interpretive bias and anxiety. Behaviour Research and Therapy, 2007, 45, 329-340.	3.1	72
11	Association between attention bias to threat and anxiety symptoms in children and adolescents. Depression and Anxiety, 2018, 35, 229-238.	4.1	72
12	Alcohol-related memory associations in positive and negative affect situations: Drinking motives, working memory capacity, and prospective drinking Psychology of Addictive Behaviors, 2014, 28, 105-113.	2.1	72
13	Trained interpretive bias: Validity and effects on anxiety. Journal of Behavior Therapy and Experimental Psychiatry, 2007, 38, 212-224.	1.2	70
14	Internet-based Cognitive Bias Modification of Interpretations inÂpatients with anxiety disorders: A randomised controlled trial. Journal of Behavior Therapy and Experimental Psychiatry, 2014, 45, 186-195.	1.2	64
15	The Effects of Increasing Neutral Distraction on Sexual Responding of Women With and Without Sexual Problems. Archives of Sexual Behavior, 2006, 35, 175-186.	1.9	62
16	Modifying Threat-related Interpretive Bias in Adolescents. Journal of Abnormal Child Psychology, 2011, 39, 967-976.	3.5	52
17	Adolescent threat-related interpretive bias and its modification: The moderating role of regulatory control. Behaviour Research and Therapy, 2012, 50, 40-46.	3.1	52
18	Augmentation of Treatment As Usual with online Cognitive Bias Modification of Interpretation training in adolescents with Obsessive Compulsive Disorder: A pilot study. Journal of Behavior Therapy and Experimental Psychiatry, 2015, 49, 112-119.	1.2	47

#	Article	IF	CITATIONS
19	Emotional working memory training as an online intervention for adolescent anxiety and depression: A randomised controlled trial. Australian Journal of Psychology, 2016, 68, 228-238.	2.8	46
20	Re-training automatic action tendencies to approach cigarettes among adolescent smokers: a pilot study. American Journal of Drug and Alcohol Abuse, 2015, 41, 425-432.	2.1	45
21	Biases in attention and interpretation in adolescents with varying levels of anxiety and depression. Cognition and Emotion, 2018, 32, 1478-1486.	2.0	43
22	Validation of the "recognition task―used in the training of interpretation biases. Journal of Behavior Therapy and Experimental Psychiatry, 2010, 41, 140-144.	1.2	38
23	Interpretation training influences memory for prior interpretations Emotion, 2010, 10, 903-907.	1.8	37
24	Self-Control and Implicit Drinking Identity as Predictors of Alcohol Consumption, Problems, and Cravings. Journal of Studies on Alcohol and Drugs, 2014, 75, 290-298.	1.0	34
25	How Does Cognitive Bias Modification Affect Anxiety? Mediation Analyses and Experimental Data. Behavioural and Cognitive Psychotherapy, 2010, 38, 59-66.	1.2	32
26	Web-based cognitive bias modification for problem drinkers: protocol of a randomised controlled trial with a 2x2x2 factorial design. BMC Public Health, 2013, 13, 674.	2.9	29
27	Believing Is Seeing: A Proof-of-Concept Semiexperimental Study on Using Mobile Virtual Reality to Boost the Effects of Interpretation Bias Modification for Anxiety. JMIR Mental Health, 2019, 6, e11517.	3.3	28
28	Exploring the Causal Effect of Interpretation Bias on Attachment Expectations. Child Development, 2017, 88, 131-140.	3.0	27
29	Passing on the half-empty glass: A transgenerational study of interpretation biases in children at risk for depression and their parents with depression Journal of Abnormal Psychology, 2019, 128, 151-161.	1.9	27
30	Generalisation of modified interpretive bias across tasks and domains. Cognition and Emotion, 2010, 24, 453-464.	2.0	26
31	The relationship between drinking motives and alcohol-related interpretation biases. Journal of Behavior Therapy and Experimental Psychiatry, 2015, 47, 102-110.	1.2	26
32	Luck, come here! Automatic approach tendencies toward gambling cues in moderate―to highâ€risk gamblers. Addiction, 2018, 113, 289-298.	3.3	26
33	Reliability and validity of measures of attentional bias towards threat in unselected student samples: seek, but will you find?. Cognition and Emotion, 2020, 34, 217-228.	2.0	24
34	Intolerance of Uncertainty Scale: Measurement invariance among adolescent boys and girls and relationships with anxiety and risk taking. Journal of Behavior Therapy and Experimental Psychiatry, 2017, 55, 57-65.	1.2	22
35	Cognitive Bias Modification Reduces Social Anxiety Symptoms in Socially Anxious Adolescents with Mild Intellectual Disabilities: A Randomized Controlled Trial. Journal of Autism and Developmental Disorders, 2018, 48, 3116-3126.	2.7	22
36	Alcohol Avoidance Training as a Mobile App for Problem Drinkers: Longitudinal Feasibility Study. JMIR MHealth and UHealth, 2020, 8, e16217.	3.7	22

#	Article	IF	CITATIONS
37	Trained interpretive bias survives mood change. Journal of Behavior Therapy and Experimental Psychiatry, 2010, 41, 310-315.	1.2	21
38	A randomized controlled trial of multi-session online interpretation bias modification training: Short- and long-term effects on anxiety and depression in unselected adolescents. PLoS ONE, 2018, 13, e0194274.	2.5	21
39	The effects of attentional bias modification on emotion regulation. Journal of Behavior Therapy and Experimental Psychiatry, 2019, 62, 38-48.	1.2	21
40	Limited generalisation of changes in attentional bias following attentional bias modification with the visual probe task. Cognition and Emotion, 2017, 31, 369-376.	2.0	20
41	Does comorbid anxiety or depression moderate effects of approach bias modification in the treatment of alcohol use disorders?. Psychology of Addictive Behaviors, 2022, 36, 547-554.	2.1	20
42	Differences between self- and peer-rated likability in relation to social anxiety and depression in adolescents with mild intellectual disabilities. Research in Developmental Disabilities, 2018, 80, 44-51.	2.2	19
43	Attentional bias modification training for insomnia: A double-blind placebo controlled randomized trial. PLoS ONE, 2017, 12, e0174531.	2.5	19
44	Does modified interpretation bias influence automatic avoidance behaviour?. Applied Cognitive Psychology, 2010, 24, 326-337.	1.6	18
45	The relation between social anxiety and biased interpretations in adolescents with mild intellectual disabilities. Research in Developmental Disabilities, 2017, 67, 94-98.	2.2	18
46	Modification of hostile attribution bias reduces self-reported reactive aggressive behavior in adolescents. Journal of Experimental Child Psychology, 2020, 194, 104811.	1.4	18
47	Prevention and treatment of mental health and psychosocial problems in college students: An umbrella review of meta-analyses Clinical Psychology: Science and Practice, 2021, 28, 229-244.	0.9	18
48	"l Am a Total…Loser―– The Role of Interpretation Biases in Youth Depression. Journal of Abnormal Child Psychology, 2020, 48, 1337-1350.	3.5	16
49	Executive Functions and Motivation as Moderators of the Relationship Between Automatic Associations and Alcohol Use in Problem Drinkers Seeking Online Help. Alcoholism: Clinical and Experimental Research, 2015, 39, 1788-1796.	2.4	15
50	Implicit and explicit measures of spider fear and avoidance behavior: Examination of the moderating role of working memory capacity. Journal of Behavior Therapy and Experimental Psychiatry, 2016, 50, 269-276.	1.2	15
51	Interpretation bias in middle childhood attachment: Causal effects on attachment memories and scripts. Behaviour Research and Therapy, 2018, 102, 16-24.	3.1	15
52	Comorbid interpretation and expectancy bias in social anxiety and alcohol use. Anxiety, Stress and Coping, 2018, 31, 669-685.	2.9	15
53	When Do those "Risk-Taking Adolescents―Take Risks? The Combined Effects of Risk Encouragement by Peers, Mild-to-Borderline Intellectual Disability and Sex. Journal of Abnormal Child Psychology, 2020, 48, 573-587.	3.5	15
54	Attention bias modification training under working memory load increases the magnitude of change in attentional bias. Journal of Behavior Therapy and Experimental Psychiatry, 2017, 57, 25-31.	1.2	14

#	Article	IF	CITATIONS
55	Distorted Beliefs about Luck and Skill and Their Relation to Gambling Problems and Gambling Behavior in Dutch Gamblers. Frontiers in Psychology, 2017, 8, 2245.	2.1	13
56	Indicators of implicit and explicit social anxiety influence threat-related interpretive bias as a function of working memory capacity. Frontiers in Human Neuroscience, 2013, 7, 220.	2.0	12
57	Gamification of cognitive bias modification for interpretations in anxiety increases training engagement and enjoyment. Journal of Behavior Therapy and Experimental Psychiatry, 2022, 76, 101727.	1.2	12
58	A computational network perspective on pediatric anxiety symptoms. Psychological Medicine, 2021, 51, 1752-1762.	4.5	11
59	Effects of cognitive load during interpretation bias modification on interpretation bias and stress reactivity. Journal of Behavior Therapy and Experimental Psychiatry, 2020, 68, 101561.	1.2	11
60	Game Design in Mental Health Care: Case Study–Based Framework for Integrating Game Design Into Therapeutic Content. JMIR Serious Games, 2021, 9, e27953.	3.1	11
61	Reducing alcohol-related interpretive bias in negative affect situations: Using a scenario-based Cognitive Bias Modification training paradigm. Addictive Behaviors, 2019, 88, 106-113.	3.0	10
62	The Associations of Common Psychological Problems With Mental Disorders Among College Students. Frontiers in Psychiatry, 2021, 12, 573637.	2.6	9
63	Fear Acquisition through Maternal Verbal Threat Information in Middle Childhood: The Role of Children's Attachment to Mother. Parenting, 2015, 15, 288-294.	1.4	8
64	Do implicitly measured math–anxiety associations play a role in math behavior?. Journal of Experimental Child Psychology, 2019, 186, 171-188.	1.4	8
65	Acceptability and Coâ€Development of an Online Cognitive Bias Modification Intervention for Emerging Adults With Hazardous Alcohol Use and Social Anxiety: A Mixed Methods Study. Alcoholism: Clinical and Experimental Research, 2020, 44, 2283-2297.	2.4	8
66	Online computer or therapist-guided cognitive behavioral therapy in university students with anxiety and/or depression: study protocol of a randomised controlled trial. BMJ Open, 2021, 11, e049554.	1.9	8
67	Implicit alcohol–relaxation associations in frequently drinking adolescents with high levels of neuroticism. Addictive Behaviors, 2015, 45, 8-13.	3.0	7
68	Can baclofen change alcohol-related cognitive biases and what is the role of anxiety herein?. Journal of Psychopharmacology, 2018, 32, 867-875.	4.0	7
69	Effects of interpretation bias modification on unregulated and regulated emotional reactivity. Journal of Behavior Therapy and Experimental Psychiatry, 2019, 64, 123-132.	1.2	7
70	Effectiveness of an online interpretation training as a pre-treatment for cognitive behavioral therapy for obsessive-compulsive disorder in youth: A randomized controlled trial. Journal of Obsessive-Compulsive and Related Disorders, 2021, 29, 100636.	1.5	7
71	Validation of a contextualized assessment of smoking behaviour in students. Addiction, 2018, 113, 907-913.	3.3	5
72	Cognitive Bias Modification of Expectancies (CBM-E): Effects on Interpretation Bias and Autobiographical Memory, and Relations with Social and Attachment Anxiety. Cognitive Therapy and Research, 2019, 43, 1028-1042.	1.9	5
