#	ARTICLE	IF	CITATIONS
1	Socioeconomic status and smoking. <i>European Journal of Public Health</i> , 2005, 15, 262-269.	0.3	271
2	Obesity and loss of disease-free years owing to major non-communicable diseases: a multicohort study. <i>Lancet Public Health</i> , The, 2018, 3, e490-e497.	10.0	241
3	Health behaviours as explanations for educational level differences in cardiovascular and all-cause mortality: a follow-up of 60 000 men and women over 23 years. <i>European Journal of Public Health</i> , 2008, 18, 38-43.	0.3	228
4	Multiple socio-economic circumstances and healthy food habits. <i>European Journal of Clinical Nutrition</i> , 2007, 61, 701-710.	2.9	171
5	Socioeconomic Position and Self-Rated Health: The Contribution of Childhood Socioeconomic Circumstances, Adult Socioeconomic Status, and Material Resources. <i>American Journal of Public Health</i> , 2005, 95, 1403-1409.	2.7	150
6	Associations of job strain and working overtime with adverse health behaviors and obesity: Evidence from the Whitehall II Study, Helsinki Health Study, and the Japanese Civil Servants Study. <i>Social Science and Medicine</i> , 2008, 66, 1681-1698.	3.8	150
7	Past or present? Childhood living conditions and current socioeconomic status as determinants of adult health. <i>Social Science and Medicine</i> , 1997, 44, 327-336.	3.8	146
8	Register-based study among employees showed small nonparticipation bias in health surveys and check-ups. <i>Journal of Clinical Epidemiology</i> , 2008, 61, 900-906.	5.0	142
9	Association of Healthy Lifestyle With Years Lived Without Major Chronic Diseases. <i>JAMA Internal Medicine</i> , 2020, 180, 760.	5.1	140
10	Long working hours and depressive symptoms: systematic review and meta-analysis of published studies and unpublished individual participant data. <i>Scandinavian Journal of Work, Environment and Health</i> , 2018, 44, 239-250.	3.4	135
11	Cohort Profile: The Helsinki Health Study. <i>International Journal of Epidemiology</i> , 2013, 42, 722-730.	1.9	133
12	Occupational class inequalities across key domains of health: Results from the Helsinki Health Study. <i>European Journal of Public Health</i> , 2005, 15, 504-510.	0.3	127
13	Well-being and health behaviour by parental socioeconomic status. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2003, 38, 249-255.	3.1	126
14	Social background, adult body-height and health. <i>International Journal of Epidemiology</i> , 1999, 28, 911-918.	1.9	118
15	Working conditions and health behaviours among employed women and men: the Helsinki Health Study. <i>Preventive Medicine</i> , 2004, 38, 48-56.	3.4	116
16	Bidirectional associations between insomnia symptoms and unhealthy behaviours. <i>Journal of Sleep Research</i> , 2013, 22, 89-95.	3.2	114
17	Sociodemographic and socioeconomic differences in sleep duration and insomnia-related symptoms in Finnish adults. <i>BMC Public Health</i> , 2012, 12, 565.	2.9	111
18	Working conditions as risk factors for disability retirement: a longitudinal register linkage study. <i>BMC Public Health</i> , 2012, 12, 309.	2.9	109

#	ARTICLE	IF	CITATIONS
19	Multiple measures of socioeconomic circumstances and common mental disorders. <i>Social Science and Medicine</i> , 2006, 63, 1383-1399.	3.8	106
20	Gender differences in sickness absence – the contribution of occupation and workplace. <i>Scandinavian Journal of Work, Environment and Health</i> , 2010, 36, 394-403.	3.4	104
21	Socioeconomic circumstances and common mental disorders among Finnish and British public sector employees: evidence from the Helsinki Health Study and the Whitehall II Study. <i>International Journal of Epidemiology</i> , 2007, 36, 776-786.	1.9	101
22	Sleep complaints in middle-aged women and men: the contribution of working conditions and work-family conflicts. <i>Journal of Sleep Research</i> , 2010, 19, 466-477.	3.2	100
23	Does social support affect the relationship between socioeconomic status and depression? A longitudinal study from adolescence to adulthood. <i>Journal of Affective Disorders</i> , 2007, 100, 55-64.	4.1	93
24	Work Arrangements, Physical Working Conditions, and Psychosocial Working Conditions as Risk Factors for Sickness Absence: Bayesian Analysis of Prospective Data. <i>Annals of Epidemiology</i> , 2010, 20, 332-338.	1.9	93
25	Explanations for gender differences in sickness absence: evidence from middle-aged municipal employees from Finland. <i>Occupational and Environmental Medicine</i> , 2008, 65, 325-330.	2.8	89
26	Interrelationships between education, occupational class, income and sickness absence. <i>European Journal of Public Health</i> , 2010, 20, 276-280.	0.3	87
27	Occupational social class and disability retirement among municipal employees – the contribution of health behaviors and working conditions. <i>Scandinavian Journal of Work, Environment and Health</i> , 2011, 37, 464-472.	3.4	87
28	Social participation, trust and self-rated health: A study among ageing people in urban, semi-urban and rural settings. <i>Health and Place</i> , 2008, 14, 243-253.	3.3	79
29	Understanding Income Inequalities in Health among Men and Women in Britain and Finland. <i>International Journal of Health Services</i> , 2000, 30, 27-47.	2.5	75
30	Risk factors of chronic neck pain: A prospective study among middle-aged employees. <i>European Journal of Pain</i> , 2012, 16, 911-920.	2.8	75
31	Health-related behaviours and sickness absence from work. <i>Occupational and Environmental Medicine</i> , 2009, 66, 840-847.	2.8	74
32	Workplace bullying and subsequent sleep problems – the Helsinki Health Study. <i>Scandinavian Journal of Work, Environment and Health</i> , 2011, 37, 204-212.	3.4	73
33	Influence of parental education, childhood adversities, and current living conditions on daily smoking in early adulthood. <i>European Journal of Public Health</i> , 2006, 16, 617-626.	0.3	71
34	Physical and psychosocial working conditions as explanations for occupational class inequalities in self-rated health. <i>European Journal of Public Health</i> , 2009, 19, 458-463.	0.3	70
35	Job control, job demands, or social class? The impact of working conditions on the relation between social class and health. <i>Journal of Epidemiology and Community Health</i> , 2006, 60, 50-54.	3.7	69
36	Self-Rated Health as a Predictor of Disability Retirement – The Contribution of Ill-Health and Working Conditions. <i>PLoS ONE</i> , 2011, 6, e25004.	2.5	69

#	ARTICLE	IF	CITATIONS
37	Sleep and Sickness Absence: A Nationally Representative Register-Based Follow-Up Study. <i>Sleep</i> , 2014, 37, 1413-1425.	1.1	68
38	Smoking and SF-36 health functioning. <i>Preventive Medicine</i> , 2006, 42, 206-209.	3.4	65
39	Associations of psychosocial working conditions with self-rated general health and mental health among municipal employees. <i>International Archives of Occupational and Environmental Health</i> , 2006, 79, 205-212.	2.3	65
40	The impact of physical activity on sickness absence. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2010, 20, 191-199.	2.9	64
41	Association of sleep duration with weight and weight gain: a prospective follow-up study. <i>Journal of Sleep Research</i> , 2011, 20, 298-302.	3.2	63
42	Trends in socioeconomic differences in Finnish perinatal health 1991-2006. <i>Journal of Epidemiology and Community Health</i> , 2009, 63, 420-425.	3.7	62
43	Determinants of health in early adulthood: what is the role of parental education, childhood adversities and own education?. <i>European Journal of Public Health</i> , 2006, 16, 305-314.	0.3	61
44	Subjective social status and health in young people. <i>Sociology of Health and Illness</i> , 2011, 33, 372-383.	2.1	61
45	Socio-demographic and behavioral variation in barriers to leisure-time physical activity. <i>Scandinavian Journal of Public Health</i> , 2016, 44, 62-69.	2.3	60
46	Work-family conflicts and drinking behaviours among employed women and men. <i>Drug and Alcohol Dependence</i> , 2006, 83, 49-56.	3.2	57
47	Trends and educational disparities in functional capacity among people aged 65-84 years. <i>International Journal of Epidemiology</i> , 2006, 35, 1255-1261.	1.9	57
48	Workplace bullying and common mental disorders: a follow-up study. <i>Journal of Epidemiology and Community Health</i> , 2012, 66, e3-e3.	3.7	56
49	Socioeconomic status as a cause and consequence of psychosomatic symptoms from adolescence to adulthood. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2005, 40, 580-587.	3.1	55
50	The association of income with fresh fruit and vegetable consumption at different levels of education. <i>European Journal of Clinical Nutrition</i> , 2010, 64, 324-327.	2.9	55
51	Health, lifestyle, family and school factors in adolescence: predicting adult educational level. <i>Educational Research</i> , 2006, 48, 41-53.	1.8	54
52	Trends of socioeconomic differences in daily vegetable consumption, 1979-2002. <i>European Journal of Clinical Nutrition</i> , 2008, 62, 823-833.	2.9	54
53	Factors associated with health survey response among young employees: a register-based study using online, mailed and telephone interview data collection methods. <i>BMC Public Health</i> , 2020, 20, 184.	2.9	53
54	Drinking habits and sickness absence: The contribution of working conditions. <i>Scandinavian Journal of Public Health</i> , 2009, 37, 846-854.	2.3	52

#	ARTICLE	IF	CITATIONS
55	Influence of material and behavioural factors on occupational class differences in health. <i>Journal of Epidemiology and Community Health</i> , 2005, 59, 163-169.	3.7	49
56	Work-family conflicts and self-rated health among middle-aged municipal employees in Finland. <i>International Journal of Behavioral Medicine</i> , 2006, 13, 276-285.	1.7	49
57	The associations of household wealth and income with self-rated health – A study on economic advantage in middle-aged Finnish men and women. <i>Social Science and Medicine</i> , 2010, 71, 1018-1026.	3.8	49
58	Sleep problems and major weight gain: a follow-up study. <i>International Journal of Obesity</i> , 2011, 35, 109-114.	3.4	49
59	Sleep Problems and Disability Retirement: A Register-based Follow-up Study. <i>American Journal of Epidemiology</i> , 2011, 173, 871-881.	3.4	49
60	Associations of childhood circumstances with physical and mental functioning in adulthood. <i>Social Science and Medicine</i> , 2006, 62, 1831-1839.	3.8	48
61	Pain and disability retirement: A prospective cohort study. <i>Pain</i> , 2012, 153, 526-531.	4.2	47
62	Associations of functional ability with health-related behavior and body mass index among the elderly. <i>Archives of Gerontology and Geriatrics</i> , 2005, 40, 185-199.	3.0	46
63	Explaining occupational class differences in sickness absence: results from middle-aged municipal employees. <i>Journal of Epidemiology and Community Health</i> , 2010, 64, 802-807.	3.7	46
64	Sex inequalities in physical and mental functioning of British, Finnish, and Japanese civil servants: Role of job demand, control and work hours. <i>Social Science and Medicine</i> , 2011, 73, 595-603.	3.8	46
65	Associations of SF-36 mental health functioning and work and family related factors with intentions to retire early among employees. <i>Occupational and Environmental Medicine</i> , 2006, 63, 558-563.	2.8	45
66	Changes in occupational class differences in leisure-time physical activity: a follow-up study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2011, 8, 14.	4.6	44
67	A 26-Year Follow-Up Study of Heavy Drinking Trajectories from Adolescence to Mid-Adulthood and Adult Disadvantage. <i>Alcohol and Alcoholism</i> , 2013, 48, 452-457.	1.6	43
68	Leisure-Time Physical Activity and All-Cause Mortality. <i>PLoS ONE</i> , 2014, 9, e101548.	2.5	43
69	Home ownership and mortality: a register-based follow-up study of 300 000 Finns. <i>Journal of Epidemiology and Community Health</i> , 2008, 62, 293-297.	3.7	42
70	The contribution of musculoskeletal disorders and physical workload to socioeconomic inequalities in health. <i>European Journal of Public Health</i> , 2007, 17, 145-150.	0.3	41
71	Smoking Status and Relative Weight by Educational Level in Finland, 1978–1995. <i>Preventive Medicine</i> , 1998, 27, 431-437.	3.4	40
72	Economic difficulties and common mental disorders among Finnish and British white-collar employees: the contribution of social and behavioural factors. <i>Journal of Epidemiology and Community Health</i> , 2009, 63, 439-446.	3.7	39

#	ARTICLE	IF	CITATIONS
73	Insomnia symptoms and mortality: a register-linked study among women and men from Finland, Norway and Lithuania. <i>Journal of Sleep Research</i> , 2016, 25, 96-103.	3.2	38
74	Sleep problems and sickness absence among middle-aged employees. <i>Scandinavian Journal of Work, Environment and Health</i> , 2012, 38, 47-55.	3.4	38
75	The impact of physical activity on physical health functioning – A prospective study among middle-aged employees. <i>Preventive Medicine</i> , 2010, 50, 246-250.	3.4	37
76	Drinking habits and disability retirement. <i>Addiction</i> , 2012, 107, 2128-2136.	3.3	37
77	Household economic resources, labour-market advantage and health problems – A study on causal relationships using prospective register data. <i>Social Science and Medicine</i> , 2012, 75, 1303-1310.	3.8	37
78	Occupational class differences in diagnostic-specific sickness absence: a register-based study in the Finnish population, 2005–2014. <i>BMC Public Health</i> , 2017, 17, 670.	2.9	37
79	Relative weight and disability retirement: a prospective cohort study. <i>Scandinavian Journal of Work, Environment and Health</i> , 2013, 39, 259-267.	3.4	37
80	The contribution of lone parenthood and economic difficulties to smoking. <i>Social Science and Medicine</i> , 2005, 61, 211-216.	3.8	36
81	Explaining educational differences in leisure-time physical activity in Europe: the contribution of work-related factors. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2012, 22, 439-447.	2.9	36
82	Joint associations of sleep duration and insomnia symptoms with subsequent sickness absence: The Helsinki Health Study. <i>Scandinavian Journal of Public Health</i> , 2013, 41, 516-523.	2.3	36
83	Common mental disorders and cause-specific disability retirement. <i>Occupational and Environmental Medicine</i> , 2015, 72, 181-187.	2.8	36
84	Long-term exposure to heavy physical work, disability pension due to musculoskeletal disorders and all-cause mortality: 20-year follow-up – introducing Helsinki Health Study job exposure matrix. <i>International Archives of Occupational and Environmental Health</i> , 2019, 92, 337-345.	2.3	36
85	Smoking and alcohol consumption among the elderly: trends and associations, 1985–2001. <i>Preventive Medicine</i> , 2004, 39, 413-418.	3.4	35
86	Social class differences in health behaviours among employees from Britain, Finland and Japan: The influence of psychosocial factors. <i>Health and Place</i> , 2010, 16, 61-70.	3.3	35
