#	ARTICLE	IF	CITATIONS
1	Violence-related distress and lung function in two longitudinal studies of youth. <i>European Respiratory Journal</i> , 2022, 59, 2102329.	3.1	9
2	What Are the Health Consequences of Upward Mobility?. <i>Annual Review of Psychology</i> , 2022, 73, 599-628.	9.9	32
3	Prospective associations between neighborhood violence and monocyte pro-inflammatory transcriptional activity in children. <i>Brain, Behavior, and Immunity</i> , 2022, 100, 1-7.	2.0	6
4	Inflammatory markers, brain-derived neurotrophic factor, and the symptomatic course of adolescent bipolar disorder: A prospective repeated-measures study. <i>Brain, Behavior, and Immunity</i> , 2022, 100, 278-286.	2.0	12
5	The intersection of race and socioeconomic status is associated with inflammation patterns during pregnancy and adverse pregnancy outcomes. <i>American Journal of Reproductive Immunology</i> , 2022, 87, .	1.2	12
6	Complaints about excessive use of police force in women's neighborhoods and subsequent perinatal and cardiovascular health. <i>Science Advances</i> , 2022, 8, eabl5417.	4.7	15
7	Symptom burden profiles in men with advanced prostate cancer undergoing androgen deprivation therapy. <i>Journal of Behavioral Medicine</i> , 2022, , 1.	1.1	0
8	Discrimination and Inflammation in Adolescents of Color. <i>Biological Psychiatry Global Open Science</i> , 2022, , .	1.0	1
9	Harshness and unpredictability: Childhood environmental links with immune and asthma outcomes. <i>Development and Psychopathology</i> , 2022, 34, 587-596.	1.4	3
10	Psychological stress during childhood and adolescence and its association with inflammation across the lifespan: A critical review and meta-analysis.. <i>Psychological Bulletin</i> , 2022, 148, 27-66.	5.5	30
11	Childhood poverty, immune cell aging, and African Americans' insulin resistance: A prospective study. <i>Child Development</i> , 2022, 93, 1616-1624.	1.7	5
12	Markers of fungal translocation are elevated during post-acute sequelae of SARS-CoV-2 and induce NF- κ B signaling. <i>JCI Insight</i> , 2022, 7, .	2.3	23
13	Lifetime Psychosocial Stress Exposure Associated with Hypertensive Disorders of Pregnancy. <i>American Journal of Perinatology</i> , 2021, 38, 1412-1419.	0.6	13
14	Temporal Links Between Self-Reported Sleep and Antibody Responses to the Influenza Vaccine. <i>International Journal of Behavioral Medicine</i> , 2021, 28, 151-158.	0.8	49
15	Life stress and cortisol reactivity: An exploratory analysis of the effects of stress exposure across life on HPA-axis functioning. <i>Development and Psychopathology</i> , 2021, 33, 301-312.	1.4	50
16	Race, socioeconomic status, and low-grade inflammatory biomarkers across the lifecourse: A pooled analysis of seven studies. <i>Psychoneuroendocrinology</i> , 2021, 123, 104917.	1.3	26
17	Association of Inflammatory Activity With Larger Neural Responses to Threat and Reward Among Children Living in Poverty. <i>American Journal of Psychiatry</i> , 2021, 178, 313-320.	4.0	42
18	Maternal Depressive Symptoms, Lung Function, and Severe Asthma Exacerbations in Puerto Rican Children. <i>Journal of Allergy and Clinical Immunology: in Practice</i> , 2021, 9, 1319-1326.e3.	2.0	5

#	ARTICLE	IF	CITATIONS
19	Maltreatment exposure across childhood and low-grade inflammation: Considerations of exposure type, timing, and sex differences. <i>Developmental Psychobiology</i> , 2021, 63, 529-537.	0.9	18
20	Early and current life adversity: Past and present influences on maternal diurnal cortisol rhythms during pregnancy. <i>Developmental Psychobiology</i> , 2021, 63, 305-319.	0.9	22
21	The impact of levels of particulate matter with an aerodynamic diameter smaller than 2.5 μm on the nasal microbiota in chronic rhinosinusitis and healthy individuals. <i>Annals of Allergy, Asthma and Immunology</i> , 2021, 126, 195-197.	0.5	13
22	Family-Centered Prevention Effects on the Association Between Racial Discrimination and Mental Health in Black Adolescents. <i>JAMA Network Open</i> , 2021, 4, e211964.	2.8	14
23	Formulating a Meaningful and Comprehensive Placental Phenotypic Classification. <i>Pediatric and Developmental Pathology</i> , 2021, 24, 337-350.	0.5	21
24	Goal-striving tendencies moderate the relationship between reward-related brain function and peripheral inflammation. <i>Brain, Behavior, and Immunity</i> , 2021, 94, 60-70.	2.0	14
25	The human gut microbiome and health inequities. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2021, 118, .	3.3	82
26	Effects of web-based cognitive behavioral stress management and health promotion interventions on neuroendocrine and inflammatory markers in men with advanced prostate cancer: A randomized controlled trial. <i>Brain, Behavior, and Immunity</i> , 2021, 95, 168-177.	2.0	18
27	Association of Wealth With Longevity in US Adults at Midlife. <i>JAMA Health Forum</i> , 2021, 2, e211652.	1.0	9
28	Resting-State Functional Connectivity of the Central Executive Network Moderates the Relationship Between Neighborhood Violence and Proinflammatory Phenotype in Children. <i>Biological Psychiatry</i> , 2021, 90, 165-172.	0.7	11
29	Disproportionate School Punishment and Significant Life Outcomes: A Prospective Analysis of Black Youths. <i>Psychological Science</i> , 2021, 32, 1375-1390.	1.8	8
30	Risky family climates presage increased cellular aging in young adulthood. <i>Psychoneuroendocrinology</i> , 2021, 130, 105256.	1.3	7
31	Society to cell: How child poverty gets "Under the Skin" to influence child development and lifelong health. <i>Developmental Review</i> , 2021, 61, 100983.	2.6	14
32	Using principal component analysis to examine associations of early pregnancy inflammatory biomarker profiles and adverse birth outcomes. <i>American Journal of Reproductive Immunology</i> , 2021, 86, e13497.	1.2	13
33	Chronic villitis: Refining the risk ratio of recurrence using a large placental pathology sample. <i>Placenta</i> , 2021, 112, 135-140.	0.7	10
34	Childhood Violence Exposure, Inflammation, and Cardiometabolic Health. <i>Current Topics in Behavioral Neurosciences</i> , 2021, , 439-459.	0.8	3
35	Subcortical structural variations associated with low socioeconomic status in adolescents. <i>Human Brain Mapping</i> , 2020, 41, 162-171.	1.9	30
36	A family-centered prevention ameliorates the associations of low self-control during childhood with employment income and poverty status in young African American adults. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2020, 61, 425-435.	3.1	6

#	ARTICLE	IF	CITATIONS
37	Exposure to Violence, Psychosocial Stress, and Asthma. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2020, 201, 917-922.	2.5	46
38	Reward Responsiveness and Ruminative Styles Interact to Predict Inflammation and Mood Symptomatology. <i>Behavior Therapy</i> , 2020, 51, 829-842.	1.3	21
39	Youth Who Achieve Upward Socioeconomic Mobility Display Lower Psychological Distress But Higher Metabolic Syndrome Rates as Adults: Prospective Evidence From Add Health and MIDUS. <i>Journal of the American Heart Association</i> , 2020, 9, e015698.	1.6	21
40	Community violence and cellular and cytokine indicators of inflammation in adolescents. <i>Psychoneuroendocrinology</i> , 2020, 115, 104628.	1.3	24
41	Maternal Glucocorticoid Metabolism Across Pregnancy: A Potential Mechanism Underlying Fetal Glucocorticoid Exposure. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2020, 105, e782-e790.	1.8	13
42	Good Relationships With Parents During Childhood as Buffers of the Association Between Childhood Disadvantage and Adult Susceptibility to the Common Cold. <i>Psychosomatic Medicine</i> , 2020, 82, 538-547.	1.3	6
43	Outward subcortical curvature associated with sub-clinical depression symptoms in adolescents. <i>NeuroImage: Clinical</i> , 2020, 25, 102187.	1.4	7
44	Evidence for skin-deep resilience using a co-twin control design: Effects on low-grade inflammation in a longitudinal study of youth. <i>Brain, Behavior, and Immunity</i> , 2020, 88, 661-667.	2.0	19
45	Persistence of skin-deep resilience in African American adults.. <i>Health Psychology</i> , 2020, 39, 921-926.	1.3	32
46	Mechanistic Understanding of Socioeconomic Disparities in Cardiovascular Disease. <i>Journal of the American College of Cardiology</i> , 2019, 73, 3256-3258.	1.2	9
47	Exposure to violence and low family income are associated with heightened amygdala responsiveness to threat among adolescents. <i>Developmental Cognitive Neuroscience</i> , 2019, 40, 100709.	1.9	29
48	Neighborhood Social Conditions, Family Relationships, and Childhood Asthma. <i>Pediatrics</i> , 2019, 144, .	1.0	17
49	Early Term Delivery and Breastfeeding Outcomes. <i>Maternal and Child Health Journal</i> , 2019, 23, 1339-1347.	0.7	2
50	The Protective Effects of Supportive Parenting on the Relationship Between Adolescent Poverty and Resting-State Functional Brain Connectivity During Adulthood. <i>Psychological Science</i> , 2019, 30, 1040-1049.	1.8	54
51	Higher Peripheral Inflammatory Signaling Associated With Lower Resting-State Functional Brain Connectivity in Emotion Regulation and Central Executive Networks. <i>Biological Psychiatry</i> , 2019, 86, 153-162.	0.7	71
52	Academic disparities and health: How gender-based disparities in schools relate to boys' and girls' health. <i>Social Science and Medicine</i> , 2019, 228, 126-134.	1.8	4
53	The Dual Impact of Early and Concurrent Life Stress on Adults' Diurnal Cortisol Patterns: A Prospective Study. <i>Psychological Science</i> , 2019, 30, 739-747.	1.8	52
54	Students of color show health advantages when they attend schools that emphasize the value of diversity. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2019, 116, 6013-6018.	3.3	20

#	ARTICLE	IF	CITATIONS
55	The costs of high self-control in Black and Latino youth with asthma: Divergence of mental health and inflammatory profiles. <i>Brain, Behavior, and Immunity</i> , 2019, 80, 120-128.	2.0	12
56	Preventive parenting intervention during childhood and young black adults'™ unhealthful behaviors: a randomized controlled trial. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2019, 60, 63-71.	3.1	20
57	A Family Focused Intervention Influences Hippocampal Prefrontal Connectivity Through Gains in Self-Regulation. <i>Child Development</i> , 2019, 90, 1389-1401.	1.7	24
58	Exposure to Parental Depression in Adolescence and Risk for Metabolic Syndrome in Adulthood. <i>Child Development</i> , 2019, 90, 1272-1285.	1.7	6
59	Protective factors for youth confronting economic hardship: Current challenges and future avenues in resilience research.. <i>American Psychologist</i> , 2019, 74, 641-652.	3.8	51
60	Familism and inflammatory processes in African American, Latino, and White youth.. <i>Health Psychology</i> , 2019, 38, 306-317.	1.3	14
61	Midlife self-reported social support as a buffer against premature mortality risks associated with childhood abuse. <i>Nature Human Behaviour</i> , 2018, 2, 261-268.	6.2	17
62	How Socioeconomic Disadvantages Get Under the Skin and into the Brain to Influence Health Development Across the Lifespan. , 2018, , 463-497.		47
63	College completion predicts lower depression but higher metabolic syndrome among disadvantaged minorities in young adulthood. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2018, 115, 109-114.	3.3	94
64	Divergent transcriptional profiles in pediatric asthma patients of low and high socioeconomic status. <i>Pediatric Pulmonology</i> , 2018, 53, 710-719.	1.0	28
65	Future Directions in the Study of Early-Life Stress and Physical and Emotional Health: Implications of the Neuroimmune Network Hypothesis. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2018, 47, 142-156.	2.2	62
66	Functional connectivity in central executive network protects youth against cardiometabolic risks linked with neighborhood violence. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2018, 115, 12063-12068.	3.3	53
67	Substance Use and Obesity Trajectories in African Americans Entering Adulthood. <i>American Journal of Preventive Medicine</i> , 2018, 55, 856-863.	1.6	5
68	Early-life socioeconomic disadvantage, not current, predicts accelerated epigenetic aging of monocytes. <i>Psychoneuroendocrinology</i> , 2018, 97, 131-134.	1.3	74
69	Study design and protocol for a culturally adapted cognitive behavioral stress and self-management intervention for localized prostate cancer: The Encuentros de Salud study. <i>Contemporary Clinical Trials</i> , 2018, 71, 173-180.	0.8	13
70	Selected psychological comorbidities in coronary heart disease: Challenges and grand opportunities.. <i>American Psychologist</i> , 2018, 73, 1019-1030.	3.8	40
71	Racial discrimination, body mass index, and insulin resistance: A longitudinal analysis.. <i>Health Psychology</i> , 2018, 37, 1107-1114.	1.3	26
72	Close relationship qualities and maternal peripheral inflammation during pregnancy. <i>Psychoneuroendocrinology</i> , 2017, 77, 252-260.	1.3	16

#	ARTICLE	IF	CITATIONS
73	Parents' childhood socioeconomic circumstances are associated with their children's asthma outcomes. <i>Journal of Allergy and Clinical Immunology</i> , 2017, 140, 828-835.e2.	1.5	37
74	Smoking in young adulthood among African Americans: Interconnected effects of supportive parenting in early adolescence, proinflammatory epitype, and young adult stress. <i>Development and Psychopathology</i> , 2017, 29, 957-969.	1.4	7
75	Family-centered prevention ameliorates the association between adverse childhood experiences and prediabetes status in young black adults. <i>Preventive Medicine</i> , 2017, 100, 117-122.	1.6	26
76	Maternal socioeconomic disadvantage is associated with transcriptional indications of greater immune activation and slower tissue maturation in placental biopsies and newborn cord blood. <i>Brain, Behavior, and Immunity</i> , 2017, 64, 276-284.	2.0	48
77	Mothers' childhood hardship forecasts adverse pregnancy outcomes: Role of inflammatory, lifestyle, and psychosocial pathways. <i>Brain, Behavior, and Immunity</i> , 2017, 65, 11-19.	2.0	45
78	Protective Prevention Effects on the Association of Poverty With Brain Development. <i>JAMA Pediatrics</i> , 2017, 171, 46.	3.3	106
79	Early-Life Socioeconomic Disadvantage and Metabolic Health Disparities. <i>Psychosomatic Medicine</i> , 2017, 79, 514-523.	1.3	34
80	Maternal Income during Pregnancy is Associated with Chronic Placental Inflammation at Birth. <i>American Journal of Perinatology</i> , 2017, 34, 1003-1010.	0.6	21
81	Difficult Family Relationships, Residential Greenspace, and Childhood Asthma. <i>Pediatrics</i> , 2017, 139, .	1.0	29
82	Metabolic Syndrome Risks Following the Great Recession in Rural Black Young Adults. <i>Journal of the American Heart Association</i> , 2017, 6, .	1.6	8
83	Childhood abuse and neglect and physical health at midlife: Prospective, longitudinal evidence. <i>Development and Psychopathology</i> , 2017, 29, 1935-1946.	1.4	26
84	Threat vigilance and socioeconomic disparities in metabolic health. <i>Development and Psychopathology</i> , 2017, 29, 1721-1733.	1.4	5
85	Frontal brain asymmetry, childhood maltreatment, and low-grade inflammation at midlife. <i>Psychoneuroendocrinology</i> , 2017, 75, 152-163.	1.3	28
86	Childhood close family relationships and health.. <i>American Psychologist</i> , 2017, 72, 555-566.	3.8	95
87	Lower Neighborhood Socioeconomic Status Associated with Reduced Diversity of the Colonic Microbiota in Healthy Adults. <i>PLoS ONE</i> , 2016, 11, e0148952.	1.1	121
88	Resilience in Adolescence, Health, and Psychosocial Outcomes. <i>Pediatrics</i> , 2016, 138, .	1.0	57
89	Testing the biological embedding hypothesis: Is early life adversity associated with a later proinflammatory phenotype?. <i>Development and Psychopathology</i> , 2016, 28, 1273-1283.	1.4	69
90	Post-traumatic Stress Disorder, Bronchodilator Response, and Incident Asthma in World Trade Center Rescue and Recovery Workers. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2016, 194, 1383-1391.	2.5	35

#	ARTICLE	IF	CITATIONS
91	The Great Recession and health risks in African American youth. <i>Brain, Behavior, and Immunity</i> , 2016, 53, 234-241.	2.0	43
92	Early life socioeconomic status and metabolic outcomes in adolescents: The role of implicit affect about one's family. <i>Health Psychology</i> , 2016, 35, 387-396.	1.3	9
93	Patterns of peripheral cytokine expression during pregnancy in two cohorts and associations with inflammatory markers in cord blood. <i>American Journal of Reproductive Immunology</i> , 2016, 76, 406-414.	1.2	48
94	Association of Reports of Childhood Abuse and All-Cause Mortality Rates in Women. <i>JAMA Psychiatry</i> , 2016, 73, 920.	6.0	102
95	Dimensions of Socioeconomic Status and Childhood Asthma Outcomes: Evidence for Distinct Behavioral and Biological Associations. <i>Psychosomatic Medicine</i> , 2016, 78, 1043-1052.	1.3	23
96	Genome-Wide Profiling of RNA from Dried Blood Spots: Convergence with Bioinformatic Results Derived from Whole Venous Blood and Peripheral Blood Mononuclear Cells. <i>Biodemography and Social Biology</i> , 2016, 62, 182-197.	0.4	42
97	Child maltreatment and pediatric asthma: a review of the literature. <i>Asthma Research and Practice</i> , 2016, 2, 7.	1.2	9
98	Family-centered prevention ameliorates the longitudinal association between risky family processes and epigenetic aging. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2016, 57, 566-574.	3.1	143
99	Supportive Family Environments Ameliorate the Link Between Racial Discrimination and Epigenetic Aging. <i>Psychological Science</i> , 2016, 27, 530-541.	1.8	147
100	Depression, Asthma, and Bronchodilator Response in a Nationwide Study of US Adults. <i>Journal of Allergy and Clinical Immunology: in Practice</i> , 2016, 4, 68-73.e1.	2.0	43
101	Early-Life Adversity and Physical and Emotional Health Across the Lifespan: A Neuroimmune Network Hypothesis. <i>Biological Psychiatry</i> , 2016, 80, 23-32.	0.7	470
102	Viral challenge reveals further evidence of skin-deep resilience in African Americans from disadvantaged backgrounds. <i>Health Psychology</i> , 2016, 35, 1225-1234.	1.3	48
103	Harsh parent-child conflict is associated with decreased anti-inflammatory gene expression and increased symptom severity in children with asthma. <i>Development and Psychopathology</i> , 2015, 27, 1547-1554.	1.4	19
104	Discordance of DNA Methylation Variance Between two Accessible Human Tissues. <i>Scientific Reports</i> , 2015, 5, 8257.	1.6	56
105	Exposure to gun violence and asthma among children in Puerto Rico. <i>Respiratory Medicine</i> , 2015, 109, 975-981.	1.3	40
106	Neighborhood Poverty, College Attendance, and Diverging Profiles of Substance Use and Allostatic Load in Rural African American Youth. <i>Clinical Psychological Science</i> , 2015, 3, 675-685.	2.4	70
107	Self-control forecasts better psychosocial outcomes but faster epigenetic aging in low-SES youth. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2015, 112, 10325-10330.	3.3	204
108	Family Functioning, Eosinophil Activity, and Symptoms in Children With Asthma. <i>Journal of Pediatric Psychology</i> , 2015, 40, 781-789.	1.1	7
