#	ARTICLE	IF	CITATIONS
1	Extent of Follow-Up on Abnormal Cancer Screening in Multiple California Public Hospital Systems: A Retrospective Review. <i>Journal of General Internal Medicine</i> , 2023, 38, 21-29.	2.6	4
2	Type 2 Diabetes as a Socioecological Disease: Can Youth Poets of Color Become Messengers of Truth and Catalysts for Change?. <i>Health Promotion Practice</i> , 2022, 23, 583-593.	1.6	3
3	“We need to bring them out from the shadows:” A qualitative study of safety net physician leaders’ perspectives on caregivers. <i>Patient Education and Counseling</i> , 2022, 105, 1663-1670.	2.2	1
4	Lessons Learned From a New Reverse-Integration Model to Improve Primary Care Screening in Community Mental Health Settings. <i>Psychiatric Services</i> , 2022, 73, 942-945.	2.0	7
5	The National Clinical Care Commission Report: Improving Federal Programs That Impact Diabetes Prevention and Care. <i>Annals of Internal Medicine</i> , 2022, 175, 594-597.	3.9	3
6	Pandemic-related financial hardship and disparities in sugar-sweetened beverage consumption and purchasing among San Francisco Bay Area residents during COVID-19. <i>Preventive Medicine Reports</i> , 2022, 26, 101759.	1.8	5
7	Developing and Testing Automatic Models of Patient Communicative Health Literacy Using Linguistic Features: Findings from the ECLIPPSE study. <i>Health Communication</i> , 2021, 36, 1018-1028.	3.1	14
8	Employing computational linguistics techniques to identify limited patient health literacy: Findings from the ECLIPPSE study. <i>Health Services Research</i> , 2021, 56, 132-144.	2.0	10
9	Challenges and solutions to employing natural language processing and machine learning to measure patients’ health literacy and physician writing complexity: The ECLIPPSE study. <i>Journal of Biomedical Informatics</i> , 2021, 113, 103658.	4.3	5
10	Accuracy of Primary Care Medical Home Designation in a Specialty Mental Health Clinic. <i>Psychiatric Quarterly</i> , 2021, 92, 601-607.	2.1	0
11	Validity of a Computational Linguistics-Derived Automated Health Literacy Measure Across Race/Ethnicity: Findings from The ECLIPPSE Project. <i>Journal of Health Care for the Poor and Underserved</i> , 2021, 32, 347-365.	0.8	1
12	Schillinger and Ramirez Respond. <i>American Journal of Public Health</i> , 2021, 111, e4-e5.	2.7	0
13	Comparison of Fruit and Vegetable Intake Among Urban Low-Income US Adults Receiving a Produce Voucher in 2 Cities. <i>JAMA Network Open</i> , 2021, 4, e211757.	5.9	6
14	Smoking cessation treatment for individuals with comorbid diabetes and serious mental illness in an integrated health care delivery system. <i>Addictive Behaviors</i> , 2021, 114, 106697.	3.0	3
15	To Adapt or Not to Adapt: The Association between Implementation Fidelity and the Effectiveness of Diabetes Self-Management Education. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 4095.	2.6	0
16	Social Determinants, Health Literacy, and Disparities: Intersections and Controversies. <i>Health Literacy Research and Practice</i> , 2021, 5, e234-e243.	0.9	23
17	Descriptive examination of secure messaging in a longitudinal cohort of diabetes patients in the ECLIPPSE study. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2021, 28, 1252-1258.	4.4	3
18	Seeing “The Bigger Picture:” Impact of an Arts-Focused Type 2 Diabetes Education Program in High Schools. <i>Journal of Health Communication</i> , 2021, 26, 696-707.	2.4	4

#	ARTICLE	IF	CITATIONS
19	Precision communication: Physicians's linguistic adaptation to patients' health literacy. <i>Science Advances</i> , 2021, 7, eabj2836.	10.3	16
20	Comorbid Diabetes and Severe Mental Illness: Outcomes in an Integrated Health Care Delivery System. <i>Journal of General Internal Medicine</i> , 2020, 35, 160-166.	2.6	10
21	Predicting the readability of physicians' secure messages to improve health communication using novel linguistic features: Findings from the ECLIPPSE study. <i>Journal of Communication in Healthcare</i> , 2020, 13, 344-356.	1.5	11
22	Ethnographic investigation of patient-provider communication among African American men newly diagnosed with prostate cancer: a study protocol. <i>BMJ Open</i> , 2020, 10, e035032.	1.9	2
23	Evaluating values-based message frames for type 2 diabetes prevention among Facebook audiences: Divergent values or common ground?. <i>Patient Education and Counseling</i> , 2020, 103, 2420-2429.	2.2	5
24	Retailer perspectives on sugar-sweetened beverage taxes in the California Bay Area. <i>Preventive Medicine Reports</i> , 2020, 19, 101129.	1.8	6
25	Design of a cluster-randomized trial of the effectiveness and cost-effectiveness of metformin on prevention of type 2 diabetes among prediabetic Mexican adults (the PRUDENTE initiative of Mexico) <i>Tj ETQq1 1 0.784314 rgBT /Over</i>	1.8	10
26	From "Infodemics" to Health Promotion: A Novel Framework for the Role of Social Media in Public Health. <i>American Journal of Public Health</i> , 2020, 110, 1393-1396.	2.7	103
27	"It Gave Me Hope" Experiences of Diverse Safety Net Patients in a Group Acupuncture Intervention for Painful Diabetic Neuropathy. <i>Health Equity</i> , 2020, 4, 225-231.	1.9	5
28	Interventions to Improve Patient Comprehension in Informed Consent for Medical and Surgical Procedures: An Updated Systematic Review. <i>Medical Decision Making</i> , 2020, 40, 119-143.	2.4	113
29	The Intersections Between Social Determinants of Health, Health Literacy, and Health Disparities. <i>Studies in Health Technology and Informatics</i> , 2020, 269, 22-41.	0.3	46
30	A Direction for the Next Decade of NIH-Funded Health Literacy Research. <i>Health Literacy Research and Practice</i> , 2020, 4, e208-e211.	0.9	0
31	Secure Messaging with Physicians by Proxies for Patients with Diabetes: Findings from the ECLIPPSE Study. <i>Journal of General Internal Medicine</i> , 2019, 34, 2490-2496.	2.6	16
32	Interventions to Improve Blood Pressure Control Among Socioeconomically Disadvantaged Patients With CKD: Kidney Awareness Registry and Education Pilot Randomized Controlled Trial. <i>Kidney Medicine</i> , 2019, 1, 242-252.	2.0	10
33	State Preemption to Prevent Local Taxation of Sugar-Sweetened Beverages. <i>JAMA Internal Medicine</i> , 2019, 179, 291.	5.1	24
34	A Randomized Clinical Trial of Group Acupuncture for Painful Diabetic Neuropathy Among Diverse Safety Net Patients. <i>Pain Medicine</i> , 2019, 20, 2292-2302.	1.9	22
35	Responding to Evolving Abortion Regulations "The Critical Role of Primary Care. <i>New England Journal of Medicine</i> , 2019, 380, e30.	27.0	10
36	A Randomized Trial to Train Vulnerable Primary Care Patients to Use a Patient Portal. <i>Journal of the American Board of Family Medicine</i> , 2019, 32, 248-258.	1.5	42

#	ARTICLE	IF	CITATIONS
37	Using natural language processing and machine learning to classify health literacy from secure messages: The ECLIPSE study. PLoS ONE, 2019, 14, e0212488.	2.5	23
38	Sugar-Sweetened Beverage Consumption 3 Years After the Berkeley, California, Sugar-Sweetened Beverage Tax. American Journal of Public Health, 2019, 109, 637-639.	2.7	121
39	Opinions of Primary Care Clinicians and Psychiatrists on Monitoring the Metabolic Effects of Antipsychotics. Journal of the American Board of Family Medicine, 2019, 32, 418-423.	1.5	12
40	Effective communication in the era of precision medicine: A pilot intervention with low health literacy patients to improve genetic counseling communication. European Journal of Medical Genetics, 2019, 62, 357-367.	1.3	38
41	Redesigning primary care in the safety net: A qualitative analysis of team-based care implementation. Healthcare, 2019, 7, 22-29.	1.3	17
42	Perspectives of English, Chinese, and Spanish-Speaking Safety-Net Patients on Clinician Computer Use: Qualitative Analysis. Journal of Medical Internet Research, 2019, 21, e13131.	4.3	3
43	Messengers of Truth and Health—Young Artists of Color Raise Their Voices to Prevent Diabetes. JAMA - Journal of the American Medical Association, 2018, 319, 1076.	7.4	22
44	Impact of a Primary Care CKD Registry in a US Public Safety-Net Health Care Delivery System: A Pragmatic Randomized Trial. American Journal of Kidney Diseases, 2018, 72, 168-177.	1.9	29
45	Eating with others and meal location are differentially associated with nutrient intake by sex: The Diabetes Study of Northern California (DISTANCE). Appetite, 2018, 127, 203-213.	3.7	10
46	Diabetes Screening among Antipsychotic-Treated Adults with Severe Mental Illness in an Integrated Delivery System: A Retrospective Cohort Study. Journal of General Internal Medicine, 2018, 33, 79-86.	2.6	17
47	Mammography Among Women With Severe Mental Illness: Exploring Disparities Through a Large Retrospective Cohort Study. Psychiatric Services, 2018, 69, 48-54.	2.0	22
48	Cancer genetic counseling communication with low-income Chinese immigrants. Journal of Community Genetics, 2018, 9, 263-276.	1.2	21
49	The Medi-Cal Incentives to Quit Smoking Project: Impact of Statewide Outreach Through Health Channels. American Journal of Preventive Medicine, 2018, 55, S159-S169.	3.0	18
50	Safety-net institutions in the US grapple with new cholesterol treatment guidelines: a qualitative analysis from the PHoENIX Network. Risk Management and Healthcare Policy, 2018, Volume 11, 99-108.	2.5	1
51	Racial/Ethnic Differences in the Response to Incentives for Quitline Engagement. American Journal of Preventive Medicine, 2018, 55, S186-S195.	3.0	12
52	Engaging Diverse English- and Spanish-Speaking Older Adults in Advance Care Planning. JAMA Internal Medicine, 2018, 178, 1616.	5.1	133
53	Collaborative research and actions on both sides of the US-Mexico border to counteract type 2 diabetes in people of Mexican origin. Globalization and Health, 2018, 14, 84.	4.9	49
54	State of Diabetes Self-Management Education in the European Union Member States and Non-EU Countries: The Diabetes Literacy Project. Journal of Diabetes Research, 2018, 2018, 1-10.	2.3	8

#	ARTICLE	IF	CITATIONS
55	Do Low Income Youth of Color See “The Bigger Picture” When Discussing Type 2 Diabetes: A Qualitative Evaluation of a Public Health Literacy Campaign. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 840.	2.6	20
56	Implementation of patient-centered prescription labeling in a safety-net ambulatory care network. <i>American Journal of Health-System Pharmacy</i> , 2018, 75, 1227-1238.	1.0	11
57	Language-concordant automated telephone queries to assess medication adherence in a diverse population: a cross-sectional analysis of convergent validity with pharmacy claims. <i>BMC Health Services Research</i> , 2018, 18, 254.	2.2	4
58	Association of Rapid Molecular Testing With Duration of Respiratory Isolation for Patients With Possible Tuberculosis in a US Hospital. <i>JAMA Internal Medicine</i> , 2018, 178, 1380.	5.1	22
59	Review of Metformin Use for Type 2 Diabetes Prevention. <i>American Journal of Preventive Medicine</i> , 2018, 55, 565-574.	3.0	48
60	Diabetes and Prediabetes Prevalence by Race and Ethnicity Among People With Severe Mental Illness. <i>Diabetes Care</i> , 2018, 41, e119-e120.	8.6	16
61	Finding Meaning in Medication Reconciliation Using Electronic Health Records: Qualitative Analysis in Safety Net Primary and Specialty Care. <i>JMIR Medical Informatics</i> , 2018, 6, e10167.	2.6	6
62	Engaging Minority Youth in Diabetes Prevention Efforts Through a Participatory, Spoken-Word Social Marketing Campaign. <i>American Journal of Health Promotion</i> , 2017, 31, 336-339.	1.7	26
63	Low Rates of HIV Testing Among Adults With Severe Mental Illness Receiving Care in Community Mental Health Settings. <i>Psychiatric Services</i> , 2017, 68, 443-448.	2.0	19
64	Adherence to Newly Prescribed Diabetes Medications Among Insured Latino and White Patients With Diabetes. <i>JAMA Internal Medicine</i> , 2017, 177, 371.	5.1	66
65	The Living Donor. <i>JAMA - Journal of the American Medical Association</i> , 2017, 317, 1531.	7.4	1
66	Rates of Cervical Cancer Screening Among Women With Severe Mental Illness in the Public Health System. <i>Psychiatric Services</i> , 2017, 68, 839-842.	2.0	21
67	Diabetes Prevalence Among Racial-Ethnic Minority Group Members With Severe Mental Illness Taking Antipsychotics: Double Jeopardy?. <i>Psychiatric Services</i> , 2017, 68, 843-846.	2.0	12
68	Information Mismatch: Cancer Risk Counseling with Diverse Underserved Patients. <i>Journal of Genetic Counseling</i> , 2017, 26, 1090-1104.	1.6	85
69	Computer use, language, and literacy in safety net clinic communication. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2017, 24, 106-112.	4.4	14
70	Understanding the Cost of a New Integrated Care Model to Serve CMHC Patients Who Have Serious Mental Illness. <i>Psychiatric Services</i> , 2017, 68, 990-993.	2.0	8
71	Reducing Cancer and Cancer Disparities: Lessons From a Youth-Generated Diabetes Prevention Campaign. <i>American Journal of Preventive Medicine</i> , 2017, 53, S103-S113.	3.0	30
72	Legal, Practical, and Ethical Considerations for Making Online Patient Portals Accessible for All. <i>American Journal of Public Health</i> , 2017, 107, 1608-1611.	2.7	41

#	ARTICLE	IF	CITATIONS
73	Use of Complementary Health Approaches Among Diverse Primary Care Patients with Type 2 Diabetes and Association with Cardiometabolic Outcomes: From the SF Bay Collaborative Research Network (SF Bay CRN). <i>Journal of the American Board of Family Medicine</i> , 2017, 30, 624-631.	1.5	7
74	Guidelines to Limit Added Sugar Intake. <i>Annals of Internal Medicine</i> , 2017, 167, 220.	3.9	1
75	Meaningful use in the safety net: a rapid ethnography of patient portal implementation at five community health centers in California. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2017, 24, 903-912.	4.4	38
76	Do Sugar-Sweetened Beverages Cause Obesity and Diabetes?. <i>Annals of Internal Medicine</i> , 2017, 167, 72.	3.9	0
77	Multitasking and Silent Electronic Health Record Use in Ambulatory Visits. <i>JAMA Internal Medicine</i> , 2017, 177, 1382.	5.1	11
78	Mobilizing for a war on the home front against sugar-related morbidity and mortality. <i>Israel Journal of Health Policy Research</i> , 2017, 6, 32.	2.6	1
79	Online patient websites for electronic health record access among vulnerable populations: portals to nowhere?. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2017, 24, e47-e54.	4.4	170
80	Nonpsychiatric Outpatient Care for Adults With Serious Mental Illness in California: Who Is Being Left Behind?. <i>Psychiatric Services</i> , 2017, 68, 689-695.	2.0	12
81	The Next Frontier in Communication and the ECLIPPSE Study: Bridging the Linguistic Divide in Secure Messaging. <i>Journal of Diabetes Research</i> , 2017, 2017, 1-9.	2.3	26
82	Depressive symptoms and adherence to cardiometabolic therapies across phases of treatment among adults with diabetes: the Diabetes Study of Northern California (DISTANCE). <i>Patient Preference and Adherence</i> , 2017, Volume 11, 643-652.	1.8	12
83	Identifying Spanish Language Competent Physicians: The Diabetes Study of Northern California (DISTANCE). <i>Ethnicity and Disease</i> , 2016, 26, 537.	2.3	7
84	Financial Strain and Medication Adherence among Diabetes Patients in an Integrated Health Care Delivery System: The Diabetes Study of Northern California (<scp>DISTANCE</scp>). <i>Health Services Research</i> , 2016, 51, 610-624.	2.0	22
85	Communication Barriers and the Clinical Recognition of Diabetic Peripheral Neuropathy in a Diverse Cohort of Adults: The DISTANCE Study. <i>Journal of Health Communication</i> , 2016, 21, 544-553.	2.4	16
86	Science and Public Health on Trial. <i>JAMA - Journal of the American Medical Association</i> , 2016, 316, 1545.	7.4	20
87	Do Sugar-Sweetened Beverages Cause Obesity and Diabetes? Industry and the Manufacture of Scientific Controversy. <i>Annals of Internal Medicine</i> , 2016, 165, 895.	3.9	51
88	Police-Recorded Crime and Perceived Stress among Patients with Type 2 Diabetes: the Diabetes Study of Northern California (DISTANCE). <i>Journal of Urban Health</i> , 2016, 93, 745-757.	3.6	5
89	Improving advance care planning for English-speaking and Spanish-speaking older adults: study protocol for the PREPARE randomised controlled trial. <i>BMJ Open</i> , 2016, 6, e011705.	1.9	22
90	Associations of perceived neighborhood safety and crime with cardiometabolic risk factors among a population with type 2 diabetes. <i>Health and Place</i> , 2016, 39, 116-121.	3.3	26
