#	ARTICLE	IF	CITATIONS
1	Normalisation process theory: a framework for developing, evaluating and implementing complex interventions. <i>BMC Medicine</i> , 2010, 8, 63.	2.3	858
2	Development of a theory of implementation and integration: Normalization Process Theory. <i>Implementation Science</i> , 2009, 4, 29.	2.5	839
3	Exploring barriers to participation and adoption of telehealth and telecare within the Whole System Demonstrator trial: a qualitative study. <i>BMC Health Services Research</i> , 2012, 12, 220.	0.9	358
4	Achieving change in primary care—causes of the evidence to practice gap: systematic reviews of reviews. <i>Implementation Science</i> , 2015, 11, 40.	2.5	316
5	The effectiveness and cost effectiveness of a national lay-led self care support programme for patients with long-term conditions: a pragmatic randomised controlled trial. <i>Journal of Epidemiology and Community Health</i> , 2007, 61, 254-261.	2.0	287
6	Support for self care for patients with chronic disease. <i>BMJ: British Medical Journal</i> , 2007, 335, 968-970.	2.4	252
7	Implementation of self management support for long term conditions in routine primary care settings: cluster randomised controlled trial. <i>BMJ, The</i> , 2013, 346, f2882-f2882.	3.0	195
8	Effect of telehealth on quality of life and psychological outcomes over 12 months (Whole Systems) Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 pragmatic, cluster randomised controlled trial. <i>BMJ, The</i> , 2013, 346, f653-f653.	3.0	191
9	The power of support from companion animals for people living with mental health problems: a systematic review and narrative synthesis of the evidence. <i>BMC Psychiatry</i> , 2018, 18, 31.	1.1	174
10	Social networks, social capital and chronic illness self-management: a realist review. <i>Chronic Illness</i> , 2011, 7, 60-86.	0.6	167
11	The Contribution of Social Networks to the Health and Self-Management of Patients with Long-Term Conditions: A Longitudinal Study. <i>PLoS ONE</i> , 2014, 9, e98340.	1.1	158
12	Shifting priorities in multimorbidity: a longitudinal qualitative study of patient's prioritization of multiple conditions. <i>Chronic Illness</i> , 2011, 7, 147-161.	0.6	153
13	Achieving change in primary care—effectiveness of strategies for improving implementation of complex interventions: systematic review of reviews. <i>BMJ Open</i> , 2015, 5, e009993.	0.8	153
14	The influence of social networks on self-management support: a metasynthesis. <i>BMC Public Health</i> , 2014, 14, 719.	1.2	149
15	Social Networks, the "Work" and Work Force of Chronic Illness Self-Management: A Survey Analysis of Personal Communities. <i>PLoS ONE</i> , 2013, 8, e59723.	1.1	132
16	Integrating mobile-phone based assessment for psychosis into people's everyday lives and clinical care: a qualitative study. <i>BMC Psychiatry</i> , 2013, 13, 34.	1.1	130
17	Long-Term Condition Self-Management Support in Online Communities: A Meta-Synthesis of Qualitative Papers. <i>Journal of Medical Internet Research</i> , 2016, 18, e61.	2.1	130
18	The meaning and management of neuroleptic medication: a study of patients with a diagnosis of schizophrenia. <i>Social Science and Medicine</i> , 1998, 47, 1313-1323.	1.8	118

#	ARTICLE	IF	CITATIONS
19	Practice nurses and the facilitation of self-management in primary care. <i>Journal of Advanced Nursing</i> , 2008, 62, 191-199.	1.5	106
20	Social networks, work and network-based resources for the management of long-term conditions: a framework and study protocol for developing self-care support. <i>Implementation Science</i> , 2011, 6, 56.	2.5	106
21	Re-thinking the relationship between long-term condition self-management education and the utilisation of health services. <i>Social Science and Medicine</i> , 2007, 65, 934-945.	1.8	102
22	Assessing the implementability of telehealth interventions for self-management support: a realist review. <i>Implementation Science</i> , 2015, 10, 59.	2.5	101
23	Social support and self-management capabilities in diabetes patients: An international observational study. <i>Patient Education and Counseling</i> , 2016, 99, 638-643.	1.0	91
24	A randomised controlled trial of self-help interventions in patients with a primary care diagnosis of irritable bowel syndrome. <i>Gut</i> , 2006, 55, 643-648.	6.1	85
25	Experiences of front-line health professionals in the delivery of telehealth: a qualitative study. <i>British Journal of General Practice</i> , 2014, 64, e401-e407.	0.7	84
26	Extinguishing the social?: state sponsored self-care policy and the Chronic Disease Self-management Programme. <i>Disability and Society</i> , 2007, 22, 129-143.	1.4	82
27	A scoping review to understand the effectiveness of linking schemes from healthcare providers to community resources to improve the health and well-being of people with long-term conditions. <i>Health and Social Care in the Community</i> , 2015, 23, 467-484.	0.7	80
28	Implementing, embedding and integrating self-management support tools for people with long-term conditions in primary care nursing: A qualitative study. <i>International Journal of Nursing Studies</i> , 2014, 51, 1103-1113.	2.5	75
29	Ontological security and connectivity provided by pets: a study in the self-management of the everyday lives of people diagnosed with a long-term mental health condition. <i>BMC Psychiatry</i> , 2016, 16, 409.	1.1	75
30	Implementation of a self-management support approach (WISE) across a health system: a process evaluation explaining what did and did not work for organisations, clinicians and patients. <i>Implementation Science</i> , 2014, 9, 129.	2.5	73
31	Effectiveness of an integrated telehealth service for patients with depression: a pragmatic randomised controlled trial of a complex intervention. <i>Lancet Psychiatry</i> , 2016, 3, 515-525.	3.7	73
32	“Permission to participate?” A qualitative study of participation in patients from differing socio-economic backgrounds. <i>Journal of Health Psychology</i> , 2013, 18, 1046-1055.	1.3	68
33	TElehealth in CHronic disease: mixed-methods study to develop the TECH conceptual model for intervention design and evaluation. <i>BMJ Open</i> , 2015, 5, e006448-e006448.	0.8	66
34	Incorporating patients’ views and experiences of life with IBS in the development of an evidence based self-help guidebook. <i>Patient Education and Counseling</i> , 2003, 50, 303-310.	1.0	65
35	A randomised controlled trial to assess the impact of a package comprising a patient-orientated, evidence-based self-help guidebook and patient-centred consultations on disease management and satisfaction in inflammatory bowel disease. <i>Health Technology Assessment</i> , 2003, 7, iii, 1-113.	1.3	64
36	The Effects of Exercise and Relaxation on Health and Wellbeing. <i>Health Economics (United Kingdom)</i> , 2017, 26, e67-e80.	0.8	62

#	ARTICLE	IF	CITATIONS
37	Developing a U.K. protocol for collaborative care: a qualitative study. <i>General Hospital Psychiatry</i> , 2006, 28, 296-305.	1.2	60
38	The centrality of personal relationships in the creation and amelioration of mental health problems: the current interdisciplinary case. <i>Health (United Kingdom)</i> , 2009, 13, 235-254.	0.9	59
39	Established users and the making of telecare work in long term condition management: Implications for health policy. <i>Social Science and Medicine</i> , 2011, 72, 1077-1084.	1.8	59
40	Developing guided self-help for depression using the Medical Research Council complex interventions framework: a description of the modelling phase and results of an exploratory randomised controlled trial. <i>BMC Psychiatry</i> , 2008, 8, 91.	1.1	56
41	Why less may be more: a mixed methods study of the work and relatedness of 'weak ties' in supporting long-term condition self-management. <i>Implementation Science</i> , 2014, 9, 19.	2.5	56
42	Training professionals to engage with and promote self-management. <i>Health Education Research</i> , 2005, 20, 567-578.	1.0	55
43	Effect of Information and Telephone-Guided Access to Community Support for People with Chronic Kidney Disease: Randomised Controlled Trial. <i>PLoS ONE</i> , 2014, 9, e109135.	1.1	54
44	A cluster randomised controlled trial of the clinical and cost-effectiveness of a 'whole systems' model of self-management support for the management of long-term conditions in primary care: trial protocol. <i>Implementation Science</i> , 2012, 7, 7.	2.5	51
45	Telehealth for patients at high risk of cardiovascular disease: pragmatic randomised controlled trial. <i>BMJ</i> , The, 2016, 353, i2647.	3.0	50
46	Delivering the WISE (Whole Systems Informing Self-Management Engagement) training package in primary care: learning from formative evaluation. <i>Implementation Science</i> , 2010, 5, 7.	2.5	49
47	Linking people with long-term health conditions to healthy community activities: development of Patient-led Assessment for Network Support (PLANS). <i>Health Expectations</i> , 2013, 16, e48-59.	1.1	48
48	Implementing a social network intervention designed to enhance and diversify support for people with long-term conditions. A qualitative study. <i>Implementation Science</i> , 2015, 11, 27.	2.5	46
49	Implementation science: a reappraisal of our journal mission and scope. <i>Implementation Science</i> , 2015, 10, 51.	2.5	43
50	Improving self-management skills: a whole systems approach. <i>British Journal of Nursing</i> , 2001, 10, 734-737.	0.3	42
51	Social Support and Health in Diabetes Patients: An Observational Study in Six European Countries in an Era of Austerity. <i>PLoS ONE</i> , 2015, 10, e0135079.	1.1	42
52	Researching the mental health needs of hard-to-reach groups: managing multiple sources of evidence. <i>BMC Health Services Research</i> , 2009, 9, 226.	0.9	41
53	Having diabetes and having to fast: a qualitative study of British Muslims with diabetes. <i>Health Expectations</i> , 2015, 18, 1698-1708.	1.1	40
54	Social Network Type and Long-Term Condition Management Support: A Cross-Sectional Study in Six European Countries. <i>PLoS ONE</i> , 2016, 11, e0161027.	1.1	40

#	ARTICLE	IF	CITATIONS
55	Patients' understanding and participation in a trial designed to improve the management of anti-psychotic medication. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2003, 38, 720-727.	1.6	34
56	Embedding shared decision-making in the care of patients with severe and enduring mental health problems: The EQUIP pragmatic cluster randomised trial. <i>PLoS ONE</i> , 2018, 13, e0201533.	1.1	33
57	What is the potential for social networks and support to enhance future telehealth interventions for people with a diagnosis of schizophrenia: a critical interpretive synthesis. <i>BMC Psychiatry</i> , 2013, 13, 279.	1.1	32
58	Non-disclosure of chronic kidney disease in primary care and the limits of instrumental rationality in chronic illness self-management. <i>Social Science and Medicine</i> , 2015, 131, 31-39.	1.8	30
59	Navigating and making sense of urgent and emergency care processes and provision. <i>Health Expectations</i> , 2019, 22, 435-443.	1.1	30
60	More than jobs and houses: mental health, quality of life and the perceptions of locality in an area undergoing urban regeneration. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2008, 43, 364-372.	1.6	28
61	Social support systems as determinants of self-management and quality of life of people with diabetes across Europe: study protocol for an observational study. <i>Health and Quality of Life Outcomes</i> , 2014, 12, 29.	1.0	28
62	Perceptions of recovery and prognosis from long-term conditions: The relevance of hope and imagined futures. <i>Chronic Illness</i> , 2015, 11, 3-20.	0.6	28
63	Connectivity, contest and the ties of self-management support for type 2 diabetes: a meta-synthesis of qualitative literature. <i>Health and Social Care in the Community</i> , 2016, 24, 672-686.	0.7	28
64	Is it time to abandon care planning in mental health services? A qualitative study exploring the views of professionals, service users and carers. <i>Health Expectations</i> , 2018, 21, 597-605.	1.1	28
65	Exploring patient priorities among long-term conditions in multimorbidity: A qualitative secondary analysis. <i>SAGE Open Medicine</i> , 2013, 1, 205031211350395.	0.7	27
66	Social status and living with a chronic illness: An exploration of assessment and meaning attributed to work and employment. <i>Chronic Illness</i> , 2014, 10, 273-290.	0.6	26
67	The role of information in supporting self-care in vascular conditions: a conceptual and empirical review. <i>Health and Social Care in the Community</i> , 2011, 19, 449-459.	0.7	24
68	Dynamics and nature of support in the personal networks of people with type 2 diabetes living in Europe: qualitative analysis of network properties. <i>Health Expectations</i> , 2015, 18, 3172-3185.	1.1	24
69	Integration of devices into long-term condition management: a synthesis of qualitative studies. <i>Chronic Illness</i> , 2008, 4, 135-148.	0.6	23
70	The experience of facilitators and participants of long term condition self-management group programmes: A qualitative synthesis. <i>Patient Education and Counseling</i> , 2017, 100, 2244-2254.	1.0	23
71	The process of incorporating insulin pumps into the everyday lives of people with Type 1 diabetes: A critical interpretive synthesis. <i>Health Expectations</i> , 2018, 21, 714-729.	1.1	21
72	The role of collective efficacy in long-term condition management: A metasynthesis. <i>Health and Social Care in the Community</i> , 2019, 27, e588-e603.	0.7	21

#	ARTICLE	IF	CITATIONS
73	A cluster randomised controlled trial and process evaluation of a training programme for mental health professionals to enhance user involvement in care planning in service users with severe mental health issues (EQUIP): study protocol for a randomised controlled trial. <i>Trials</i> , 2015, 16, 348.	0.7	20
74	Re-inventing care planning in mental health: stakeholder accounts of the imagined implementation of a user/carer involved intervention. <i>BMC Health Services Research</i> , 2015, 15, 490.	0.9	20
75	How do people with long-term mental health problems negotiate relationships with network members at times of crisis?. <i>Health Expectations</i> , 2018, 21, 336-346.	1.1	19
76	Goals for living with a chronic condition: The relevance of temporalities, dispositions, and resources. <i>Social Science and Medicine</i> , 2019, 233, 13-20.	1.8	19
77	Analysis of social networks supporting the self-management of type 2 diabetes for people with mental illness. <i>BMC Health Services Research</i> , 2015, 15, 257.	0.9	18
78	Patients' Experiences of Shared Decision Making in Primary Care Practices in the United Kingdom. <i>Medical Decision Making</i> , 2013, 33, 26-36.	1.2	17
79	Addressing the evidence to practice gap for complex interventions in primary care: a systematic review of reviews protocol. <i>BMJ Open</i> , 2014, 4, e005548-e005548.	0.8	17
80	Voluntary Organizations and Community Groups as New Partners in Diabetes Self-management and Education. <i>The Diabetes Educator</i> , 2015, 41, 550-568.	2.6	17
81	Brief encounters: what do primary care professionals contribute to peoples' self-care support network for long-term conditions? A mixed methods study. <i>BMC Family Practice</i> , 2016, 17, 21.	2.9	17
82	The articulation of neoliberalism: narratives of experience of chronic illness management in Bulgaria and the UK. <i>Sociology of Health and Illness</i> , 2017, 39, 349-364.	1.1	16
83	Group affiliation in self-management: support or threat to identity?. <i>Health Expectations</i> , 2017, 20, 159-170.	1.1	16
84	Meso level influences on long term condition self-management: stakeholder accounts of commonalities and differences across six European countries. <i>BMC Public Health</i> , 2015, 15, 622.	1.2	15
85	Implementing an intervention designed to enhance service user involvement in mental health care planning: a qualitative process evaluation. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2019, 54, 221-233.	1.6	15
86	Interventions and working relationships of voluntary organisations for diabetes self-management: A cross-national study. <i>International Journal of Nursing Studies</i> , 2017, 70, 58-70.	2.5	14
87	Social network influences and the adoption of obesity-related behaviours in adults: a critical interpretative synthesis review. <i>BMC Public Health</i> , 2019, 19, 1178.	1.2	14
88	Development of a measure of collective efficacy within personal networks: A complement to self-efficacy in self-management support?. <i>Patient Education and Counseling</i> , 2019, 102, 1389-1396.	1.0	14
89	Identifying the processes of change and engagement from using a social network intervention for people with long-term conditions. A qualitative study. <i>Health Expectations</i> , 2019, 22, 173-182.	1.1	14
90	Optimising and profiling pre-implementation contexts to create and implement a public health network intervention for tackling loneliness. <i>Implementation Science</i> , 2020, 15, 35.	2.5	14

#	ARTICLE	IF	CITATIONS
91	Modelling self-management pathways for people with diabetes in primary care. <i>BMC Family Practice</i> , 2015, 16, 112.	2.9	13
92	Study protocol for "The Project About Loneliness and Social networks (PALS)": a pragmatic, randomised trial comparing a facilitated social network intervention (Genie) with a wait-list control for lonely and socially isolated people. <i>BMJ Open</i> , 2019, 9, e028718.	0.8	13
93	Findings from a pilot randomised trial of a social network self-management intervention in COPD. <i>BMC Pulmonary Medicine</i> , 2020, 20, 162.	0.8	13
94	Mediating engagement in a social network intervention for people living with a long-term condition: A qualitative study of the role of facilitation. <i>Health Expectations</i> , 2020, 23, 681-690.	1.1	13
95	Help seeking for antibiotics; is the influence of a personal social network relevant?. <i>BMC Family Practice</i> , 2019, 20, 63.	2.9	12
96	Negotiating support from relationships and resources: a longitudinal study examining the role of personal support networks in the management of severe and enduring mental health problems. <i>BMC Psychiatry</i> , 2020, 20, 50.	1.1	12
97	Sense-making strategies and help-seeking behaviours associated with urgent care services: a mixed-methods study. <i>Health Services and Delivery Research</i> , 2019, 7, 1-122.	1.4	12
98	Commissioning of self-management support for people with long-term conditions: an exploration of commissioning aspirations and processes. <i>BMJ Open</i> , 2016, 6, e010853.	0.8	11
99	Goal setting in group programmes for long-term condition self-management support: experiences of patients and healthcare professionals. <i>Psychology and Health</i> , 2020, 35, 70-86.	1.2	11
100	Bodies in Context: Potential Avenues of Inquiry for the Sociology of Chronic Illness and Disability Within a New Policy Era. <i>Handbooks of Sociology and Social Research</i> , 2011, , 483-504.	0.1	11
101	The work and relatedness of ties mediated online in supporting long-term condition self-management. <i>Sociology of Health and Illness</i> , 2020, 42, 579-595.	1.1	10
102	Moving between ideologies in self-management support: A qualitative study. <i>Health Expectations</i> , 2019, 22, 83-92.	1.1	9
103	The contribution of internet use in personal networks of support for long-term condition self-management. <i>Chronic Illness</i> , 2019, 15, 220-235.	0.6	9
104	A Facilitated Web-Based Self-Management Tool for People With Type 1 Diabetes Using an Insulin Pump: Intervention Development Using the Behavior Change Wheel and Theoretical Domains Framework. <i>Journal of Medical Internet Research</i> , 2020, 22, e13980.	2.1	9
105	Assessing the effectiveness of social network interventions for adults with a diagnosis of mental health problems: a systematic review and narrative synthesis of impact. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2022, 57, 907-925.	1.6	9
106	Stakeholders in support systems for self-care for chronic illness: the gap between expectations and reality regarding their identity, roles and relationships. <i>Health Expectations</i> , 2017, 20, 434-447.	1.1	8
107	A novel exploration of the support needs of people initiating insulin pump therapy using a social network approach: a longitudinal mixed-methods study. <i>Diabetic Medicine</i> , 2020, 37, 298-310.	1.2	8
108	Training to enhance user and carer involvement in mental health-care planning: the EQUIP research programme including a cluster RCT. <i>Programme Grants for Applied Research</i> , 2019, 7, 1-140.	0.4	8
