#	ARTICLE	IF	CITATIONS
1	Guidelines for Invasive Prenatal Procedures. Donald School Journal of Ultrasound in Obstetrics and Gynecology, 2022, 16, 83-90.	0.3	0
2	Efficacy, safety, and success of 18â€ versus 20â€ gauge needle for transabdominal chorionic villus sampling in a <scp>highâ€volume</scp> training setting. Prenatal Diagnosis, 2021, 41, 8-10.	2.3	2
3	First trimester supratentorial and infratentorial abnormalities in fetuses with open spina bifida. Journal of Maternal-Fetal and Neonatal Medicine, 2021, 34, 2159-2165.	1.5	2
4	Invasive Diagnostic Procedures in Embryonic Period. Donald School Journal of Ultrasound in Obstetrics and Gynecology, 2021, 15, 169-174.	0.3	0
5	Professionally responsible management of the ethical and social challenges of antenatal screening and diagnosis of Î²-thalassemia in a high-risk population. Journal of Perinatal Medicine, 2021, 49, 847-852.	1.4	3
6	COVID-19 vaccine: the gender disparity. Journal of Perinatal Medicine, 2021, 49, 723-724.	1.4	3
7	Metabolomics in Prenatal Medicine: A Review. Frontiers in Medicine, 2021, 8, 645118.	2.6	18
8	Induced abortion and COVID-19 as contributing factors to declining fertility in Sardinia. Journal of Perinatal Medicine, 2021, .	1.4	0
9	Metabolomics Analysis of Amniotic Fluid in Euploid Foetuses with Thickened Nuchal Translucency by Gas Chromatography-Mass Spectrometry. Life, 2021, 11, 913.	2.4	2
10	Successful hysteroscopic treatment of a cervical heterotopic pregnancy: case report and literature review. Journal of Obstetrics and Gynaecology, 2020, 40, 580-581.	0.9	2
11	The decline of amniocentesis and the increase of chorionic villus sampling in modern perinatal medicine. Journal of Perinatal Medicine, 2020, 48, 307-312.	1.4	7
12	215: An international chorionic villus sampling training program in ongoing-pregnancies with demonstrable outcomes: a survey study. American Journal of Obstetrics and Gynecology, 2020, 222, S149-S150.	1.3	1
13	Seminal Fluid Metabolomic Markers of Oligozoospermic Infertility in Humans. Metabolites, 2020, 10, 64.	2.9	28
14	Prenatal screening diagnosis and management in the era of coronavirus: the Sardinian experience. Journal of Perinatal Medicine, 2020, 48, 943-949.	1.4	6
15	A Pilot Study of the Relationship Between Pregnancy and Autoimmune Disease: Exploring the Motherâ€™s Psychological Process. Frontiers in Psychology, 2019, 10, 1961.	2.1	1
16	Metabolomic Investigation of Î²-Thalassemia in Chorionic Villi Samples. Journal of Clinical Medicine, 2019, 8, 798.	2.4	10
17	Metabolic fingerprinting of chorionic villous samples in normal pregnancy and chromosomal disorders. Prenatal Diagnosis, 2019, 39, 848-858.	2.3	7
18	Metabolic characterization of amniotic fluids of fetuses with enlarged nuchal translucency. Journal of Perinatal Medicine, 2019, 47, 311-318.	1.4	9

#	ARTICLE	IF	CITATIONS
19	35-Week twin delivery after embryo reduction at 11 weeks and subsequent expulsion of a dead foetus at 20. <i>Journal of Obstetrics and Gynaecology</i> , 2019, 39, 539-540.	0.9	0
20	Early fetal megacystis: Is it possible to predict the prognosis in the first trimester?. <i>Journal of Perinatal Medicine</i> , 2018, 46, 1035-1039.	1.4	4
21	From Prenatal to Preimplantation Genetic Diagnosis of β^2 -Thalassemia. Prevention Model in 8748 Cases: 40 Years of Single Center Experience. <i>Journal of Clinical Medicine</i> , 2018, 7, 35.	2.4	31
22	Midwife-assisted planned home birth: an essential component of improving the safety of childbirth in Sub-Saharan Africa. <i>Journal of Perinatal Medicine</i> , 2018, 47, 16-21.	1.4	6
23	Invasive Diagnostic Testing. <i>Donald School Journal of Ultrasound in Obstetrics and Gynecology</i> , 2018, 12, 52-55.	0.3	0
24	Re: ISUOG Practice Guidelines: invasive procedures for prenatal diagnosis. <i>Ultrasound in Obstetrics and Gynecology</i> , 2017, 49, 414-415.	1.7	7
25	Crown-rump length: are they different or similar after homologous vs heterologous oocyte/embryo donation?. <i>American Journal of Obstetrics and Gynecology</i> , 2017, 217, 224-225.	1.3	1
26	Pregnancy outcome and long-term follow-up of fetuses with isolated increased NT: a retrospective cohort study. <i>Journal of Perinatal Medicine</i> , 2016, 44, 237-42.	1.4	5
27	Single center experience in selective feticide in high-order multiple pregnancy: clinical and ethical issues. <i>Journal of Perinatal Medicine</i> , 2016, 44, 161-6.	1.4	10
28	Pitfalls in noninvasive fetal RhD and sex determination due to a vanishing twin. <i>Prenatal Diagnosis</i> , 2015, 35, 506-508.	2.3	9
29	How to perform transabdominal chorionic villus sampling: a practical guideline. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2015, 29, 1-7.	1.5	9
30	Brain stem/brain stem occipital bone ratio and the four-line view in nuchal translucency images of fetuses with open spina bifida. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2015, 28, 1428-1431.	1.5	12
31	Training for transabdominal villous sampling is feasible and safe. <i>American Journal of Obstetrics and Gynecology</i> , 2015, 213, 248-250.	1.3	11
32	Screening and Invasive Testing in Twins. <i>Journal of Clinical Medicine</i> , 2014, 3, 865-882.	2.4	6
33	A Case of Enlarged Intracranial Translucency in a Fetus with Blake's Pouch Cyst. <i>Case Reports in Obstetrics and Gynecology</i> , 2014, 2014, 1-3.	0.3	7
34	Prenatal ultrasound diagnosis of a fetal testis granulosa cell tumour. <i>Journal of Obstetrics and Gynaecology</i> , 2014, 34, 96-97.	0.9	5
35	Umbilical vein volume flow in monochorionic twin pairs at 11-14 weeks. <i>Journal of Perinatal Medicine</i> , 2014, 42, 515-521.	1.4	2
36	Color Doppler Score: A New Approach for Monitoring a Large Placental Chorioangioma. <i>Case Reports in Obstetrics and Gynecology</i> , 2014, 2014, 1-4.	0.3	2

#	ARTICLE	IF	CITATIONS
37	Invasive or non-invasive prenatal genetic diagnosis?. Journal of Perinatal Medicine, 2014, 42, 545-548.	1.4	8
38	Improved first-trimester aneuploidy risk assessment: an evolving challenge of training in invasive prenatal diagnosis. Ultrasound in Obstetrics and Gynecology, 2013, 41, 486-488.	1.7	17
39	Prenatal detection of periventricular pseudocysts by ultrasound: diagnosis and outcome. Case Reports in Perinatal Medicine, 2012, 1, .	0.1	2
40	Homocysteine, red cell, and plasma folate concentrations and birth weight in Italian women: results from a prospective study. Journal of Maternal-Fetal and Neonatal Medicine, 2011, 24, 427-431.	1.5	11
41	First Trimester Diagnosis of Sirenomelia by 2D and 3D Ultrasound. Fetal Diagnosis and Therapy, 2009, 26, 41-44.	1.4	19
42	Prenatal sonographic features of isolated cleft soft palate with anterior axial three-dimensional view reconstruction. Ultrasound in Obstetrics and Gynecology, 2008, 31, 476-477.	1.7	2
43	Mitral gap at 11 + 0 to 13 + 6 weeks: neither marker of trisomy 21 nor artifact. Ultrasound in Obstetrics and Gynecology, 2008, 31, 592-592.	1.7	1
44	Conjoined twins in a trichorionic quadruplet pregnancy after intracytoplasmic sperm injection and quarter laser-assisted zona thinning. Fertility and Sterility, 2007, 87, 189.e9-189.e12.	1.0	13
45	Intracardiac Doppler assessment of left valve inflow in first-trimester fetuses with increased nuchal translucency: preliminary observations in trisomy 21. Ultrasound in Obstetrics and Gynecology, 2006, 28, 77-81.	1.7	4
46	Changes in the Approach for Invasive Prenatal Diagnosis in 35,127 Cases at a Single Center from 1977 to 2004. Fetal Diagnosis and Therapy, 2006, 21, 348-354.	1.4	22
47	Nuchal translucency measurement at different crown-rump lengths along the 10- to 14-week period for Down syndrome screening. Prenatal Diagnosis, 2005, 25, 411-416.	2.3	6
48	Nuchal translucency and nasal bone for trisomy 21 screening: single center experience. Croatian Medical Journal, 2005, 46, 786-91.	0.7	11
49	Fetal Cells in Maternal Blood: A Six-Fold Increase in Women who have Undergone Amniocentesis and Carry a Fetus with Down Syndrome: A Multicenter Study. Neuropediatrics, 2004, 35, 321-324.	0.6	11
50	Preimplantation genetic diagnosis for β -thalassaemia: the Sardinian experience. Prenatal Diagnosis, 2004, 24, 949-954.	2.3	27
51	Changes in nuchal translucency thickness in normal and abnormal karyotype fetuses. BJOG: an International Journal of Obstetrics and Gynaecology, 2003, 110, 584-588.	2.3	26
52	Absence of fetal nasal bone and aneuploidies at first-trimester nuchal translucency screening in unselected pregnancies. Prenatal Diagnosis, 2003, 23, 496-500.	2.3	111
53	Neural Tube Defects in the Offspring of Thalassemia Carriers. Fetal Diagnosis and Therapy, 2003, 18, 5-7.	1.4	14
54	Changes in nuchal translucency thickness in normal and abnormal karyotype fetuses. BJOG: an International Journal of Obstetrics and Gynaecology, 2003, 110, 584-8.	2.3	8

#	ARTICLE	IF	CITATIONS
55	First-Trimester Ductus venosus Velocimetry in Relation to Nuchal Translucency Thickness and Fetal Karyotype. <i>Fetal Diagnosis and Therapy</i> , 2002, 17, 52-57.	1.4	69
56	Absence of nasal bone and detection of trisomy 21. <i>Lancet, The</i> , 2002, 359, 1343.	13.7	13
57	Screening for thalassemia. <i>Obstetrics and Gynecology Clinics of North America</i> , 2002, 29, 305-328.	1.9	120
58	Twin pregnancy achieved through TESE in an adult male exstrophy. <i>Journal of Assisted Reproduction and Genetics</i> , 2002, 19, 245-247.	2.5	4
59	Nuchal translucency and the acceptance of invasive prenatal chromosomal diagnosis in women aged 35 and older. <i>Obstetrics and Gynecology</i> , 2001, 97, 916-920.	2.4	37
60	Nuchal Translucency and the Acceptance of Invasive Prenatal Chromosomal Diagnosis in Women Aged 35 and Older. <i>Obstetrics and Gynecology</i> , 2001, 97, 916-920.	2.4	25
61	Prenatal sonographic diagnosis of Klippel-Trä©naunay-Weber syndrome with cardiac failure. <i>Journal of Clinical Ultrasound</i> , 2001, 29, 422-426.	0.8	27
62	Fetal nuchal translucency screening in 12 495 pregnancies in Sardinia. <i>Ultrasound in Obstetrics and Gynecology</i> , 2001, 18, 649-651.	1.7	67
63	Otocephaly: Prenatal diagnosis of a new case and etiopathogenetic considerations. , 2000, 90, 427-429.		37
64	First trimester umbilical artery pulsatility index in fetuses presenting enlarged nuchal translucency. <i>Prenatal Diagnosis</i> , 2000, 20, 701-704.	2.3	10
65	Prenatal ultrasound diagnosis of congenital cystic adenomatoid malformation of the lung: a report of 26 cases and review of the literature. <i>Ultrasound in Obstetrics and Gynecology</i> , 2000, 16, 159-162.	1.7	43
66	Transient hyperechogenicity of the fetal pericardium: a case report. <i>Ultrasound in Obstetrics and Gynecology</i> , 2000, 16, 197-199.	1.7	1
67	Assessment of Risk for Chromosomal Abnormalities at 10â€“14 Weeks of Gestation by Nuchal Translucency and Maternal Age in 5,210 Fetuses at a Single Centre. <i>Fetal Diagnosis and Therapy</i> , 2000, 15, 170-173.	1.4	30
68	Intracytoplasmic sperm injection and prenatal invasive diagnosis. , 1999, 19, 390-390.		2
69	Fetal nuchal translucency and prenatal diagnosis of Î²-thalassaemia. , 1999, 19, 758-760.		6
70	Can fetal iliac bone measurement be used as a marker for Down's syndrome screening?. <i>Ultrasound in Obstetrics and Gynecology</i> , 1998, 12, 19-22.	1.7	12
71	Antenatal screening for Down's syndrome. <i>Lancet, The</i> , 1998, 352, 1631-1632.	13.7	21
72	Fetal nuchal translucency test for Down's syndrome. <i>Lancet, The</i> , 1997, 350, 1631.	13.7	50

#	ARTICLE	IF	CITATIONS
73	Cerebrocosto mandibular syndrome: early sonographic prenatal diagnosis. <i>Ultrasound in Obstetrics and Gynecology</i> , 1997, 10, 142-144.	1.7	17
74	Color Doppler ultrasound and prenatal diagnosis of cleft palate. <i>Journal of Clinical Ultrasound</i> , 1995, 23, 189-191.	0.8	16
75	Psychological implications and acceptability of preimplantation diagnosis. <i>Human Reproduction</i> , 1994, 9, 360-362.	0.9	51
76	Umbilical artery velocity waveforms before and after chorionic villus sampling. <i>Prenatal Diagnosis</i> , 1994, 14, 799-802.	2.3	6
77	Improvement of prenatal diagnosis of wilson disease using microsatellite markers. <i>Prenatal Diagnosis</i> , 1994, 14, 999-1002.	2.3	16
78	Early transabdominal chorionic villus sampling in couples at high genetic risk. <i>American Journal of Obstetrics and Gynecology</i> , 1993, 168, 170-173.	1.3	26
79	Molecular screening and fetal diagnosis of β -thalassemia in the Italian population. <i>Human Genetics</i> , 1992, 89, 585-9.	3.8	55
80	Transabdominal chorionic villus sampling: Fetal loss rate in relation to maternal and gestational age. <i>Prenatal Diagnosis</i> , 1992, 12, 815-820.	2.3	18
81	Limb-reduction defects and chorion villus sampling. <i>Lancet, The</i> , 1991, 337, 1091-1092.	13.7	96
82	Early antenatal sonographic diagnosis of conjoined syncephalus-craniothoraco-omphalopagus twins. Case report. <i>Journal of Perinatal Medicine</i> , 1991, 19, 489-492.	1.4	1
83	Second-Trimester Placental Biopsy versus Amniocentesis for Prenatal Diagnosis of β^2 -Thalassemia. <i>New England Journal of Medicine</i> , 1990, 322, 60-61.	27.0	17
84	Reliability of prenatal diagnosis of genetic diseases by analysis of amplified trophoblast DNA. <i>Journal of Medical Genetics</i> , 1990, 27, 249-251.	3.2	6
85	Intestinal obstruction in babies exposed in utero to methylene blue. <i>Lancet, The</i> , 1990, 336, 1258-1259.	13.7	65
86	Antenatal Diagnosis of β -Thalassemia in Sardinia. <i>Annals of the New York Academy of Sciences</i> , 1990, 612, 215-225.	3.8	27
87	Fetal hydrops in Sardinia: implications for genetic counselling. <i>Clinical Genetics</i> , 1990, 38, 327-331.	2.0	16
88	Prenatal diagnosis of β^2 -thalassaemia in Mediterranean populations by dot blot analysis with DNA amplification and allele specific oligonucleotide probes. <i>Prenatal Diagnosis</i> , 1989, 9, 629-638.	2.3	68
89	Problems in prenatal diagnosis of β^2 -thalassaemia by fetal blood analysis: β^2 -chain variant comigrating with gamma chains. <i>Prenatal Diagnosis</i> , 1988, 8, 393-397.	2.3	0
90	Prenatal diagnosis of β^2 -thalassaemia by second trimester chorionic villus sampling. <i>Prenatal Diagnosis</i> , 1988, 8, 447-451.	2.3	21

#	ARTICLE	IF	CITATIONS
91	Pseudomosaic centric fission of chromosome 4 in amniotic cells. Prenatal Diagnosis, 1988, 8, 629-631.	2.3	4
92	PATIENT'S CHOICE BETWEEN TRANSCERVICAL AND TRANSABDOMINAL CHORIONIC VILLUS SAMPLING. Lancet, The, 1988, 331, 1057.	13.7	21
93	Prenatal diagnosis of beta thalassaemia by oligonucleotide analysis in Mediterranean populations.. Journal of Medical Genetics, 1988, 25, 762-765.	3.2	10
94	Chorionic villus sampling by rigid forceps: Experience with 300 cases at risk for thalassemia major. American Journal of Obstetrics and Gynecology, 1987, 156, 912-914.	1.3	21
95	Chorionic villus sampling and acceptance rate of prenatal diagnosis. Prenatal Diagnosis, 1987, 7, 531-533.	2.3	45
96	First trimester diagnosis of β^2 -thalassaemia in a twin pregnancy. Prenatal Diagnosis, 1986, 6, 63-68.	2.3	6
97	Prenatal diagnosis of thalassemia major by fetal blood analysis: Experience with 1000 cases. Prenatal Diagnosis, 1986, 6, 159-167.	2.3	11
98	Prenatal diagnosis of the fragile-X in male monozygotic twins: Discordant expression of the fragile site in amniocytes. Prenatal Diagnosis, 1985, 5, 229-231.	2.3	15
99	Antenatal Diagnosis of Thalassemia Major in Sardinia. Annals of the New York Academy of Sciences, 1985, 445, 380-392.	3.8	15
