#	ARTICLE	IF	CITATIONS
1	Promoting good and sustainable work in occupational health education. <i>Occupational Medicine</i> , 2023, 73, 61-65.	0.8	0
2	Unfairness and Stress—An Examination of Two Alternative Models: Organizational-Justice and Effort—Reward Imbalance. <i>International Journal of Public Administration</i> , 2023, 46, 602-612.	1.4	4
3	Adverse employment histories and allostatic load: associations over the working life. <i>Journal of Epidemiology and Community Health</i> , 2022, 76, 374-381.	2.0	11
4	Gender moderates the association between chronic academic stress with top-down and bottom-up attention. <i>Attention, Perception, and Psychophysics</i> , 2022, 84, 383-395.	0.7	6
5	Long-term trends in psychosocial working conditions in Europe—the role of labor market policies. <i>European Journal of Public Health</i> , 2022, 32, 384-391.	0.1	4
6	Comments to Moretti Anfossi <i>et al.</i> (2022) “Work Exposures and Development of Cardiovascular Diseases: A Systematic Review”: What Is Current Scientific Consensus?. <i>Annals of Work Exposures and Health</i> , 2022, , .	0.6	3
7	Stressful work in primary health care and mental health: The role of gender inequities in Brazil. <i>American Journal of Industrial Medicine</i> , 2022, 65, 604-612.	1.0	4
8	Work stress on rise? Comparative analysis of trends in work stressors using the European working conditions survey. <i>International Archives of Occupational and Environmental Health</i> , 2021, 94, 459-474.	1.1	40
9	The effect of exposure to long working hours on alcohol consumption, risky drinking and alcohol use disorder: A systematic review and meta-analysis from the WHO/ILO Joint Estimates of the Work-related Burden of Disease and Injury. <i>Environment International</i> , 2021, 146, 106205.	4.8	36
10	Occupational Risks of Recurrent Coronary Heart Disease. <i>Journal of the American College of Cardiology</i> , 2021, 77, 1626-1628.	1.2	3
11	The effect of exposure to long working hours on depression: A systematic review and meta-analysis from the WHO/ILO Joint Estimates of the Work-related Burden of Disease and Injury. <i>Environment International</i> , 2021, 155, 106629.	4.8	58
12	Adverse employment histories, work stress and self-reported depression in the French CONSTANCES study. <i>European Journal of Public Health</i> , 2021, 31, 1230-1236.	0.1	4
13	Effort—Reward Imbalance at Work and Drug Misuse: Evidence from a National Survey in the U.S.. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 13334.	1.2	6
14	Does engagement in productive activities affect mental health and well-being in older adults with a chronic physical disability? Observational evidence from a Swiss cohort study. <i>Aging and Mental Health</i> , 2020, 24, 732-739.	1.5	12
15	Failed reciprocity in social exchange and wellbeing: evidence from a longitudinal dyadic study in the disability setting. <i>Psychology and Health</i> , 2020, 35, 1134-1150.	1.2	7
16	Social inequalities in the burden of care: a dyadic analysis in the caregiving partners of persons with a physical disability. <i>International Journal for Equity in Health</i> , 2020, 19, 3.	1.5	31
17	Factors associated with labor market participation of persons with traumatic SCI in Switzerland: analyzing the predictive power of social background, health, functional independence, and the environment. <i>Spinal Cord</i> , 2020, 58, 411-422.	0.9	4
18	Associations between change in labour market policies and work stressors: a comparative longitudinal survey data analysis from 27 European countries. <i>BMC Public Health</i> , 2020, 20, 1377.	1.2	5

#	ARTICLE	IF	CITATIONS
19	Systematic review and meta-analysis on exposure to long working hours and risk of ischaemic heart disease – Conclusions are supported by the evidence. <i>Environment International</i> , 2020, 144, 106118.	4.8	3
20	Cumulative Exposure to Long Working Hours and Occurrence of Ischemic Heart Disease: Evidence From the CONSTANCES Cohort at Inception. <i>Journal of the American Heart Association</i> , 2020, 9, e015753.	1.6	13
21	The effect of exposure to long working hours on ischaemic heart disease: A systematic review and meta-analysis from the WHO/ILO Joint Estimates of the Work-related Burden of Disease and Injury. <i>Environment International</i> , 2020, 142, 105739.	4.8	95
22	The effect of exposure to long working hours on stroke: A systematic review and meta-analysis from the WHO/ILO Joint Estimates of the Work-related Burden of Disease and Injury. <i>Environment International</i> , 2020, 142, 105746.	4.8	78
23	Health inequalities: the role of work and employment. <i>European Journal of Public Health</i> , 2020, 30, 620-620.	0.1	2
24	Adverse Psychosocial Work Environments and Depression – A Narrative Review of Selected Theoretical Models. <i>Frontiers in Psychiatry</i> , 2020, 11, 66.	1.3	18
25	Social inequalities in medical rehabilitation outcomes – a registry-based study on 219 584 insured persons in Germany. <i>European Journal of Public Health</i> , 2020, 30, 421-426.	0.1	0
26	Cumulative disadvantage during employment careers – The link between employment histories and stressful working conditions. <i>Advances in Life Course Research</i> , 2020, 46, 100358.	0.8	6
27	Effort-Reward Imbalance and Occupational Health. , 2020, , 1-28.		0
28	Effort-Reward Imbalance and Occupational Health. <i>Handbook Series in Occupational Health Sciences</i> , 2020, , 355-382.	0.1	9
29	Concepts and Social Variations of Disability in Working-Age Populations. , 2020, , 53-69.		0
30	Arbeit und gesundheitliche Ungleichheit: Fazit aus einem europäischen Review. <i>Public Health Forum</i> , 2020, 28, 90-92.	0.1	0
31	Concepts and Social Variations of Disability in Working-Age Populations. , 2020, , 1-18.		0
32	Arbeit und Beschäftigung als Determinanten ungleicher Gesundheit. , 2020, , 235-251.		0
33	Siegrist, Johannes. , 2020, , 2038-2040.		0
34	Effort-reward imbalance at work is associated with hair cortisol concentrations: Prospective evidence from the Dresden Burnout Study. <i>Psychoneuroendocrinology</i> , 2019, 109, 104399.	1.3	26
35	Effort-Reward Imbalance, Over-Commitment and Depressive Episodes at Work: Evidence from the ELSA-Brasil Cohort Study. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 3025.	1.2	20
36	Does well-being suffer when control in productive activities is low? A dyadic longitudinal analysis in the disability setting. <i>Journal of Psychosomatic Research</i> , 2019, 122, 13-23.	1.2	4

#	ARTICLE	IF	CITATIONS
37	Association Between Reported Long Working Hours and History of Stroke in the CONSTANCES Cohort. <i>Stroke</i> , 2019, 50, 1879-1882.	1.0	26
38	Intragenerational social mobility and depressive symptoms. Results from the French CONSTANCES cohort study. <i>SSM - Population Health</i> , 2019, 7, 100351.	1.3	6
39	Productive activities, mental health and quality of life in disability: exploring the role enhancement and the role strain hypotheses. <i>BMC Psychology</i> , 2019, 7, 1.	0.9	51
40	Effortâ€“reward imbalance and long-term benzodiazepine use: longitudinal findings from the CONSTANCES cohort. <i>Journal of Epidemiology and Community Health</i> , 2019, 73, 993-1001.	2.0	6
41	Cost, Gain, and Health. <i>Journal of Occupational and Environmental Medicine</i> , 2019, 61, 898-904.	0.9	12
42	The Role of Leisure-Time Physical Activity in the Change of Work-Related Stress (ERI) over Time. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 4839.	1.2	5
43	Adverse employment histories and health functioning: the CONSTANCES study. <i>International Journal of Epidemiology</i> , 2019, 48, 402-414.	0.9	29
44	Toward Screening for High-Risk Benzodiazepine Users in Working Populations. <i>American Journal of Public Health</i> , 2019, 109, 18-19.	1.5	0
45	Is effortâ€“reward imbalance at work associated with different domains of health functioning? Baseline results from the French CONSTANCES study. <i>International Archives of Occupational and Environmental Health</i> , 2019, 92, 467-480.	1.1	16
46	Examining Effortâ€“Reward Imbalance and Depressive Symptoms Among Turkish University Workers. <i>Workplace Health and Safety</i> , 2019, 67, 131-136.	0.7	9
47	Are there gender differences in associations of effortâ€“reward imbalance at work with self-reported doctor-diagnosed depression? Prospective evidence from the German Socio-Economic Panel. <i>International Archives of Occupational and Environmental Health</i> , 2018, 91, 435-443.	1.1	39
48	The Factorial Structure and Psychometric Properties of the Persian Effort-Reward Imbalance Questionnaire. <i>Safety and Health at Work</i> , 2018, 9, 334-338.	0.3	6
49	Associations of work stress with hair cortisol concentrations â€“ initial findings from a prospective study. <i>Psychoneuroendocrinology</i> , 2018, 89, 134-137.	1.3	15
50	The Authors Respond. <i>Epidemiology</i> , 2018, 29, e35-e36.	1.2	1
51	Unfair Pay and Health. <i>Management Science</i> , 2018, 64, 1477-1488.	2.4	42
52	Association between effort-reward imbalance and self-reported diabetes mellitus in older U.S. workers. <i>Journal of Psychosomatic Research</i> , 2018, 104, 61-64.	1.2	21
53	Elevated Psychosocial Stress at Work in Patients with Systemic Lupus Erythematosus and Rheumatoid Arthritis. <i>Journal of Rheumatology</i> , 2018, 45, 227-234.	1.0	10
54	Arbeit, Tauschgerechtigkeit und gesundheitliche Ungleichheit. <i>Public Health Forum</i> , 2018, 26, 319-321.	0.1	0

#	ARTICLE	IF	CITATIONS
55	The Authors Respond. <i>Epidemiology</i> , 2018, 29, e13.	1.2	3
56	The role of compensation in explaining harmful effects of overtime work on self-reported heart disease: Preliminary evidence from a Germany prospective cohort study. <i>American Journal of Industrial Medicine</i> , 2018, 61, 861-868.	1.0	2
57	Work Stress and the Development of Chronic Diseases. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 536.	1.2	11
58	The impact of loneliness and relationship quality on life satisfaction: A longitudinal dyadic analysis in persons with physical disabilities and their partners. <i>Journal of Psychosomatic Research</i> , 2018, 110, 61-67.	1.2	15
59	WHO/ILO work-related burden of disease and injury: Protocol for systematic reviews of exposure to long working hours and of the effect of exposure to long working hours on ischaemic heart disease. <i>Environment International</i> , 2018, 119, 558-569.	4.8	39
60	Work stress and risk of death in men and women with and without cardiometabolic disease: a multicohort study. <i>Lancet Diabetes and Endocrinology</i> , 2018, 6, 705-713.	5.5	100
61	Stress and Emotions. , 2018, , 319-340.		1
62	Work and family conflicts in employees with spinal cord injury and their caregiving partners. <i>Spinal Cord</i> , 2018, 56, 63-70.	0.9	3
63	Long working hours and depressive symptoms: systematic review and meta-analysis of published studies and unpublished individual participant data. <i>Scandinavian Journal of Work, Environment and Health</i> , 2018, 44, 239-250.	1.7	135
64	Editorial: Challenging Demands in the Modern Workplace. <i>Management Revue</i> , 2018, 29, 1-4.	0.2	1
65	Soziale Stressoren und stressbedingte Erkrankungen. , 2018, , 79-92.		4
66	Student ERI: Psychometric properties of a new brief measure of effort-reward imbalance among university students. <i>Journal of Psychosomatic Research</i> , 2017, 94, 64-67.	1.2	35
67	Longitudinal study of social participation and well-being among persons with spinal cord injury and their partners (pro-WELL). <i>BMJ Open</i> , 2017, 7, e011597.	0.8	19
68	Nine-Year Longitudinal Psychosocial and Mental Outcomes of a Stress Management Intervention at Work Using Psychotherapeutic Principles. <i>Psychotherapy and Psychosomatics</i> , 2017, 86, 113-115.	4.0	10
69	Country differences of psychosocial working conditions in Europe: the role of health and safety management practices. <i>International Archives of Occupational and Environmental Health</i> , 2017, 90, 629-638.	1.1	8
70	Effort-Reward Imbalance at Work and Incident Coronary Heart Disease. <i>Epidemiology</i> , 2017, 28, 619-626.	1.2	224
71	Social relationships, mental health and wellbeing in physical disability: a systematic review. <i>BMC Public Health</i> , 2017, 17, 414.	1.2	236
72	Effects and mediators of psychosocial work characteristics on somatic symptoms six years later: Prospective findings from the Mannheim Industrial Cohort Studies (MICS). <i>Journal of Psychosomatic Research</i> , 2017, 98, 27-33.	1.2	11

#	ARTICLE	IF	CITATIONS
73	Subjective Caregiver Burden and Caregiver Satisfaction: The Role of Partner Relationship Quality and Reciprocity. <i>Archives of Physical Medicine and Rehabilitation</i> , 2017, 98, 2042-2051.	0.5	31
74	Vitality and mental health in disability: Associations with social relationships in persons with spinal cord injury and their partners. <i>Disability and Health Journal</i> , 2017, 10, 294-302.	1.6	17
75	Applying Occupational Health Theories to Educational Stress and Health: Evidence from the Effort-Reward Imbalance Model. <i>Aligning Perspectives on Health, Safety and Well-being</i> , 2017, , 223-235.	0.2	8
76	Disturbed Redox Homeostasis in Oxidative Distress. <i>Circulation Research</i> , 2017, 121, 103-105.	2.0	46
77	Effort-Reward Imbalance at Work, Parental Support, and Suicidal Ideation in Adolescents: A Cross-sectional Study from Chinese Dual-earner Families. <i>Safety and Health at Work</i> , 2017, 8, 77-83.	0.3	7
78	Health impact of objective burden, subjective burden and positive aspects of caregiving: an observational study among caregivers in Switzerland. <i>BMJ Open</i> , 2017, 7, e017369.	0.8	53
79	Work Stress and Altered Biomarkers: A Synthesis of Findings Based on the Effort-Reward Imbalance Model. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 1373.	1.2	77
80	Do Effort and Reward at Work Predict Changes in Cognitive Function? First Longitudinal Results from the Representative German Socio-Economic Panel. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 1390.	1.2	5
81	Long-Term Effectiveness of a Stress Management Intervention at Work: A 9-Year Follow-Up Study Based on a Randomized Wait-List Controlled Trial in Male Managers. <i>BioMed Research International</i> , 2017, 2017, 1-11.	0.9	19
82	Fair opportunities, social productivity and wellbeing in disability: Towards a theoretical foundation. <i>Journal of Rehabilitation Medicine</i> , 2016, 48, 494-499.	0.8	4
83	Associations of Extrinsic and Intrinsic Components of Work Stress with Health: A Systematic Review of Evidence on the Effort-Reward Imbalance Model. <i>International Journal of Environmental Research and Public Health</i> , 2016, 13, 432.	1.2	167
84	Accumulation of disadvantage over the life course and mortality. <i>Journal of Epidemiology and Community Health</i> , 2016, 70, 423-423.	2.0	3
85	Cognitive function and pre-retirement psychosocial work characteristics. <i>Occupational and Environmental Medicine</i> , 2016, 73, 639-639.	1.3	0
86	Job Coaching and Success in Gaining and Sustaining Employment Among Homeless People. <i>Research on Social Work Practice</i> , 2016, 26, 668-674.	1.1	9
87	Linking Quality of Work in Midlife to Volunteering During Retirement: a European Study. <i>Journal of Population Ageing</i> , 2016, 9, 113-130.	0.8	13
88	A Theoretical Model in the Context of Economic Globalization. <i>Aligning Perspectives on Health, Safety and Well-being</i> , 2016, , 3-19.	0.2	23
89	Failed Social Reciprocity Beyond the Work Role. <i>Aligning Perspectives on Health, Safety and Well-being</i> , 2016, , 275-291.	0.2	9
90	The Measurement of Effort-Reward Imbalance (ERI) at Work. <i>Aligning Perspectives on Health, Safety and Well-being</i> , 2016, , 21-42.	0.2	18

#	ARTICLE	IF	CITATIONS
91	Work Stress and Cardiovascular Disease: Reviewing Research Evidence with a Focus on Effort-Reward Imbalance at Work. <i>Aligning Perspectives on Health, Safety and Well-being</i> , 2016, , 89-101.	0.2	4
92	Soziale Stressoren und stressbedingte Erkrankungen. , 2016, , 1-17.		12
