#	ARTICLE	IF	CITATIONS
1	Terms of engagement for working with patients in a person-centred partnership: A secondary analysis of qualitative data. <i>Health and Social Care in the Community</i> , 2022, 30, 330-340.	1.6	2
2	Exploring documentation in Person-centred care: A content analysis of care plans. <i>International Journal of Older People Nursing</i> , 2022, 17, e12461.	1.3	3
3	Epistemic injustices in clinical communication: the example of narrative elicitation in person-centred care. <i>Sociology of Health and Illness</i> , 2021, 43, 186-200.	2.1	7
4	A facilitated home-based cardiac rehabilitation intervention for people with heart failure and their caregivers: a research programme including the REACH-HF RCT. <i>Programme Grants for Applied Research</i> , 2021, 9, 1-100.	1.0	8
5	A multi-stakeholder approach to the co-production of the research agenda for medicines optimisation. <i>BMC Health Services Research</i> , 2021, 21, 64.	2.2	2
6	Can a Meta-ethnography Be Updated by Different Reviewers? Reflections From a Recent Update. <i>International Journal of Qualitative Methods</i> , The, 2021, 20, 160940692110464.	2.8	1
7	A worked example of initial theory-building: PARTNERS2 collaborative care for people who have experienced psychosis in England. <i>Evaluation</i> , 2020, 26, 6-26.	1.8	5
8	The potential and pitfalls of narrative elicitation in person-centred care. <i>Health Expectations</i> , 2020, 23, 238-246.	2.6	20
9	How is knowledge shared in Public involvement? A qualitative study of involvement in a health technology assessment. <i>Health Expectations</i> , 2020, 23, 348-357.	2.6	9
10	Response to: Goldberg <i>et al</i> – ‘Who are the researchers? Where are the librarians?’ <i>Research Synthesis Methods</i> , 2020, 11, 723-724.	8.7	0
11	Supporting Innovative Person-Centred Care in Financially Constrained Environments: The WE CARE Exploratory Health Laboratory Evaluation Strategy. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 3050.	2.6	15
12	Learning from Gothenburg model of person centred healthcare. <i>BMJ</i> , The, 2020, 370, m2738.	6.0	84
13	‘It has no meaning to me.’ How do researchers understand the effectiveness of literature searches? A qualitative analysis and preliminary typology of understandings. <i>Research Synthesis Methods</i> , 2020, 11, 627-640.	8.7	6
14	Learning from a Feasibility Trial of a Simple Intervention: Is Research a Barrier to Service Delivery, or is Service Delivery a Barrier to Research?. <i>Healthcare (Switzerland)</i> , 2020, 8, 53.	2.0	0
15	The value of social practice theory for implementation science: learning from a theory-based mixed methods process evaluation of a randomised controlled trial. <i>BMC Medical Research Methodology</i> , 2020, 20, 181.	3.1	9
16	Improving reporting of meta-ethnography: The eMERG reporting guidance. <i>Review of Education</i> , 2019, 7, 430-451.	2.1	14
17	Using interpersonal process recall to understand empowerment processes in a collaborative care intervention for people with a diagnosis of psychosis. <i>Psychosis</i> , 2019, 11, 350-361.	0.8	1
18	Improving reporting of meta-ethnography: The eMERG reporting guidance. <i>Journal of Advanced Nursing</i> , 2019, 75, 1126-1139.	3.3	58

#	ARTICLE	IF	CITATIONS
19	Improving reporting of meta-ethnography: the eMERGe reporting guidance. BMC Medical Research Methodology, 2019, 19, 25.	3.1	224
20	Caregiver outcomes of the REACH-HF multicentre randomized controlled trial of home-based rehabilitation for heart failure with reduced ejection fraction. European Journal of Cardiovascular Nursing, 2019, 18, 611-620.	0.9	35
21	Refining a model of collaborative care for people with a diagnosis of bipolar, schizophrenia or other psychoses in England: a qualitative formative evaluation. BMC Psychiatry, 2019, 19, 7.	2.6	17
22	Does a simple web-based intervention facilitate the articulation of patients' unvoiced agenda for a consultation with their diabetologists? A qualitative study. BMJ Open, 2019, 9, e026588.	1.9	8
23	Home-based rehabilitation for heart failure with reduced ejection fraction: mixed methods process evaluation of the REACH-HF multicentre randomised controlled trial. BMJ Open, 2019, 9, e026039.	1.9	24
24	Clarifying the roles of patients in research. British Journal of Sports Medicine, 2019, 53, 1324-1324.	6.7	3
25	Improving reporting of meta-ethnography: The eMERGe reporting guidance. Psycho-Oncology, 2019, 28, 447-458.	2.3	34
26	The effects and costs of home-based rehabilitation for heart failure with reduced ejection fraction: The REACH-HF multicentre randomized controlled trial. European Journal of Preventive Cardiology, 2019, 26, 262-272.	1.8	96
27	Proxy administration: A proxy for whom?. Social Science and Medicine, 2019, 233, 262-264.	3.8	1
28	'You're there because you are unprofessional': patient and public involvement as liminal knowledge spaces. Sociology of Health and Illness, 2018, 40, 463-477.	2.1	41
29	Identifying enablers and barriers to individually tailored prescribing: a survey of healthcare professionals in the UK. BMC Family Practice, 2018, 19, 17.	2.9	20
30	Clarifying the roles of patients in research. BMJ: British Medical Journal, 2018, 361, k1463.	2.3	50
31	Systematic review identifies six metrics and one method for assessing literature search effectiveness but no consensus on appropriate use. Journal of Clinical Epidemiology, 2018, 99, 53-63.	5.0	26
32	Tenacious assumptions of person-centred care? Exploring tensions and variations in practice. Health (United Kingdom), 2018, 22, 54-71.	1.5	46
33	47...Rehabilitation enablement in chronic heart failure (reach-HF) a multicentre randomised controlled trial of facilitated self-care rehabilitation intervention in heart failure with reduced ejection fraction. , 2018, , .		0
34	Patient involvement in qualitative data analysis in a trial of a patient-centred intervention: Reconciling lay knowledge and scientific method. Health Expectations, 2018, 21, 1111-1121.	2.6	20
35	An Implementation Science Perspective on Deprescribing. The Public Policy and Aging Report, 2018, 28, 134-139.	1.1	6
36	Antibiotic prescribing for acute respiratory tract infections in primary care: an updated and expanded meta-ethnography. British Journal of General Practice, 2018, 68, e633-e645.	1.4	36

#	ARTICLE	IF	CITATIONS
37	Defining the process to literature searching in systematic reviews: a literature review of guidance and supporting studies. <i>BMC Medical Research Methodology</i> , 2018, 18, 85.	3.1	222
38	Quality after the QOF? Before dismantling it, we need a redefined measure of "quality". <i>British Journal of General Practice</i> , 2018, 68, 314-315.	1.4	2
39	A randomised controlled trial of a facilitated home-based rehabilitation intervention in patients with heart failure with preserved ejection fraction and their caregivers: the REACH-HFpEF Pilot Study. <i>BMJ Open</i> , 2018, 8, e019649.	1.9	66
40	A qualitative investigation of lay perspectives of diagnosis and self-management strategies employed by people with progressive multiple sclerosis. <i>Health (United Kingdom)</i> , 2017, 21, 316-336.	1.5	15
41	Evaluating patient and public involvement in health research: from theoretical model to practical workshop. <i>Health Expectations</i> , 2017, 20, 826-835.	2.6	58
42	Behind the smile: qualitative study of caregivers' anguish and management responses while caring for someone living with heart failure. <i>BMJ Open</i> , 2017, 7, e014126.	1.9	31
43	Asking More of Qualitative Synthesis: A Response to Sally Thorne. <i>Qualitative Health Research</i> , 2017, 27, 1370-1376.	2.1	21
44	A preconsultation web-based tool to generate an agenda for discussion in diabetes outpatient clinics to improve patient outcomes (DIAT): a feasibility study. <i>BMJ Open</i> , 2017, 7, e013519.	1.9	9
45	N of 1 trials and the optimal individualisation of drug treatments: a systematic review protocol. <i>Systematic Reviews</i> , 2017, 6, 90.	5.3	15
46	Barriers and facilitators to the implementation of person-centred care in different healthcare contexts. <i>Scandinavian Journal of Caring Sciences</i> , 2017, 31, 662-673.	2.1	276
47	Elaboration of the Gothenburg model of person-centred care. <i>Health Expectations</i> , 2017, 20, 407-418.	2.6	86
48	Person-centred medicines optimisation policy in England: an agenda for research on polypharmacy. <i>Primary Health Care Research and Development</i> , 2017, 18, 24-34.	1.2	17
49	Adapting QOF to focus on wellbeing and health. <i>BMJ: British Medical Journal</i> , 2017, 359, j5541.	2.3	2
50	Deliberate and emergent strategies for implementing person-centred care: a qualitative interview study with researchers, professionals and patients. <i>BMC Health Services Research</i> , 2017, 17, 527.	2.2	40
51	Collaborative action for person-centred coordinated care (P3C): an approach to support the development of a comprehensive system-wide solution to fragmented care. <i>Health Research Policy and Systems</i> , 2017, 15, 98.	2.8	33
52	A comparison of results of empirical studies of supplementary search techniques and recommendations in review methodology handbooks: a methodological review. <i>Systematic Reviews</i> , 2017, 6, 234.	5.3	75
53	Does funded research reflect the priorities of people living with type 1 diabetes? A secondary analysis of research questions. <i>BMJ Open</i> , 2017, 7, e016540.	1.9	16
54	The realities of partnership in person-centred care: a qualitative interview study with patients and professionals. <i>BMJ Open</i> , 2017, 7, e016491.	1.9	77

#	ARTICLE	IF	CITATIONS
55	What if we made stratified medicine work for patients?. Lancet Respiratory Medicine, the, 2016, 4, 8-10.	10.7	12
56	Patient perspectives. , 2016, , 347-354.		0
57	The many futures of drug utilization research. , 2016, , 487-491.		0
58	What is the nature and value of a risk management tool in a large-scale complex programme of collaborative applied health research?. Health, Risk and Society, 2016, 18, 97-113.	1.7	2
59	Lay knowledge, social movements and the use of medicines: Personal reflections. Health (United) Tj ETQq1 1 0.784314 rgBT /Overlock 11	1.5	22
60	Collaborative research and the co-production of knowledge for practice: an illustrative case study. Implementation Science, 2015, 11, 20.	6.9	125
61	Multiple repair sequences in everyday conversations involving people with Parkinson's disease. International Journal of Language and Communication Disorders, 2015, 50, 814-829.	1.5	21
62	Context and complexity: the meaning of self-management for older adults with heart disease. Sociology of Health and Illness, 2015, 37, 1254-1269.	2.1	29
63	Inside the "Black Box" of a Knowledge Translation Program in Applied Health Research. Qualitative Health Research, 2015, 25, 1477-1491.	2.1	25
64	Needs of caregivers in heart failure management: A qualitative study. Chronic Illness, 2015, 11, 304-319.	1.5	62
65	Values associated with public involvement in health and social care research: a narrative review. Health Expectations, 2015, 18, 661-675.	2.6	132
66	Patient involvement in drug licensing: A case study. Social Science and Medicine, 2015, 131, 289-296.	3.8	5
67	Implementing telephone triage in general practice: a process evaluation of a cluster randomised controlled trial. BMC Family Practice, 2015, 16, 47.	2.9	20
68	The clinical effectiveness and cost-effectiveness of telephone triage for managing same-day consultation requests in general practice: a cluster randomised controlled trial comparing general practitioner-led and nurse-led management systems with usual care (the ESTEEM trial). Health Technology Assessment, 2015, 19, 1-212.	2.8	50
69	Involving patients and the public in healthcare operational research. BMJ, The, 2014, 349, g4903-g4903.	6.0	3
70	Telephone triage for management of same-day consultation requests in general practice (the ESTEEM) Tj ETQq0 0 0 rgBT /Overlock 10 T 1859-1868.	13.7	156
71	Heart failure patients' attitudes, beliefs, expectations and experiences of self-management strategies: A qualitative synthesis. Chronic Illness, 2014, 10, 135-154.	1.5	46
72	The effectiveness and cost-effectiveness of telephone triage of patients requesting same day consultations in general practice: study protocol for a cluster randomised controlled trial comparing nurse-led and GP-led management systems (ESTEEM). Trials, 2013, 14, 4.	1.6	17

#	ARTICLE	IF	CITATIONS
73	Theoretical directions for an emancipatory concept of patient and public involvement. Health (United Kingdom) 2011, 15, 159-169.	1.5	159
74	The challenges of evaluating large-scale, multi-partner programmes: the case of NIHR CLAHRCs. Evidence and Policy, 2011, 7, 489-509.	1.0	26
75	Qualitative research on health communication: What can it contribute?. Patient Education and Counseling, 2011, 82, 384-388.	2.2	53
76	Commentary on Series: The research agenda for general practice/family medicine and primary health care in Europe. Part 3. Results: Person-centred care, comprehensive and holistic approach.. European Journal of General Practice, 2010, 16, 67-69.	2.0	2
77	Medication errors: the role of the patient. British Journal of Clinical Pharmacology, 2009, 67, 646-650.	2.4	54
78	Medicines and Society. , 2008, , .		30
79	Resisting medicines: a synthesis of qualitative studies of medicine taking. Social Science and Medicine, 2005, 61, 133-155.	3.8	737
80	The expression of aversion to medicines in general practice consultations. Social Science and Medicine, 2004, 59, 1495-1503.	3.8	59
81	Does a prescribed treatment match a patient's priorities?. BMJ: British Medical Journal, 2003, 327, 840-840.	2.3	17
82	Giving voice to the lifeworld. More humane, more effective medical care? A qualitative study of doctor-patient communication in general practice. Social Science and Medicine, 2001, 53, 487-505.	3.8	356
