#	Article	IF	CITATIONS
1	A cohort study of maternal and neonatal morbidity in relation to use of sequential instruments at operative vaginal delivery. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2011, 156, 41-45.	1.1	172
2	A randomised controlled trial of routine versus restrictive use of episiotomy at operative vaginal delivery: a multicentre pilot study. BJOG: an International Journal of Obstetrics and Gynaecology, 2008, 115, 1695-1703.	2.3	139
3	A prospective cohort study of maternal and neonatal morbidity in relation to use of episiotomy at operative vaginal delivery. BJOC: an International Journal of Obstetrics and Gynaecology, 2008, 115, 1688-1694.	2.3	102
4	Changes in Endothelial Function Precede the Clinical Disease in Women in Whom Preeclampsia Develops. Hypertension, 2005, 46, 1123-1128.	2.7	94
5	MMP-2 Levels are Elevated in the Plasma of Women Who Subsequently Develop Preeclampsia. Hypertension in Pregnancy, 2005, 24, 103-115.	1.1	92
6	The impact of a bodyweight and physical activity intervention (BeWEL) initiated through a national colorectal cancer screening programme: randomised controlled trial. BMJ, The, 2014, 348, g1823-g1823.	6.0	87
7	In Preeclampsia, the Circulating Factors Capable of Altering In Vitro Endothelial Function Precede Clinical Disease. Hypertension, 2005, 45, 258-263.	2.7	85
8	Cohort study of maternal and neonatal morbidity in relation to use of episiotomy at instrumental vaginal delivery. BJOG: an International Journal of Obstetrics and Gynaecology, 2005, 112, 941-945.	2.3	62
9	Use of oxytocin to prevent haemorrhage at caesarean section—A survey of practice in the United Kingdom. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2008, 137, 27-30.	1.1	58
10	Maternal and neonatal morbidity in relation to the instrument used for mid avity rotational operative vaginal delivery: a prospective cohort study. BJOG: an International Journal of Obstetrics and Gynaecology, 2013, 120, 1526-1533.	2.3	54
11	Morbidity experienced by women before and after operative vaginal delivery: prospective cohort study nested within a two entre randomised controlled trial of restrictive versus routine use of episiotomy. BJOG: an International Journal of Obstetrics and Gynaecology, 2013, 120, 1020-1027.	2.3	50
12	Supporting postpartum weight loss in women living in deprived communities: design implications for a randomised control trial. European Journal of Clinical Nutrition, 2011, 65, 952-958.	2.9	43
13	Operative vaginal delivery and the use of episiotomy—A survey of practice in the United Kingdom and Ireland. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2008, 136, 178-183.	1.1	34
14	Decision-making about mode of delivery after previous caesarean section: development and piloting of two computer-based decision aids. Health Expectations, 2007, 10, 161-172.	2.6	33
15	Provision of weight management advice for obese women during pregnancy: a survey of current practice and midwives' views on future approaches. Maternal and Child Nutrition, 2013, 9, 467-472.	3.0	29
16	Breast cancer risk reduction - is it feasible to initiate a randomised controlled trial of a lifestyle intervention programme (ActWell) within a national breast screening programme?. International Journal of Behavioral Nutrition and Physical Activity, 2014, 11, 156.	4.6	28
17	Feasibility study to assess the impact of a lifestyle intervention (†LivingWELL') in people having an assessment of their family history of colorectal or breast cancer. BMJ Open, 2018, 8, e019410.	1.9	27
18	Implementation of guidelines on oxytocin use at caesarean section: A survey of practice in Great Britain and Ireland. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2010, 148, 121-124	1.1	25

MAUREEN MACLEOD

#	Article	IF	CITATIONS
19	Value of adding secondâ€trimester uterine artery Doppler to patient characteristics in identification of nulliparous women at increased risk for preâ€eclampsia: an individual patient data metaâ€analysis. Ultrasound in Obstetrics and Gynecology, 2013, 42, 257-267.	1.7	25
20	Awareness of Lifestyle and Colorectal Cancer Risk: Findings from the BeWEL Study. BioMed Research International, 2015, 2015, 1-5.	1.9	19
21	Health Behaviors and their Relationship with Disease Control in People Attending Genetic Clinics with a Family History of Breast or Colorectal Cancer. Journal of Genetic Counseling, 2017, 26, 40-51.	1.6	19
22	Use of proteomic patterns as a novel screening tool in pre-eclampsia. Journal of Obstetrics and Gynaecology, 2004, 24, 873-874.	0.9	18
23	Relationship Between Maternal Arterial Wave Reflection, Microvascular Function and Fetal Growth in Normal Pregnancy. Microcirculation, 2010, 17, 608-614.	1.8	18
24	Why are some people more successful at lifestyle change than others? Factors associated with successful weight loss in the BeWEL randomised controlled trial of adults at risk of colorectal cancer. International Journal of Behavioral Nutrition and Physical Activity, 2015, 12, 87.	4.6	17
25	Recruiting and retaining postpartum women from areas of social disadvantage in a weightâ€loss trial – an assessment of strategies employed in the WeighWell feasibility study. Maternal and Child Nutrition, 2013, 9, 322-331.	3.0	12
26	Lessons learnt from a feasibility study on price incentivised healthy eating promotions in workplace catering establishments. Journal of Human Nutrition and Dietetics, 2016, 29, 86-94.	2.5	10
27	A feasibility study of a personalised lifestyle programme (HealthForce) for individuals who have participated in cardiovascular risk screening. Preventive Medicine, 2011, 52, 387-389.	3.4	9
28	Cancer prevention-the feasibility and acceptability of promoting breast cancer risk reduction in the screening setting through a lifestyle magazine. European Journal of Cancer Care, 2018, 27, e12823.	1.5	6
29	The impact of social deprivation on the response to a randomised controlled trial of a weight management intervention (Be <scp>WEL</scp> ) for people at increased risk of colorectal cancer. Journal of Human Nutrition and Dietetics, 2018, 31, 306-313.	2.5	6
30	Altered endothelial function in isolated human myometrial vessels induced by plasma from women with pre-eclampsia is not reproducible in isolated mouse vessels. Clinical Science, 2005, 108, 457-462.	4.3	5
31	Colorectal adenomas and diabetes: implications for disease prevention. Colorectal Disease, 2015, 17, 589-594.	1.4	2
32	Operative vaginal delivery and episiotomy. BJOG: an International Journal of Obstetrics and Gynaecology, 2008, 115, 1065-1065.	2.3	1
33	Cohort Study of Maternal and Neonatal Morbidity in Relation to Use of Episiotomy at Instrumental Vaginal Delivery. Obstetrical and Gynecological Survey, 2005, 60, 787-788.	0.4	0
34	HealthForce: a feasibility study of a lifestyle management programme for cardiovascular risk screening participants. Proceedings of the Nutrition Society, 2010, 69, .	1.0	0
35	Uptake of folic acid supplements before and during pregnancy: a study of women's views and experiences. Proceedings of the Nutrition Society, 2010, 69, .	1.0	0
36	Implementation of Guidelines on Oxytocin Use at Caesarean Section: A Survey of Practice in Great Britain and Ireland. Obstetrical and Gynecological Survey, 2010, 65, 296-297.	0.4	0

#	Article	IF	CITATIONS
37	390: The added value of second trimester uterine artery Doppler in the identification of nulliparous women at increased risk for preeclampsia: an individual patient data metaanalysis. American Journal of Obstetrics and Gynecology, 2012, 206, S182-S183.	1.3	0
