| #  | Article   | IF  | CITATIONS |
|----|---|-----|-----------|
| 1  | Rhipicephalus microplus: An overview of vaccine antigens against the cattle tick. Ticks and Tick-borne<br>Diseases, 2022, 13, 101828.   | 2.7 | 23        |
| 2  | Doubleâ€negative T cells: Setting the stage for disease control or progression. Immunology, 2022, 165, 371-385.   | 4.4 | 19        |
| 3  | Recent Advances in the Rheumatic Fever and Rheumatic Heart Disease Continuum. Pathogens, 2022, 11, 179.   | 2.8 | 12        |
| 4  | Central giant cell granulomas of the jaws stromal cells harbour mutations and have osteogenic<br>differentiation capacity, in vivo and in vitro. Journal of Oral Pathology and Medicine, 2022, 51, 206-216.                                     | 2.7 | 7         |
| 5  | T-Cell Subpopulations Exhibit Distinct Recruitment Potential, Immunoregulatory Profile and<br>Functional Characteristics in Chagas versus Idiopathic Dilated Cardiomyopathies. Frontiers in<br>Cardiovascular Medicine, 2022, 9, 787423.        | 2.4 | 7         |
| 6  | Prothymosin Alpha: A Novel Contributor to Estradiol Receptor Alpha–Mediated CD8 <sup>+</sup><br>T-Cell Pathogenic Responses and Recognition of Type 1 Collagen in Rheumatic Heart Valve Disease.<br>Circulation, 2022, 145, 531-548.            | 1.6 | 12        |
| 7  | Pathogen diversity, immunity, and the fate of infections: lessons learned from Trypanosoma cruzi<br>human–host interactions. Lancet Microbe, The, 2022, 3, e711-e722.   | 7.3 | 26        |
| 8  | Progression of Mitral Regurgitation in Rheumatic Valve Disease: Role of Left Atrial Remodeling.<br>Frontiers in Cardiovascular Medicine, 2022, 9, 862382.   | 2.4 | 3         |
| 9  | A Genome-wide Association Study Identifies <i>&gt;SERPINB10, CRLF3, STX7</i> , <i>LAMP3, IFNG-AS1</i> , and <i>&gt;KRT80</i> As Risk Loci Contributing to Cutaneous Leishmaniasis in Brazil. Clinical Infectious Diseases, 2021, 72, e515-e525. | 5.8 | 16        |
| 10 | CCL2 and IFN-Î <sup>3</sup> serum levels as biomarkers for subclinical infection in household contacts of leprosy patients. Microbial Pathogenesis, 2021, 150, 104725.  | 2.9 | 4         |
| 11 | Cytokine gene functional polymorphisms and phenotypic expression as predictors of evolution from latent to clinical rheumatic heart disease. Cytokine, 2021, 138, 155370.   | 3.2 | 13        |
| 12 | Caracterização Histológica das Lesões da Valva Mitral de Pacientes com Cardiopatia Reumática.<br>Arquivos Brasileiros De Cardiologia, 2021, 116, 404-412.   | 0.8 | 2         |
| 13 | Vaccine approaches applied to controlling dog ticks. Ticks and Tick-borne Diseases, 2021, 12, 101631.   | 2.7 | 9         |
| 14 | CXCL8 expression and methylation are correlated with anthropometric and metabolic parameters in childhood obesity. Cytokine, 2021, 143, 155538.   | 3.2 | 6         |
| 15 | Systemic cytokines, chemokines and growth factors reveal specific and shared immunological characteristics in infectious cardiomyopathies. Cytokine, 2021, 148, 155711.   | 3.2 | 8         |
| 16 | Distinct CD4â^'CD8â^' (Double-Negative) Memory T-Cell Subpopulations Are Associated With<br>Indeterminate and Cardiac Clinical Forms of Chagas Disease. Frontiers in Immunology, 2021, 12, 761795.  | 4.8 | 6         |
| 17 | Resinous adhesive systems differentially affect the expression of cytokines by human monocytes stimulated or not with Streptococcus mutans in vitro. Archives of Oral Biology, 2020, 111, 104641.   | 1.8 | 4         |
| 18 | To reply the letter by Zhong et al. entitled "Should the distribution of valve lesion be considered in<br>the autoimmune response of rheumatic heart disease?― International Journal of Cardiology, 2020, 302,<br>134.                          | 1.7 | 0         |

| #  | Article  | IF  | CITATIONS |
|----|--|-----|-----------|
| 19 | Mitral Regurgitation After Percutaneous Mitral Valvuloplasty. JACC: Cardiovascular Imaging, 2020, 13, 2513-2526.   | 5.3 | 9         |
| 20 | Human CD8+ T Cells Release Extracellular Traps Co-Localized With Cytotoxic Vesicles That Are<br>Associated With Lesion Progression and Severity in Human Leishmaniasis. Frontiers in Immunology,<br>2020, 11, 594581.                          | 4.8 | 16        |
| 21 | In vitro Infectivity of Strains Isolated From Dogs Naturally Infected With Leishmania infantum Present<br>a Distinct Pathogenic Profile in Hamsters. Frontiers in Medicine, 2020, 7, 496.  | 2.6 | 1         |
| 22 | Gene expression network analyses during infection with virulent and avirulent Trypanosoma<br>cruziÂstrains unveil a role for fibroblasts in neutrophil recruitment and activation. PLoS Pathogens,<br>2020, 16, e1008781.                      | 4.7 | 9         |
| 23 | Kinetics of Phenotypic and Functional Changes in Mouse Models of Sponge Implants: Rational<br>Selection to Optimize Protocols for Specific Biomolecules Screening Purposes. Frontiers in<br>Bioengineering and Biotechnology, 2020, 8, 538203. | 4.1 | 0         |
| 24 | Historical Perspective and Biotechnological Trends to Block Arboviruses Transmission by<br>Controlling Aedes aegypti Mosquitos Using Different Approaches. Frontiers in Medicine, 2020, 7, 275.  | 2.6 | 6         |
| 25 | DNA methylation profile of genes related to immune response in generalized periodontitis. Journal of<br>Periodontal Research, 2020, 55, 426-431.   | 2.7 | 14        |
| 26 | CD14 genotype and functional dichotomy of CD14+ and CD14- cells are associated with activated<br>immune response and development of Chagas dilated cardiomyopathy. Memorias Do Instituto Oswaldo<br>Cruz, 2020, 115, e200110.                  | 1.6 | 3         |
| 27 | Effect of porous tantalum on the biological response of human peripheral mononuclear cells<br>exposed to Porphyromonas gingivalis. Journal of Investigative and Clinical Dentistry, 2019, 10, e12472.  | 1.8 | 2         |
| 28 | Coâ€infection with distinct <i>Trypanosoma cruzi</i> strains induces an activated immune response in human monocytes. Parasite Immunology, 2019, 41, e12668.   | 1.5 | 4         |
| 29 | Composite-derived monomers affect cell viability and cytokine expression in human leukocytes<br>stimulated with Porphyromonas gingivalis. Journal of Applied Oral Science, 2019, 27, e20180529.  | 1.8 | 9         |
| 30 | Leishmania infantum induces expression of the negative regulatory checkpoint, CTLAâ€4, by human naÃ⁻ve<br>CD8 + T cells. Parasite Immunology, 2019, 41, e12659.  | 1.5 | 5         |
| 31 | Evidence of Different IL-1β Activation Pathways in Innate Immune Cells From Indeterminate and Cardiac<br>Patients With Chronic Chagas Disease. Frontiers in Immunology, 2019, 10, 800.   | 4.8 | 9         |
| 32 | Immunological biomarkers of subclinical infection in household contacts of leprosy patients.<br>Immunobiology, 2019, 224, 518-525.   | 1.9 | 7         |
| 33 | Circulating cytokines predict severity of rheumatic heart disease. International Journal of<br>Cardiology, 2019, 289, 107-109.   | 1.7 | 26        |
| 34 | PD1 and PDL1 molecules control suppressor activity of regulatory T cells in chronic Chagas cardiomyopathy patients. Human Immunology, 2019, 80, 517-522.   | 2.4 | 4         |
| 35 | IL2 AND IL4 GENE POLYMORPHISMS ARE ASSOCIATED WITH LATENT AND CLINICAL RHEUMATIC HEART<br>DISEASE: DATA FROM THE PROVAR STUDY. Journal of the American College of Cardiology, 2019, 73, 1964.  | 2.8 | 1         |
| 36 | An Overview of Immunotherapeutic Approaches Against Canine Visceral Leishmaniasis: What Has Been<br>Tested on Dogs and a New Perspective on Improving Treatment Efficacy. Frontiers in Cellular and<br>Infection Microbiology, 2019, 9, 427.   | 3.9 | 26        |

| #  | Article  | IF         | CITATIONS |
|----|--|------------|-----------|
| 37 | A Th2-Type Response Is Associated With Exuberant Lesions in Pregnant Women Infected WithLeishmania<br>braziliensis. Journal of Infectious Diseases, 2019, 219, 480-488.  | 4.0        | 5         |
| 38 | In Situ Cellular Response Underlying Successful Treatment of Mucosal Leishmaniasis with a<br>Combination of Pentavalent Antimonial and Pentoxifylline. American Journal of Tropical Medicine and<br>Hygiene, 2019, 101, 392-401.                           | 1.4        | 5         |
| 39 | The Role of Co-Stimulatory Molecules in Chagas Disease. Cells, 2018, 7, 200.   | 4.1        | 6         |
| 40 | Clinical-pathological and immunological biomarkers in dogs with atopic dermatitis. Veterinary<br>Immunology and Immunopathology, 2018, 205, 58-64.   | 1.2        | 11        |
| 41 | CD86 Expression by Monocytes Influences an Immunomodulatory Profile in Asymptomatic Patients with Chronic Chagas Disease. Frontiers in Immunology, 2018, 9, 454.   | 4.8        | 29        |
| 42 | Chagas Cardiomyopathy: An Update of Current Clinical Knowledge and Management: A Scientific Statement From the American Heart Association. Circulation, 2018, 138, e169-e209.  | 1.6        | 315       |
| 43 | Fcγâ€ <scp>Rl</scp> , Fcγâ€ <scp>Rll</scp> and <scp>IL</scp> â€10 as predictive biomarkers for postâ€therapeut<br>cicatrization time in monocytes from cutaneous leishmaniasis patients. Parasite Immunology, 2018, 40,<br>e12565.                         | tic<br>1.5 | 2         |
| 44 | Activation of Human CD11b+ B1 B-Cells by Trypanosoma cruzi-Derived Proteins Is Associated With Protective Immune Response in Human Chagas Disease. Frontiers in Immunology, 2018, 9, 3015.   | 4.8        | 20        |
| 45 | T cell immunoregulation in active ocular toxoplasmosis. Immunology Letters, 2017, 184, 84-91.  | 2.5        | 9         |
| 46 | Distinct Roles of Th17 and Th1 Cells in Inflammatory Responses Associated with the Presentation of Paucibacillary Leprosy and Leprosy Reactions. Scandinavian Journal of Immunology, 2017, 86, 40-49.  | 2.7        | 25        |
| 47 | Specific activation of CD4–CD8– double-negative T cells by <i>Trypanosoma cruzi</i> -derived glycolipids induces a proinflammatory profile associated with cardiomyopathy in Chagas patients.<br>Clinical and Experimental Immunology, 2017, 190, 122-132. | 2.6        | 17        |
| 48 | Expression of Inflammatory Cytokines and Chemokines in Replanted Permanent Teeth with External<br>Root Resorption. Journal of Endodontics, 2017, 43, 203-209.  | 3.1        | 10        |
| 49 | Effects of Bio-Oss <sup>®</sup> and Cerasorb <sup>®</sup> dental M on the expression of bone-remodeling mediators in human monocytes. , 2017, 105, 2066-2073.  |            | 4         |
| 50 | Differential Expression of Matrix Metalloproteinases 2, 9 and Cytokines by Neutrophils and<br>Monocytes in the Clinical Forms of Chagas Disease. PLoS Neglected Tropical Diseases, 2017, 11,<br>e0005284.  | 3.0        | 40        |
| 51 | Infection of Human Monocytes with Leishmania infantum Strains Induces a Downmodulated Response when Compared with Infection with Leishmania braziliensis. Frontiers in Immunology, 2017, 8, 1896.  | 4.8        | 22        |
| 52 | Distinct Trypanosoma cruzi isolates induce activation and apoptosis of human neutrophils. PLoS ONE, 2017, 12, e0188083.  | 2.5        | 4         |
| 53 | Blocking of CD1d DecreasesTrypanosoma cruzi–Induced Activation of CD4â^'CD8â^'T Cells and<br>Modulates the Inflammatory Response in Patients With Chagas Heart Disease. Journal of Infectious<br>Diseases, 2016, 214, 935-944.                             | 4.0        | 8         |
| 54 | Application of rapid in vitro co-culture system of macrophages and T-cell subsets to assess the immunogenicity of dogs vaccinated with live attenuated Leishmania donovani centrin deleted parasites (LdCenâ^'/lâ^'). Parasites and Vectors, 2016, 9, 250. | 2.5        | 10        |

| #  | Article   | IF  | CITATIONS |
|----|---|-----|-----------|
| 55 | Chronic Low-Grade Inflammation in Childhood Obesity Is Associated with Decreased IL-10 Expression by Monocyte Subsets. PLoS ONE, 2016, 11, e0168610.  | 2.5 | 40        |
| 56 | A study of the interleukinâ€1 gene cluster polymorphisms and inflammatory external root resorption in replanted permanent teeth. International Endodontic Journal, 2015, 48, 878-887.   | 5.0 | 11        |
| 57 | Differential Activation of Human Monocytes and Lymphocytes by Distinct Strains of Trypanosoma<br>cruzi. PLoS Neglected Tropical Diseases, 2015, 9, e0003816.  | 3.0 | 47        |
| 58 | Distinct Macrophage Fates after in vitro Infection with Different Species of Leishmania: Induction of<br>Apoptosis by Leishmania (Leishmania) amazonensis, but Not by Leishmania (Viannia) guyanensis. PLoS<br>ONE, 2015, 10, e0141196. | 2.5 | 15        |
| 59 | What the Erythrocytic Nuclear Alteration Frequencies Could Tell Us about Genotoxicity and Macrophage Iron Storage?. PLoS ONE, 2015, 10, e0143029.   | 2.5 | 32        |
| 60 | Acute Chagas Disease: New Global Challenges for an Old Neglected Disease. PLoS Neglected Tropical<br>Diseases, 2014, 8, e3010.  | 3.0 | 126       |
| 61 | Age and Timing of Pulp Extirpation as Major Factors Associated with Inflammatory Root Resorption in Replanted Permanent Teeth. Journal of Endodontics, 2014, 40, 366-371.   | 3.1 | 38        |
| 62 | Immunoregulatory networks in human <scp>C</scp> hagas disease. Parasite Immunology, 2014, 36, 377-387.  | 1.5 | 129       |
| 63 | Methylation Pattern of the CD14 and TLR2 Genes inÂHumanÂDental Pulp. Journal of Endodontics, 2014, 40,<br>384-386.  | 3.1 | 16        |
| 64 | Immunoregulation in human American leishmaniasis: balancing pathology and protection. Parasite<br>Immunology, 2014, 36, 367-376.  | 1.5 | 64        |
| 65 | Hypermethylation and low transcription of TLR2 gene in chronic periodontitis. Human Immunology, 2013, 74, 1231-1236.  | 2.4 | 48        |
| 66 | Low levels of vasoactive intestinal peptide are associated with Chagas disease cardiomyopathy. Human<br>Immunology, 2013, 74, 1375-1381.  | 2.4 | 10        |
| 67 | Evaluation of IL17A expression and of IL17A, IL17F and IL23R gene polymorphisms in Brazilian individuals with periodontitis. Human Immunology, 2013, 74, 207-214.   | 2.4 | 38        |
| 68 | Immunoregulatory profile of monocytes from cutaneous leishmaniasis patients and association with lesion size. Parasite Immunology, 2013, 35, 65-72.   | 1.5 | 35        |
| 69 | Transcription factor STAT1 gene polymorphism is associated with the development of severe forms of periodontal disease. Inflammation Research, 2013, 62, 551-554.   | 4.0 | 7         |
| 70 | High Interleukin 17 Expression Is Correlated With Better Cardiac Function in Human Chagas Disease.<br>Journal of Infectious Diseases, 2013, 207, 661-665.   | 4.0 | 79        |
| 71 | Interleukinâ€6 gene polymorphism (â^'174 G/C) is associated with toxoplasmic retinochoroiditis. Acta<br>Ophthalmologica, 2013, 91, e311-4.  | 1.1 | 29        |
| 72 | Association of <i><scp>CD</scp>28</i> and <i><scp>CTLA</scp>â€4</i> gene polymorphisms with aggressive periodontitis in Brazilians. Oral Diseases, 2013, 19, 568-576.   | 3.0 | 10        |
