#	ARTICLE	IF	CITATIONS
1	The Repertoire of Serous Ovarian Cancer Non-genetic Heterogeneity Revealed by Single-Cell Sequencing of Normal Fallopian Tube Epithelial Cells. <i>Cancer Cell</i> , 2020, 37, 226-242.e7.	16.8	117
2	Minimizing surgical blood loss at cesarean hysterectomy for placenta previa with evidence of placenta increta or placenta percreta: the state of play in 2020. <i>American Journal of Obstetrics and Gynecology</i> , 2020, 223, 322-329.	1.3	78
3	Neo-adjuvant chemotherapy does not increase the rate of complete resection and does not significantly reduce the morbidity of Visceral-Peritoneal Debulking (VPD) in patients with stage III-IV ovarian cancer. <i>Gynecologic Oncology</i> , 2015, 138, 252-258.	1.4	45
4	Diaphragmatic peritonectomy vs. full thickness resection with pleurectomy during Visceral-Peritoneal Debulking (VPD) in 100 consecutive patients with stage III-IV ovarian cancer: A surgical-histological analysis. <i>Gynecologic Oncology</i> , 2016, 140, 430-435.	1.4	36
5	Porta hepatis peritonectomy and hepato-celiac lymphadenectomy in patients with stage III-IV ovarian cancer: Diagnostic pathway, surgical technique and outcomes. <i>Gynecologic Oncology</i> , 2016, 143, 35-39.	1.4	27
6	Latest developments and techniques in gynaecological oncology surgery. <i>Current Opinion in Obstetrics and Gynecology</i> , 2015, 27, 291-296.	2.0	26
7	Morbidity and reversal rate of ileostomy after bowel resection during Visceral-Peritoneal Debulking (VPD) in patients with stage III-IV ovarian cancer. <i>Gynecologic Oncology</i> , 2018, 148, 74-78.	1.4	23
8	Bowel resection rate but not bowel related morbidity is decreased after interval debulking surgery compared to primary surgery in patients with stage III-IV ovarian cancer. <i>Journal of Gynecologic Oncology</i> , 2019, 30, e25.	2.2	19
9	The modified radical peripartum cesarean hysterectomy (Soleymani-Alazzam-Collins technique): a systematic, safe procedure for the management of severe placenta accreta spectrum. <i>American Journal of Obstetrics and Gynecology</i> , 2021, 225, 175.e1-175.e10.	1.3	19
10	Tozzi classification of diaphragmatic surgery in patients with stage III-IV ovarian cancer based on surgical findings and complexity. <i>Journal of Gynecologic Oncology</i> , 2020, 31, e14.	2.2	19
11	Successful use of uterine artery embolisation to treat placenta increta in the first trimester. <i>Archives of Gynecology and Obstetrics</i> , 2009, 279, 713-715.	1.7	18
12	En-bloc resection of the pelvis (EnBRP) in patients with stage III-IV ovarian cancer: A 10 steps standardised technique. Surgical and survival outcomes of primary vs. interval surgery. <i>Gynecologic Oncology</i> , 2017, 144, 564-570.	1.4	18
13	Epithelioid cotyledonoid dissecting leiomyoma: a case report and review of the literature. <i>Archives of Gynecology and Obstetrics</i> , 2011, 283, 771-774.	1.7	14
14	Interval Laparoscopic En-Bloc Resection of the Pelvis (L-EnBRP) in patients with stage III-IV ovarian cancer: Description of the technique and surgical outcomes. <i>Gynecologic Oncology</i> , 2016, 142, 477-483.	1.4	13
15	Malignant struma ovarii: surgical, histopathological and survival outcomes for thyroid-type carcinoma of struma ovarii with recommendations for standardising multi-modal management. A retrospective case series sharing the experience of a single institution over 10 years. <i>Archives of Gynecology and Obstetrics</i> , 2021, 303, 863-870.	1.7	12
16	Feasibility of laparoscopic diaphragmatic peritonectomy during Visceral-Peritoneal Debulking (VPD) in patients with stage III-IV ovarian cancer. <i>Journal of Gynecologic Oncology</i> , 2020, 31, e71.	2.2	12
17	The Feasibility of Cardiophrenic Lymphnode Assessment and Removal in Patients Requiring Diaphragmatic Resection During Interval Debulking Surgery for Ovarian Cancer. <i>Journal of Investigative Surgery</i> , 2021, 34, 756-762.	1.3	11
18	Morbidity of multiple bowel resection compared to single bowel resection after debulking surgery for ovarian cancer. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2019, 240, 215-219.	1.1	10

#	ARTICLE	IF	CITATIONS
19	Diagnostic flow-chart to identify bowel involvement in patients with stage IIIC-IV ovarian cancer: Can laparoscopy improve the accuracy of CT scan?. <i>Gynecologic Oncology</i> , 2019, 155, 207-212.	1.4	9
20	Interval Debulking Surgery for Advanced Ovarian Cancer in Elderly Patients (≥70 y): Does the Age Matter?. <i>Journal of Investigative Surgery</i> , 2021, 34, 1023-1030.	1.3	9
21	Differentiating pelvic actinomycosis from advanced ovarian cancer: a report of two cases, management reflections and literature review. <i>Gynecologic Oncology Research and Practice</i> , 2014, 1, 5.	3.6	6
22	Comparison of survival outcome of patients with primary peritoneal and fallopian tube carcinoma treated with neoadjuvant chemotherapy versus primary debulking surgery. <i>Journal of Obstetrics and Gynaecology</i> , 2017, 37, 89-92.	0.9	6
23	Pyometra presenting in conjunction with bowel cancer in a post-menopausal women: a case report. <i>Cases Journal</i> , 2008, 1, 24.	0.4	5
24	Migration of levonorgestrel IUS in a patient with complex medical problems: what should be done?. <i>Archives of Gynecology and Obstetrics</i> , 2009, 279, 385-386.	1.7	4
25	Primary diaphragmatic closure following diaphragmatic resection and cardiophrenic lymph node dissection during interval debulking surgery for advanced ovarian malignancy. <i>Gynecologic Oncology Reports</i> , 2021, 36, 100744.	0.6	4
26	Atypical presentation of intravascular leiomyomatosis mimicking advanced uterine sarcoma: modified laterally extended endopelvic resection with preservation of pelvic neural structures. <i>BMJ Case Reports</i> , 2021, 14, e244774.	0.5	4
27	Histomolecular features of high-grade endometrial cancers. <i>Minerva Medica</i> , 2021, 112, 20-30.	0.9	3
28	A postmenopausal women presenting with atypical symptoms and cervical cancer: a case report. <i>Cases Journal</i> , 2008, 1, 401.	0.4	2
29	Laparoscopic Upper Colpectomy for VAIN III after Previous Total Hysterectomy. <i>Journal of Minimally Invasive Gynecology</i> , 2021, 28, 1137.	0.6	2
30	Intravascular leiomyomatosis; mimicking low grade endometrial sarcoma. <i>Journal of Obstetrics and Gynaecology</i> , 2022, 42, 1564-1568.	0.9	2
31	Concomitant Laparoscopic and Thoracoscopic Resection of Recurrent High-Grade Ovarian Cancer. <i>Journal of Minimally Invasive Gynecology</i> , 2018, 25, 1148.	0.6	1
32	Interval debulking surgery for advanced ovarian cancer: when, how and why?. <i>Gynecology and Pelvic Medicine</i> , 0, 4, 16-16.	0.1	1
33	Laparoscopic resection of single site pelvic side wall recurrence 6 years after stage IIIc high grade serous primary peritoneal cancer. <i>Gynecologic Oncology Reports</i> , 2021, 36, 100709.	0.6	1
34	Adamantinoma: metastatic disease masquerading as a gynaecological malignancy. <i>BMJ Case Reports</i> , 2021, 14, e241615.	0.5	1
35	Transdiaphragmatic resection of enlarged cardiophrenic lymph node during interval debulking surgery for advanced ovarian cancer. <i>Gynecologic Oncology Reports</i> , 2021, 37, 100807.	0.6	1
36	Late presentation during the COVID-19 pandemic of severe proclitria: a high-grade poorly differentiated sarcoma of unknown origin. <i>BMJ Case Reports</i> , 2022, 15, e246710.	0.5	1

#	ARTICLE	IF	CITATIONS
37	Retroperitoneal leiomyomatosis: a benign outcome of power morcellation with potentially serious consequences. <i>Lancet, The</i> , 2022, 399, 554.	13.7	1
38	Acute abdomen secondary to rare yolk sac tumour. <i>Archives of Gynecology and Obstetrics</i> , 2009, 279, 725-727.	1.7	0
39	Endoscopy in Gynecologic Oncology. , 2015, , 295-304.		0
40	Adjuvant radiotherapy for inguinal lymph node metastases following surgery for vulval cancer. <i>The Cochrane Library</i> , 0, , .	2.8	0
41	Rectovaginal extragastrointestinal stromal tumour (EGIST): an additional entity to be considered in the differential diagnosis of tumours of the rectovaginal septum. <i>BMJ Case Reports</i> , 2021, 14, e237669.	0.5	0
42	Aggressive anaplastic ovarian carcinoma in a young nulliparous patient. <i>BMJ Case Reports</i> , 2021, 14, e241461.	0.5	0
43	Primary peritoneal mucinous cystadenocarcinoma mimicking possible recurrent ovarian mucinous cystadenoma: coincidental pathology or a spectrum of disease?. <i>BMJ Case Reports</i> , 2021, 14, e242478.	0.5	0
44	The Role of Ultra-Radical Surgery in the Management of Advanced Ovarian Cancer: State or Art. , 0, , .		0
45	Factors Impacting the Success of Outpatient Hysteroscopy in the Rapid Access Clinic. <i>Gynecology & Obstetrics (Sunnyvale, Calif)</i> , 2014, 04, .	0.1	0
46	600â€¦Retroperitoneal metastatic pelvic adamantinoma: a novel location mimicking ovarian malignancy and review of the current literature. , 2020, , .		0
47	Ten-Step Surgical Approach to Management of Pathology of the Ischiorectal Fossaâ€”A Review of the Literature and Application in a Rare Pelvic Schwannoma. <i>Journal of Investigative Surgery</i> , 2021, , 1-7.	1.3	0
