#	ARTICLE	IF	CITATIONS
1	Method for Observing pHysical Activity and Wellbeing (MOHAWk): validation of an observation tool to assess physical activity and other wellbeing behaviours in urban spaces. <i>Cities and Health</i> , 2022, 6, 818-832.	1.6	10
2	Enhancing the translation of health behaviour change research into practice: a selective conceptual review of the synergy between implementation science and health psychology. <i>Health Psychology Review</i> , 2022, 16, 22-49.	4.4	17
3	Effects of Using a Text Message Intervention on Psychological Constructs and the Association Between Changes to Psychological Constructs and Medication Adherence in People With Type 2 Diabetes: Results From a Randomized Controlled Feasibility Study. <i>JMIR Formative Research</i> , 2022, 6, e30058.	0.7	5
4	Supporting People With Type 2 Diabetes in the Effective Use of Their Medicine Through Mobile Health Technology Integrated With Clinical Care to Reduce Cardiovascular Risk: Protocol for an Effectiveness and Cost-effectiveness Randomized Controlled Trial. <i>JMIR Research Protocols</i> , 2022, 11, e32918.	0.5	1
5	How is the Behavior Change Technique Content of the NHS Diabetes Prevention Program Understood by Participants? A Qualitative Study of Fidelity, With a Focus on Receipt. <i>Annals of Behavioral Medicine</i> , 2022, 56, 749-759.	1.7	13
6	Can Real-world Data and Rapid Learning Drive Improvements in Lung Cancer Survival? The RAPID-RT Study. <i>Clinical Oncology</i> , 2022, 34, 407-410.	0.6	11
7	Women's health behaviour change after receiving breast cancer risk estimates with tailored screening and prevention recommendations. <i>BMC Cancer</i> , 2022, 22, 69.	1.1	13
8	Developing theory-based text messages to support retention in clinical trials: A mixed methods approach. <i>Research Methods in Medicine & Health Sciences</i> , 2022, 3, 22-31.	0.7	0
9	Circulating tumour DNA monitoring and early treatment for relapse: views from patients with early-stage melanoma. <i>British Journal of Cancer</i> , 2022, 126, 1450-1456.	2.9	0
10	The Clinical Effectiveness of a Physiotherapy Delivered Physical and Psychological Group Intervention for Older Adults With Neurogenic Claudication: The BOOST Randomized Controlled Trial. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2022, 77, 1654-1664.	1.7	9
11	Fidelity to Program Specification of the National Health Service Digital Diabetes Prevention Program Behavior Change Technique Content and Underpinning Theory: Document Analysis. <i>Journal of Medical Internet Research</i> , 2022, 24, e34253.	2.1	10
12	The feasibility of implementing risk stratification into a national breast cancer screening programme: a focus group study investigating the perspectives of healthcare personnel responsible for delivery. <i>BMC Women's Health</i> , 2022, 22, 142.	0.8	8
13	The Impact of Morbidity and Disability on Attendance at Organized Breast Cancer "Screening Programs: A Systematic Review and Meta-Analysis. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2022, 31, 1275-1283.	1.1	2
14	Study protocol comparing the ethical, psychological and socio-economic impact of personalised breast cancer screening to that of standard screening in the "My Personal Breast Screening" (MyPeBS) randomised clinical trial. <i>BMC Cancer</i> , 2022, 22, 507.	1.1	32
15	Does receiving high or low breast cancer risk estimates produce a reduction in subsequent breast cancer screening attendance? Cohort study. <i>Breast</i> , 2022, 64, 47-49.	0.9	5
16	Assessing and ensuring fidelity of the nationally implemented English NHS diabetes prevention programme: lessons learned for the implementation of large-scale behaviour change programmes. <i>Health Psychology and Behavioral Medicine</i> , 2022, 10, 498-513.	0.8	12
17	Older adults' construal of sedentary behaviour: Implications for reducing sedentary behaviour in older adult populations. <i>Journal of Health Psychology</i> , 2021, 26, 2186-2199.	1.3	10
18	How Does the Understanding, Experience, and Enactment of Self-Regulation Behaviour Change Techniques Vary with Age? A Thematic Analysis. <i>Applied Psychology: Health and Well-Being</i> , 2021, 13, 239-260.	1.6	7

#	ARTICLE	IF	CITATIONS
19	The development of a digital intervention to increase influenza vaccination amongst pregnant women. <i>Digital Health</i> , 2021, 7, 205520762110121.	0.9	4
20	Impact of a low-cost urban green space intervention on wellbeing behaviours in older adults: A natural experimental study. <i>Wellbeing, Space and Society</i> , 2021, 2, 100029.	0.9	11
21	An evaluation of goal setting in the NHS England diabetes prevention programme. <i>Psychology and Health</i> , 2021, , 1-20.	1.2	11
22	Is the NHS Diabetes Prevention Programme Intervention Delivered as Planned? An Observational Study of Fidelity of Intervention Delivery. <i>Annals of Behavioral Medicine</i> , 2021, 55, 1104-1115.	1.7	22
23	How Do Decision Makers and Service Providers Experience Participatory Approaches to Developing and Implementing Physical Activity Interventions with Older Adults? A Thematic Analysis. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 2172.	1.2	1
24	The Fidelity of Training in Behaviour Change Techniques to Intervention Design in a National Diabetes Prevention Programme. <i>International Journal of Behavioral Medicine</i> , 2021, 28, 671-682.	0.8	16
25	Extending screening intervals for women at low risk of breast cancer: do they find it acceptable?. <i>BMC Cancer</i> , 2021, 21, 637.	1.1	15
26	The theoretical basis of a nationally implemented type 2 diabetes prevention programme: how is the programme expected to produce changes in behaviour?. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021, 18, 64.	2.0	18
27	Understanding acceptability in the context of text messages to encourage medication adherence in people with type 2 diabetes. <i>BMC Health Services Research</i> , 2021, 21, 608.	0.9	11
28	Breast Cancer Risk Assessment and Primary Prevention Advice in Primary Care: A Systematic Review of Provider Attitudes and Routine Behaviours. <i>Cancers</i> , 2021, 13, 4150.	1.7	21
29	Framework for the development and evaluation of complex interventions: gap analysis, workshop and consultation-informed update. <i>Health Technology Assessment</i> , 2021, 25, 1-132.	1.3	184
30	A new framework for developing and evaluating complex interventions: update of Medical Research Council guidance. <i>BMJ</i> , The, 2021, 374, n2061.	3.0	1,567
31	Reducing bias in trials from reactions to measurement: the MERIT study including developmental work and expert workshop. <i>Health Technology Assessment</i> , 2021, 25, 1-72.	1.3	10
32	Reducing bias in trials due to reactions to measurement: experts produced recommendations informed by evidence. <i>Journal of Clinical Epidemiology</i> , 2021, 139, 130-139.	2.4	13
33	A natural experimental study of improvements along an urban canal: impact on canal usage, physical activity and other wellbeing behaviours. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021, 18, 19.	2.0	9
34	Introducing a low-risk breast screening pathway into the NHS Breast Screening Programme: Views from healthcare professionals who are delivering risk-stratified screening. <i>Women's Health</i> , 2021, 17, 174550652110097.	0.7	13
35	The Acceptability of Physical Activity to Older Adults Living in Lower Socioeconomic Status Areas: A Multi-Perspective Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 11784.	1.2	6
36	Testing a breast cancer prevention and a multiple disease prevention weight loss programme amongst women within the UK NHS breast screening programme—a randomised feasibility study. <i>Pilot and Feasibility Studies</i> , 2021, 7, 220.	0.5	6

#	ARTICLE	IF	CITATIONS
37	Do marketing and alcohol treatment/public health experts think televised alcohol advertisements abide by regulatory guidelines?. Journal of Health Psychology, 2020, 25, 1657-1668.	1.3	2
38	Engagement barriers and service inequities in the NHS Breast Screening Programme: Views from British-Pakistani women. Journal of Medical Screening, 2020, 27, 130-137.	1.1	21
39	Does the design of the NHS Diabetes Prevention Programme intervention have fidelity to the programme specification? A document analysis. Diabetic Medicine, 2020, 37, 1357-1366.	1.2	26
40	Translating a walking intervention for health professional delivery within primary care: A mixed-methods treatment fidelity assessment. British Journal of Health Psychology, 2020, 25, 17-38.	1.9	18
41	How acceptable is a weight maintenance programme for healthy weight young women who are at increased risk of breast cancer?. Psychology and Health, 2020, 35, 854-871.	1.2	6
42	Optimising the value of the critical appraisal skills programme (CASP) tool for quality appraisal in qualitative evidence synthesis. Research Methods in Medicine & Health Sciences, 2020, 1, 31-42.	0.7	265
43	Risk stratified breast cancer screening: UK healthcare policy decision-making stakeholders' views on a low-risk breast screening pathway. BMC Cancer, 2020, 20, 680.	1.1	27
44	Self-Efficacy Interventions. , 2020, , 461-478.		17
45	The NHS Diabetes Prevention Programme: an observational study of service delivery and patient experience. BMC Health Services Research, 2020, 20, 1098.	0.9	30
46	Long-Term Evaluation of Women Referred to a Breast Cancer Family History Clinic (Manchester UK) Tj ETQq0 0 0 rgBT /Overlock 10 Tf 5	1.7	12
47	Personalized early detection and prevention of breast cancer: ENVISION consensus statement. Nature Reviews Clinical Oncology, 2020, 17, 687-705.	12.5	178
48	How can use of the Theoretical Domains Framework be optimized in qualitative research? A rapid systematic review. British Journal of Health Psychology, 2020, 25, 677-694.	1.9	108
49	What are the benefits and harms of risk stratified screening as part of the NHS breast screening Programme? Study protocol for a multi-site non-randomised comparison of BC-predict versus usual screening (NCT04359420). BMC Cancer, 2020, 20, 570.	1.1	37
50	Why young women gain weight: A narrative review of influencing factors and possible solutions. Obesity Reviews, 2020, 21, e13002.	3.1	29
51	Asking questions changes health-related behavior: an updated systematic review and meta-analysis. Journal of Clinical Epidemiology, 2020, 123, 59-68.	2.4	18
52	Mechanisms of physical activity behavior change in an incentive-based intervention: Mediation analysis.. Health Psychology, 2020, 39, 281-297.	1.3	5
53	The introduction of risk stratified screening into the NHS breast screening Programme: views from British-Pakistani women. BMC Cancer, 2020, 20, 452.	1.1	23
54	Use of Brief Messages Based on Behavior Change Techniques to Encourage Medication Adherence in People With Type 2 Diabetes: Developmental Studies. Journal of Medical Internet Research, 2020, 22, e15989.	2.1	17

#	ARTICLE	IF	CITATIONS
55	How do women experience a false-positive test result from breast screening? A systematic review and thematic synthesis of qualitative studies. <i>British Journal of Cancer</i> , 2019, 121, 351-358.	2.9	34
56	<p>What do people with type 2 diabetes want from a brief messaging system to support medication adherence?</p>. <i>Patient Preference and Adherence</i> , 2019, Volume 13, 1629-1640.	0.8	14
57	Implementing behaviour change theory and techniques to increase physical activity and prevent functional decline among adults aged 61â€”70: The PreventIT project. <i>Progress in Cardiovascular Diseases</i> , 2019, 62, 147-156.	1.6	42
58	How Acceptable is Reducing Sedentary Behavior to Older Adults? Perceptions and Experiences Across Diverse Socioeconomic Areas. <i>Journal of Aging and Physical Activity</i> , 2019, 27, 642-652.	0.5	12
59	â€œI Would Never Come Here Because Iâ€™ve Got My Own Gardenâ€” Older Adultsâ€™ Perceptions of Small Urban Green Spaces. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 1994.	1.2	27
60	Protocol for the PreventIT feasibility randomised controlled trial of a lifestyle-integrated exercise intervention in young older adults. <i>BMJ Open</i> , 2019, 9, e023526.	0.8	34
61	Development and delivery of the BOOST (Better Outcomes for Older adults with Spinal Trouble) intervention for older adults with neurogenic claudication. <i>Physiotherapy</i> , 2019, 105, 262-274.	0.2	8
62	Supporting people with type 2 diabetes in effective use of their medicine through mobile health technology integrated with clinical care (SuMMIT-D Feasibility): a randomised feasibility trial protocol. <i>BMJ Open</i> , 2019, 9, e033504.	0.8	10
63	Breast cancer risk status influences uptake, retention and efficacy of a weight loss programme amongst breast cancer screening attendees: two randomised controlled feasibility trials. <i>BMC Cancer</i> , 2019, 19, 1089.	1.1	21
64	Behavior Change Techniques Associated With Changes in Postintervention and Maintained Changes in Self-Efficacy For Physical Activity: A Systematic Review With Meta-analysis. <i>Annals of Behavioral Medicine</i> , 2019, 53, 801-815.	1.7	88
65	Factors influencing multiple sclerosis disease-modifying treatment prescribing decisions in the United Kingdom: A qualitative interview study. <i>Multiple Sclerosis and Related Disorders</i> , 2019, 27, 378-382.	0.9	14
66	Identifying Brief Message Content for Interventions Delivered via Mobile Devices to Improve Medication Adherence in People With Type 2 Diabetes Mellitus: A Rapid Systematic Review. <i>Journal of Medical Internet Research</i> , 2019, 21, e10421.	2.1	33
67	Predicting Outcomes from Engagement With Specific Components of an Internet-Based Physical Activity Intervention With Financial Incentives: Process Analysis of a Cluster Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2019, 21, e11394.	2.1	15
68	A loyalty scheme to encourage physical activity in office workers: a cluster RCT. <i>Public Health Research</i> , 2019, 7, 1-114.	0.5	6
69	Mediators of Behavior Change Maintenance in Physical Activity Interventions for Young and Middle-Aged Adults: A Systematic Review. <i>Annals of Behavioral Medicine</i> , 2018, 52, 513-529.	1.7	32
70	Self-Efficacy and Its Sources as Determinants of Physical Activity among Older People. , 2018, , 231-250.		8
71	The acceptability and feasibility of layâ€”health led interventions for the prevention and early detection of cancer. <i>Psycho-Oncology</i> , 2018, 27, 1291-1297.	1.0	4
72	Psychosocial issues of a population approach to high genetic risk identification: Behavioural, emotional and informed choice issues. <i>Breast</i> , 2018, 37, 148-153.	0.9	17

#	ARTICLE	IF	CITATIONS
73	How acceptable do older adults find the concept of being physically active? A systematic review and meta-synthesis. <i>International Review of Sport and Exercise Psychology</i> , 2018, 11, 1-24.	3.1	32
74	Are community-based health worker interventions an effective approach for early diagnosis of cancer? A systematic review and meta-analysis. <i>Psycho-Oncology</i> , 2018, 27, 1089-1099.	1.0	24
75	Conflating Time and Energy: Views From Older Adults in Lower Socioeconomic Status Areas on Physical Activity. <i>Journal of Aging and Physical Activity</i> , 2018, 26, 506-513.	0.5	8
76	Effectiveness and cost-effectiveness of a loyalty scheme for physical activity behaviour change maintenance: a cluster randomised controlled trial. <i>Lancet, The</i> , 2018, 392, S4.	6.3	0
77	Effectiveness and cost-effectiveness of a loyalty scheme for physical activity behaviour change maintenance: results from a cluster randomised controlled trial. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018, 15, 127.	2.0	15
78	Bias due to MEasurement Reactions In Trials to improve health (MERIT): protocol for research to develop MRC guidance. <i>Trials</i> , 2018, 19, 653.	0.7	18
79	Evaluating the impact of improvements in urban green space on older adults' physical activity and wellbeing: protocol for a natural experimental study. <i>BMC Public Health</i> , 2018, 18, 923.	1.2	16
80	Better Outcomes for Older people with Spinal Trouble (BOOST) Trial: a randomised controlled trial of a combined physical and psychological intervention for older adults with neurogenic claudication, a protocol. <i>BMJ Open</i> , 2018, 8, e022205.	0.8	16
81	Do interventions containing risk messages increase risk appraisal and the subsequent vaccination intentions and uptake? A systematic review and meta-analysis. <i>British Journal of Health Psychology</i> , 2018, 23, 1084-1106.	1.9	17
82	Making Physical Activity Interventions Acceptable to Older People. , 2018, , 291-311.		3
83	Psychological impact of providing women with personalised 10-year breast cancer risk estimates. <i>British Journal of Cancer</i> , 2018, 118, 1648-1657.	2.9	41
84	Promoting Early Detection and Screening for Disease. , 2018, , 533-563.		1
85	The impact of a panel of 18 SNPs on breast cancer risk in women attending a UK familial screening clinic: a case-control study. <i>Journal of Medical Genetics</i> , 2017, 54, 111-113.	1.5	56
86	Can Communicating Personalised Disease Risk Promote Healthy Behaviour Change? A Systematic Review of Systematic Reviews. <i>Annals of Behavioral Medicine</i> , 2017, 51, 718-729.	1.7	114
87	Do negative screening test results cause false reassurance? A systematic review. <i>British Journal of Health Psychology</i> , 2017, 22, 958-977.	1.9	22
88	Effectiveness of physical activity interventions in achieving behaviour change maintenance in young and middle aged adults: A systematic review and meta-analysis. <i>Social Science and Medicine</i> , 2017, 192, 125-133.	1.8	144
89	Midwives' experiences of referring obese women to either a community or home-based antenatal weight management service: Implications for service providers and midwifery practice. <i>Midwifery</i> , 2017, 49, 102-109.	1.0	15
90	The impact of communicating genetic risks of disease on risk-reducing health behaviour: systematic review with meta-analysis. <i>BMJ, The</i> , 2016, 352, i1102.	3.0	362

#	ARTICLE	IF	CITATIONS
91	Commentary: The Impact of Asking Intention or Self-Prediction Questions on Subsequent Behavior: A Meta-Analysis. <i>Frontiers in Psychology</i> , 2016, 7, 879.	1.1	7
92	What do people think about running barefoot/with minimalist footwear? A thematic analysis. <i>British Journal of Health Psychology</i> , 2016, 21, 451-468.	1.9	7
93	Is pregnancy a teachable moment for diet and physical activity behaviour change? An interpretative phenomenological analysis of the experiences of women during their first pregnancy. <i>British Journal of Health Psychology</i> , 2016, 21, 842-858.	1.9	60
94	Predicting perceived safety to drive the morning after drinking: The importance of hangover symptoms. <i>Drug and Alcohol Review</i> , 2016, 35, 442-446.	1.1	7
95	Effects of interventions promoting monitoring of medication use and brief messaging on medication adherence for people with Type 2 diabetes: a systematic review of randomized trials. <i>Diabetic Medicine</i> , 2016, 33, 565-579.	1.2	82
96	Perceptions and experiences of taking oral medications for the treatment of Type 2 diabetes mellitus: a systematic review and meta-synthesis of qualitative studies. <i>Diabetic Medicine</i> , 2016, 33, 1330-1338.	1.2	52
97	Breast cancer risk feedback to women in the UK NHS breast screening population. <i>British Journal of Cancer</i> , 2016, 114, 1045-1052.	2.9	73
98	The acceptability of physical activity interventions to older adults: A systematic review and meta-synthesis. <i>Social Science and Medicine</i> , 2016, 158, 14-23.	1.8	203
99	Effectiveness and cost-effectiveness of a physical activity loyalty scheme for behaviour change maintenance: a cluster randomised controlled trial. <i>BMC Public Health</i> , 2016, 16, 618.	1.2	13
