#	Article	IF	CITATIONS
1	An international urogynecological association (IUGA)/international continence society (ICS) joint report on the terminology for female pelvic floor dysfunction. Neurourology and Urodynamics, 2010, 29, 4-20.	1.5	2,027
2	An International Urogynecological Association (IUGA)/International Continence Society (ICS) joint report on the terminology for female pelvic floor dysfunction. International Urogynecology Journal, 2010, 21, 5-26.	1.4	1,718
3	Pelvic Organ Support Study (POSST): The distribution, clinical definition, and epidemiologic condition of pelvic organ support defects. American Journal of Obstetrics and Gynecology, 2005, 192, 795-806.	1.3	625
4	The distribution of pelvic organ support in a population of female subjects seen for routine gynecologic health care. American Journal of Obstetrics and Gynecology, 2000, 183, 277-285.	1.3	455
5	Correlation of symptoms with degree of pelvic organ support in a general population of women: what is pelvic organ prolapse?. American Journal of Obstetrics and Gynecology, 2003, 189, 372-377.	1.3	323
6	Interobserver and intraobserver reliability of the proposed International Continence Society, Society of Gynecologic Surgeons, and American Urogynecologic Society pelvic organ prolapse classification system. American Journal of Obstetrics and Gynecology, 1996, 175, 1467-1471.	1.3	307
7	An international urogynecological association (IUGA)/international continence society (ICS) joint terminology and classification of the complications related directly to the insertion of prostheses (meshes, implants, tapes) and grafts in female pelvic floor surgery. Neurourology and Urodynamics, 2011, 30, 2-12.	1.5	281
8	Validation of a simplified technique for using the POPQ pelvic organ prolapse classification system. International Urogynecology Journal, 2006, 17, 615-620.	1.4	107
9	Prevalence of severe pelvic organ prolapse in relation to job description and socioeconomic status: a multicenter cross-sectional study. International Urogynecology Journal, 2006, 17, 340-345.	1.4	81
10	How to use the Pelvic Organ Prolapse Quantification (POPâ€Q) system?. Neurourology and Urodynamics, 2018, 37, S39-S43.	1.5	69
11	Institution and validation of an observed structured assessment of technical skills (OSATS) for obstetrics and gynecology residents and faculty. American Journal of Obstetrics and Gynecology, 2006, 195, 617-621.	1.3	59
12	An international urogynecological association (IUGA)/international continence society (ICS) joint report on the terminology for reporting outcomes of surgical procedures for pelvic organ prolapse. Neurourology and Urodynamics, 2012, 31, 415-421.	1.5	55
13	Transcutaneous posterior tibial nerve stimulation versus extended release oxybutynin in overactive bladder patients. A prospective randomized trial. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2016, 196, 6-10.	1.1	45
14	Outcomes of observation as therapy for pelvic organ prolapse: A study in the natural history of pelvic organ prolapse. Neurourology and Urodynamics, 2013, 32, 383-386.	1.5	38
15	Disability-adjusted life years (DALYs) in general population with pelvic organ prolapse: a study based on the prolapse quality-of-life questionnaire (P-QOL). European Journal of Obstetrics, Cynecology and Reproductive Biology, 2014, 182, 22-26.	1.1	26
16	Current opinion on the classification and definition of genital tract prolapse. Current Opinion in Obstetrics and Gynecology, 2002, 14, 503-507.	2.0	24
17	International Urogynecological Association (IUGA)/International Continence Society (ICS) joint terminology and classification of the complications related to native tissue female pelvic floor surgery. Neurourology and Urodynamics, 2012, 31, 406-414.	1.5	22
18	Pelvic organ prolapse: is it time to define it?. International Urogynecology Journal, 2005, 16, 425-427.	1.4	20

#	Article	IF	CITATIONS
19	Body Image in the Pelvic Organ Prolapse Questionnaire: development and validation. American Journal of Obstetrics and Gynecology, 2014, 211, 174.e1-174.e9.	1.3	19
20	Diary and Patient-Reported Outcomes in Patients with Severe Overactive Bladder Switching from Tolterodine Extended Release 4 mg/day to Solifenacin Treatment. Clinical Drug Investigation, 2009, 29, 305-316.	2.2	17
21	Laser treatment in urogynaecology and the myth of the scientific evidence. International Urogynecology Journal, 2017, 28, 1443-1444.	1.4	12
22	Intrinsic sphincter deficiency: what is it and does it matter anymore?. International Urogynecology Journal, 2013, 24, 183-184.	1.4	11
23	Validation of the Spanish-language version of the Prolapse Quality of Life Questionnaire in Chilean women. International Urogynecology Journal, 2015, 26, 123-130.	1.4	11
24	Test–retest reliability of the cotton swab (Q-tip®) test in the evaluation of the incontinent female. International Urogynecology Journal, 2010, 21, 963-967.	1.4	9
25	Subjective versus objective determination of bladder emptying following urogynecological surgery: "do you feel that you completely emptied your bladder?â€r International Urogynecology Journal, 2020, 31, 1899-1905.	1.4	8
26	Validation of the French version of the P-QoL questionnaire. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2015, 192, 10-16.	1.1	7
27	Standing Vs Supine; Does it Matter in Cough Stress Testing?. Female Pelvic Medicine and Reconstructive Surgery, 2017, 23, 315-317.	1.1	7
28	Defining normal apical vaginal support: a relook at the POSST study. International Urogynecology Journal, 2019, 30, 47-51.	1.4	7
29	Mental health among clinicians: what do we know and what can we do?. International Urogynecology Journal, 2021, 32, 1055-1059.	1.4	7
30	To mesh or not to mesh? That is the question. International Urogynecology Journal, 2011, 22, 505-506.	1.4	6
31	"First do no harm―and the emerging story of the vaginal reconstructive mesh implant. International Urogynecology Journal, 2007, 18, 983-984.	1.4	5
32	Informed consent checklists for midurethral slings: a common-sense approach. International Urogynecology Journal, 2017, 28, 1639-1643.	1.4	5
33	A narrative review of the epidemiology, diagnosis, and treatment of latent stress urinary incontinence. Neurourology and Urodynamics, 2019, 38, S7-S11.	1.5	5
34	Factors affecting patient choice for continued observation versus intervention for pelvic organ prolapse. International Urogynecology Journal, 2021, 32, 273-278.	1.4	4
35	What if you could not do a mid-urethral sling?. International Urogynecology Journal, 2019, 30, 1387-1388.	1.4	3
36	To pull or not to pull, that is the question…how should we define prolapse?. International Urogynecology Journal, 2013, 24, 1995-1996.	1.4	2

#	Article	IF	CITATIONS
37	Construct and Predictive Validity of a Cystoscopic Checklist to Evaluate Surgical Competency in the Operating Room. Female Pelvic Medicine and Reconstructive Surgery, 2016, 22, 415-419.	1.1	1
38	Surgical management of pelvic organ prolapse and stress urinary incontinence: where are we now?. International Urogynecology Journal, 2018, 29, 1-2.	1.4	1
39	Can We Trust the Math? Correlation of Objective Postvoid Residual With Calculated Subtraction Postvoid Residual. Female Pelvic Medicine and Reconstructive Surgery, 2022, 28, 45-48.	1.1	1
40	Joint terminology documents: are there too many or is this the way forward?. International Urogynecology Journal, 2021, 32, 3103-3104.	1.4	1
41	Mid-urethral sling and the mystery of pain. International Urogynecology Journal, 2022, 33, 749-750.	1.4	1
42	The use of vaginal mesh has no advantage over conventional surgery in the treatment of prolapse. BJOG: an International Journal of Obstetrics and Gynaecology, 2016, 123, 143-143.	2.3	0
43	Conflict of interest: what is it, and how do journals manage it in the publication process?. International Urogynecology Journal, 2017, 28, 969-970.	1.4	0
44	IUGA terminology and standardization: creating and using this expanding resource. International Urogynecology Journal, 2017, 28, 1613-1616.	1.4	0
45	Introduction from the new Editors-in-Chief. International Urogynecology Journal, 2017, 28, 3-4.	1.4	0
46	Urodynamic Testing: Choosing Between Simple Versus Complex. Current Obstetrics and Gynecology Reports, 2017, 6, 269-273.	0.8	0
47	Genital Hiatus Size as a Predictor of Progression of Pelvic Organ Prolapse. Female Pelvic Medicine and Reconstructive Surgery, 2021, 27, e555-e558.	1.1	0
48	Treatment outcomes of overactive bladder with combined therapies of botulinum toxin injections and oral agents. International Urogynecology Journal, 2021, 32, 2803-2806.	1.4	0
49	The effect of preoperative phenazopyridine on short-term urinary retention following urogynecologic surgery. International Urogynecology Journal, 2022, 33, 711-715.	1.4	0
50	The International Urogynaecology Consultation: the new IUGA educational project. International Urogynecology Journal, 2021, 32, 2309-2310.	1.4	0
51	A Cost-Effectiveness Analysis of Post-Void Residual Bladder Scan Thresholds in the Postoperative Setting. International Urogynecology Journal, 2022, , 1.	1.4	Ο
