#	ARTICLE	IF	CITATIONS
1	Towards a cure for osteoporosis: the UK Royal Osteoporosis Society (ROS) Osteoporosis Research Roadmap. Archives of Osteoporosis, 2022, 17, 12.	2.4	5
2	A clinical tool to identify older women with back pain at high risk of osteoporotic vertebral fractures (Vfrac): a population-based cohort study with exploratory economic evaluation. Age and Ageing, 2022, 51, .	1.6	3
3	Comparing medication adherence in patients receiving bisphosphonates for preventing fragility fractures: a comprehensive systematic review and network meta-analysis. Osteoporosis International, 2022, , 1.	3.1	3
4	Assessing the Effectiveness of Bisphosphonates for the Prevention of Fragility Fractures: An Updated Systematic Review and Network Meta-Analysis. JBMR Plus, 2022, 6, e10620.	2.7	7
5	UK clinical guideline for the prevention and treatment of osteoporosis. Archives of Osteoporosis, 2022, 17, 58.	2.4	146
6	Acceptability of, and preferences for, remote consulting during COVID-19 among older patients with two common long-term musculoskeletal conditions: findings from three qualitative studies and recommendations for practice. BMC Musculoskeletal Disorders, 2022, 23, 312.	1.9	8
7	Clinical effectiveness of one ultrasound guided intra-articular corticosteroid and local anaesthetic injection in addition to advice and education for hip osteoarthritis (HIT trial): single blind, parallel group, three arm, randomised controlled trial. BMJ, The, 2022, 377, e068446.	6.0	21
8	P091-Who do we risk leaving behind? A survey of digital access and e-health literacy in people with inflammatory conditions. Rheumatology, 2022, 61, .	1.9	0
9	P137-Supporting patients to get the best from their osteoporosis treatment; what works for whom, why and in what circumstance: a rapid realist review. Rheumatology, 2022, 61, .	1.9	2
10	P008-Fracture liaison service management of patients aged 85 and older who sustain fragility fractures: audit and quality improvement. Rheumatology, 2022, 61, .	1.9	0
11	P059-Acceptability of remote consulting during COVID-19 among patients with two common long-term musculoskeletal conditions: findings from three qualitative studies and recommendations for practice. Rheumatology, 2022, 61, .	1.9	0
12	P064-Impact of COVID-19 on physical and mental health of people with inflammatory conditions: the ICEPAC survey. Rheumatology, 2022, 61, .	1.9	0
13	P077-Developing a better explanation of osteoarthritis: results from a conjoint analysis of patient preferences. Rheumatology, 2022, 61, .	1.9	0
14	P100-Research priorities to reduce the impact of musculoskeletal disorders. Rheumatology, 2022, 61, .	1.9	0
15	P060-Living with rheumatoid arthritis during the coronavirus pandemic: a longitudinal interview study. Rheumatology, 2022, 61, .	1.9	0
16	Strong, steady and straight: UK consensus statement on physical activity and exercise for osteoporosis. British Journal of Sports Medicine, 2022, 56, 837-846.	6.7	35
17	Perceptions of risk in people with inflammatory arthritis during the COVID-19 pandemic. Rheumatology Advances in Practice, 2022, 6, .	0.7	1
18	Supporting patients to get the best from their osteoporosis treatment: a rapid realist review of what works, for whom, and in what circumstance. Osteoporosis International, 2022, 33, 2245-2257.	3.1	3

#	ARTICLE	IF	CITATIONS
19	Rheumatic Conditions as Risk Factors for Self-Harm: A Retrospective Cohort Study. <i>Arthritis Care and Research</i> , 2021, 73, 130-137.	3.4	8
20	Clinical decision-making in remote rheumatology consultations: a service evaluation of new patient and inflammatory rheumatic disease follow-up appointments. <i>Rheumatology Advances in Practice</i> , 2021, 5, rkab036.	0.7	2
21	Experience of implementing and delivering group consultations in UK general practice: a qualitative study. <i>British Journal of General Practice</i> , 2021, 71, e413-e422.	1.4	10
22	Acceptability of nurse-led reviews for inflammatory rheumatological conditions: A qualitative study. <i>Journal of Multimorbidity and Comorbidity</i> , 2021, 11, 263355652110024.	2.2	6
23	Evaluation of quality and readability of online patient information on osteoporosis and osteoporosis drug treatment and recommendations for improvement. <i>Osteoporosis International</i> , 2021, 32, 1567-1584.	3.1	9
24	Developing a model Fracture Liaison Service consultation with patients, carers and clinicians: a Delphi survey to inform content of the iFraP complex consultation intervention. <i>Archives of Osteoporosis</i> , 2021, 16, 58.	2.4	7
25	P117-Exploring experiences of Fracture Liaison Services and perceptions of a new decision tool to support patient and clinician decisions: a focus group study. <i>Rheumatology</i> , 2021, 60, .	1.9	0
26	P118-Co-design of a model Fracture Liaison Service consultation: a Delphi survey with patients and clinicians. <i>Rheumatology</i> , 2021, 60, .	1.9	0
27	O03-Prevalence of fragility fractures and medication prescription for osteoporosis in patients with polymyalgia rheumatica: results from the PMR Cohort Study. <i>Rheumatology</i> , 2021, 60, .	1.9	1
28	Addressing Conflicts of Interest in Health and Medicine: Current Evidence and Implications for Patient Decision Aid Development. <i>Medical Decision Making</i> , 2021, 41, 768-779.	2.4	7
29	Improving uptake of Fracture Prevention drug treatments: a protocol for Development of a consultation intervention (iFraP-D). <i>BMJ Open</i> , 2021, 11, e048811.	1.9	6
30	Barriers and facilitators to the implementation of osteoarthritis management programmes in primary or community care settings: a systematic review and qualitative framework synthesis protocol. <i>HRB Open Research</i> , 2021, 4, 102.	0.6	3
31	Vertebral fracture as a risk factor for self-harm: a retrospective cohort study. <i>BMC Musculoskeletal Disorders</i> , 2021, 22, 757.	1.9	2
32	Fragility fractures and prescriptions of medications for osteoporosis in patients with polymyalgia rheumatica: results from the PMR Cohort Study. <i>Rheumatology Advances in Practice</i> , 2021, 5, rkab094.	0.7	3
33	Exercise Interventions for Preventing and Treating Low Bone Mass in the Forearm: A Systematic Review and Meta-analysis. <i>Archives of Physical Medicine and Rehabilitation</i> , 2020, 101, 487-511.	0.9	12
34	Return of the symptom?. <i>Rheumatology</i> , 2020, 59, 273-274.	1.9	1
35	O04-Clinical and cost-effectiveness of ultrasound-guided intra-articular corticosteroid and local anaesthetic injection for hip OA: a randomised controlled trial (HIT). <i>Rheumatology</i> , 2020, 59, .	1.9	1
36	P130-Qualitative findings from the Hip Injection Trial (HIT): experiences of living with hip osteoarthritis and receiving trial treatments. <i>Rheumatology</i> , 2020, 59, .	1.9	0

#	ARTICLE	IF	CITATIONS
37	P193â€fExperiences of delivering a nurse-led fracture risk assessment for patients with inflammatory rheumatological conditions in primary care. <i>Rheumatology</i> , 2020, 59, .	1.9	0
38	Understanding the uptake of a clinical innovation for osteoarthritis in primary care: a qualitative study of knowledge mobilisation using the i-PARIHS framework. <i>Implementation Science</i> , 2020, 15, 95.	6.9	10
39	Acceptability of bisphosphonates among patients, clinicians and managers: a systematic review and framework synthesis. <i>BMJ Open</i> , 2020, 10, e040634.	1.9	22
40	GP perceptions on improving a secondary careâ€“based Fracture Liaison Service (FLS). <i>Osteoporosis International</i> , 2020, 31, 2493-2494.	3.1	4
41	Clinical and cost-effectiveness of ultrasound-guided intra-articular corticosteroid and local anaesthetic injection for hip osteoarthritis: a randomised controlled trial (HIT). <i>Osteoarthritis and Cartilage</i> , 2020, 28, S479.	1.3	1
42	The hip injection trial (HIT) nested qualitative study: experiences of living with hip Osteoarthritis and receiving trial treatments.. <i>Osteoarthritis and Cartilage</i> , 2020, 28, S499.	1.3	1
43	Quality and effectiveness of osteoporosis treatment decision aids: a systematic review and environmental scan. <i>Osteoporosis International</i> , 2020, 31, 1837-1851.	3.1	13
44	Identifying and managing osteoporosis before and after COVID-19: rise of the remote consultation?. <i>Osteoporosis International</i> , 2020, 31, 1629-1632.	3.1	24
45	Public priorities for osteoporosis and fracture research: results from a focus group study. <i>Archives of Osteoporosis</i> , 2020, 15, 89.	2.4	17
46	Factors influencing the implementation of evidenceâ€“based guidelines for osteoarthritis in primary care: A systematic review and thematic synthesis. <i>Musculoskeletal Care</i> , 2020, 18, 101-110.	1.4	21
47	Bringing osteoporosis up to date: time to address the identity crisis. <i>Age and Ageing</i> , 2020, 49, 329-331.	1.6	6
48	Relative prevalence and distribution of knee, hand and foot symptomatic osteoarthritis subtypes in an English population. <i>Musculoskeletal Care</i> , 2020, 18, 219-224.	1.4	13
49	E059â€fDevelopment of a nurse-led integrated care review based in primary care to identify and improve the management of co-morbidities in patients with inflammatory rheumatological conditions: the INCLUDE study. <i>Rheumatology</i> , 2019, 58, .	1.9	0
50	An observational cohort study to produce and evaluate an improved tool to screen older women with back pain for osteoporotic vertebral fractures (Vfrac): study protocol. <i>Archives of Osteoporosis</i> , 2019, 14, 11.	2.4	4
51	169â€fPatient priorities in osteoporosis research: generating meaningful research questions. <i>Rheumatology</i> , 2019, 58, .	1.9	0
52	Research priorities for the management of broken bones of the upper limb in people over 50: a UK priority setting partnership with the James Lind Alliance. <i>BMJ Open</i> , 2019, 9, e030028.	1.9	17
53	Cost-effectiveness of a model consultation to support self-management in patients with osteoarthritis. <i>Rheumatology</i> , 2018, 57, 1056-1063.	1.9	9
54	Risk of fragility fracture among patients with late-onset psoriasis: a UK population-based study. <i>Osteoporosis International</i> , 2018, 29, 1659-1664.	3.1	15

#	ARTICLE	IF	CITATIONS
55	Implementing core NICE guidelines for osteoarthritis in primary care with a model consultation (MOSAICS): a cluster randomised controlled trial. <i>Osteoarthritis and Cartilage</i> , 2018, 26, 43-53.	1.3	46
56	A randomised controlled trial of the clinical and cost-effectiveness of ultrasound-guided intra-articular corticosteroid and local anaesthetic injections: the hip injection trial (HIT) protocol. <i>BMC Musculoskeletal Disorders</i> , 2018, 19, 218.	1.9	7
57	Risk of fragility fracture among patients with gout and the effect of urate-lowering therapy. <i>Cmaj</i> , 2018, 190, E581-E587.	2.0	15
58	Non-disclosure of symptoms in primary care: an observational study. <i>Family Practice</i> , 2018, 35, 706-711.	1.9	4
59	Risk of fracture among patients with polymyalgia rheumatica and giant cell arteritis: a population-based study. <i>BMC Medicine</i> , 2018, 16, 4.	5.5	46
60	Expressed information needs of patients with osteoporosis and/or fragility fractures: a systematic review. <i>Archives of Osteoporosis</i> , 2018, 13, 55.	2.4	40
61	EULAR recommendations for the health professional's approach to pain management in inflammatory arthritis and osteoarthritis. <i>Annals of the Rheumatic Diseases</i> , 2018, 77, annrheumdis-2017-212662.	0.9	173
62	Optimal primary care management of clinical osteoarthritis and joint pain in older people: a mixed-methods programme of systematic reviews, observational and qualitative studies, and randomised controlled trials. <i>Programme Grants for Applied Research</i> , 2018, 6, 1-260.	1.0	11
63	Incidence and medical management of bisphosphonate-associated atypical femoral fractures in a major trauma centre: a retrospective observational study. <i>BMC Musculoskeletal Disorders</i> , 2017, 18, 29.	1.9	10
64	Public priorities for osteoporosis and fracture research: results from a general population survey. <i>Archives of Osteoporosis</i> , 2017, 12, 45.	2.4	21
65	SAT0672...Risk of fragility fracture among patients with psoriasis: a population based matched cohort study from the united kingdom. , 2017, , .		0
66	FRI0690...Risk of fracture among patients with gout: a population-based cohort study. , 2017, , .		0
67	Incident acute pseudogout and prior bisphosphonate use. <i>Medicine (United States)</i> , 2017, 96, e6177.	1.0	14
68	Getting back to the dissecting room: An evaluation of an innovative course in musculoskeletal anatomy for UK-based rheumatology training. <i>Musculoskeletal Care</i> , 2017, 15, 405-412.	1.4	4
69	093. Utility of forearm bone mineral density measurements in primary hyperparathyroidism. <i>Rheumatology</i> , 2017, 56, .	1.9	0
70	254. Getting back to the dissecting room: An evaluation of a new British Society for Rheumatology course in musculoskeletal anatomy for rheumatology training. <i>Rheumatology</i> , 2017, 56, .	1.9	0
71	092. Risk of fragility fracture over 10 years in polymyalgia rheumatica and giant cell arteritis: A UK population study. <i>Rheumatology</i> , 2017, 56, .	1.9	0
72	Exploring the Added Value of Video-Stimulated Recall in Researching the Primary Care Doctor's Patient Consultation. <i>International Journal of Qualitative Methods</i> , The, 2017, 16, 160940691771962.	2.8	16
