#	Article	IF	CITATIONS
1	Effects of fluid and drinking on pneumonia mortality in older adults: A systematic review and meta-analysis. Clinical Nutrition ESPEN, 2022, 47, 96-105.	1.2	5
2	Perspectives: Nurses in care homes as advisors in research: benefits for all?. Journal of Research in Nursing, 2022, 27, 401-405.	0.9	1
3	Effects of total fat intake on body fatness in adults. The Cochrane Library, 2020, 2020, CD013636.	2.8	23
4	Effects of Dietary or Supplementary Micronutrients on Sex Hormones and IGF-1 in Middle and Older Age: A Systematic Review and Meta-Analysis. Nutrients, 2020, 12, 1457.	4.1	8
5	Producing â€~Top Tips' for Care Home Staff During the COVID-19 Pandemic in England: Rapid Reviews Inform Evidence-Based Practice but Reveal Major Gaps. Journal of Long-Term Care, 2020, .	1.1	11
6	Beverage Intake and Drinking Patternsâ€"Clues to Support Older People Living in Long-Term Care to Drink Well: DRIE and FISE Studies. Nutrients, 2019, 11, 447.	4.1	33
7	Signs and Symptoms of Low-Intake Dehydration Do Not Work in Older Care Home Residents—DRIE Diagnostic Accuracy Study. Journal of the American Medical Directors Association, 2019, 20, 963-970.	2.5	32
8	Dehydration and Malnutrition in Residential Care: Recommendations for Strategies for Improving Practice Derived from a Scoping Review of Existing Policies and Guidelines. Geriatrics (Switzerland), 2018, 3, 77.	1.7	18
9	Relationship between the Mediterranean dietary pattern and musculoskeletal health in children, adolescents, and adults: systematic review and evidence map. Nutrition Reviews, 2017, 75, 830-857.	5.8	23
10	Effectiveness of interventions to indirectly support food and drink intake in people with dementia: Eating and Drinking Well IN dementiA (EDWINA) systematic review. BMC Geriatrics, 2016, 16, 89.	2.7	71
11	Water-loss (intracellular) dehydration assessed using urinary tests: how well do they work? Diagnostic accuracy in older people. American Journal of Clinical Nutrition, 2016, 104, 121-131.	4.7	54
12	Which Frail Older People Are Dehydrated? The UK DRIE Study. Journals of Gerontology - Series A Biological Sciences and Medical Sciences, 2016, 71, 1341-1347.	3.6	77
13	Effectiveness of interventions to directly support food and drink intake in people with dementia: systematic review and meta-analysis. BMC Geriatrics, 2016, 16, 26.	2.7	125
14	Diagnostic accuracy of calculated serum osmolarity to predict dehydration in older people: adding value to pathology laboratory reports. BMJ Open, 2015, 5, e008846.	1.9	64
15	Increasing Fluid Intake and Reducing Dehydration Risk in Older People Living in Long-Term Care: A Systematic Review. Journal of the American Medical Directors Association, 2015, 16, 101-113.	2.5	79
16	Direct Health Costs of Inflammatory Polyarthritis 10 Years after Disease Onset: Results from the Norfolk Arthritis Register. Journal of Rheumatology, 2015, 42, 794-798.	2.0	5
17	Water-loss dehydration and aging. Mechanisms of Ageing and Development, 2014, 136-137, 50-58.	4.6	178
18	Using lifestyle factors to identify individuals at higher risk of inflammatory polyarthritis (results) Tj ETQq0 0 0 rg	BT /Overlo 0.9	ck 10 Tf 50 67 75

#	Article	IF	Citations
19	Effectiveness of interventions to improve, maintain or facilitate oral food and/or drink intake in people with dementia: systematic review. BMC Health Services Research, 2014, 14, .	2.2	7
20	N-terminal pro-brain-type natriuretic peptide (NT-pro-BNP) and mortality risk in early inflammatory polyarthritis: results from the Norfolk Arthritis Registry (NOAR). Annals of the Rheumatic Diseases, 2014, 73, 684-690.	0.9	31
21	Accuracy of prediction equations for serum osmolarity in frail older people with and without diabetes,,, American Journal of Clinical Nutrition, 2014, 100, 867-876.	4.7	60
22	Should dehydration in older people be a marker of lack of quality in long term care provision?. Quality in Ageing and Older Adults, 2014, 15, 232-236.	0.8	3
23	Association of morbid obesity with disability in early inflammatory polyarthritis: Results from the Norfolk Arthritis Register. Arthritis Care and Research, 2013, 65, 122-126.	3.4	19
24	A genetic marker at the OLIG3/TNFAIP3 locus associates with methotrexate continuation in early inflammatory polyarthritis: results from the Norfolk Arthritis Register. Pharmacogenomics Journal, 2012, 12, 128-133.	2.0	14
25	Multiple adverse pregnancy outcomes before symptom onset are associated with a worse disease outcome in women with recent-onset inflammatory polyarthritis. Annals of the Rheumatic Diseases, 2012, 71, 528-533.	0.9	11
26	The role of rheumatoid arthritis genetic susceptibility markers in the prediction of erosive disease in patients with early inflammatory polyarthritis: results from the Norfolk Arthritis Register. Rheumatology, 2011, 50, 78-84.	1.9	32
27	Seropositivity is associated with insulin resistance in patients with early inflammatory polyarthritis: results from the Norfolk Arthritis Register (NOAR): an observational study. Arthritis Research and Therapy, 2011, 13, R159.	3.5	26
28	Reduction of longâ€term disability in inflammatory polyarthritis by early and persistent suppression of joint inflammation: Results from the Norfolk Arthritis Register. Arthritis Care and Research, 2011, 63, 945-952.	3.4	30
29	Influence of age and sex on functional outcome over time in a cohort of patients with recentâ€onset inflammatory polyarthritis: Results from the Norfolk arthritis register. Arthritis Care and Research, 2011, 63, 1745-1752.	3.4	22
30	The relationship between oral contraceptive use and functional outcome in women with recentâ€onset inflammatory polyarthritis: Results from the Norfolk Arthritis Register. Arthritis and Rheumatism, 2011, 63, 2183-2191.	6.7	21
31	In patients with early inflammatory polyarthritis, ACPA positivity, younger age and inefficacy of the first non-biological DMARD are predictors for receiving biological therapy: results from the Norfolk Arthritis Register. Annals of the Rheumatic Diseases, 2011, 70, 1428-1432.	0.9	18
32	Parity, time since last live birth and long-term functional outcome: a study of women participating in the Norfolk Arthritis Register. Annals of the Rheumatic Diseases, 2011, 70, 642-645.	0.9	12
33	Benefit of early treatment in inflammatory polyarthritis patients with anti–cyclic citrullinated peptide antibodies versus those without antibodies. Arthritis Care and Research, 2010, 62, 664-675.	3.4	38
34	Association of a rheumatoid arthritis susceptibility variant at the CCL21 locus with premature mortality in inflammatory polyarthritis patients. Arthritis Care and Research, 2010, 62, 676-682.	3.4	13
35	Disease activity and severity in early inflammatory arthritis predict hand cortical bone loss. Rheumatology, 2010, 49, 1943-1948.	1.9	23
36	Early treatment with, and time receiving, first disease-modifying antirheumatic drug predicts long-term function in patients with inflammatory polyarthritis. Annals of the Rheumatic Diseases, 2010, 69, 689-695.	0.9	41

#	Article	IF	Citations
37	Excess risk of hospital admission for cardiovascular disease within the first 7 years from onset of inflammatory polyarthritis. Annals of the Rheumatic Diseases, 2010, 69, 1660-1664.	0.9	18
38	The relationship between post-onset pregnancy and functional outcome in women with recent onset inflammatory polyarthritis: results from the Norfolk Arthritis Register. Annals of the Rheumatic Diseases, 2010, 69, 1834-1837.	0.9	20
39	Association of functional outcome with both personal―and areaâ€level socioeconomic inequalities in patients with inflammatory polyarthritis. Arthritis and Rheumatism, 2009, 61, 1297-1304.	6.7	34
40	Can clinical factors at presentation be used to predict outcome of treatment with methotrexate in patients with early inflammatory polyarthritis?. Annals of the Rheumatic Diseases, 2009, 68, 57-62.	0.9	77
41	The influence of age at symptom onset and length of followup on mortality in patients with recentâ€onset inflammatory polyarthritis. Arthritis and Rheumatism, 2008, 58, 985-989.	6.7	56
42	Increasing age at symptom onset is associated with worse radiological damage at presentation in patients with early inflammatory polyarthritis. Annals of the Rheumatic Diseases, 2007, 66, 389-393.	0.9	36
43	Risk and predictors of infection leading to hospitalisation in a large primary-care-derived cohort of patients with inflammatory polyarthritis. Annals of the Rheumatic Diseases, 2007, 66, 308-312.	0.9	127
44	Influence of inflammatory polyarthritis on cancer incidence and survival: Results from a community-based prospective study. Arthritis and Rheumatism, 2007, 56, 790-798.	6.7	38
45	Association between serum vitamin D metabolite levels and disease activity in patients with early inflammatory polyarthritis. Arthritis and Rheumatism, 2007, 56, 2143-2149.	6.7	214
46	Incidence of lymphoma in a large primary care derived cohort of cases of inflammatory polyarthritis. Annals of the Rheumatic Diseases, 2006, 65, 617-622.	0.9	102
47	Early functional disability predicts both all-cause and cardiovascular mortality in people with inflammatory polyarthritis: results from the Norfolk Arthritis Register. Annals of the Rheumatic Diseases, 2006, 66, 486-492.	0.9	60
48	Comparing the long-term clinical outcome of treatment with methotrexate or sulfasalazine prescribed as the first disease-modifying antirheumatic drug in patients with inflammatory polyarthritis. Annals of the Rheumatic Diseases, 2006, 65, 1449-1455.	0.9	15
49	Prevalence and associated factors for falls in women with established inflammatory polyarthritis. Journal of Rheumatology, 2006, 33, 690-4.	2.0	29
50	Baseline levels of c-reactive protein and prediction of death from cardiovascular disease in patients with inflammatory polyarthritis: A ten-year followup study of a primary care-based inception cohort. Arthritis and Rheumatism, 2005, 52, 2293-2299.	6.7	256
51	Vitamin C and the risk of developing inflammatory polyarthritis: prospective nested case-control study. Annals of the Rheumatic Diseases, 2004, 63, 843-847.	0.9	106
