#	ARTICLE	IF	CITATIONS
1	Identification of children at very low risk of clinically-important brain injuries after head trauma: a prospective cohort study. <i>Lancet, The</i> , 2009, 374, 1160-1170.	13.7	1,327
2	Risk Factors for Cerebral Edema in Children with Diabetic Ketoacidosis. <i>New England Journal of Medicine</i> , 2001, 344, 264-269.	27.0	727
3	Racial Disparities in Pain Management of Children With Appendicitis in Emergency Departments. <i>JAMA Pediatrics</i> , 2015, 169, 996.	6.2	377
4	Risk of Serious Bacterial Infection in Young Febrile Infants With Respiratory Syncytial Virus Infections. <i>Pediatrics</i> , 2004, 113, 1728-1734.	2.1	301
5	A Multicenter, Randomized, Controlled Trial of Dexamethasone for Bronchiolitis. <i>New England Journal of Medicine</i> , 2007, 357, 331-339.	27.0	268
6	Clinical Prediction Rule for Identifying Children With Cerebrospinal Fluid Pleocytosis at Very Low Risk of Bacterial Meningitis. <i>JAMA - Journal of the American Medical Association</i> , 2007, 297, 52.	7.4	253
7	Mechanism of cerebral edema in children with diabetic ketoacidosis. <i>Journal of Pediatrics</i> , 2004, 145, 164-171.	1.8	240
8	A decision rule for identifying children at low risk for brain injuries after blunt head trauma. <i>Annals of Emergency Medicine</i> , 2003, 42, 492-506.	0.6	239
9	A Clinical Prediction Rule to Identify Febrile Infants 60 Days and Younger at Low Risk for Serious Bacterial Infections. <i>JAMA Pediatrics</i> , 2019, 173, 342.	6.2	233
10	Clinical and Demographic Factors Associated With Urinary Tract Infection in Young Febrile Infants. <i>Pediatrics</i> , 2005, 116, 644-648.	2.1	215
11	Clinical Practice Guideline: Evaluation and Management of Well-Appearing Febrile Infants 8 to 60 Days Old. <i>Pediatrics</i> , 2021, 148, .	2.1	183
12	Association of RNA Biosignatures With Bacterial Infections in Febrile Infants Aged 60 Days or Younger. <i>JAMA - Journal of the American Medical Association</i> , 2016, 316, 846.	7.4	180
13	Pediatric Head Trauma: Changes in Use of Computed Tomography in Emergency Departments in the United States Over Time. <i>Annals of Emergency Medicine</i> , 2007, 49, 320-324.	0.6	178
14	Identification of children with intra-abdominal injuries after blunt trauma. <i>Annals of Emergency Medicine</i> , 2002, 39, 500-509.	0.6	172
15	Effect of Antibiotic Pretreatment on Cerebrospinal Fluid Profiles of Children With Bacterial Meningitis. <i>Pediatrics</i> , 2008, 122, 726-730.	2.1	170
16	Development and Validation of a Multivariable Predictive Model to Distinguish Bacterial From Aseptic Meningitis in Children in the Post- <i>Haemophilus influenzae</i> Era. <i>Pediatrics</i> , 2002, 110, 712-719.	2.1	165
17	Frequency of sub-clinical cerebral edema in children with diabetic ketoacidosis. <i>Pediatric Diabetes</i> , 2006, 7, 75-80.	2.9	155
18	Clinical Trial of Fluid Infusion Rates for Pediatric Diabetic Ketoacidosis. <i>New England Journal of Medicine</i> , 2018, 378, 2275-2287.	27.0	151

#	ARTICLE	IF	CITATIONS
19	Predictors of Occult Pneumococcal Bacteremia in Young Febrile Children. <i>Annals of Emergency Medicine</i> , 1998, 31, 679-687.	0.6	150
20	Efficacy of levetiracetam, fosphenytoin, and valproate for established status epilepticus by age group (ESETT): a double-blind, responsive-adaptive, randomised controlled trial. <i>Lancet, The</i> , 2020, 395, 1217-1224.	13.7	143
21	A clinical decision rule for identifying children with thoracic injuries after blunt torso trauma. <i>Annals of Emergency Medicine</i> , 2002, 39, 492-499.	0.6	138
22	Impact of Critical Care Telemedicine Consultations on Children in Rural Emergency Departments*. <i>Critical Care Medicine</i> , 2013, 41, 2388-2395.	0.9	136
23	Factors associated with adverse outcomes in children with diabetic ketoacidosis-related cerebral edema. <i>Journal of Pediatrics</i> , 2002, 141, 793-797.	1.8	135
24	Factors Associated With Cervical Spine Injury in Children After Blunt Trauma. <i>Annals of Emergency Medicine</i> , 2011, 58, 145-155.	0.6	134
25	Risk Factors for Traumatic or Unsuccessful Lumbar Punctures in Children. <i>Annals of Emergency Medicine</i> , 2007, 49, 762-771.	0.6	130
26	Predictors of adverse events with intramuscular ketamine sedation in children. <i>Annals of Emergency Medicine</i> , 2000, 35, 35-42.	0.6	123
27	Febrile Infants With Urinary Tract Infections at Very Low Risk for Adverse Events and Bacteremia. <i>Pediatrics</i> , 2010, 126, 1074-1083.	2.1	118
28	Cervical Spine Injury Patterns in Children. <i>Pediatrics</i> , 2014, 133, e1179-e1188.	2.1	114
29	The Effect of Observation on Cranial Computed Tomography Utilization for Children After Blunt Head Trauma. <i>Pediatrics</i> , 2011, 127, 1067-1073.	2.1	99
30	Telemedicine Consultations and Medication Errors in Rural Emergency Departments. <i>Pediatrics</i> , 2013, 132, 1090-1097.	2.1	95
31	Evaluating Age in the Field Triage of Injured Persons. <i>Annals of Emergency Medicine</i> , 2012, 60, 335-345.	0.6	91
32	Clinical Prediction Rules for Children: A Systematic Review. <i>Pediatrics</i> , 2011, 128, e666-e677.	2.1	90
33	Emergency Department Practice Variation in Computed Tomography Use for Children with Minor Blunt Head Trauma. <i>Journal of Pediatrics</i> , 2014, 165, 1201-1206.e2.	1.8	90
34	OCCULT BACTEREMIA IN YOUNG FEBRILE CHILDREN. <i>Pediatric Clinics of North America</i> , 1999, 46, 1073-1109.	1.8	89
35	Performance of the Pediatric Glasgow Coma Scale in Children with Blunt Head Trauma. <i>Academic Emergency Medicine</i> , 2005, 12, 814-819.	1.8	87
36	Cranial Computed Tomography Use Among Children With Minor Blunt Head Trauma. <i>JAMA Pediatrics</i> , 2012, 166, 732.	3.0	87

#	ARTICLE	IF	CITATIONS
37	Emergency department ultrasonography in the evaluation of hypotensive and normotensive children with blunt abdominal trauma. <i>Journal of Pediatric Surgery</i> , 2001, 36, 968-973.	1.6	85
38	Children with Bacterial Meningitis Presenting to the Emergency Department during the Pneumococcal Conjugate Vaccine Era. <i>Academic Emergency Medicine</i> , 2008, 15, 522-528.	1.8	79
39	Intravenous Versus Oral Corticosteroids in the Management of Acute Asthma in Children. <i>Annals of Emergency Medicine</i> , 1997, 29, 212-217.	0.6	78
40	Performance of the Pediatric Glasgow Coma Scale Score in the Evaluation of Children With Blunt Head Trauma. <i>Academic Emergency Medicine</i> , 2016, 23, 878-884.	1.8	77
41	Bronchiolitis. <i>Pediatric Emergency Care</i> , 2012, 28, 99-103.	0.9	75
42	Influenza Virus Infection and the Risk of Serious Bacterial Infections in Young Febrile Infants. <i>Pediatrics</i> , 2009, 124, 30-39.	2.1	74
43	Practice Variation in Acute Bronchiolitis: A Pediatric Emergency Research Networks Study. <i>Pediatrics</i> , 2017, 140, .	2.1	74
44	Validation of a Prediction Rule for the Identification of Children With Intra-abdominal Injuries After Blunt Torso Trauma. <i>Annals of Emergency Medicine</i> , 2009, 54, 528-533.	0.6	73
45	Isolated Linear Skull Fractures in Children With Blunt Head Trauma. <i>Pediatrics</i> , 2015, 135, e851-e857.	2.1	72
46	Effect of Abdominal Ultrasound on Clinical Care, Outcomes, and Resource Use Among Children With Blunt Torso Trauma. <i>JAMA - Journal of the American Medical Association</i> , 2017, 317, 2290.	7.4	72
47	Clinical Prediction Rules for Identifying Adults at Very Low Risk for Intra-abdominal Injuries After Blunt Trauma. <i>Annals of Emergency Medicine</i> , 2009, 54, 575-584.	0.6	70
48	Accuracy of Complete Blood Cell Counts to Identify Febrile Infants 60 Days or Younger With Invasive Bacterial Infections. <i>JAMA Pediatrics</i> , 2017, 171, e172927.	6.2	69
49	Epidemiology of Bacteremia in Febrile Infants Aged 60 Days and Younger. <i>Annals of Emergency Medicine</i> , 2018, 71, 211-216.	0.6	69
50	Risk of Traumatic Brain Injuries in Children Younger than 24 Months With Isolated Scalp Hematomas. <i>Annals of Emergency Medicine</i> , 2014, 64, 153-162.	0.6	66
51	Use of Traumatic Brain Injury Prediction Rules With Clinical Decision Support. <i>Pediatrics</i> , 2017, 139, .	2.1	65
52	Meta-analysis of bacterial meningitis score validation studies. <i>Archives of Disease in Childhood</i> , 2012, 97, 799-805.	1.9	63
53	Association of Traumatic Brain Injuries With Vomiting in Children With Blunt Head Trauma. <i>Annals of Emergency Medicine</i> , 2014, 63, 657-665.	0.6	63
54	Management of children with solid organ injuries after blunt torso trauma. <i>Journal of Trauma and Acute Care Surgery</i> , 2015, 79, 206-214.	2.1	63

#	ARTICLE	IF	CITATIONS
55	The role of heparin in the prevention of extremity and digit necrosis in meningococcal purpura fulminans. <i>Pediatric Infectious Disease Journal</i> , 1994, 13, 867-872.	2.0	60
56	Use of the focused assessment with sonography for trauma (FAST) examination and its impact on abdominal computed tomography use in hemodynamically stable children with blunt torso trauma. <i>Journal of Trauma and Acute Care Surgery</i> , 2014, 77, 427-432.	2.1	59
57	Does an Isolated History of Loss of Consciousness or Amnesia Predict Brain Injuries in Children After Blunt Head Trauma?. <i>Pediatrics</i> , 2004, 113, e507-e513.	2.1	57
58	Evaluating the Use of Existing Data Sources, Probabilistic Linkage, and Multiple Imputation to Build Population-based Injury Databases Across Phases of Trauma Care. <i>Academic Emergency Medicine</i> , 2012, 19, 469-480.	1.8	57
59	Pediatric diabetic ketoacidosis, fluid therapy, and cerebral injury: the design of a factorial randomized controlled trial. <i>Pediatric Diabetes</i> , 2013, 14, 435-446.	2.9	57
60	Identification of Intra-abdominal Injuries in Children Hospitalized Following Blunt Torso Trauma. <i>Academic Emergency Medicine</i> , 1999, 6, 799-806.	1.8	54
61	Isolated Loss of Consciousness in Children With Minor Blunt Head Trauma. <i>JAMA Pediatrics</i> , 2014, 168, 837.	6.2	54
62	Interobserver Agreement in Assessment of Clinical Variables in Children with Blunt Head Trauma. <i>Academic Emergency Medicine</i> , 2008, 15, 812-818.	1.8	53
63	Economic Evaluation of Pediatric Telemedicine Consultations to Rural Emergency Departments. <i>Medical Decision Making</i> , 2015, 35, 773-783.	2.4	53
64	Spinal cord injury without radiologic abnormality in children imaged with magnetic resonance imaging. <i>Journal of Trauma and Acute Care Surgery</i> , 2013, 75, 843-847.	2.1	51
65	Procalcitonin as a Marker of Serious Bacterial Infections in Febrile Children Younger Than 3 Years Old. <i>Academic Emergency Medicine</i> , 2014, 21, 171-179.	1.8	50
66	International Epidemiological Differences in Acute Poisonings in Pediatric Emergency Departments. <i>Pediatric Emergency Care</i> , 2019, 35, 50-57.	0.9	50
67	Effect of the Head Computed Tomography Choice Decision Aid in Parents of Children With Minor Head Trauma. <i>JAMA Network Open</i> , 2018, 1, e182430.	5.9	48
68	Patient Choice in the Selection of Hospitals by 9-1-1 Emergency Medical Services Providers in Trauma Systems. <i>Academic Emergency Medicine</i> , 2013, 20, 911-919.	1.8	46
69	Cost-effectiveness of the PECARN Rules in Children With Minor Head Trauma. <i>Annals of Emergency Medicine</i> , 2015, 65, 72-80.e6.	0.6	46
70	Development and Validation of a Novel Pediatric Appendicitis Risk Calculator (pARC). <i>Pediatrics</i> , 2018, 141, .	2.1	46
71	Risk of Bacterial Coinfections in Febrile Infants 60 Days Old and Younger with Documented Viral Infections. <i>Journal of Pediatrics</i> , 2018, 203, 86-91.e2.	1.8	46
72	Association between the "Seat Belt Sign" and Intra-abdominal Injury in Children with Blunt Torso Trauma. <i>Academic Emergency Medicine</i> , 2005, 12, 808-813.	1.8	45

#	ARTICLE	IF	CITATIONS
73	Incidental Findings in Children With Blunt Head Trauma Evaluated With Cranial CT Scans. <i>Pediatrics</i> , 2013, 132, e356-e363.	2.1	45
74	Subclinical Cerebral Edema in Children With Diabetic Ketoacidosis Randomized to 2 Different Rehydration Protocols. <i>Pediatrics</i> , 2013, 131, e73-e80.	2.1	45
75	Multivariable predictive models for adverse outcome of invasive meningococcal disease in children. <i>Journal of Pediatrics</i> , 1996, 129, 702-710.	1.8	44
76	Pediatric Emergency Research Networks. <i>Pediatric Emergency Care</i> , 2010, 26, 541-543.	0.9	44
77	Cognitive Function Following Diabetic Ketoacidosis in Children With New-Onset or Previously Diagnosed Type 1 Diabetes. <i>Diabetes Care</i> , 2020, 43, 2768-2775.	8.6	44
78	Frequency and Risk Factors of Acute Kidney Injury During Diabetic Ketoacidosis in Children and Association With Neurocognitive Outcomes. <i>JAMA Network Open</i> , 2020, 3, e2025481.	5.9	44
79	Comparison of prediction models for adverse outcome in pediatric meningococcal disease using artificial neural network and logistic regression analyses. <i>Journal of Clinical Epidemiology</i> , 2002, 55, 687-695.	5.0	42
80	Revisiting the Emergency Medicine Services for Children Research Agenda: Priorities for Multicenter Research in Pediatric Emergency Care. <i>Academic Emergency Medicine</i> , 2008, 15, 377-383.	1.8	42
81	Association Between the Seat Belt Sign and Intraabdominal Injuries in Children With Blunt Torso Trauma in Motor Vehicle Collisions. <i>Academic Emergency Medicine</i> , 2014, 21, 1240-1248.	1.8	42
82	Detection of cerebral $\beta$ -hydroxy butyrate, acetoacetate, and lactate on proton MR spectroscopy in children with diabetic ketoacidosis. <i>American Journal of Neuroradiology</i> , 2005, 26, 1286-91.	2.4	41
83	CEREBROSPINAL LATEX AGGLUTINATION FAILS TO CONTRIBUTE TO THE MICROBIOLOGIC DIAGNOSIS OF PRETREATED CHILDREN WITH MENINGITIS. <i>Pediatric Infectious Disease Journal</i> , 2004, 23, 786-788.	2.0	40
84	Appropriateness of Disposition Following Telemedicine Consultations in Rural Emergency Departments. <i>Pediatric Critical Care Medicine</i> , 2015, 16, e59-e64.	0.5	40
85	Evaluation of Emergency Department Pediatric Readiness and Outcomes Among US Trauma Centers. <i>JAMA Pediatrics</i> , 2021, 175, 947.	6.2	40
86	Lack of Agreement in Pediatric Emergency Department Discharge Diagnoses from Clinical and Administrative Data Sources. <i>Academic Emergency Medicine</i> , 2007, 14, 646-652.	1.8	40
87	Isolated Intraperitoneal Fluid on Abdominal Computed Tomography in Children with Blunt Trauma. <i>Academic Emergency Medicine</i> , 2000, 7, 335-341.	1.8	37
88	Tranexamic Acid Use in United States Children's Hospitals. <i>Journal of Emergency Medicine</i> , 2016, 50, 868-874.e1.	0.7	37
89	Predicting Escalated Care in Infants With Bronchiolitis. <i>Pediatrics</i> , 2018, 142, .	2.1	37
90	Elevated serum amylase and lipase in pediatric diabetic ketoacidosis*. <i>Pediatric Critical Care Medicine</i> , 2008, 9, 418-422.	0.5	36

#	ARTICLE	IF	CITATIONS
91	Summary of NIH Medical-Surgical Emergency Research Roundtable Held on April 30 to May 1, 2009. <i>Annals of Emergency Medicine</i> , 2010, 56, 522-537.	0.6	36
92	Clinical Decision Rules for Diagnostic Imaging in the Emergency Department: A Research Agenda. <i>Academic Emergency Medicine</i> , 2015, 22, 1406-1416.	1.8	36
93	RNA Transcriptional Biosignature Analysis for Identifying Febrile Infants With Serious Bacterial Infections in the Emergency Department. <i>Pediatric Emergency Care</i> , 2015, 31, 1-5.	0.9	36
94	Comparison of Prediction Rules and Clinician Suspicion for Identifying Children With Clinically Important Brain Injuries After Blunt Head Trauma. <i>Academic Emergency Medicine</i> , 2016, 23, 566-575.	1.8	36
95	Sterile Cerebrospinal Fluid Pleocytosis in Young Infants with Urinary Tract Infections. <i>Journal of Pediatrics</i> , 2008, 153, 290-292.	1.8	35
96	Prolonged QT Interval Corrected for Heart Rate During Diabetic Ketoacidosis in Children. <i>JAMA Pediatrics</i> , 2008, 162, 544.	3.0	35
97	Ultrasound-assisted peripheral venous access in young children: a randomized controlled trial and pilot feasibility study. <i>Western Journal of Emergency Medicine</i> , 2008, 9, 219-24.	1.1	35
98	Outcomes of SARS-CoV-2â€“Positive Youths Tested in Emergency Departments. <i>JAMA Network Open</i> , 2022, 5, e2142322.	5.9	35
99	The fast is positive, now what? Derivation of a clinical decision rule to determine the need for therapeutic laparotomy in adults with blunt torso trauma and a positive trauma ultrasound. <i>Journal of Emergency Medicine</i> , 2005, 29, 15-21.	0.7	34
100	The Pediatric Emergency Care Applied Research Network: Progress and Update. <i>Clinical Pediatric Emergency Medicine</i> , 2006, 7, 128-135.	0.4	34
101	Predictors of severe H1N1 infection in children presenting within Pediatric Emergency Research Networks (PERN): retrospective case-control study. <i>BMJ, The</i> , 2013, 347, f4836-f4836.	6.0	34
102	Gunshot Injuries in Children Served by Emergency Services. <i>Pediatrics</i> , 2013, 132, 862-870.	2.1	34
103	Point-of-Care Ultrasound for the Diagnosis of Skull Fractures in Children Younger Than Two Years of Age. <i>Journal of Pediatrics</i> , 2018, 196, 230-236.e2.	1.8	34
104	Development and Testing of Shared Decision Making Interventions for Use in Emergency Care: A Research Agenda. <i>Academic Emergency Medicine</i> , 2016, 23, 1346-1353.	1.8	30
105	Pragmatic Pediatric Trial of Balanced Versus Normal Saline Fluid in Sepsis: The <scp>PR</scp>MPT BOLUS</scp> Randomized Controlled Trial Pilot Feasibility Study. <i>Academic Emergency Medicine</i> , 2019, 26, 1346-1356.	1.8	30
106	Emergency Physiciansâ€™ Knowledge and Attitudes of Clinical Decision Support in the Electronic Health Record: A Surveyâ€“based Study. <i>Academic Emergency Medicine</i> , 2013, 20, 352-360.	1.8	29
107	Pharmacological Sedation for Cranial Computed Tomography in Children After Minor Blunt Head Trauma. <i>Pediatric Emergency Care</i> , 2014, 30, 1-7.	0.9	28
108	Headache in Traumatic Brain Injuries From Blunt Head Trauma. <i>Pediatrics</i> , 2015, 135, 504-512.	2.1	28

#	ARTICLE	IF	CITATIONS
109	Accuracy of the Abdominal Examination for Identifying Children with Blunt Intra-Abdominal Injuries. <i>Journal of Pediatrics</i> , 2014, 165, 1230-1235.e5.	1.8	27
110	Predictors of Bacteremia in Febrile Children With Sickle Cell Disease. <i>Journal of Pediatric Hematology/Oncology</i> , 2002, 24, 279-283.	0.6	26
111	Risk of Serious Bacterial Infection in Infants Aged $\leq 60$ Days Presenting to Emergency Departments with a History of Fever Only. <i>Journal of Pediatrics</i> , 2019, 204, 191-195.	1.8	26
112	Low Risk of Bacterial Meningitis in Children with a Positive Enteroviral Polymerase Chain Reaction Test Result. <i>Clinical Infectious Diseases</i> , 2010, 51, 1221-1222.	5.8	25
113	Cerebral Hyperemia Measured with Near Infrared Spectroscopy during Treatment of Diabetic Ketoacidosis in Children. <i>Journal of Pediatrics</i> , 2013, 163, 1111-1116.	1.8	25
114	Interobserver Agreement in the Clinical Assessment of Children With Blunt Abdominal Trauma. <i>Academic Emergency Medicine</i> , 2013, 20, 426-432.	1.8	25
115	Practice Variation in the Evaluation and Disposition of Febrile Infants $\leq 60$ Days of Age. <i>Journal of Emergency Medicine</i> , 2019, 56, 583-591.	0.7	25
116	Clinical Presentations and Outcomes of Children With Basilar Skull Fractures After Blunt Head Trauma. <i>Annals of Emergency Medicine</i> , 2016, 68, 431-440.e1.	0.6	24
117	Current State of Antimicrobial Stewardship in Children's Hospital Emergency Departments. <i>Infection Control and Hospital Epidemiology</i> , 2017, 38, 469-475.	1.8	24
118	Perforation of the colon in an adolescent girl. <i>Pediatric Emergency Care</i> , 1995, 11, 230-232.	0.9	23
119	Coagulation testing in pediatric blunt trauma patients. <i>Pediatric Emergency Care</i> , 2001, 17, 324-328.	0.9	23
120	Comparison of Clinician Suspicion Versus a Clinical Prediction Rule in Identifying Children at Risk for Intraabdominal Injuries After Blunt Torso Trauma. <i>Academic Emergency Medicine</i> , 2015, 22, 1034-1041.	1.8	23
121	Development and Internal Validation of a Prediction Model to Risk Stratify Children With Suspected Community-Acquired Pneumonia. <i>Clinical Infectious Diseases</i> , 2021, 73, e2713-e2721.	5.8	23
122	Extremity Pain and Refusal to Walk in Children With Invasive Meningococcal Disease. <i>Pediatrics</i> , 2002, 110, e3-e3.	2.1	22
123	Use of a remote clinical decision support service for a multicenter trial to implement prediction rules for children with minor blunt head trauma. <i>International Journal of Medical Informatics</i> , 2016, 87, 101-110.	3.3	22
124	Diagnostic Testing and Antibiotic Use in Young Children With Community-Acquired Pneumonia in the United States, 2008-2015. <i>Journal of the Pediatric Infectious Diseases Society</i> , 2020, 9, 248-252.	1.3	22
125	Is Hospital Admission and Observation Required after a Normal Abdominal Computed Tomography Scan in Children with Blunt Abdominal Trauma?. <i>Academic Emergency Medicine</i> , 2008, 15, 895-899.	1.8	21
126	Recombinant endotoxin neutralizing protein improves survival from <i>Escherichia coli</i> sepsis in rats. <i>Critical Care Medicine</i> , 1995, 23, 92-98.	0.9	21

#	ARTICLE	IF	CITATIONS
127	Evaluation of febrile children with petechial rashes: is there consensus among pediatricians?. <i>Pediatric Infectious Disease Journal</i> , 1998, 17, 1135-1140.	2.0	21
128	Clinician Judgment Versus a Decision Rule for Identifying Children at Risk of Traumatic Brain Injury on Computed Tomography After Blunt Head Trauma. <i>Pediatric Emergency Care</i> , 2009, 25, 61-65.	0.9	20
129	Role of Guideline Adherence in Improving Field Triage. <i>Prehospital Emergency Care</i> , 2017, 21, 545-555.	1.8	20
130	Regional Brain Water Content and Distribution During Diabetic Ketoacidosis. <i>Journal of Pediatrics</i> , 2017, 180, 170-176.	1.8	20
131	A Multicenter Study of the Risk of Intra-Abdominal Injury in Children After Normal Abdominal Computed Tomography Scan Results in the Emergency Department. <i>Annals of Emergency Medicine</i> , 2013, 62, 319-326.	0.6	19
132	Prevalence of Brain Injuries and Recurrence of Seizures in Children With Posttraumatic Seizures. <i>Academic Emergency Medicine</i> , 2017, 24, 595-605.	1.8	19
133	Cervical Spine Injury Risk Factors in Children With Blunt Trauma. <i>Pediatrics</i> , 2019, 144, .	2.1	19
134	Development of the Capacity Necessary to Perform and Promote Knowledge Translation Research in Emergency Medicine. <i>Academic Emergency Medicine</i> , 2007, 14, 978-983.	1.8	18
135	A Cost-effectiveness Analysis Comparing a Clinical Decision Rule Versus Usual Care to Risk Stratify Children for Intraabdominal Injury After Blunt Torso Trauma. <i>Academic Emergency Medicine</i> , 2013, 20, 1131-1138.	1.8	18
